2023

Momentum Perubahan | *Momentum Of Change*

Tahun 2023 adalah tahun krusial dimana kecepatan dan energi dari transformasi ditekankan. Dalam tema ini, fokusnya adalah pada pengaturan ulang dan memaknai kembali pendekatan yang diambil untuk mencapai tujuan, dengan memanfaatkan momentum perubahan untuk mendorong maju organisasi. Perjalanan selama tahun 2023 menunjukkan pentingnya adaptabilitas dan inovasi, mencerminkan perlunya mengembangkan strategi sebagai respons terhadap perubahan situasi guna mencapai tujuan yang ditetapkan dengan efektif.

2023 is a crucial year in which the pace and energy of transformation are emphasized. In this theme, the focus lies on recalibrating and redefining the approach taken towards achieving goals, harnessing the momentum of change to propel the organization forward. The journey through 2023 shows the significance of adaptability and innovation, reflecting the need to evolve strategies in response to changing circumstances to effectively attain the set goals.

2024

Transformasi yang Memberdayakan | *Empowering Transformation*

Sepanjang tahun 2024, Bank Maspion memfokuskan upaya untuk semakin mendorong transformasi dengan memanfaatkan momentum perubahan yang telah dibangun. Perkembangan Bank tidak hanya mencakup inovasi dan ekspansi bisnis tetapi juga komitmen terhadap keberlanjutan melalui pembiayaan hijau, investasi berdampak sosial, dan operasi bisnis yang berkelanjutan. Selain itu, Bank juga memperkuat dan memberdayakan kolaborasi dengan seluruh pemangku kepentingan, menggarisbawahi bahwa pertumbuhan merupakan upaya kolektif yang berakar pada hubungan yang kuat dan tujuan bersama.

Throughout 2024, Bank Maspion is focusing its efforts on empowering transformation by capitalizing on the momentum of change that has been built. The Bank's development encompasses not only business innovation and expansion but also a commitment to sustainability through green financing, social impact investment and sustainable business operations. In addition, the Bank is also strengthening and empowering collaboration with all stakeholders, underscoring that growth is a collective effort rooted in strong relationships and shared goals.

2025

STRONGER Through Change

**Menjadi Lebih Kuat
Melalui Perubahan**

Resiliensi tidak dibentuk dalam kenyamanan, melainkan ditempa melalui tantangan dan dibuktikan melalui proses transformasi. Bagi Bank Maspion, tahun 2025 menjadi babak penting dalam perjalanan perubahan yang terus memperkuat fondasi Perseroan, mempertajam arah strategis, serta meneguhkan komitmen untuk menjadi institusi perbankan yang semakin tangguh dan siap menghadapi masa depan. Setiap fase transformasi menuntut adaptabilitas, disiplin, dan kejelasan tujuan dalam menghadapi dinamika lingkungan usaha yang terus berkembang.

Sepanjang tahun, Bank Maspion melanjutkan konsolidasi agenda transformasi melalui penguatan tata kelola, manajemen risiko, dan disiplin operasional, serta peningkatan kapabilitas layanan yang berorientasi pada nasabah. Seluruh upaya ini digerakkan oleh kekuatan sumber daya manusia dan budaya Perseroan yang menjadi fondasi utama dalam setiap langkah perubahan. Berbagai tantangan yang dihadapi tidak melemahkan Perseroan, justru semakin memperjelas prioritas, memperkuat kualitas eksekusi, dan meneguhkan komitmen untuk menciptakan nilai yang berkelanjutan.

Stronger Through Change tidak hanya mencerminkan posisi Bank Maspion saat ini, tetapi juga menggambarkan cara Perseroan melangkah ke depan. Dengan fondasi yang semakin kuat, arah yang semakin jelas, dan organisasi yang semakin solid, Bank Maspion berada pada posisi yang lebih siap untuk menavigasi ketidakpastian sekaligus menghadirkan dampak yang bermakna bagi nasabah, pemegang saham, dan masyarakat luas.

Resilience is not built in moments of ease, it is forged through challenges and proven through transformation. For Bank Maspion, 2025 marks an important chapter in a journey of change that continues to strengthen the Bank's foundations, sharpen its strategic focus, and reinforce its commitment to becoming a more resilient and future-ready institution. Each phase of transformation has required adaptability, discipline, and a clear sense of purpose in navigating an increasingly dynamic environment.

Throughout the year, Bank Maspion continued to consolidate its transformation agenda by strengthening governance, reinforcing risk management and operational discipline, and enhancing customer-centric capabilities. These efforts were driven by the collective commitment of the Bank's people and culture, which remain the core force behind every change. Challenges faced along the way have not weakened the organisation; instead, they have refined priorities, strengthened execution, and deepened the Bank's resolve to create sustainable value.

Stronger Through Change reflects not only where Bank Maspion stands today, but also how it moves forward. With stronger fundamentals, clearer direction, and a more unified organisation, Bank Maspion is better prepared to navigate future uncertainties and deliver meaningful impact for customers, shareholders, and the wider community.

Laporan Dewan Komisaris

Board of Commissioners Report

Chat Luangarpa
Komisaris Utama
President Commissioner

Para pemegang saham dan pemangku kepentingan yang kami hormati,

Sepanjang tahun 2025, Dewan Komisaris telah menjalankan tugas dan tanggung jawab untuk melakukan pengawasan atas kinerja Direksi. Di tahun ini, kami fokus pada upaya Direksi untuk semakin meningkatkan daya saing dan memperkuat strategi Bank guna meraih pertumbuhan kinerja di tengah dinamika perekonomian global yang masih diliputi ketidakpastian yang penuh dengan kompleksitas dan tantangan. Hasilnya, kami mampu membukukan berbagai peningkatan kinerja, baik dalam aspek operasional maupun keuangan.

Melalui Laporan Tahunan ini, Dewan Komisaris menyampaikan laporan pelaksanaan tugas dan tanggung jawab dalam mengawasi kinerja Bank yang dijalankan sesuai dengan Anggaran Dasar dan arahan Rapat Umum Pemegang Saham (RUPS) melalui berbagai kegiatan sepanjang tahun pelaporan. Dewan Komisaris juga menyampaikan penilaian atas kinerja Direksi yang mencakup kinerja operasional dan keuangan, pengawasan atas pelaksanaan Rencana Bisnis Bank (RBB) dan Rencana Aksi Keuangan Berkelanjutan (RAKB), implementasi strategi dan kebijakan, prospek usaha yang disusun Direksi, serta penerapan Tata Kelola Perusahaan, guna memastikan Perseroan tetap berada pada jalur yang tepat dan berkelanjutan.

Kondisi Ekonomi 2025

Sepanjang tahun 2025, perekonomian global berada dalam kondisi yang fluktuatif dan penuh ketidakpastian, ditandai dengan meningkatnya fragmentasi perdagangan, konflik geopolitik, serta volatilitas pasar keuangan akibat perubahan kebijakan moneter di negara maju. Di tengah

Respected Shareholders and Stakeholders,

Throughout 2025, the Board of Commissioners has carried out its duties and responsibilities to supervise the performance of the Board of Directors. This year, we focused on the Board of Directors' efforts to further enhance competitiveness and strengthen the Bank's strategy to achieve performance growth amid global economic dynamics that are still shrouded in uncertainty, complexity, and challenges. As a result, we were able to record various performance improvements, both in operational and financial aspects.

Through this Annual Report, the Board of Commissioners submits a report on the implementation of its duties and responsibilities in supervising the Bank's performance, which was carried out in accordance with the Articles of Association and the directives of the General Meeting of Shareholders (GMS) through various activities throughout the reporting year. The Board of Commissioners also presents its assessment of the Board of Directors' performance, which includes operational and financial performance, supervision of the implementation of the Bank's Business Plan (RBB) and Sustainable Financial Action Plan (RAKB), implementation of strategies and policies, business prospects prepared by the Board of Directors, and the application of Corporate Governance, to ensure that the Company remains on the right and sustainable track.

Economic Conditions in 2025

Throughout 2025, the global economy will remain volatile and uncertain, marked by increasing trade fragmentation, geopolitical conflicts, and financial market volatility due to monetary policy changes in developed countries. Amid these global pressures, the global economic recovery

tekanan global tersebut, pemulihan ekonomi dunia masih bersifat rapuh dan mudah terganggu oleh sentimen pasar dan kebijakan politik. Namun demikian, ekonomi Indonesia tetap menunjukkan ketahanan yang relatif baik dengan pertumbuhan yang konsisten dan perbaikan di setiap triwulan, mencerminkan momentum pemulihan yang semakin menguat.

Kinerja pertumbuhan ekonomi Indonesia sepanjang tahun 2025 terjaga di kisaran 5% dengan capaian pada kuartal III-2025 sebesar 5,04% (yoy). Dari sisi skala ekonomi, PDB nominal Indonesia pada tahun 2024 mencapai USD1.55 triliun. Sementara itu, PDB berdasarkan paritas daya beli (PPP) tercatat sebesar USD5,3 triliun, menempatkan Indonesia sebagai ekonomi terbesar ke-8 dunia. PDB per kapita Indonesia juga terus meningkat dan mencapai Rp83,7 juta atau setara USD5.083,4.

Stabilitas makroekonomi Indonesia tetap terjaga dengan baik. Inflasi terkendali dengan 2,38% YoY. Di pasar keuangan, Indeks Harga Saham Gabungan (IHSG) terus menguat dan berada di level 8.644,26 pada akhir Desember 2025. Nilai tukar rupiah juga relatif stabil di kisaran Rp16.785 per dolar AS pada Desember 2025.

Perjalanan ekonomi sepanjang tahun 2025 menegaskan bahwa stabilitas merupakan hasil dari proses yang terkelola dengan baik, yang terbentuk melalui kebijakan yang adaptif, pengambilan keputusan yang tepat, serta konsistensi dalam merespons dinamika ekonomi yang terjadi.

Penilaian terhadap Kinerja Direksi Tahun 2025

Memperhatikan dinamika ekonomi serta perkembangan ekonomi sepanjang tahun 2025, Dewan Komisaris melaksanakan fungsi pengawasan terhadap pengelolaan Bank Maspion oleh Direksi secara objektif dan berdasarkan prinsip tata kelola perusahaan yang baik (*Good Corporate Governance*).

Dalam menjalankan fungsi tersebut, Dewan Komisaris melakukan evaluasi secara berkala terhadap kinerja Direksi dengan pendekatan yang terstruktur dan berbasis risiko, guna memastikan optimalisasi seluruh sumber daya Perusahaan secara efektif dan berkelanjutan dengan tujuan menjaga stabilitas operasional, memperkuat ketahanan Perusahaan, serta melindungi kepentingan seluruh pemangku kepentingan.

Dewan Komisaris menilai bahwa Direksi telah menjalankan tugas dan tanggung jawabnya secara optimal serta mampu merespons berbagai tantangan ekonomi sepanjang tahun 2025 dengan baik. Hal ini ditunjukkan oleh perbaikan kualitas total aset Bank di angka Rp22.416.232 juta atau tumbuh 0,50% dari tahun 2024 yang ditandai dengan penurunan rasio *Non-Performing Loans* (NPL) bruto dari 3,26% di Desember 2024 menjadi 2,26% di 2025 dan perbaikan pada BOPO di tahun 2025 menjadi 97,15%, turun 22,98% dibandingkan tahun 2024 sebesar 120,13%, yang menandakan penguatan efisiensi biaya operasional dan optimalisasi layanan teknologi transaksi digital. Bank akan terus berupaya mempertahankan kualitas NPL yang terkendali serta menjaga kecukupan pencadangan kerugian penurunan nilai (CKPN) secara *prudent*. Di sisi lain secara berkesinambungan,

remains fragile and susceptible to market sentiment and political policies. However, the Indonesian economy continues to show relatively good resilience with consistent growth and improvement in each quarter, reflecting a strengthening momentum of recovery.

Indonesia's economic growth performance throughout 2025 is maintained at around 5% with an achievement in the third quarter of 2025 of 5.04% (yoy). In terms of economic scale, Indonesia's nominal GDP in 2024 reached USD1.55 trillion. Meanwhile, GDP based on purchasing power parity (PPP) was recorded at USD5.3 trillion, placing Indonesia as the 8th largest economy in the world. Indonesia's GDP per capita also continued to increase, reaching Rp83.7 million or equivalent to USD5,083.4.

Indonesia's macroeconomic stability remains well maintained. Inflation is under control at 2.38% YoY. In the financial market, the Composite Stock Price Index (IHSG) continues to strengthen and stands at 8,644.26 at the end of December 2025. The rupiah exchange rate also remained relatively stable at around Rp16,785 per US dollar in December 2025.

The economic journey throughout 2025 confirms that stability is the result of a well-managed process, shaped by adaptive policies, sound decision-making, and consistency in responding to economic dynamics.

Assessment of the Board of Directors' Performance in 2025

Taking into account economic dynamics and developments throughout 2025, the Board of Commissioners performs its supervisory function over the management of Bank Maspion by the Board of Directors objectively and based on the principles of good corporate governance.

In carrying out this function, the Board of Commissioners periodically evaluates the performance of the Board of Directors using a structured and risk-based approach to ensure the effective and sustainable optimization of all Company resources with the aim of maintaining operational stability, strengthening the Company's resilience, and protecting the interests of all stakeholders.

The Board of Commissioners considers that the Board of Directors has performed its duties and responsibilities optimally and has been able to respond well to various economic challenges throughout 2025. This is demonstrated by the improvement in the total quality of the Bank's assets to Rp22,416,232 million, or a growth of 0.50% from 2024, which was marked by a decrease in the gross Non-Performing Loans (NPL) ratio from 3.26% in December 2024 to 2.26% in 2025 and an improvement in BOPO in 2025 to 97.15%, down 22.98% compared to 120.13% in 2024, which indicates a strengthening of operational cost efficiency and optimization of digital transaction technology services. The Bank will continue to strive to maintain controlled NPL quality and maintain adequate provisions for impairment losses (CKPN) in a prudent manner. On the other hand, the Bank must continue to maintain liquidity stability,

Bank harus tetap dapat menjaga kestabilan likuiditas, meningkatkan mitigasi risiko operasional & risiko kredit, menjaga pertumbuhan kredit yang sehat, serta menjaga rasio-rasio keuangan yang stabil.

Kinerja Bank hingga akhir Desember 2025 menunjukkan realisasi penyaluran kredit sebesar Rp17.343.332 juta atau tercapai 105,33% dari rencana bisnis Bank sebesar Rp16.466.199 juta. Pertumbuhan 5,51% dari tahun 2024 ditopang oleh tiga segmen utama, yaitu Industri Aktivitas Keuangan dan Asuransi dengan kontribusi sebesar 32,78%, diikuti Industri Pengolahan sebesar 32,12% dan Industri Perdagangan Besar dan Eceran sebesar 16,93%, yang secara keseluruhan mencerminkan komposisi portofolio kredit yang terdiversifikasi dan mendukung pertumbuhan yang berkelanjutan.

Kemudian, dari sisi kinerja keuangan, kami juga mengapresiasi kinerja Direksi yang berhasil membawa Bank Maspion mencapai *turnaround performance* laba menjadi sebesar Rp31.819 juta pada tahun berjalan. Pencapaian ini mencerminkan efektivitas strategi yang dijalankan serta penguatan fundamental bisnis Bank secara berkelanjutan.

Pengawasan terhadap Perumusan dan Implementasi Strategi Bank Tahun 2025

Sepanjang tahun 2025, Dewan Komisaris secara aktif melaksanakan fungsi pengawasan terhadap arah strategi dan implementasinya guna memastikan Bank Maspion tetap berada pada jalur pertumbuhan yang berkelanjutan di tengah berbagai tantangan dan ketidakpastian dinamika ekonomi global.

Dalam menjalankan peran tersebut, Dewan Komisaris memberikan masukan dan arahan terhadap berbagai aspek strategis, mencakup strategi bisnis, manajemen risiko, fungsi audit, serta kepatuhan terhadap regulasi yang berlaku. Pengawasan dilakukan melalui mekanisme penelaahan berkala, rapat bersama Direksi, serta dialog yang konstruktif dan berkesinambungan, sehingga memungkinkan dilakukannya penyesuaian secara tepat waktu apabila diperlukan. Hal tersebut tercermin dalam pelaksanaan rapat sepanjang tahun 2025, di mana Dewan Komisaris telah menyelenggarakan 14 (empat belas) kali Rapat Gabungan bersama Direksi serta 15 (lima belas) kali Rapat Internal Dewan Komisaris sebagai bagian dari pelaksanaan fungsi pengawasan dan koordinasi secara efektif.

Dewan Komisaris juga menekankan pentingnya kewaspadaan dan fleksibilitas dalam merespons perubahan lingkungan usaha. Oleh karena itu, Dewan Komisaris terus mendorong penerapan strategi yang adaptif, pengelolaan risiko yang *prudent*, serta konsistensi pelaksanaan kegiatan usaha yang selaras dengan Rencana Bisnis Bank dengan fokus pertumbuhan yang sehat dan berkelanjutan dengan 5 poin utama yaitu Penguatan Portofolio Kredit, Pemenuhan RPIM, Penguatan Dana Pihak Ketiga (DPK), Transformasi Digital, Peningkatan *Cross-Selling* dan *Fee-Based Income*.

improve operational and credit risk mitigation, maintain healthy credit growth, and maintain stable financial ratios.

The Bank's performance until the end of December 2025 shows that it has disbursed Rp17,343,332 million in loans, or 105.33% of the Bank's business plan of Rp16,466,199 million. The 5.51% growth from 2024 was supported by three main segments, namely the Financial and Insurance Activities Industry with a contribution of 32.78%, followed by the Manufacturing Industry at 32.12% and the Wholesale and Retail Trade Industry at 16.93%, which overall reflects a diversified credit portfolio composition and supports sustainable growth.

Furthermore, in terms of financial performance, we also appreciate the Board of Directors' success in bringing Bank Maspion to a turnaround performance with a profit of Rp31,819 million in the current year. This achievement reflects the effectiveness of the strategies implemented and the continuous strengthening of the Bank's business fundamentals.

Oversight of the Formulation and Implementation of the Bank's 2025 Strategy

Throughout 2025, the Board of Commissioners actively carried out its supervisory function over the direction of strategy and its implementation to ensure that Bank Maspion remained on track for sustainable growth amid various challenges and uncertainties in the global economic dynamics.

In carrying out this role, the Board of Commissioners provided input and direction on various strategic aspects, including business strategy, risk management, audit functions, and compliance with applicable regulations. Oversight was carried out through periodic reviews, joint meetings with the Board of Directors, and constructive and ongoing dialogue, enabling timely adjustments to be made when necessary. This is reflected in the meetings held throughout 2025, where the Board of Commissioners held 14 (fourteen) Joint Meetings with the Board of Directors and 15 (fifteen) Internal Meetings of the Board of Commissioners as part of the effective implementation of its supervisory and coordination functions.

The Board of Commissioners also emphasized the importance of vigilance and flexibility in responding to changes in the business environment. Therefore, the Board of Commissioners continues to encourage the implementation of adaptive strategies, prudent risk management, and consistent business activities in line with the Bank's Business Plan, focusing on healthy and sustainable growth with five main points, namely Strengthening the Credit Portfolio, Fulfilling RPIM, Strengthening Third Party Funds (DPK), Digital Transformation, and Increasing Cross-Selling and Fee-Based Income.

Pandangan Atas Prospek Usaha yang Disusun oleh Direksi

Sejalan dengan arah kebijakan Bank serta mempertimbangkan perkembangan kondisi perekonomian terkini, Manajemen menetapkan dua fokus strategis utama untuk mencapai pertumbuhan bisnis yang berkelanjutan. Dewan Komisaris mendukung prospek usaha tahun 2026 sebagaimana disampaikan Direksi dalam Rencana Bisnis Bank (RBB), serta akan terus melakukan pengawasan atas implementasinya secara konsisten.

Pertama, perluasan kredit korporasi dan peningkatan *fee-based income*. Bank Maspion akan memperluas portofolio kredit dengan fokus pada segmen korporasi melalui pemberian kredit berskala besar kepada korporasi berskala besar dan BUMN, sinergi dengan Kasikornbank (KBANK) dalam menjangkau nasabah grup KBANK dari Thailand dan AEC+3 yang berinvestasi di Indonesia, serta nasabah lokal. Strategi ini didukung oleh penyediaan solusi keuangan terintegrasi, seperti *trade finance*, *foreign exchange* (forex), dan *remittance*, guna meningkatkan pendapatan berbasis komisi yang lebih berkelanjutan. Pengembangan segmen komersial dan ritel tetap menjadi bagian dari komitmen Bank.

Kedua, transformasi kapabilitas di seluruh level organisasi. Transformasi dilakukan secara menyeluruh untuk memperkuat kapabilitas internal dan daya saing, meliputi: transformasi Teknologi Informasi (TI) untuk memastikan sistem yang aman, andal, dan skalabel; transformasi *Enterprise Risk Management* (ERM) guna meningkatkan efisiensi proses kredit, memperkuat budaya manajemen risiko, serta memitigasi potensi NPL dan menjaga kualitas aset; serta transformasi bisnis, khususnya pada segmen *Commercial & Branch Banking*, agar lebih responsif dan bernilai tambah bagi nasabah.

Ketiga, Seiring pertumbuhan bank dan perubahan pemegang saham pengendali, termasuk peningkatan kepemilikan saham KBANK Group menjadi 89,48% di Bank Maspion, terdapat kebutuhan untuk meninjau kembali *positioning brand* yang hingga kini masih kuat diasosiasikan dengan pemilik sebelumnya. Penguatan struktur kepemilikan ini menegaskan kolaborasi strategis dan fondasi bisnis regional jangka panjang, sekaligus mendukung pengembangan solusi keuangan terintegrasi bagi seluruh klien. Di sisi lain, perubahan arah bisnis ini menuntut penyelarasan identitas dan *positioning brand* agar lebih relevan, kompetitif, serta mampu merepresentasikan transformasi strategis yang sedang dijalankan.

Selain itu, transformasi juga mencakup fungsi pendukung seperti *Human Resources* (HR), *Treasury & Finance*, Audit Internal, Operasional, serta Produk & *Channel*, dengan tujuan membentuk organisasi yang lebih *agile*, inovatif, dan adaptif terhadap dinamika industri perbankan ke depan.

Views on Business Prospects Prepared by the Board of Directors

In line with the Bank's policy direction and considering the latest economic developments, Management has set two main strategic focuses to achieve sustainable business growth. The Board of Commissioners supports the 2026 business outlook as presented by the Board of Directors in the Bank's Business Plan (RBB) and will continue to consistently monitor its implementation.

First, expansion of corporate credit and increase in fee-based income. Bank Maspion will expand its credit portfolio with a focus on the corporate segment by providing large-scale credit to large corporations and state-owned enterprises, synergizing with Kasikornbank (KBANK) in reaching KBANK group customers from Thailand and AEC+3 investing in Indonesia, as well as local customers. This strategy is supported by the provision of integrated financial solutions, such as trade finance, foreign exchange (forex), and remittances, to increase more sustainable commission-based income. The development of the commercial and retail segments remains part of the Bank's commitment.

Second, transforming capabilities across all levels of the organization. The transformation is carried out comprehensively to strengthen internal capabilities and competitiveness, including: transforming Information Technology (IT) to ensure secure, reliable, and scalable systems; Enterprise Risk Management (ERM) transformation to improve credit process efficiency, strengthen risk management culture, mitigate potential NPLs, and maintain asset quality; and business transformation, particularly in the Commercial & Branch Banking segment, to be more responsive and add value for customers.

Third, with the growth of the bank and changes in controlling shareholders, including an increase in KBANK Group's share ownership to 89.48% in Bank Maspion, there is a need to review the brand positioning, which is still strongly associated with the previous owner. This strengthening of the ownership structure reinforces strategic collaboration and long-term regional business foundations, while supporting the development of integrated financial solutions for all clients. On the other hand, this change in business direction requires the alignment of brand identity and positioning to be more relevant, competitive, and able to represent the strategic transformation that is being carried out.

In addition, the transformation also includes supporting functions such as Human Resources (HR), Treasury & Finance, Internal Audit, Operations, and Products & Channels, with the aim of forming an organization that is more agile, innovative, and adaptive to the dynamics of the banking industry in the future.

Pandangan Atas Penerapan Tata Kelola Bank

Dewan Komisaris meyakini bahwa penerapan Tata Kelola Perusahaan yang Baik (GCG) akan mengarahkan dan mengelola Bank untuk mencapai kemajuan usaha dan akuntabilitas. Pada akhirnya implementasi GCG yang selaras dengan *best practice* akan mampu menciptakan nilai korporasi secara berkelanjutan dengan tetap memerhatikan kepentingan para pemangku kepentingan lainnya.

Adapun dasar penerapan GCG Bank Maspion yang diwujudkan dalam praktik bisnis Bank sehari-hari, merujuk kepada 5 prinsip dasar aspek Tata Kelola, yaitu Transparansi, Akuntabilitas, Responsibilitas, Independensi dan Kewajaran.

Dengan adanya 5 prinsip dasar tersebut, Bank menjadi perusahaan yang berhasil dan andal dalam mengimplementasikan tata kelola Perusahaan yang baik sekaligus mengeksekusi strategi *sustainability* guna memberi nilai tambah bagi bisnis dan pemangku kepentingan (*stakeholders*) serta menjadi salah satu pendorong untuk meningkatkan tindakan nyata dan komitmen dalam aspek keberlanjutan.

Penilaian Kinerja Komite di Bawah Dewan Komisaris

Sebagai bagian integral dari sistem pengawasan dan tata kelola perusahaan, Komite Audit, Komite Pemantau Risiko, serta Komite Nominasi dan Remunerasi di bawah Dewan Komisaris berperan strategis dalam mendukung efektivitas pengawasan dan pemberian arahan kepada Direksi. Komite-komite tersebut memberikan masukan yang komprehensif, analisis mendalam, serta alternatif solusi atas berbagai isu strategis sebelum disampaikan kepada Direksi untuk dipertimbangkan dalam pengambilan keputusan. Untuk memastikan pelaksanaan tugas berjalan secara optimal, Dewan Komisaris secara berkala melakukan evaluasi atas kinerja masing-masing komite guna menilai efisiensi, efektivitas, serta kesesuaiannya dengan prinsip tata kelola perusahaan yang baik.

Informasi lebih lanjut tentang Komite dibawah Dewan Komisaris tersedia di bagian Tata Kelola Perusahaan dari laporan ini, pada halaman 204-206.

Perubahan Komposisi Dewan Komisaris di Tahun 2025

Pada tahun 2025, komposisi Dewan Komisaris Perseroan mengalami perubahan sesuai dengan keputusan Rapat Umum Pemegang Saham Tahunan (RUPST) yang diselenggarakan pada 27 Mei 2025 telah menyetujui pengangkatan Bapak Rony Teja Sukmana sebagai Anggota Komisaris Independen. Dewan Komisaris terdiri dari lima (5) orang, yaitu 1 (satu) Komisaris Utama, 1 (satu) Komisaris, dan 3 (tiga) Komisaris Independen.

Seluruh anggota Dewan Komisaris merupakan profesional dengan latar belakang pendidikan, keahlian, serta pengalaman yang beragam, dan telah memenuhi seluruh persyaratan yang ditetapkan. Selain

Views on the Implementation of Good Corporate Governance

The Board of Commissioners believes that the implementation of Good Corporate Governance (GCG) will guide and manage the Bank to achieve business progress and accountability. Ultimately, the implementation of GCG in line with best practices will be able to create sustainable corporate value while still paying attention to the interests of other stakeholders.

The basis for the implementation of GCG at Bank Maspion, which is reflected in the Bank's daily business practices, refers to the 5 basic principles of governance, namely Transparency, Accountability, Responsibility, Independence, and Fairness.

With these five basic principles, the Bank has become a successful and reliable company in implementing good corporate governance while executing sustainability strategies to provide added value to the business and stakeholders, as well as becoming one of the drivers for increasing concrete actions and commitments in the aspect of sustainability.

Performance Assessment of Committees Under the Board of Commissioners

As an integral part of the company's supervisory and governance system, the Audit Committee, Risk Oversight Committee, and Nomination and Remuneration Committee under the Board of Commissioners play a strategic role in supporting the effectiveness of supervision and providing guidance to the Board of Directors. These committees provide comprehensive input, in-depth analysis, and alternative solutions to various strategic issues before they are submitted to the Board of Directors for consideration in decision-making. To ensure that tasks are carried out optimally, the Board of Commissioners periodically evaluates the performance of each committee to assess its efficiency, effectiveness, and compliance with good corporate governance principles.

Further information regarding the Committees under the Board of Commissioners is available in the Corporate Governance section of this report on pages 204-206.

Board of Directors Report [OJK D.1][GRI 2-22]

Kasemsri Charoensiddhi

Direktur Utama
President Director

Para pemegang saham dan pemangku kepentingan yang kami hormati,

Puji dan syukur kami panjatkan kepada Tuhan Yang Maha Esa atas segala rahmat, berkah, dan kesempatan yang diberikan-Nya kepada Bank Maspion disepanjang tahun 2025 yang merupakan tahun penuh tantangan, namun juga penuh peluang bagi Bank Maspion. Dengan dedikasi, kerja keras dan kolaborasi antara Direksi, Dewan Komisaris, jajaran manajemen, dan seluruh karyawan, Bank Maspion dapat menghadapi dinamika bisnis yang semakin kompleks dan menjadikannya sebagai dorongan untuk tumbuh dan memberikan dampak yang positif terhadap kinerja Perseroan.

Melalui laporan ini, kami menyampaikan gambaran menyeluruh mengenai kinerja Bank Maspion sepanjang tahun buku 2025, termasuk arah strategi, capaian operasional, prospek usaha, serta komitmen Perseroan terhadap penerapan tata kelola perusahaan yang baik dan prinsip keuangan berkelanjutan. Laporan ini diharapkan dapat memberikan pemahaman yang komprehensif mengenai posisi Bank Maspion saat ini sekaligus arah pengembangan dan keberlanjutan Bank Maspion di masa mendatang.

Kondisi Perekonomian Tahun 2025

Tahun 2025 diwarnai oleh ketidakpastian ekonomi global dan ketegangan perdagangan internasional yang tetap memengaruhi aktivitas ekonomi berbagai negara. Di tengah tekanan tersebut, Indonesia menunjukkan daya tahan ekonomi yang relatif baik dengan pertumbuhan GDP yang diproyeksikan sekitar 5,0–5,1% pada 2025, didukung oleh konsumsi rumah tangga, belanja pemerintah, dan investasi domestik yang solid meskipun pertumbuhan global melambat dan negara mitra dagang utama menunjukkan perlambatan ekonomi.

Respected Shareholders and Stakeholders,

We extend our gratitude and praise to Almighty God for the blessings, grace, and opportunities granted to Bank Maspion throughout 2025, a year filled with challenges, yet also abundant opportunities for the Bank. Through dedication, hard work, and strong collaboration among the Board of Directors, the Board of Commissioners, management, and all employees, Bank Maspion successfully navigated increasingly complex business dynamics and transformed them into momentum for growth and positive contributions to the Company's performance.

Through this report, we present a comprehensive overview of Bank Maspion's performance for the 2025 fiscal year, including its strategic direction, operational achievements, business prospects, and the Company's commitment to implementing Good Corporate Governance and sustainable finance principles. This report is intended to provide a clear understanding of Bank Maspion's current position, as well as its future development direction and sustainability initiatives.

Economic Conditions in 2025

The year 2025 was marked by global economic uncertainty and ongoing international trade tensions that continued to affect economic activity across many countries. Amid these pressures, Indonesia demonstrated relatively strong economic resilience, with GDP growth projected at approximately 5.0–5.1% in 2025, supported by solid household consumption, government spending, and domestic investment, despite slowing global growth and economic deceleration among key trading partners.

Bank Indonesia (BI) mengambil langkah kebijakan moneter yang akomodatif untuk menopang pertumbuhan ekonomi dengan mempertahankan suku bunga acuan (BI-Rate) di 4,75%, sebagai bagian dari upaya menjaga stabilitas nilai tukar, mengendalikan inflasi, dan mendorong pertumbuhan kredit serta aktivitas ekonomi di dalam negeri. Selain itu, Indonesia terus mencatat surplus perdagangan yang solid sepanjang tahun, mencerminkan kinerja ekspor dan neraca perdagangan yang tetap positif meskipun menghadapi dinamika global.

Strategi dan Kebijakan Tahun 2025

Di tahun 2025, Bank Maspion terus memperkuat komitmennya untuk beradaptasi di tengah dinamika industri perbankan dan tantangan ekonomi global. Berlandaskan visi dan misi yang jelas, Bank menjalankan strategi yang terarah guna menjaga stabilitas, meningkatkan daya saing, serta mendorong pertumbuhan yang berkelanjutan bagi seluruh pemangku kepentingan.

Bank berkomitmen mencapai pertumbuhan yang berkelanjutan melalui penguatan ekspansi kredit, peningkatan kualitas manajemen risiko, optimalisasi pendanaan, serta efisiensi operasional. Bank menargetkan pertumbuhan kredit dengan fokus pada segmen korporasi dan sektor-sektor yang dinilai tangguh seperti industri pengolahan, perdagangan, serta aktivitas keuangan dan asuransi, sambil tetap menjaga rasio NPL di bawah 3% melalui penguatan kebijakan risiko dan peningkatan pencadangan (CKPN dan LLP). Dari sisi pendanaan, Bank menargetkan pertumbuhan dari sisi CASA, dengan di saat yang sama, Bank melakukan evaluasi jaringan kantor untuk meningkatkan efisiensi operasional.

Dalam jangka menengah dan panjang, Bank menargetkan pertumbuhan dan profitabilitas yang berkelanjutan melalui peningkatan rasio ROE, NIM, dan CASA, serta penguatan *fee-based income* dari berbagai layanan seperti *trade finance*, transaksi valuta asing, dan QRIS guna mendiversifikasi sumber pendapatan. Bank juga berupaya memperkuat posisi pasar dan pengenalan brand dengan menonjolkan nilai kepercayaan dan keamanan, serta meningkatkan infrastruktur teknologi informasi agar sistem perbankan semakin aman, andal, dan mampu menjangkau lebih banyak nasabah.

Dalam menjalankan strategi di sepanjang tahun 2025, Bank memiliki sejumlah keunggulan kompetitif yang mendukung pertumbuhan bisnisnya, antara lain sumber daya manusia yang kompeten dan terus dikembangkan melalui program pelatihan berkelanjutan, biaya transaksi dan suku bunga yang kompetitif, serta jaringan kantor yang tersebar di delapan provinsi strategis di Indonesia. Bank juga menasar segmen pasar yang resilien seperti korporasi, ritel, perdagangan, industri dan pendekatan komunitas maupun kerja sama dengan berbagai institusi. Selain itu, dukungan KBANK sebagai *ultimate shareholder* memberikan nilai tambah melalui skala operasi yang lebih besar, akses sumber daya, serta *transfer of knowledge* untuk memperkuat pengembangan usaha Bank sesuai kebutuhan dan kondisi domestik.

Bank Indonesia (BI) adopted an accommodative monetary policy stance to support economic growth by maintaining the benchmark interest rate (BI-Rate) at 4.75%, as part of efforts to safeguard exchange rate stability, control inflation, and stimulate credit growth and domestic economic activity. In addition, Indonesia continued to record a solid trade surplus throughout the year, reflecting sustained export performance and a positive trade balance despite global economic dynamics.

Strategies and Policies in 2025

In 2025, Bank Maspion continues to strengthen its commitment to adapt amid the dynamics of the banking industry and global economic challenges. Based on a clear vision and mission, the Bank implements targeted strategies to maintain stability, enhance competitiveness, and drive sustainable growth for all stakeholders.

The Bank is committed to achieving sustainable growth through strengthening credit expansion, improving risk management quality, optimizing funding, and operational efficiency. The Bank targets credit growth with a focus on the corporate segment and sectors that are considered resilient, such as the manufacturing industry, trade, and financial and insurance activities, while maintaining the NPL ratio below 3% through strengthening risk policies and increasing provisions (CKPN and LLP). In terms of funding, the Bank targets growth from CASA, while at the same time evaluating its office network to improve operational efficiency.

In the medium and long term, the Bank targets sustainable growth and profitability through increasing ROE, NIM, and CASA ratios, as well as strengthening fee-based income from various services such as trade finance, foreign exchange transactions, and QRIS to diversify revenue sources. The Bank also strives to strengthen its market position and brand recognition by emphasizing the values of trust and security, as well as improving its information technology infrastructure to make the banking system more secure, reliable, and able to reach more customers.

In implementing its strategy throughout 2025, the Bank has a number of competitive advantages that support its business growth, including competent human resources that are continuously developed through ongoing training programs, competitive transaction costs and interest rates, and a network of offices spread across eight strategic provinces in Indonesia. The Bank also targets resilient market segments such as corporations, retail, trade, industry, and community approaches as well as cooperation with various institutions. In addition, the support of KBANK as the ultimate shareholder provides added value through a larger scale of operations, access to resources, and transfer of knowledge to strengthen the Bank's business development in accordance with domestic needs and conditions.

Peranan Direksi dalam Perumusan Strategi dan Proses yang Dilakukan untuk Memastikan Implementasi Strategi dan Kebijakan Tahun 2025

Direksi Bank Maspion secara konsisten menyusun strategi dan kebijakan jangka pendek maupun menengah setiap tahunnya yang dituangkan dalam Rencana Korporasi dan Rencana Bisnis Bank (RBB). Bersama jajaran manajemen senior, Direksi secara berkala melakukan evaluasi atas strategi, kebijakan, serta implementasinya di seluruh level organisasi guna memastikan keselarasan dengan perkembangan bisnis dan pencapaian target yang telah ditetapkan. Direksi juga memastikan seluruh unit kerja memahami dan menerapkan strategi secara konsisten, dengan menerapkan proses yang terstruktur dan disiplin pada tahun 2025 yang mencakup perencanaan strategis, penetapan sasaran yang jelas, pengembangan dan persetujuan kebijakan, pengawasan berkelanjutan, serta penguatan akuntabilitas di seluruh tingkat manajemen dan unit kerja.

Dalam mengembangkan target bisnis dan kebijakan strategis yang komprehensif, Direksi mempertimbangkan berbagai faktor, termasuk tren pasar, protokol manajemen risiko, serta kepentingan para pemangku kepentingan guna menetapkan arah kebijakan yang jelas dan merumuskan jalur pertumbuhan yang berkelanjutan. Selain itu, Direksi mendorong partisipasi aktif seluruh bagian organisasi dalam menyampaikan ide dan inovasi yang mendukung pencapaian tujuan Bank, sehingga setiap langkah strategis yang diambil berfokus pada peningkatan kinerja, penguatan tata kelola, serta menjaga kesehatan keuangan Bank secara optimal dan berkesinambungan.

Pencapaian Kinerja dan Realisasi Target 2025

Implementasi strategi bisnis sepanjang tahun 2025 menunjukkan arah perkembangan yang positif bagi Bank Maspion, baik dari sisi operasional maupun keuangan. Di tengah dinamika dan tantangan industri perbankan, Bank berfokus pada pengembangan segmen *corporate* dan *commercial* sebagai penggerak utama pertumbuhan bisnis. Bank juga secara konsisten menjaga tingkat suku bunga yang kompetitif guna mempertahankan daya saing sekaligus mengelola kinerja intermediasi secara *prudent*. Meskipun masih terdapat ruang untuk optimalisasi, berbagai inisiatif seperti peningkatan kualitas layanan, penguatan kolaborasi dengan mitra, serta penyesuaian strategi bisnis secara bertahap telah memberikan kontribusi terhadap perbaikan kinerja secara keseluruhan dan mencerminkan langkah yang konsisten menuju arah pertumbuhan yang lebih sehat dan terukur.

Di tahun 2025, Bank Maspion melanjutkan pengembangan dan optimalisasi *platform mobile banking* yang telah diluncurkan pada tahun sebelumnya dengan terus memperluas dan meningkatkan layanannya untuk mendukung transaksi domestik dan menghadirkan solusi komprehensif bagi kebutuhan transaksi ritel maupun *merchant*. Upaya ini sejalan dengan komitmen Bank dalam meningkatkan kapabilitas perbankan digital guna merespons dinamika pasar dan perkembangan teknologi yang semakin pesat. Peningkatan layanan *Mobile Banking* tercermin pada tiga indikator utama, yaitu pertumbuhan jumlah nasabah sebesar 16,66%, dari 31.553 nasabah pada tahun 2024 menjadi

The Role of the Board of Directors in Strategy Formulation and the Process to Ensure the Implementation of Strategies and Policies in 2025

The Board of Directors of Bank Maspion consistently formulates short- and medium-term strategies and policies each year, which are outlined in the Corporate Plan and the Bank's Business Plan (RBB). Together with senior management, the Board of Directors conducts periodic evaluations of strategies, policies, and their implementation across all levels of the organization to ensure alignment with business developments and the achievement of established targets. The Board also ensures that all work units understand and consistently implement these strategies by applying structured and disciplined processes throughout 2025, encompassing strategic planning, clear target setting, policy development and approval, continuous oversight, and strengthened accountability at every level of management and across all business units.

In developing comprehensive business targets and strategic policies, the Board of Directors takes into account various factors, including market trends, risk management protocols, and stakeholder interests, in order to establish clear policy direction and formulate a sustainable growth path. Furthermore, the Board encourages active participation from all parts of the organization in contributing ideas and innovations that support the Bank's objectives, ensuring that every strategic step taken focuses on performance enhancement, strengthened governance, and the optimal and sustainable maintenance of the Bank's financial soundness.

2025 Performance Achievements and Target Realization

The implementation of business strategies throughout 2025 shows a positive direction for Bank Maspion, both operationally and financially. Amidst the dynamics and challenges of the banking industry, the Bank focuses on developing the corporate and commercial segments as the main drivers of business growth. The Bank also consistently maintains competitive interest rates in order to remain competitive while managing its intermediation performance prudently. Although there is still room for optimization, various initiatives such as improving service quality, strengthening collaboration with partners, and gradually adjusting business strategies have contributed to overall performance improvement and reflect consistent steps towards healthier and more measurable growth.

In 2025, Bank Maspion continued to develop and optimize its mobile banking platform, which was launched the previous year, by expanding and improving its services to support domestic transactions and provide comprehensive solutions for retail and merchant transaction needs. This effort is in line with the Bank's commitment to improving its digital banking capabilities in order to respond to market dynamics and rapid technological developments. The improvement in Mobile Banking services is reflected in three main indicators, namely a 16.66% growth in the number of customers, from 31,553 customers in 2024 to 36,810 customers in 2025, an increase in transaction frequency from

36.810 nasabah pada tahun 2025, peningkatan frekuensi transaksi dari 1.910.798 menjadi 2.386.872, serta pertumbuhan volume transaksi sebesar 7,74%, dari 2.492.579 pada tahun 2024 menjadi 2.685.540 pada tahun 2025, yang menunjukkan tren adopsi dan pemanfaatan layanan digital yang berkelanjutan.

Di tengah berbagai tantangan yang dihadapi, Bank tetap menunjukkan kinerja yang solid dengan merealisasikan penyaluran kredit hingga akhir Desember 2025 sebesar Rp17.343.332 juta, tercapai 105,33% dari rencana bisnis Bank sebesar Rp16.466.199 juta dan tumbuh sebesar 5,51% dibandingkan tahun 2024 sebesar Rp16.438.254 juta. Dana Pihak Ketiga (DPK) Bank pada akhir Desember 2025 tercatat sebesar Rp11.849.990 juta tercapai 88,91% dari rencana bisnis Bank sebesar Rp13.327.502 juta. Dengan pencapaian penyaluran kredit dan DPK tersebut, maka rasio LDR Bank terealisasi sebesar 146,36% di atas rencana bisnis Bank sebesar 123,55%.

Dari sisi profitabilitas, Bank Maspion mencatat pertumbuhan yang baik di laba sebelum pajak dan laba bersih setelah pajak per akhir Desember 2025 masing-masing sebesar Rp47.454 juta dan Rp31.819 juta atau bertumbuh masing-masing sebesar 115,24% dan 112,87% dari pencapaian tahun 2024.

Sementara BOPO dan CIR terealisasi masing-masing sebesar 97,15% dan 78,40% keduanya turun dari tahun sebelumnya yakni masing-masing sebesar 120,13% dan 92,13%. Realisasi BOPO dan CIR mencerminkan efektivitas pengendalian biaya Bank.

Dari segi keberlanjutan sosial Bank Maspion menunjukkan komitmen yang baik melalui berbagai inisiatif yang dijalankan sepanjang tahun 2025. Salah satu implementasinya adalah penyelenggaraan program Literasi dan Inklusi Keuangan yang secara rutin diadakan tiap tahun, yang berkontribusi pada peningkatan pemahaman masyarakat mengenai pengelolaan keuangan serta perluasan akses layanan keuangan bagi individu dan kelompok yang sebelumnya memiliki keterbatasan akses. Program ini sejalan dengan upaya Bank dalam mendukung pembangunan ekonomi yang inklusif dan berkelanjutan.

Kendala yang Dihadapi dan Antisipasi yang Dilakukan

Tahun 2025 merupakan periode yang penuh dinamika bagi Bank Maspion, ditandai dengan ketidakpastian ekonomi global dan meningkatnya volatilitas pasar keuangan. Dalam kondisi tersebut, permintaan kredit menjadi lebih selektif, dengan sebagian besar peluang pembiayaan terkonsentrasi pada aset berkualitas tinggi yang juga menjadi incaran banyak bank. Situasi ini memicu persaingan yang semakin ketat dan tekanan harga, yang pada akhirnya berdampak pada potensi pendapatan. Menyikapi hal tersebut, Bank secara proaktif menyesuaikan strategi pendanaan, termasuk melakukan *repricing* deposito, guna menjaga keseimbangan biaya dana serta mempertahankan stabilitas *margin* secara berkelanjutan.

1,910,798 to 2,386,872, and a 7.74% growth in transaction volume, from 2,492,579 in 2024 to 2,685,540 in 2025, indicating a trend of continuous adoption and utilization of digital services.

Amidst various challenges, the Bank continued to show solid performance by realizing credit distribution until the end of December 2025 amounting to Rp17,343,332 million, achieving 105.33% of the Bank's business plan of Rp16,466,199 million and growing by 5.51% compared to 2024 amounting to Rp16,438,254 million. The Bank's Third Party Funds (DPK) at the end of December 2025 were recorded at Rp11,849,990 million, achieving 88.91% of the Bank's business plan of Rp13,327,502 million. With the achievement of credit distribution and DPK, the Bank's LDR ratio was realized at 146.36%, above the Bank's business plan of 123.55%.

In terms of profitability, Bank Maspion recorded good growth in profit before tax and net profit after tax at the end of December 2025, amounting to Rp47,454 million and Rp31,819 million, respectively, or growing by 115.24% and 112.87% from the 2024 achievements.

Meanwhile, BOPO and CIR were realized at 97.15% and 78.40% respectively, both decreasing from the previous year, which were 120.13% and 92.13%, respectively. The realization of BOPO and CIR reflects the effectiveness of the Bank's cost control.

In terms of social sustainability, Bank Maspion demonstrates a strong commitment through various initiatives carried out throughout 2025. One of the implementations is the Financial Literacy and Inclusion program, which is routinely held every year, contributing to increasing public understanding of financial management as well as expanding access to financial services for individuals and groups who previously had limited access. This program is in line with the Bank's efforts to support inclusive and sustainable economic development.

Challenges Faced and Mitigation Measures Taken

The year 2025 is a period full of dynamics for Bank Maspion, marked by global economic uncertainty and increasing volatility in financial markets. Under these conditions, credit demand becomes more selective, with most financing opportunities concentrated on high-quality assets that are also targeted by many banks. This situation triggers increasingly intense competition and price pressures, which ultimately affect revenue potential. In response to this, the Bank proactively adjusts its funding strategy, including repricing deposits, in order to maintain a balance in funding costs and sustain margin stability.

Di sisi likuiditas, dinamika pergerakan dana pihak ketiga turut menjadi perhatian, terutama dalam upaya mempercepat penguatan dana murah (CASA). Bank menyadari bahwa optimalisasi CASA memerlukan dukungan infrastruktur dan penguatan sistem teknologi, termasuk pengembangan kapabilitas di sisi IT seperti integrasi layanan pembayaran (misalnya BI-FAST). Oleh karena itu, berbagai inisiatif penguatan teknologi dan operasional terus dilakukan untuk mendukung pertumbuhan likuiditas yang lebih stabil dan berkelanjutan ke depan.

On the liquidity front, the dynamics of third-party fund movements also warrant attention, particularly in efforts to accelerate the enhancement of low-cost funds (CASA). The bank recognizes that optimizing CASA requires support in infrastructure and the strengthening of technology systems, including the development of IT capabilities such as the integration of payment services (e.g., BI-FAST). Consequently, various initiatives to reinforce technology and operations continue to be undertaken to support more stable and sustainable liquidity growth in the future.

Dengan perkembangan teknologi digital yang pesat telah menghadirkan tantangan tersendiri dalam aspek keamanan siber dan inovasi layanan, di mana ancaman yang semakin kompleks menuntut penguatan sistem perlindungan yang lebih canggih. Menanggapi hal tersebut, Bank Maspion memperkuat postur keamanan siber melalui pembentukan *Cyber Security Operation Center (CSOC)* serta Implementasi berbagai kontrol seperti *Network Access Control (NAC)*, *Endpoint Detection & Response (EDR)*, *Data Loss Prevention (DLP)*, *Privilege Access Management (PAM)*, serta perlindungan *email* dan *web* guna menjaga sistem dan data dari potensi ancaman. Bank juga melanjutkan pembangunan ulang *platform* digital dengan standar keamanan yang lebih tinggi serta memperkuat infrastruktur BI-FAST melalui segmentasi jaringan, kebijakan akses ketat berbasis *whitelist*, *hardening* sesuai standar keamanan, pengamanan komunikasi data, serta penyelesaian audit dan *penetration test* dengan seluruh rekomendasi telah ditindaklanjuti. Upaya ini turut didukung dengan peningkatan kesadaran dan pelatihan karyawan terkait keamanan siber guna memastikan perlindungan optimal terhadap data dan transaksi nasabah.

The rapid development of digital technology has presented its own challenges in terms of cybersecurity and service innovation, where increasingly complex threats demand more sophisticated protection systems. In response, Bank Maspion has strengthened its cybersecurity posture by establishing a Cyber Security Operation Center (CSOC) and implementing various controls such as Network Access Control (NAC), Endpoint Detection & Response (EDR), Data Loss Prevention (DLP), Privilege Access Management (PAM), and email and web protection to safeguard its systems and data from potential threats. The bank is also continuing to rebuild its digital platform with higher security standards and strengthening its BI-FAST infrastructure through network segmentation, strict whitelist-based access policies, hardening in accordance with security standards, data communication security, and the completion of audits and penetration tests with all recommendations followed up. These efforts are supported by increased employee awareness and training on cybersecurity to ensure optimal protection of customer data and transactions.

Penerapan Tata Kelola Perusahaan yang Baik

Pencapaian kinerja Bank Maspion sepanjang tahun 2025 tidak terlepas dari komitmen Perseroan dalam memperkuat penerapan praktik *Good Corporate Governance (GCG)* secara konsisten dan berkelanjutan. Bank senantiasa memastikan bahwa seluruh proses pengelolaan usaha dilaksanakan selaras dengan ketentuan peraturan perundang-undangan yang berlaku serta mengacu pada *best practice* tata kelola yang baik.

Implementation of Good Corporate Governance

Bank Maspion's performance achievements throughout 2025 are inseparable from the Company's commitment to consistently and sustainably strengthening the implementation of Good Corporate Governance (GCG) practices. The Bank continuously ensures that all business management processes are carried out in compliance with prevailing laws and regulations and in reference to governance best practices.

Komitmen tersebut diwujudkan melalui sinergi Direksi, Dewan Komisaris, dan seluruh pegawai dalam menerapkan prinsip transparansi, akuntabilitas, responsibilitas, independensi, dan kewajaran di setiap aspek operasional serta pengambilan keputusan, disertai evaluasi dan penyempurnaan praktik GCG secara berkelanjutan. Dengan tata kelola yang kuat, Bank meyakini fondasi organisasi akan semakin kokoh dalam mendukung pertumbuhan usaha yang sehat, berkelanjutan, dan selaras dengan visi serta misi Perseroan.

This commitment is realized through the synergy of the Board of Directors, the Board of Commissioners, and all employees in applying the principles of transparency, accountability, responsibility, independence, and fairness across all operational aspects and decision-making processes, accompanied by ongoing evaluation and enhancement of GCG practices. With strong governance in place, the Bank believes its organizational foundation will become increasingly solid in supporting healthy, sustainable business growth aligned with the Company's vision and mission.

- Implementasi Sistem Pelaporan Pelanggaran
Bank menerapkan Sistem Pelaporan Pelanggaran (*Whistleblowing System*) dengan prinsip rahasia, umum, bertanggung jawab, dan independen. Kerahasiaan identitas pelapor maupun kasus yang dilaporkan dijaga secara ketat, disertai dengan pemberian perlindungan bagi pelapor. Selain itu, Bank dapat memberikan penghargaan dan insentif yang

- Implementation of the Whistleblowing System
The Bank implements a Whistleblowing System based on the principles of confidentiality, transparency, accountability, and independence. The confidentiality of the whistleblower's identity and reported cases is strictly maintained, along with appropriate protection for whistleblowers. The Bank may also provide rewards and incentives, the value of which is adjusted

nilainya disesuaikan dengan potensi kerugian yang berhasil dihindari. Untuk memastikan efektivitas implementasinya, sistem ini disosialisasikan kepada seluruh karyawan dan pihak eksternal agar dapat dimanfaatkan sebagai sarana pelaporan pelanggaran secara tepat dan bertanggung jawab.

- **Implementasi Sistem Manajemen Risiko**
Pada evaluasi terhadap implementasi manajemen risiko dan pengendalian internal Bank dilakukan oleh SKAI dan akan menyampaikan hasil evaluasi kepada Direktur Utama dan Dewan Komisaris. SKAI melakukan pemeriksaan secara independen dan objektif terhadap aktivitas di setiap unit kerja termasuk prosedur dan kegiatan operasional secara berkala. Efektivitas penerapan manajemen risiko yang dilakukan oleh bank telah dievaluasi secara berkala oleh Komite Pemantau Risiko berdasarkan laporan berkala yang disampaikan oleh Satuan Kerja Manajemen Risiko. Selama tahun 2025, Direksi menilai bahwa Manajemen risiko dan Pengendalian internal Bank telah berjalan secara baik dan memadai.

- **Penilaian atas Kinerja Organ Pendukung di bawah Direksi**

Sepanjang tahun 2025, enam organ pendukung di bawah Direksi Komite Aset & Liabilitas, Komite Manajemen Risiko, Komite Kredit, Komite Pengarah Teknologi Informasi, Komite Produk dan Kebijakan, serta Komite Sumber Daya Manusia menjalankan perannya sesuai dengan tugas dan kewenangan masing-masing. Melalui forum komite tersebut, berbagai kebijakan strategis, pengelolaan risiko, pengembangan produk, penguatan teknologi, serta pengelolaan sumber daya manusia dibahas dan dievaluasi secara terstruktur guna mendukung efektivitas pengambilan keputusan, penguatan tata kelola, serta pencapaian kinerja Bank yang berkelanjutan. Untuk informasi lebih lanjut tentang Komite di bawah Direksi tersedia dalam bagian Tata Kelola Perusahaan dari laporan ini, pada halaman 215 dan 252-287.

Prospek Usaha dan Strategi Tahun 2026

Dalam mewujudkan visi dan misi, Bank Maspion menetapkan arah kebijakan yang berfokus pada pertumbuhan berkelanjutan melalui perluasan kredit di segmen korporasi, termasuk perusahaan berskala besar, serta penguatan sinergi dengan KBANK untuk menjangkau nasabah Thailand dan kawasan AEC+3 yang berinvestasi di Indonesia. Strategi ini didukung oleh pengembangan solusi keuangan terintegrasi seperti *trade finance*, *foreign exchange*, dan *remittance* guna meningkatkan *fee-based income* sebagai sumber pendapatan yang lebih berkelanjutan, tanpa mengesampingkan pengembangan segmen komersial dan ritel.

Untuk mendukung arah strategis tersebut, Bank telah melakukan transformasi menyeluruh sejak tahun 2025 dan akan terus dilakukan di 2026 yang mencakup seluruh level organisasi, mencakup penguatan infrastruktur dan keamanan Teknologi Informasi, optimalisasi kinerja

based on the potential losses successfully prevented. To ensure effective implementation, this system is regularly socialized to all employees and external parties so that it can be properly and responsibly utilized as a reporting mechanism for violations.

- **Implementation of the Risk Management System**
Evaluation of the Bank's risk management and internal control implementation is conducted by the Internal Audit Unit (SKAI), which reports its findings to the President Director and the Board of Commissioners. SKAI performs independent and objective audits of activities across all work units, including procedures and operational activities, on a regular basis. The effectiveness of the Bank's risk management implementation is also periodically reviewed by the Risk Oversight Committee based on regular reports submitted by the Risk Management Unit. Throughout 2025, the Board of Directors assessed that the Bank's risk management and internal control systems were implemented properly and adequately.

- **Assessment of the Performance of Supporting Organs Under the Board of Directors**

Throughout 2025, six supporting organs under the Board of Directors the Asset & Liability Committee, Risk Management Committee, Credit Committee, Information Technology Steering Committee, Product and Policy Committee, and Human Resources Committee performed their roles in accordance with their respective duties and authorities. Through these committee forums, various strategic policies, risk management initiatives, product development, technology enhancement, and human resource management matters were discussed and evaluated in a structured manner to support effective decision-making, strengthen governance, and achieve sustainable Bank performance. Further information regarding the Committees under the Board of Directors is available in the Corporate Governance section of this report on pages 215 and 252-287.

Business Prospect and Strategy 2026

In pursuing its vision and mission, Bank Maspion has established a policy direction focused on sustainable growth through the expansion of corporate lending, including large-scale financing to sovereign institutions and state-owned enterprises (SOEs), as well as strengthening synergy with KBANK to serve Thai clients and those from the AEC+3 region investing in Indonesia. This strategy is supported by the development of integrated financial solutions such as trade finance, foreign exchange, and remittance services to enhance fee-based income as a more sustainable source of revenue, while continuing to develop the commercial and retail segments.

To support this strategic direction, the Bank has undergone a comprehensive transformation since 2025, which will continue in 2026, covering all levels of the organization, including strengthening information technology infrastructure and security, optimizing financial

finansial dan non-finansial, peningkatan kualitas layanan, efisiensi operasional, serta penguatan kepatuhan, manajemen risiko, dan tata kelola guna memastikan pertumbuhan yang lebih adaptif, terintegrasi, dan selaras dengan strategi jangka panjang Perseroan. Transformasi *Enterprise Risk Management* difokuskan pada peningkatan efisiensi proses kredit dan mitigasi NPL, sementara transformasi bisnis pada segmen *Commercial & Branch Banking* diarahkan untuk menghadirkan layanan yang lebih responsif dan bernilai tambah.

Sejalan dengan peningkatan kepemilikan KBANK Group menjadi 89,48%, Bank juga melakukan penajaman kembali *positioning brand* sebagai bagian dari proses *rebranding* strategis yang tidak hanya mencerminkan transformasi bisnis, tetapi juga memperkuat keselarasan nilai, visi, dan arah pertumbuhan KBANK sebagai *parent company*. *Rebranding* ini dirancang untuk memastikan identitas Bank semakin relevan, kompetitif, serta mampu merepresentasikan komitmen kolaborasi regional jangka panjang yang terintegrasi dan berkelanjutan.

Perubahan Komposisi Direksi Tahun 2025

Sepanjang tahun 2025, Perseroan melakukan penyesuaian komposisi jajaran Direksi sebagai bagian dari penguatan tata kelola dan penyelarasan strategi perusahaan yang telah ditetapkan sesuai dengan Rapat Umum Pemegang Saham sebagai berikut:

- Rapat Umum Pemegang Saham Luar Biasa (RUPSLB) Perseroan pada 4 Maret 2025 untuk menyetujui pengunduran diri Ivan Adrian Sumampouw selaku Direktur Kredit dan Risiko dan mengesahkan penugasaan sementara Kasemsri Charoensiddhi selaku Direktur Utama merangkap Direktur Kredit Sementara dan Iis Herijati selaku Direktur Operasional merangkap Direktur Risiko.

Produk dan Layanan

Products and Services [OJK C4] [GRI 2-6]

Di tengah percepatan perubahan digital dan semakin tingginya ekspektasi nasabah, Bank menempatkan relevansi dan keberlanjutan sebagai dua landasan utama dalam pengembangan bisnis. Seluruh inisiatif diarahkan untuk memastikan bahwa setiap produk dan layanan tidak hanya menjawab kebutuhan hari ini, tetapi juga tetap adaptif terhadap tantangan masa depan, sekaligus memperkuat peran Bank sebagai mitra pertumbuhan bagi individu, pelaku usaha, dan komunitas.

Sejalan dengan visi "Menjadi Bank pilihan yang berkelanjutan dengan konektivitas regional yang tumbuh bersama Anda," Bank membangun kapabilitasnya melalui penguatan infrastruktur digital dan integrasi layanan. Transformasi ini tidak semata berfokus pada teknologi, tetapi juga pada peningkatan kualitas pengalaman nasabah, mulai dari kemudahan akses, kecepatan layanan, hingga aspek keamanan transaksi.

Melalui pengembangan aplikasi dan *platform digital* yang saling terhubung, Bank memperluas jangkauan layanan sekaligus mendukung agenda nasional dalam mendorong inklusi keuangan dan penguatan UMKM. Dengan pendekatan tersebut, Bank tidak hanya memperkuat daya saing, tetapi juga berkontribusi pada pembentukan ekosistem keuangan yang lebih inklusif dan berkelanjutan.

Uraian produk dan layanan Bank dijelaskan sebagai berikut:

1. FUNDING

Giro

Rekening koran dalam mata uang Rupiah bagi nasabah perorangan dan perusahaan sebagai sarana bertransaksi bisnis sehari-hari dengan menggunakan cek dan bilyet giro. Informasi pada Situs Web Bank Maspion

Information on Bank Maspion's Website

Situs resmi Bank Maspion (www.bankmaspion.co.id) disusun untuk memenuhi prinsip keterbukaan, kemudahan akses, dan transparansi informasi sebagaimana diatur dalam Peraturan Otoritas Jasa Keuangan (POJK) Nomor 8/POJK.04/2015 tentang Situs Web Emiten atau Perusahaan Publik. POJK ini mewajibkan perusahaan publik menyediakan situs web resmi yang menyajikan informasi yang terbuka, aktual, dan dapat diakses oleh publik, mencakup informasi umum, informasi bagi investor, informasi tata kelola, dan informasi tanggung jawab sosial perusahaan.

Informasi Umum Perusahaan

Bank Maspion menyajikan informasi dasar yang lengkap melalui struktur menu di situsnya, antara lain: riwayat singkat, visi dan misi, nilai-nilai inti, struktur organisasi, serta prestasi perusahaan. Informasi kontak dan alamat juga tersedia, termasuk kanal layanan seperti lokasi ATM & kantor cabang serta layanan *contact center*. Hal ini sesuai dengan ketentuan POJK yang mewajibkan situs web memuat profil dan informasi dasar badan usaha secara jelas dan mudah dipahami.

Informasi bagi Investor / Publik

Situs Bank Maspion memiliki bagian Hubungan Investor yang menyediakan: informasi perusahaan, informasi pemegang saham, keterbukaan informasi dan publikasi laporan keuangan, serta laporan tata kelola. Ini membantu investor dan pemangku kepentingan lain dalam menilai kondisi finansial dan kinerja Bank Maspion secara transparan.

Informasi Tata Kelola Perusahaan

POJK mewajibkan memuat informasi tata kelola secara detail. Bank Maspion sudah menyediakan sub-menu yang memuat struktur dewan komisaris dan direksi, sekretaris perusahaan, susunan anggota komite, pedoman serta tata tertib kerja, kebijakan privasi, dan deklarasi *anti-fraud*. Ini menunjukkan komitmen bank dalam menerapkan prinsip *Good Corporate Governance* melalui keterbukaan struktur dan kebijakan internal.

Informasi Produk dan Layanan

Situs ini juga menampilkan menu luas tentang produk perbankan (tabungan, giro, deposito, kredit, *trade finance*, *remittance*) dan layanan digital, yang membantu masyarakat umum, nasabah, dan calon nasabah memahami layanan yang Bank Maspion tawarkan secara detail. Walaupun bukan bagian eksplisit utama POJK 8/2015, penyediaan informasi produk ini memperkaya transparansi yang dibutuhkan publik.

Keterbukaan Informasi Tambahan

Di bawah Hubungan Investor, Bank Maspion menyediakan tautan ke Keterbukaan Informasi yang merujuk pada status perizinan dan pengawasan oleh Otoritas Jasa Keuangan & Bank Indonesia, serta status peserta penjaminan LPS beserta ketentuan limit penjaminan simpanan, membantu publik memahami aspek legal dan risiko terkait simpanan nasabah.

Bahasa dan Aksesibilitas

Situs menyediakan pilihan bahasa Indonesia dan bahasa Inggris (EN), konsisten dengan persyaratan POJK agar informasi tersaji dalam bahasa Indonesia dan setidaknya satu bahasa asing sehingga *audience* domestik dan internasional dapat mengakses informasi yang identik dalam kedua bahasa tersebut.

The official website of Bank Maspion (www.bankmaspion.co.id) is designed to uphold the principles of information disclosure, ease of access, and transparency, as stipulated in the Financial Services Authority Regulation (POJK) Number 8/POJK.04/2015 concerning the Websites of Issuers or Public Companies. This regulation requires public companies to maintain an official website that provides open, up-to-date, and publicly accessible information, including general corporate information, investor-related information, corporate governance information, and corporate social responsibility disclosures.

General Corporate Information

Bank Maspion presents comprehensive basic information through the structured menu on its website, including a brief corporate profile, vision and mission, core values, organisational structure, and corporate achievements. Contact details and office addresses are also made available, including service channels such as ATM and branch locations as well as contact centre services. This is in line with POJK requirements mandating that company websites clearly and comprehensively disclose corporate profiles and fundamental information.

Investor / Public Information

The Bank Maspion website features an Investor Relations section that provides corporate information, shareholder information, information disclosure and the publication of financial statements, as well as corporate governance reports. This section supports investors and other stakeholders in assessing the Bank's financial condition and performance in a transparent manner.

Corporate Governance Information

POJK requires detailed disclosure of corporate governance information. Bank Maspion has provided dedicated sub-menus containing information on the structure of the Board of Commissioners and Board of Directors, the Corporate Secretary, the composition of committees, guidelines and rules of procedure, privacy policies, and anti-fraud declarations. This reflects the Bank's commitment to implementing the principles of Good Corporate Governance through transparency in its organisational structure and internal policies.

Product and Service Information

This website also features a comprehensive menu of banking products (savings accounts, checking accounts, time deposits, loans, trade finance, and remittances) and digital services, which help the general public, customers, and prospective customers understand the services offered by Bank Maspion in detail. Kondisi Ekonomi Makro dan Industri Perbankan Tahun 2025

Macro Economic Condition and Banking Industry in 2025

Pada tahun 2025, perekonomian global tumbuh dengan moderat meskipun menghadapi ketidakpastian yang tinggi akibat dinamika geopolitik dan kebijakan perdagangan internasional. Dana Moneter Internasional (IMF) memperkirakan pertumbuhan ekonomi dunia sekitar 3,2% pada 2025, sedikit menurun dari tahun sebelumnya, yang mencerminkan perlambatan di beberapa negara maju dan pertumbuhan yang lebih stabil di negara berkembang.

Beberapa tantangan makroekonomi global termasuk tekanan inflasi yang belum sepenuhnya mereda di beberapa negara, risiko penyempitan perdagangan, serta dampak kebijakan proteksionisme. Sementara itu, sektor teknologi, khususnya investasi dalam kecerdasan buatan, menjadi pendorong pertumbuhan di negara-negara berpenghasilan tinggi, meski risiko dari geopolitik dan gangguan rantai pasok tetap ada.

Di Indonesia, perekonomian tetap menunjukkan resiliensi di tengah dinamika global. Data dari Badan Pusat Statistik (BPS) mencatat bahwa pertumbuhan ekonomi Indonesia pada triwulan III-2025 mencapai sekitar 5,04% (y-o-y), mencerminkan stabilitas aktivitas ekonomi domestik dengan kontribusi kuat dari konsumsi dan investasi.

Bank Indonesia (BI) mempertahankan suku bunga kebijakan (BI-Rate) pada 4,75% hingga akhir 2025 untuk menstabilkan nilai tukar dan mendukung pertumbuhan ekonomi, setelah serangkaian penurunan suku bunga sepanjang tahun untuk mendorong likuiditas dan kredit. Inflasi Indonesia berada dalam kisaran target BI (sekitar $2,5\% \pm 1\%$), mencerminkan kondisi harga yang terjaga meskipun tekanan global masih ada. Pemerintah Indonesia juga meluncurkan kebijakan baru terkait pengelolaan devisa bagi eksportir komoditas strategis untuk memperkuat likuiditas valuta asing dan stabilitas rupiah, di tengah tekanan dolar AS yang relatif kuat.

In 2025, the global economy grew at a moderate pace despite heightened uncertainty arising from geopolitical dynamics and international trade policies. The International Monetary Fund (IMF) projected global economic growth of approximately 3.2% in 2025, slightly lower than the previous year, reflecting a slowdown in several advanced economies alongside more stable growth in emerging markets.

Global macroeconomic challenges persisted, including inflationary pressures that had not fully subsided in some countries, risks of trade fragmentation, and the impact of protectionist policies. Meanwhile, the technology sector, particularly investment in artificial intelligence, continued to act as a key growth driver in high-income economies, although geopolitical risks and supply chain disruptions remained ongoing concerns.

In Indonesia, the economy continued to demonstrate resilience amid global dynamics. Data from Statistics Indonesia (BPS) recorded Indonesia's economic growth in the third quarter of 2025 at approximately 5.04% year-on-year, reflecting stable domestic economic activity supported by strong contributions from household consumption and investment.

Bank Indonesia (BI) maintained its policy interest rate (BI-Rate) at 4.75% through the end of 2025 to stabilise the exchange rate and support economic growth, following a series of rate cuts earlier in the year aimed at boosting liquidity and credit expansion. Inflation remained within BI's target range (around $2.5\% \pm 1\%$), indicating well-managed price stability despite ongoing global pressures. In addition, the Government of Indonesia introduced new policies on foreign exchange management for exporters of strategic commodities to strengthen foreign currency liquidity and support rupiah stability amid a relatively strong US dollar.

Meskipun pertumbuhan tetap solid, pasar keuangan domestik sempat mengalami volatilitas akibat ketidakpastian pasar global dan faktor politik domestik yang mempengaruhi sentimen investor. Tekanan terhadap nilai tukar rupiah dan pergerakan pasar saham menjadi perhatian regulator untuk menjaga stabilitas sistem keuangan. Secara keseluruhan, perekonomian Indonesia menunjukkan ketahanan yang kuat didukung oleh permintaan domestik, kebijakan moneter yang adaptif, dan koordinasi antara pemerintah dan otoritas keuangan, sehingga berkontribusi pada stabilitas makroekonomi secara umum.

Sepanjang tahun 2025, industri perbankan Indonesia menunjukkan kinerja yang stabil meskipun menghadapi tantangan makroekonomi global dan domestik. Otoritas Jasa Keuangan (OJK) melaporkan bahwa kredit perbankan terus tumbuh dengan profil risiko yang terjaga, meskipun laju pertumbuhan sedikit melambat dibandingkan periode sebelumnya. Pada Oktober 2025, pertumbuhan kredit tercatat sekitar 7,36% y-o-y menjadi sekitar Rp8.220 triliun.

Penghimpunan Dana Pihak Ketiga (DPK) juga menunjukkan pertumbuhan yang solid sepanjang 2025, mencerminkan kepercayaan masyarakat terhadap perbankan. Per Oktober 2025, DPK tumbuh sekitar 11,48% y-o-y menjadi hampir Rp9.756 triliun.

Kualitas aset perbankan tetap terjaga, ditunjukkan oleh rasio *Non-Performing Loan* (NPL) *gross* yang rendah sekitar 2,25%–2,28%, serta NPL *net* yang berada di bawah 1%, mencerminkan pengelolaan risiko kredit yang *prudent*. Likuiditas perbankan juga berada pada level aman, dengan rasio Alat Likuid terhadap DPK dan LCR jauh di atas *threshold* minimum, mendukung kemampuan bank dalam merespon tekanan likuiditas.

Industri perbankan Indonesia menunjukkan permodalan yang sehat dengan *Capital Adequacy Ratio* (CAR) tinggi, memberikan *buffer* yang cukup untuk menghadapi risiko eksternal. OJK mencatat CAR industri perbankan berada di level yang kuat, menunjukkan kemampuan perbankan menghadapi tekanan. Sinergi antara BI, OJK, dan lembaga keuangan lainnya melalui Komite Stabilitas Sistem Keuangan (KSSK) menjadi pilar penting dalam menjaga stabilitas sektor jasa keuangan, terutama di tengah risiko global yang terus berubah. Walaupun pertumbuhan kredit tetap positif, ada indikasi perlambatan dalam beberapa segmen kredit UMKM, yang mencerminkan tantangan dalam pemulihan kredit usaha kecil dan menengah di tengah siklus ekonomi yang moderat.

Despite solid economic growth, domestic financial markets experienced periods of volatility driven by global market uncertainty and domestic political factors affecting investor sentiment. Pressures on the rupiah exchange rate and equity market movements became key areas of regulatory focus to safeguard financial system stability. Overall, Indonesia's economy demonstrated strong resilience, supported by domestic demand, adaptive monetary policy, and close coordination between the Government and financial authorities, contributing to broader macroeconomic stability.

Throughout 2025, Indonesia's banking industry delivered stable performance despite global and domestic macroeconomic challenges. The Financial Services Authority (OJK) reported that bank lending continued to grow with a well-maintained risk profile, although the pace of growth moderated compared with the previous period. As of October 2025, credit growth stood at approximately 7.36% year-on-year, reaching around Rp8,220 trillion.

The mobilisation of Third-Party Funds (DPK) also recorded solid growth throughout 2025, reflecting sustained public confidence in the banking sector. As of October 2025, DPK grew by approximately 11.48% year-on-year to nearly Rp9,756 trillion.

Banking asset quality remained well preserved, as reflected in a low gross Non-Performing Loan (NPL) ratio of around 2.25%–2.28%, with net NPLs below 1%, indicating prudent credit risk management. Banking sector liquidity also remained at a safe level, with the Liquid Assets to DPK ratio and the Liquidity Coverage Ratio (LCR) well above the minimum regulatory thresholds, supporting banks' capacity to respond to liquidity pressures.

Indonesia's banking industry continued to exhibit strong capitalisation, supported by a high Capital Adequacy Ratio (CAR), providing sufficient buffers against external risks. OJK noted that the industry's CAR remained at a robust level, demonstrating the banking sector's resilience in absorbing potential shocks. Synergy among BI, OJK, and other financial authorities through the Financial System Stability Committee (KSSK) served as a key pillar in maintaining financial sector stability, particularly amid evolving global risks. While overall credit growth remained positive, signs of moderation were observed in certain MSME lending segments, reflecting ongoing challenges in the recovery of small and medium-sized enterprises amid a more moderate economic cycle.

Funding Segment

Pada tahun 2025, Bank membukukan dana pihak ketiga sebesar Rp11.849.990 juta dengan komposisi terbesar berasal dari deposito sebesar 72,84%, diikuti oleh giro dan tabungan masing-masing sebesar 17,36% dan 9,80%. Dibandingkan dengan tahun 2024 dengan total dana pihak ketiga sebesar Rp13.250.062 juta, terdapat penurunan dana sebesar 10,57%. Penurunan dana terutama terjadi pada *portfolio* deposito. Penurunan dana tersebut sejalan dengan kebutuhan dan strategi Bank untuk menjaga *cost of fund* dengan mendapatkan sumber dana murah. Hal tersebut nampak pada peningkatan giro dan tabungan yang masing-masing meningkat sebesar 5,76% dan 10,92%. Penurunan dana tersebut tidak berpengaruh terhadap likuiditas Bank yang masih terjaga dengan baik.

In 2025, the Bank recorded third-party funds of Rp11,849,990 million, with the largest composition coming from deposits at 72.84%, followed by current accounts and savings accounts at 17.36% and 9.80%, respectively. Compared to 2024, with total third-party funds of Rp13,250,062 million, there was a decrease of 10.57%. The decrease in funds primarily occurred in the deposit portfolio. This decrease in funds was in line with the Bank's need and strategy to maintain the cost of funds by obtaining low-cost funding sources. This could be seen in the increase in current accounts and savings accounts, which increased by 5.76% and 10.92%, respectively. The decrease in funds did not affect the Bank's liquidity, which is still well maintained.

Peningkatan tersebut terutama disebabkan oleh kenaikan aset produktif dalam bentuk kredit yang diberikan (*bruto*) sebesar Rp905.078 juta dan peningkatan efek-efek yang dijual dengan janji dibeli kembali sebesar Rp681.120 juta.

The Bank's total assets at the end of 2025 were recorded at Rp22,416,232 million, an increase of Rp111,183 million or 0.50% compared to the end of 2024 of Rp22,305,049 million. The increase was mainly due to an increase in productive asset in the form of loans (*gross*) of Rp905.078 million and an increase in securities sold under agreements to repurchase of Rp681,120 million.

Giro pada Bank Indonesia

Pada tahun 2025, giro pada Bank Indonesia meningkat 24,88% atau Rp206.983 juta dari Rp831.847 juta di tahun 2024 menjadi Rp1.038.830 juta. Seiring dengan hal tersebut, rasio GWM juga mengalami peningkatan dari 6,31% di tahun 2024 menjadi 7,44% di tahun 2025. Kondisi ini menunjukkan bahwa Bank memiliki kecukupan likuiditas dalam mendukung stabilitas sistem perbankan.

Current Accounts with Bank Indonesia

In 2025, current accounts with Bank Indonesia increased by 24.88% or Rp206,983 million from Rp831,847 million in 2024 to Rp1,038,830 million. In line with this, the GWM ratio also increased from 6.31% in 2024 to 7.44% in 2025. This condition indicated that the Bank had sufficient liquidity to support the stability of the banking system.

Giro pada Bank Lain - Bersih

Pada tahun 2025, giro pada bank lain - bersih meningkat 86,95% atau Rp126.289 juta dari Rp145.241 juta di tahun 2024 menjadi Rp271.530 juta di tahun 2025. Peningkatan tersebut terjadi karena adanya penempatan dana dengan tujuan lebih mengoptimalkan penghasilan yang diterima.

Current Accounts with Other Banks – Net

In 2025, current accounts with other banks - net increased by 86.95% or Rp126,289 million from Rp145,241 million in 2024 to Rp271,530 million in 2025. This increase occurred due to the placement of funds with the aim of further optimizing the income received.

Penempatan pada Bank Indonesia dan Bank Lain - Bersih

Bank menempatkan sebagian likuiditas dalam bentuk deposito berjangka bank lain sebesar Rp99.940 juta pada tahun 2025 yang menurun sebesar Rp49.962 juta dibandingkan tahun 2024 sebesar Rp49.978 juta. Selain itu, Bank juga menempatkan dana dalam bentuk Fasilitas Simpanan Bank Indonesia (FASBI) yang bersifat harian pada tahun 2024 sebesar Rp166.476 juta. Penurunan penempatan pada tahun berjalan terutama disebabkan oleh pengalihan dana untuk penyaluran kredit.

Efek-efek

Dalam upaya mengoptimalkan imbal hasil yang diterima serta menjaga keseimbangan antara posisi likuiditas dan profitabilitas Bank, selama tahun 2025, Bank menempatkan sebagian besar likuiditas yang dimiliki ke efek-efek berupa Surat Utang Negara (SUN) dan Sekuritas Rupiah Bank Indonesia (SRBI). Efek-efek untuk tujuan investasi terdiri dari Surat Utang Negara (SUN) yang dimiliki hingga jatuh tempo dengan jangka waktu lebih dari 12 bulan, sedangkan Sekuritas Rupiah Bank Indonesia (SRBI) dimiliki hingga jatuh tempo dengan jangka waktu 2 sampai 6 bulan. Efek-efek yang dimiliki oleh Bank bersifat likuid dan berisiko rendah.

Pada tahun 2025, efek-efek Bank menurun sebesar Rp1.203.184 juta atau 39,90% dari Rp3.015.139 juta di tahun 2024 menjadi Rp1.811.955 juta di tahun 2025. Hal ini terjadi karena adanya penjualan Sekuritas Rupiah Bank Indonesia (SRBI) dan Surat Utang Negara (SUN) di tahun berjalan dan adanya sebagian efek-efek yang dijual dengan janji dibeli kembali. Seluruh efek yang dimiliki oleh Bank termasuk dalam kategori lancar dan diklasifikasikan sebagai efek-efek yang diukur pada biaya perolehan diamortisasi dan diukur pada nilai wajar melalui penghasilan komprehensif lain. Bank tidak memiliki efek-efek pada pihak berelasi.

Efek-efek yang Dijual dengan Janji Dibeli Kembali

Pada tahun 2025, terdapat sebagian dari efek-efek yang dimiliki Bank dalam bentuk Sekuritas Rupiah Bank Indonesia (SRBI) yang dijual dengan janji dibeli kembali sebesar Rp681.120 juta dengan jangka waktu di bawah 1 tahun.

Tagihan Spot dan Derivatif

Bank melakukan transaksi derivatif secara aktif dengan tujuan mengelola eksposur pada risiko pasar, terutama risiko mata uang. Pada akhir tahun 2025, nilai transaksi *spot*, *forward*, dan *swap* mata uang asing tercatat mencapai Rp2.264.100 juta. Sementara itu, nilai tagihan dan kewajiban derivatif pada tahun 2025 dibukukan masing-masing sebesar Rp5.007 juta dan Rp6.770 juta.

Placements with Bank Indonesia and Other Banks - Net

Bank placed some of its liquidity in the form of other banks term deposit amounting to Rp99,940 million in 2025, a decrease of Rp49,962 million compared to Rp49,978 million in 2024. Moreover, the Bank also placed funds in the form of a daily Bank Indonesia Deposit Facility (FASBI) in 2024 amounting to Rp166,476 million. The decrease in placements in the current year was primarily due to the transfer of funds for loan disbursement.

Marketable Securities

To optimize the returns received and maintain a balance between the Bank's liquidity and profitability positions, during 2025, the Bank placed most of its liquidity in marketable securities in the form of Government Securities (SUN) and Bank Indonesia Rupiah Securities (SRBI). Marketable securities for investment purposes consist of Government Securities (SUN) with maturities of more than 12 months, meanwhile, Bank Indonesia Rupiah Securities (SRBI) are held to maturity with a term of 2 until 6 months. Securities owned by the Bank are liquid and low risk.

In 2025, the Bank's marketable securities decreased by Rp1,203,184 million or 39.90% from Rp3,015,139 million in 2024 to Rp1,811,955 million in 2025. This occurred due to the sale of Bank Indonesia Rupiah Securities (SRBI) and Government Securities (SUN) in the current year and there were some securities sold under agreements to repurchase. All securities held by the Bank are categorized as current and classified as securities measured at amortized cost and measured at fair value through other comprehensive income. The Bank has no securities in related parties.

Securities Sold under Agreements to Repurchase

In 2025, some of the securities owned by the Bank were in the form of Bank Indonesia Rupiah Securities (SRBI) which were sold with a repurchase agreement amounting to Rp681,120 million with a term of less than 1 year.

Spot and Derivative Receivables

Pada tahun 2025, Bank mencatatkan kredit yang diberikan sebesar Rp17.343.332 juta, naik dibandingkan dengan tahun sebelumnya yang tercatat sebesar Rp16.438.254 juta. Peningkatan penyaluran kredit terutama kepada pihak ketiga dan difokuskan pada sektor-sektor produktif yang tercermin dari *portfolio* modal kerja yang berkontribusi sebesar 87,69%.

In 2025, Bank recorded loans of Rp17,343,332 million, increased compared to the previous year, which was recorded at Rp16,438,254 million. The increase in loan disbursements was dominated by loans to third parties and focused on productive sectors reflected in the working capital portfolio, which contributed 87.69%.

Sejalan dengan peningkatan penyaluran kredit, Bank menjaga kualitas masing-masing aset sesuai dengan prinsip kehati-hatian dengan membentuk Cadangan Kerugian Penurunan Nilai (CKPN) sekaligus mengantisipasi kerugian apabila terjadi penurunan nilai aset keuangan. CKPN yang telah dibentuk oleh Bank pada tahun 2025 adalah sebesar Rp322.830 juta. Cadangan tersebut dinilai cukup untuk menutupi kemungkinan tidak tertagihnya kredit yang diberikan.

In line with the increase in loan disbursement, the Bank maintains the quality of each asset in accordance with prudential principles by forming Allowance for Impairment Losses (CKPN) and anticipating losses should there be an impairment of financial assets. The allowance for impairment losses formed by the Bank in 2025 was Rp322,830 million. The provision is considered adequate to cover the possibility of uncollectible loans.

Total pendapatan bunga Bank tercatat mengalami penurunan sebesar Rp25.477 juta atau 1,68% dari tahun 2024. Pendapatan bunga kredit memberikan kontribusi sebesar 73,12% dari total pendapatan bunga Bank. Walaupun *outstanding* kredit yang diberikan meningkat, namun pendapatan bunga kredit menurun sebesar 6,48% dari tahun sebelumnya. Penurunan tersebut disebabkan oleh penurunan rata-rata suku bunga kredit dengan tujuan untuk menunjang target Bank guna meningkatkan *portfolio* kredit di segmen korporasi. Hal tersebut menunjukkan hasil dengan meningkatnya kredit segmen korporasi sebesar 32,11%.

The Bank's total interest income decreased by Rp25,477 million or 1.68% compared to 2024. Loans interest income contributed 73.12% of the Bank's total interest income. Despite an increase in outstanding loans, but loan interest income decreased by 6.48% compared to the previous year. The decline was driven by a decrease in the average loan interest rate, aimed at supporting the Bank's target of increasing its loan portfolio in the corporate segment. This resulted in an increase in corporate segment loans by 32.11%.

Pengelolaan *Assets Liabilities Management* secara tepat khususnya alokasi penempatan pada Bank Indonesia, pada bank lain maupun efek-efek berdasarkan kebutuhan likuiditas dengan tetap mengoptimalkan pendapatan yang akan diterima oleh Bank menyebabkan peningkatan pendapatan bunga dari sumber selain kredit yang tercatat meningkat sebesar Rp49.927 juta atau 14,26%.

Proper *Assets Liabilities Management*, especially the placement of assets within Bank Indonesia, other banks, and marketable securities based on the liquidity needs while optimizing the income to be received by the Bank, has resulted in an increase in interest income from sources other than loans, which was recorded as increasing by Rp49,927 million or 14.26%.

Bank mencatat beban bunga pada akhir tahun 2025 sebesar Rp811.566 juta meningkat sebesar 1,31% dibanding tahun 2024. Sebesar 83,41% dari komponen beban bunga berasal dari beban bunga dana pihak ketiga yang meningkat sebesar 4,31% dari Rp648.966 juta menjadi Rp676.919 juta. Peningkatan *cost of fund* terutama dikontibusi oleh beban bunga deposito sebesar 2,63%. Namun sejalan dengan strategi Bank untuk lebih fokus mendapatkan dana murah maka *outstanding* deposito cenderung menurun dan sebaliknya terjadi peningkatan pada giro dan tabungan yang berdampak terhadap peningkatan beban bunga giro dan tabungan masing-masing sebesar 22,77% dan 4,38%.

Beban bunga simpanan dari bank lain menurun sebesar Rp29.631 juta atau sebesar 24,20% yang sejalan dengan penurunan jumlah dan suku bunga simpanan dari bank lain. Di sisi lain, Bank juga melakukan transaksi repo dan penarikan pinjaman bilateral di akhir tahun 2025. Hal ini menyebabkan beban bunga terkait efek-efek yang dijual dengan janji dibeli kembali dan pinjaman yang diterima meningkat masing-masing sebesar Rp1.890 juta dan Rp1.850 juta.

The Bank recorded interest expense at the end of 2025 of Rp811,566 million, an increase of 1.31% compared to 2024. 83.41% of the interest expense component came from third-party fund interest expense, which increased by 4.31% from Rp648,966 million to Rp676,919 million. The increase in cost of funds was primarily contributed by deposit interest expense of 2.63%. However, in line with the Bank's strategy to focus more on obtaining low-cost funds, the outstanding deposits tended to decline, while there was an increase in current accounts and savings accounts, which resulted in an increase in current account and savings interest expense of 22.77% and 4.38%, respectively.

Other banks deposit interest expenses decreased by Rp29,631 million or 24.20% which was in line with the decrease in the outstanding and interest rates of other banks deposits. On the other side, the Bank also conducted repo transactions and bilateral loan withdrawals at the end of 2025. This caused interest expenses related to securities sold under agreements to repurchase and borrowings to increase by Rp1,890 million and Rp1,850 million, respectively.

Komposisi Beban Bunga

Interest Expense Composition

Pendapatan Bunga Bersih

Penurunan pendapatan bunga dan peningkatan beban bunga mengakibatkan penurunan pendapatan bunga bersih sebesar 5,04% dibandingkan tahun 2024. Namun, Bank tetap berusaha mengoptimalkan pendapatan bunga bersih dengan meningkatkan target penyaluran kredit dengan sumber pendanaan murah. Selain hal tersebut atas kelebihan likuiditas, Bank juga mengoptimalkan pendapatan dengan pembelian efek-efek.

Net Interest Income

The decline in interest income and the increase in interest expense resulted in a decrease in net interest income by 5.04% compared to 2024. However, the Bank continued to strive to optimize net interest income by increasing its lending target with low-cost funding sources. In addition to excess liquidity, the Bank also optimized income by purchasing securities.

Sepanjang tahun 2025, Industri perbankan Indonesia menunjukkan tren perlambatan pertumbuhan, yang tercermin dari pertumbuhan kredit yang berada pada level *single* digit selama beberapa bulan berturut-turut. Perlambatan ini dipengaruhi oleh kombinasi faktor global dan domestik, antara lain melambatnya penurunan suku bunga *The Fed* dan fenomena “makan tabungan” yang masih terus berlanjut.

Throughout 2025, Indonesia’s banking industry showed a slowdown in growth, reflected in credit growth remaining at the single-digit level for several consecutive months. This slowdown was influenced by a combination of global and domestic factors, including the slower pace of interest rate cuts by the Federal Reserve and the continued “eating into savings” phenomenon, where households rely on existing savings to sustain consumption.

Ditengah ketidakpastian global dan perlambatan industri perbankan nasional, kinerja Bisnis Bank sepanjang tahun 2025 mencerminkan capaian yang positif dan *resilience*, mencerminkan kemampuan Bank dalam mempertahankan pertumbuhan yang sehat. Dari sisi penyaluran kredit, Bank berhasil menyalurkan kredit hingga akhir tahun 2025 yang terealisasi sebesar Rp17.343.332 juta, tercapai 105,33% dari rencana bisnis Bank dan tumbuh sebesar Rp905.078 juta, dari posisi akhir tahun 2024 sebesar Rp16.438.254 juta. Berdasarkan jenis penggunaannya, realisasi penyaluran kredit masih sesuai dengan kebijakan Bank untuk fokus pada pembiayaan sektor-sektor produktif dengan *portfolio* tertinggi adalah kredit modal kerja sebesar 87,69% diikuti oleh kredit investasi sebesar 11,79% dan kredit konsumsi sebesar 0,52%.

Amid global uncertainty and the moderation of the national banking industry, the Bank’s business performance in 2025 demonstrated positive results and resilience, reflecting the Bank’s ability to maintain healthy growth. From the lending perspective, the Bank successfully disbursed Rp17,343,332 million in loans by the end of 2025, achieving 105.33% of the Bank’s business plan and increasing by Rp905,078 million compared to Rp16,438,254 million at the end of 2024. Based on loan utilization, the composition remained aligned with the Bank’s policy of prioritizing financing for productive sectors, with the largest portion consisting of working capital loans at 87.69%, followed by investment loans at 11.79%, and consumer loans at 0.52%.

Dari sisi pendanaan, Dana Pihak Ketiga Bank pada akhir tahun 2025 tercatat sebesar Rp11.849.990 juta atau tercapai 88,91% dari rencana bisnis Bank sebesar Rp13.327.502 juta, tidak tercapainya Dana Pihak Ketiga yakni pada Deposito. Dana Pihak Ketiga Bank juga mengalami penurunan sebesar 10,57% atau sebesar Rp1.400.072 juta, terutama pada Deposito. Pertumbuhan Dana Pihak Ketiga mengalami perlambatan seiring dengan masih berlangsungnya kompetisi penghimpunan dana di industri perbankan, terutama dana dalam bentuk deposito, namun Bank berhasil melakukan peningkatan sumber dana murah dalam bentuk CASA yang tercermin pada pertumbuhan giro dan tabungan masing – masing sebesar 5,76% dan 10,92%.

From the funding side, the Bank’s Third-Party Funds (TPF) at the end of 2025 were recorded at Rp11,849,990 million, representing 88.91% of the Bank’s business plan target of Rp13,327,502 million. The shortfall in TPF was mainly attributable to time deposits, which also contributed to the overall decline in TPF. Compared to the previous year, TPF decreased by 10.57% or Rp1,400,072 million, primarily due to a decline in deposits. The slowdown in TPF growth occurred amid intense competition for fund mobilization across the banking industry, particularly funds in the form of deposits, the Bank successfully increased its low-cost funding sources in the form of CASA, as reflected in the growth of checking accounts and

Dengan kondisi tersebut, rasio CASA Bank pada akhir Desember 2025 tercapai sebesar 27,16% meningkat 4,58% dari tahun 2024 sebesar 22,58%. Kondisi tersebut juga telah sejalan dengan strategi Bank untuk menjaga *cost of fund* pada level lebih rendah. Dengan pencapaian penyaluran kredit dan Dana Pihak ketiga Bank, realisasi *Loan to Deposit ratio* (LDR) Bank pada akhir tahun 2025 terealisasi sebesar 146,36%. Namun hal tersebut tidak berdampak terhadap likuiditas Bank.

Dari sisi profitabilitas, realisasi pendapatan bunga Bank hingga akhir 2025 terealisasi sebesar Rp1.488.088 juta atau tercapai 96,37% dari rencana bisnis Bank sebesar Rp1.554.220 juta. Realisasi pendapatan bunga juga mengalami penurunan sebesar 1,84% atau sebesar Rp27.556 juta. Hingga akhir tahun 2025, Bank mencatat laba sebelum pajak sebesar Rp47.454 juta atau tercapai 146,56% dari rencana bisnis Bank sebesar Rp32.379 juta. Pencapaian laba sebelum pajak Bank pada tahun 2025 menunjukkan keberhasilan langkah pemulihan kinerja dibandingkan kondisi rugi pada tahun sebelumnya. Perbaikan kinerja ini didorong oleh pengelolaan biaya operasional yang lebih optimal.

Keberhasilan dalam mencatatkan laba pada tahun 2025 memperkuat rasio profitabilitas yang tercermin dari membaiknya rasio ROA dan ROE Bank, yang terealisasi masing-masing sebesar 0,21% dan 0,51%. *Net Interest Margin* (NIM) terealisasi sebesar 3,45% di bawah rencana bisnis Bank sebesar 3,55% dan mengalami penurunan dibandingkan tahun sebelumnya, hal tersebut seiring dengan pertumbuhan kredit yang lebih terkonsentrasi pada akhir tahun dan penurunan biaya dana yang baru mulai terlihat pada periode yang sama.

Momentum perbaikan kinerja juga tercermin pada rasio BOPO dan CIR yang terealisasi di bawah rencana bisnis Bank dan telah mengalami penurunan dari tahun sebelumnya. Perbaikan pada BOPO dan CIR menandakan penguatan efisiensi biaya operasional yang lebih optimal. Dari sisi kualitas kredit Bank, rasio NPL *gross* tercatat 2,26% di bawah rencana bisnis Bank yakni sebesar 2,83% dan telah mengalami penurunan dibandingkan tahun sebelumnya. Pada sisi permodalan, rasio kecukupan modal (CAR) Bank tercapai sebesar 45,76% berada di atas rencana kerja sebesar 42,90%.

savings accounts by 5.76% and 10.92%, respectively. Under these conditions, the Bank's CASA ratio as of the end of December 2025 reached 27.16%, an increase of 4.58% points from 22.58% in 2024. This development is also in line with the Bank's strategy to maintain the cost of funds at a lower level. With the achievement of the Bank's credit disbursement and third-party funds, the Bank's Loan-to-Deposit Ratio (LDR) at the end of 2025 stood at 146.36%. However, this did not impact the Bank's liquidity.

From a profitability perspective, the Bank recorded interest income of Rp1,488,088 million by the end of 2025, achieving 96.37% of the business plan target of Rp1,554,220 million. Interest income declined slightly by 1.84% or Rp27,556 million compared to the previous year. By the end of 2025, the Bank recorded a profit before tax of Rp47,454 million, equivalent to 146.56% of the Bank's business plan target of Rp32,379 million. The achievement of profit before tax in 2025 reflects the successful recovery of the Bank's performance compared to the loss recorded in the previous year. This improvement was primarily driven by more effective operational cost management.

The Bank's return to profitability in 2025 also strengthened its profitability ratios, as reflected in the improvement of ROA and ROE, which were recorded at 0.21% and 0.51%, respectively. The Net Interest Margin (NIM) was realized at 3.45%, slightly below the Bank's business plan target of 3.55%, and lower than the previous year. This was mainly due to credit growth being concentrated toward the end of the year, while the decline in the cost of funds only began to materialize during the same period.

The improvement in performance was also reflected in the BOPO and CIR ratios, which were realized below the Bank's business plan targets and declined compared to the previous year. The improvement in these ratios indicates stronger operational cost efficiency. In terms of asset quality, the Bank's gross NPL ratio was recorded at 2.26%, lower than the Bank's business plan target of 2.83%, and also improved compared to the previous year. From a capital perspective, the Bank's Capital Adequacy Ratio (CAR) reached 45.76%, exceeding the target set in the Bank's work plan of 42.90%.

Proyeksi Tahun 2026

Projection in 2026

Dengan mempertimbangkan kondisi global dan domestik serta melihat pada pencapaian bisnis Bank pada tahun 2025, Bank akan terus memanfaatkan momentum pertumbuhan yang positif untuk memperkuat kinerja di tahun 2026. Bank akan fokus pada pengembangan lebih lanjut di sektor kredit, peningkatan kualitas layanan kepada nasabah, serta pengelolaan risiko yang lebih baik. Berikut adalah target dan proyeksi Bank untuk tahun 2026:

Taking into account global and domestic conditions and looking at the Bank's business achievements in 2025, the Bank will continue to capitalize on the positive growth momentum to strengthen its performance in 2026. The Bank will focus on further expansion in the lending sector, improving the quality of customer service, and enhancing risk management. The following are the Bank's targets and projections for 2026:

Bank memproyeksikan pertumbuhan kredit yang tumbuh sebesar $\pm 25\%$ pada tahun 2026, dengan fokus utama pada segmen korporasi. Sementara pada sisi pendanaan, pertumbuhan Dana Pihak Ketiga Bank diproyeksikan relatif stagnan, karena Bank memprioritaskan sumber pendanaan yang lebih murah melalui dukungan pinjaman dari *parent company*. Strategi ini diharapkan mampu menjaga efisiensi struktur biaya dana (*cost of fund*) serta mendukung ekspansi kredit yang berkelanjutan.

The Bank projects credit growth of approximately $\pm 25\%$ in 2026, with a primary focus on the corporate segment. On the funding side, the Bank expects Third-Party Funds (TPF) growth to remain relatively stagnant, as the Bank prioritizes lower-cost funding sources through loan support from its parent company. This strategy is expected to maintain the efficiency of the Bank's cost of funds structure while supporting sustainable credit expansion.

Meskipun pertumbuhan dana yang diproyeksikan relatif stagnan, Bank akan terus mendorong peningkatan komposisi dana murah (CASA) melalui penguatan berbagai inisiatif strategis antara lain dengan pendekatan *tacticals program* seperti yang telah dijalankan pada 2025, guna menjaga efisiensi struktur pendanaan.

Despite the relatively stagnant funding growth projection, the Bank will continue to increase the proportion of low-cost funds (CASA) by strengthening several strategic initiatives, including the implementation of tactical programs similar to those carried out in 2025, in order to maintain an efficient funding structure.

Dari sisi penyaluran kredit dan dalam rangka pemenuhan Rasio Pembiayaan Inklusif Makroprudensial (RPIM), Bank tidak hanya akan menyalurkan kredit kepada pelaku UMKM secara langsung, namun Bank juga akan menyalurkan kredit melalui skema pemberian kredit melalui rantai pasok kepada badan usaha non-UMKM selain Lembaga Jasa Keuangan yang disalurkan untuk membiayai UMKM, pembiayaan inklusif kepada Perorangan Berpenghasilan Rendah (PBR), pemberian kredit kepada pengembang perumahan non-UMKM yang disalurkan untuk membiayai proyek pembangunan rumah sederhana dan/atau rumah sangat sederhana dan/atau pembelian rumah sederhana dan/atau rumah sangat sederhana oleh masyarakat dengan pembayaran bertahap kepada pengembang, serta pembiayaan kepada UMKM melalui Lembaga Jasa Keuangan BPR / BPRS & Lembaga Jasa Keuangan Non-Bank dan Perusahaan Pembiayaan (*Finance Company*).

Dalam rangka mencapai target yang telah ditetapkan sebagaimana tertuang dalam Rencana Bisnis Bank 2026-2028, Bank menetapkan fokus strategis pada tahun 2026 guna mendorong pertumbuhan bisnis yang berkelanjutan sebagai berikut:

1. Perluasan Kredit bagi Nasabah Korporasi dan Peningkatan Fee-Based Income

Bank Maspion akan memperluas portofolio kredit dengan fokus pada segmen korporasi, dengan memanfaatkan pemberian kredit berskala besar serta penguatan sinergi dengan Kasikornbank (KBANK) untuk menjangkau nasabah Thailand dan AEC+3 yang berinvestasi di Indonesia.

Pertumbuhan bisnis ini akan didukung dengan solusi keuangan yang terintegrasi, seperti *trade finance*, *foreign exchange* (forex), dan *remittance*, guna meningkatkan pendapatan berbasis komisi (*fee-based income*) sebagai sumber pendapatan yang lebih berkelanjutan. Namun, meskipun fokus utama terletak pada segmen korporasi, Bank tetap berkomitmen untuk tetap mengembangkan segmen komersial dan retail.

2. Transformasi Kapabilitas di Seluruh Level Organisasi

Dalam upaya mendorong pertumbuhan bisnis yang berkelanjutan, Bank juga secara proaktif melakukan transformasi menyeluruh di seluruh tingkatan organisasi. Transformasi ini bertujuan untuk memperkuat kapabilitas internal serta meningkatkan daya saing di tengah dinamika industri perbankan yang terus berkembang. Fokus utama transformasi diarahkan pada beberapa area strategis.

From the lending perspective and in support of fulfilling the Macroprudential Inclusive Financing Ratio (RPIM), the Bank will not only extend credit directly to MSMEs, but will also channel financing through supply chain financing schemes to non-MSME business entities (excluding financial institutions), where such financing is intended to support MSMEs. In addition, the Bank will provide inclusive financing to low-income individuals, extend credit to non-MSME housing developers for the development of simple and very simple housing projects, as well as for the purchase of such housing units by the public through installment payments to developers. The Bank will also provide financing to MSMEs through Rural Banks (BPR/BPRS), non-bank financial institutions, and finance companies.

In order to achieve the targets set forth in the Bank's 2026–2028 Business Plan, the Bank has established the following strategic priorities for 2026 to drive sustainable business growth:

1. Expansion of Credit for Corporate Customers and Increase in Fee-Based Income

Bank Maspion will expand its loan portfolio with a focus on the corporate segment, leveraging large-scale lending and strengthening synergies with Kasikornbank (KBANK) to reach Thai and AEC+3 customers investing in Indonesia.

This business growth will be supported by integrated financial solutions, such as trade finance, foreign exchange (forex), and remittance services, to increase fee-based income as a more sustainable revenue source. However, while the primary focus is on the corporate segment, the Bank remains committed to continuing to develop the commercial and retail segments.

2. Capability Transformation Across All Organizational Levels

In an effort to drive sustainable business growth, the Bank is also proactively undertaking a comprehensive transformation across all levels of the organization. This transformation aims to strengthen internal capabilities and enhance competitiveness amid the ever-evolving dynamics of the banking industry. The primary focus of the transformation is directed toward several strategic areas.

Kebijakan Permodalan dan Struktur Modal

Capital Policies and Capital Structure

Guna memastikan permodalan Bank dapat mendukung strategi pengembangan usaha, mempertahankan kelangsungan bisnis di masa mendatang, menjaga kecukupan modal sesuai dengan profil risiko serta memenuhi persyaratan permodalan yang ditetapkan oleh regulator, maka Bank menentukan kebijakan permodalan. Direksi menyusun rencana permodalan berdasarkan penilaian atas kebutuhan kecukupan permodalan yang dipersyaratkan serta disesuaikan dengan perkembangan ekonomi terkini. Rencana tersebut telah dituangkan pada rencana bisnis Bank dan telah disetujui oleh Dewan Komisaris.

To ensure that the Bank's capital will support business development strategies, maintain business continuity in the future, maintain capital adequacy as required by the risk profile, and meet the capital requirements stipulated by the regulator, the Bank determines its capital policy. The Board of Directors prepared a capital plan based on assessing the required capital adequacy needs and adjusted it to the latest economic developments. The plan is presented in the Bank's business plan and has been approved by the Board of Commissioners.

Secara periodik Bank telah melakukan proses penilaian kecukupan permodalan (*Internal Capital Adequacy Assessment – ICAAP*) dan *stress test* terhadap permodalan yang menunjukkan bahwa posisi permodalan Bank dapat menutup kerugian yang ditimbulkan dari berbagai potensi risiko yang dihadapi oleh Bank secara memadai.

The Bank has periodically conducted Internal Capital Adequacy Assessment (ICAAP) and stress tests on its capital, which show that the Bank's capital position can adequately cover losses from various potential risks faced by the Bank.

Pada tahun 2025 dan 2024, Bank telah memenuhi semua persyaratan modal yang diwajibkan.

In 2025 and 2024, the Bank has fulfilled all the required capital requirements.

Kebijakan Dividen

Dividend Policy

Bank melaksanakan kebijakan pembagian dividen berpedoman pada Undang-Undang Perseroan Terbatas, yang menerapkan bahwa setiap pembayaran dividen harus disetujui dalam RUPS setelah mendapat rekomendasi dari Direksi. Sejalan dengan peraturan ini, Bank telah memiliki dan menjalankan Kebijakan Dividen Nomor Peraturan PD-11/Policy/1124 yang diterapkan untuk memastikan pelaksanaan prinsip Tata Kelola Perusahaan yang Baik dalam hal pendistribusian dividen. Pada tahun 2025 dan 2024 Perseroan tidak membagikan dividen.

The Bank implements a dividend distribution policy in accordance with the Limited Liability Companies Act, which stipulates that every dividend payment must be approved at a General Meeting of Shareholders following a recommendation from the Board of Directors. In accordance with these regulations, the Bank has established and implemented Dividend Policy No. PD-11/Policy/1124, which is applied to ensure the implementation of the principles of Good Corporate Governance regarding dividend distribution. In 2025 and 2024, the Company did not distribute dividends.

Tingkat Kolektibilitas Piutang

Collectability of Receivables

Bank mengukur tingkat kolektibilitas piutang melalui tingkat kolektibilitas kredit sesuai dengan rasio kredit bermasalah (NPL).

The Bank measures the collectability of its receivables through the level of credit collectability in accordance with the non-performing loan ratio (NPL).

Pada tahun 2025, Rasio NPL bruto dan neto masing-masing tercatat sebesar 2,26% dan 1,37%.

In 2025, the gross and net NPL ratios were recorded at 2.26% and 1.37% respectively.

Bank telah menerapkan berbagai upaya untuk memitigasi rasio NPL yang memburuk antara lain dengan menganalisa pemberian kredit secara menyeluruh sesuai dengan profil risiko Bank, pemantauan kondisi usaha/keuangan debitur secara rutin/berkala, serta upaya percepatan penyelesaian kredit bermasalah. Selain itu, Bank juga meningkatkan pembentukan Cadangan Kerugian Penurunan Nilai (CKPN) sebagai salah satu upaya untuk mengantisipasi kemungkinan terjadinya penurunan nilai aset keuangan. Pada tahun 2025, Bank telah membentuk CKPN kredit sebesar Rp322.830 juta dan manajemen berpendapat bahwa CKPN tersebut cukup memadai untuk menutup kemungkinan tidak tertagihnya kredit yang diberikan. Bank juga melakukan penyelesaian dengan melakukan hapus buku kredit (*write-off*) atas beberapa debitur yang memenuhi kriteria tertentu.

The Bank has implemented various efforts to mitigate the worsening NPL ratio, among others, by analysing lending thoroughly in accordance with the Bank's risk profile, monitoring the business/financial condition of debtors on a regular basis, as well as efforts to accelerate the settlement of non-performing loans. In addition, the Bank is also increasing the provision of allowance for impairment losses as an effort to anticipate possible declines in the value of financial assets. In 2025, the Bank has provided an allowance for impairment losses credit of Rp322,830 million and management is of the opinion that the allowance for impairment losses is sufficient to cover the possibility of non-collectable loans. The Bank also underwent loans settlement by writing off the loans of several debtors who met certain criteria.

Kemampuan Membayar Utang

Solvency Analysis

Bank menjaga likuiditas yang memadai agar dapat memenuhi liabilitas jangka pendek maupun jangka panjang, antara lain dengan menetapkan pagu kas (*cash holding limit*) pada setiap kantor sehingga masing-masing kantor dapat memenuhi liabilitas jangka pendek berupa penarikan dana pihak ketiga. Bank juga menempatkan *secondary reserve* ke dalam instrumen keuangan yang likuid antara lain Surat Utang Negara dan SRBI yang dapat dengan mudah dijadikan kas tanpa terjadi penurunan nilai. Ketersediaan likuiditas Bank tercermin dari rasio Aset Likuid atas Dana Pihak Ketiga (AL/DPK) dan Aset Likuid atas *Non-Core Deposit* (AL/NCD) pada Desember 2025 masing-masing sebesar 12,94% dan 101,08% yang berada di atas ambang batas 10% dan 50%.

The Bank maintains adequate liquidity to meet short-term and long-term liabilities, among others, by setting cash holding limits in each office to ensure that each office can meet short-term liabilities through third-party fund withdrawals. The Bank also places secondary reserves into liquid financial instruments, including Government Securities and SRBI that can be converted into cash without impairment. The Bank's solvency is reflected in the ratio of Liquid Assets to Third-Party Funds (AL/DPK) and Liquid Assets to Non-Core Deposit (AL/NCD) in December 2025, which were 12.94% and 101.08%, respectively, which were above the thresholds of 10% and 50%.

Dalam meningkatkan ketahanan likuiditas jangka pendek dan panjang, Bank senantiasa menjaga kecukupan likuiditas dengan melakukan pengelolaan *Liquidity Coverage Ratio* (LCR) dan *Net Stable Funding Ratio* (NSFR). Pada Desember 2025, LCR dan NSFR Bank tercatat masing-masing sebesar 156,83% dan 144,61%, di atas ambang batas yang menetapkan pemenuhan kedua rasio tersebut paling rendah 100%.

To improve short and long-term liquidity resilience, the Bank consistently maintains adequate liquidity by managing the Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR). As of December 2025, the Bank's LCR and NSFR were recorded at 156.83% and 144.61%, respectively, above the threshold that stipulates compliance with both ratios at a minimum of 100%.

- **PSAK 221 (amendemen) Pengaruh Perubahan Kurs Valuta Asing tentang kekurangan ketertukaran**

Amendemen PSAK 221, 'Pengaruh Perubahan Kurs Valuta Asing', memperjelas pengaturan terkait kondisi ketika suatu mata uang tidak bertukar serta pengungkapannya.

Penerapan dari revisi standar berikut yang berlaku efektif mulai 1 Januari 2026 tidak menimbulkan perubahan substansial terhadap kebijakan akuntansi Bank dan pengaruh yang material atas jumlah yang dilaporkan atas tahun berjalan atau tahun sebelumnya:

- **Amendemen PSAK 109 dan PSAK 107 "Pengungkapan tentang Klasifikasi dan Pengukuran Instrumen Keuangan"**

Amendemen PSAK 109 ini menambahkan dan mengklarifikasi ketentuan dalam PSAK 109 terkait penghentian pengakuan liabilitas keuangan, serta mengklarifikasi penilaian karakteristik arus kas untuk aset keuangan dengan fitur *ESG-linked*, aset keuangan dengan fitur *non-recourse*, dan instrumen yang terikat secara kontraktual, seperti *tranche*. Amendemen ini juga mengubah ketentuan dalam PSAK 107 terkait persyaratan pengungkapan investasi pada instrumen ekuitas yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan menambah ketentuan terkait instrumen keuangan dengan persyaratan kontraktual yang mengubah waktu atau jumlah arus kas kontraktual.

Penerapan dari standar baru berikut berlaku efektif mulai 1 Januari 2027. Penerapan retrospektif diwajibkan, sehingga informasi komparatif untuk tahun keuangan yang berakhir pada 31 Desember 2026 akan disajikan ulang sesuai dengan standar ini:

- **PSAK 118 "Penyajian dan Pengungkapan dalam Laporan Keuangan"**

PSAK 118 menggantikan PSAK 201, mempertahankan banyak prinsip yang ada tetapi secara signifikan mengubah cara entitas melaporkan "laba atau rugi operasional." PSAK ini menetapkan struktur yang jelas untuk laporan laba rugi dengan

The financial statements for the year ended December 31, 2025 and 2024 were prepared and presented in accordance with Indonesian Financial Accounting Standards, which include Statements and Interpretations issued by the Board of Financial Accounting Standards of the Indonesian Institute of Accountants and Capital Market and Financial Institutions Supervisory Agency ("Bapepam-LK") regulation No. VIII.G.7, regarding the "Financial Statements Presentation and Disclosure for Issuers or Public Companies".

The Bank has consistently adopted the new standards, amendments and improvements issued and effective for the financial year at or after January 1, 2025 which do not have substantial changes to the Bank's accounting policies and had material impact on the financial statements are as follows:

- **PSAK 221 (amendment) Effect of Changes in Foreign Exchange Rates on lack of convertibility**

Amendment of PSAK 221 'The Effects of Changes in Foreign Exchange Rates', clarifies the requirements concerning the conditions under which a currency is non-exchangeable and its disclosure.

The adoption of these amended standards, which are effective beginning January 1, 2026 did not result in substantial changes to the Bank's accounting policies and had no material impact on the amounts reported for the current or prior financial years:

- **Amendment of PSAK 109 and PSAK 107 "Classification and Measurement of Financial Instruments"**

The amendment adds and clarifies provisions in PSAK 109 regarding the derecognition of financial liabilities and clarifies the assessment of cash flow characteristics for financial assets with environmental, social and governance (ESG)-linked features, financial assets with non-recourse features and contractually linked instruments, such as tranches. The amendment also modifies provisions in PSAK 107 related to disclosure requirements for investments in equity instruments measured at fair value through other comprehensive income and adds provisions related to financial instruments with contractual terms that alter the timing or amount of contractual cash flow.

The adoption of the new standard is effective beginning January 1, 2027. Retrospective application is required, and so the comparative information for the financial year ending December 31, 2026 will be restated in accordance with this standard:

- **PSAK 118 "Presentation and Disclosure in Financial Statements"**

PSAK 118 supersedes PSAK 201, retaining many existing principles but significantly changing how entities report "operating profit or loss." It establishes a defined structure for the statement of profit or loss, categorizing items into operating, investing, financing,

mengelompokkan pos-pos ke dalam kategori operasi, investasi, pembiayaan, pajak penghasilan, dan operasi yang dihentikan. Standar ini mewajibkan pengungkapan tertentu, termasuk ukuran kinerja tetapan manajemen (UKTM), yang memungkinkan investor memahami bagaimana pandangan manajemen atas kinerja keuangan perusahaan dan bagaimana ukuran tersebut dibandingkan dengan ukuran yang didefinisikan dalam PSAK 118.

Meskipun PSAK 118 tidak memengaruhi pengakuan atau pengukuran pos-pos dalam laporan keuangan, dampaknya terhadap penyajian dan pengungkapan diperkirakan akan sangat luas, terutama yang berkaitan dengan laporan kinerja keuangan dan penyediaan UKTM dalam laporan keuangan.

- 1) Meskipun adopsi PSAK 118 tidak akan berpengaruh pada laba bersih Bank, Bank mengharapkan pengelompokan pos pendapatan dan beban dalam laporan laba rugi ke dalam kategori baru akan memengaruhi cara perhitungan dan pelaporan laba operasi. Dari penilaian dampak garis besar yang dilakukan Bank, pos-pos berikut mungkin berpotensi memengaruhi laba operasi:
 - a) Perbedaan nilai tukar yang saat ini digabungkan dalam pos 'pendapatan lain dan keuntungan/(kerugian) lain – neto' dalam laba operasi mungkin perlu dipisahkan, dengan beberapa keuntungan atau kerugian dari nilai tukar disajikan di bawah laba operasi.
 - b) PSAK 118 memiliki persyaratan khusus mengenai kategori di mana keuntungan atau kerugian derivatif diakui – yaitu kategori yang sama dengan pendapatan dan beban yang dipengaruhi oleh risiko yang dikelola oleh derivatif tersebut. Meskipun Bank saat ini mengakui beberapa keuntungan atau kerugian dalam laba operasi dan lainnya dalam biaya keuangan, mungkin akan terjadi perubahan mengenai tempat di mana keuntungan atau kerugian tersebut diakui, dan Bank saat ini sedang mengevaluasi kebutuhan untuk melakukan perubahan.
- 2) Pos-pos yang disajikan dalam laporan keuangan utama mungkin akan berubah akibat penerapan konsep 'ringkasan terstruktur yang berguna' dan prinsip yang ditingkatkan mengenai agregasi dan disaggregasi. Selain itu, karena *goodwill* akan disajikan secara terpisah dalam laporan posisi keuangan, Bank akan memisahkan *goodwill* dan aset tidak berwujud lainnya serta menyajikannya secara terpisah dalam laporan posisi keuangan.
- 3) Bank tidak mengharapkan adanya perubahan signifikan dalam informasi yang saat ini diungkapkan dalam catatan, karena persyaratan untuk mengungkapkan informasi material tetap tidak berubah; namun, cara pengelompokan informasi tersebut mungkin berubah sebagai akibat dari prinsip agregasi/disaggregasi. Selain itu, akan ada pengungkapan baru yang signifikan yang diwajibkan untuk:
 - (i) UKTM (Ukuran Kinerja Tetapan Manajemen);
 - (ii) rincian jenis beban untuk pos-pos yang disajikan berdasarkan fungsi dalam kategori operasi laporan laba

income taxes and discontinued operations. The standard mandates specific disclosures, including management-defined performance measures (MPMs), allowing investors to understand management's view of the company's financial performance and how these measures compare to those defined in PSAK 118.

Even though PSAK 118 will not impact the recognition or measurement of items in the financial statements, its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing MPM within the financial statements.

- 1) *Although the adoption of PSAK 118 will have no impact on the Bank's net profit, the Bank expects that grouping items of income and expenses in the statement of profit or loss into the new categories will impact how operating profit is calculated and reported. From the high-level impact assessment that the Bank has performed, the following items might potentially impact operating profit:*
 - a) *Foreign exchange differences currently aggregated in the line item 'other income and other gains/(losses) – net' in operating profit might need to be disaggregated, with some foreign exchange gains or losses presented below operating profit.*
 - b) *PSAK 118 has specific requirements on the category in which derivative gains or losses are recognized – which is the same category as the income and expenses affected by the risk that the derivative is used to manage. Although the Bank currently recognizes some gains or losses in operating profit and others in finance costs, there might be a change to where these gains or losses are recognized, and the Bank is currently evaluating the need for change.*
- 2) *The line items presented on the primary financial statements might change as a result of the application of the concept of 'useful structured summary' and the enhanced principles on aggregation and disaggregation. In addition, since goodwill will be required to be separately presented in the statement of financial position, the Bank will disaggregate goodwill and other intangible assets and present them separately in the statement of financial position.*
- 3) *The Bank does not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:*
 - (i) *MPM (Management-defined Performance Measures);*
 - (ii) *a break-down of the nature of expenses for line items presented by function in the operating category of the*

rugi – rincian ini hanya diperlukan untuk beberapa jenis beban tertentu; dan

- (iii) untuk periode tahunan pertama penerapan PSAK 118, rekonsiliasi untuk setiap pos dalam laporan laba rugi antara angka yang telah disajikan ulang berdasarkan penerapan PSAK 118 dan angka yang sebelumnya disajikan berdasarkan PSAK 201.

- 4) Dari perspektif laporan arus kas, akan ada perubahan cara penyajian bunga diterima dan bunga dibayar. Bunga dibayar akan disajikan sebagai arus kas pendanaan dan bunga diterima akan disajikan sebagai arus kas investasi, yang merupakan perubahan dari penyajian saat ini sebagai bagian dari arus kas operasi.

statement of profit or loss – this break-down is only required for certain nature expenses; and

- (iii) for the first annual period of application of PSAK 118, a reconciliation for each line item in the statement of profit or loss between the restated amounts presented by applying PSAK 118 and the amounts previously presented applying PSAK 201.*

- 4) From a cash flow statement perspective, there will be changes to how interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from current presentation as part of operating cash flows.*

Suku Bunga Dasar Kredit (SBDK)

Basic Credit Interest Rate (SBDK)

Berdasarkan POJK No. 37/POJK.03/2019 tentang Transparansi dan Publikasi Laporan Bank, transparansi Suku bunga Dasar Kredit (SBDK), sebagaimana telah diperbaharui melalui POJK No. 13 tahun 2024 tanggal 30 Juli 2024 tentang Transparansi dan Publikasi Suku Bunga Dasar Kredit Bagi Bank Umum Konvensional, yang mewajibkan Bank untuk menyusun, mengumumkan dan menyampaikan SBDK. Hal ini bertujuan agar dapat meningkatkan tata kelola perusahaan dan mendorong persaingan yang sehat dalam industri perbankan.

Informasi detail mengenai perubahan SBDK tersedia di kantor Bank dan dapat diakses melalui situs web resmi Bank di www.bankmaspion.co.id.

Perhitungan SBDK didasarkan pada tiga komponen utama yaitu Harga Pokok Dana untuk Kredit (HPDK), biaya *overhead* yang dikeluarkan untuk kegiatan menghimpun dana dan penyaluran kredit, dan juga *profit margin* yang ditetapkan untuk aktivitas perkreditan. Berdasarkan POJK No. 13 tahun 2024, terdapat beberapa perubahan pada Rujukan Penyusunan SBDK serta penambahan pada segmentasi kredit dari yang semula 5 segmentasi menjadi 7 segmentasi kredit.

Pursuant to POJK No. 37/POJK.03/2019 on Transparency and Publication of Bank Reports, transparency regarding the Prime Lending Rate (BLR), as amended by POJK No. 13 of 2024 dated July 30, 2024, regarding Transparency and Publication of the Base Lending Rate for Conventional Commercial Banks, which requires the Bank to prepare, announce, and disclose the PLR. This is intended to improve corporate governance and promote healthy competition within the banking industry.

Detailed information regarding changes to the SBDK is available at Bank branches and can be accessed via the Bank's official website at www.bankmaspion.co.id.

The SBDK calculation is based on three main components: the Cost of Funds for Loans (HPDK), overhead costs incurred for fund mobilization and loan disbursement activities, and the profit margin set for lending activities. Pursuant to POJK No. 13 of 2024, there are several changes to the SBDK Calculation Guidelines, as well as an expansion of the credit segmentation from the original 5 segments to 7 credit segments.

Berikut merupakan informasi SBDK per triwulan yang telah ditetapkan oleh Bank selama tahun 2025:

Sumber Daya Manusia

Human Resources [GRI 3-3]

Dalam menghadapi dinamika industri perbankan yang terus bergerak cepat, Bank Maspion memandang sumber daya manusia sebagai penggerak utama transformasi dan pertumbuhan berkelanjutan. Oleh karena itu, pengelolaan SDM tidak hanya difokuskan pada pemenuhan kebutuhan organisasi saat ini, tetapi juga diarahkan untuk membangun kesiapan menghadapi tantangan masa depan. Bank Maspion menanamkan budaya kerja yang adaptif, kolaboratif, dan terbuka terhadap perubahan, sehingga setiap insan Bank terdorong untuk terus belajar, berkembang, dan meningkatkan kapasitas diri.

Pendekatan tersebut diwujudkan melalui pengelolaan talenta yang terstruktur, mulai dari proses rekrutmen yang selektif, pengembangan kompetensi yang berkesinambungan, hingga penerapan sistem manajemen kinerja yang mendorong pencapaian terbaik. Dengan fondasi ini, Bank Maspion membangun organisasi yang tidak hanya tangguh dalam merespons perubahan, tetapi juga proaktif dalam menangkap peluang. Perseroan meyakini bahwa kekuatan tim yang solid dan berdaya saing tinggi merupakan kunci untuk menjaga keberlanjutan kinerja serta memperkuat posisi Bank Maspion di tengah persaingan industri perbankan yang semakin kompetitif.

Rekrutmen

Dalam memastikan keberlanjutan pertumbuhan bisnis, Bank Maspion menempatkan proses rekrutmen sebagai pintu masuk utama dalam membangun organisasi yang tangguh dan relevan dengan dinamika industri. Rekrutmen tidak hanya dipandang sebagai pemenuhan kebutuhan posisi, melainkan sebagai proses strategis untuk menanamkan nilai, memperkuat budaya kerja, dan menyiapkan kapabilitas jangka panjang Perseroan. Oleh karena itu, setiap tahapan seleksi dirancang untuk menjaring individu yang tidak hanya kompeten secara teknis, tetapi juga selaras dengan arah strategis dan nilai-nilai Bank.

Dalam pelaksanaannya, Bank Maspion secara konsisten menjunjung tinggi prinsip:

- Keadilan dan kesetaraan kesempatan bagi seluruh kandidat,
- Transparansi dan objektivitas dalam proses seleksi, serta
- Kepatuhan terhadap ketentuan dan regulasi yang berlaku.

Sejalan dengan itu, Bank juga mendorong penerapan prinsip inklusivitas dan keberagaman sebagai fondasi dalam membangun lingkungan kerja yang kaya perspektif, terbuka terhadap gagasan baru, dan kondusif bagi lahirnya inovasi.

Pendekatan rekrutmen ini diyakini tidak hanya memperkuat kualitas layanan kepada nasabah, tetapi juga menciptakan ekosistem kerja yang mendorong karyawan untuk terus berkembang dan berkontribusi secara optimal. Dengan demikian, proses rekrutmen menjadi bagian integral dari upaya Bank Maspion dalam membangun tim yang solid, adaptif, dan berorientasi pada kinerja jangka panjang.

Secara umum, proses rekrutmen di Bank Maspion dilakukan melalui dua jalur utama:

1. Internal Sourcing

Internal sourcing merupakan upaya pengembangan dan optimalisasi

In navigating the increasingly dynamic banking industry, Bank Maspion views its people as the primary drivers of transformation and sustainable growth. Therefore, human capital management is not merely focused on meeting today's organizational needs, but also on building long-term readiness for future challenges. The Bank fosters a work culture that is adaptive, collaborative, and open to change, encouraging every employee to continuously learn, grow, and enhance their capabilities.

This approach is implemented through a structured talent management framework, encompassing selective recruitment, continuous competency development, and a performance management system that promotes high achievement. With this foundation, Bank Maspion builds an organization that is not only resilient in responding to change, but also proactive in capturing emerging opportunities. The Bank believes that a strong, high-performing team is essential to sustaining long-term performance and strengthening Bank Maspion's competitive position in the increasingly competitive banking industry.

Recruitment

To ensure sustainable business growth, Bank Maspion positions recruitment as the main gateway to building a resilient and future-ready organization. Recruitment is not merely about filling vacancies, but is viewed as a strategic process to instill values, strengthen corporate culture, and develop long-term organizational capabilities. Accordingly, every stage of the selection process is designed to identify individuals who are not only technically competent, but also aligned with the Bank's strategic direction and core values.

In its implementation, Bank Maspion consistently upholds the following principles:

- *Fairness and equal opportunity for all candidates,*
- *Transparency and objectivity throughout the selection process, and*
- *Full compliance with applicable regulations.*

At the same time, the Bank promotes inclusivity and diversity as key foundations in building a workplace that embraces different perspectives, encourages new ideas, and supports continuous innovation.

This recruitment approach is believed to strengthen service quality for customers while creating a work environment that motivates employees to grow and contribute at their best. In this way, recruitment becomes an integral part of Bank Maspion's efforts to build a strong, adaptive, and performance-driven team.

In general, Bank Maspion's recruitment process is carried out through two main channels:

1. Internal Sourcing

Internal sourcing focuses on developing and optimizing talent

talenta dari dalam organisasi melalui proses identifikasi, rotasi, dan promosi jabatan. Pendekatan ini bertujuan untuk:

- Memberikan kesempatan pengembangan karier yang lebih luas bagi karyawan,
- Meningkatkan motivasi dan loyalitas, serta
- Memastikan keberlanjutan kinerja melalui pemanfaatan talenta yang telah memahami budaya, nilai, dan proses bisnis Bank.

2. External Sourcing

External sourcing dilakukan melalui perekrutan kandidat dari luar Bank guna memperkaya kapabilitas organisasi. Proses ini dilaksanakan melalui berbagai kanal, antara lain:

- Situs resmi Bank dan *platform* profesional seperti LinkedIn,
- *Job fair*, serta
- Referensi dan jaringan internal karyawan.

Pendekatan ini memungkinkan Bank Maspion untuk mengakses *talent pool* yang lebih luas serta menghadirkan perspektif dan keahlian baru yang mendukung akselerasi transformasi dan inovasi.

Kombinasi antara *internal* dan *external sourcing* menjadi strategi yang saling melengkapi dalam menjaga keseimbangan antara penguatan talenta internal dan penyegaran kapabilitas eksternal. Melalui proses rekrutmen yang terarah dan terukur, Bank Maspion berkomitmen untuk membangun sumber daya manusia yang unggul, inklusif, dan siap mendorong pertumbuhan Perseroan secara berkelanjutan.

from within the organization through identification, rotation, and promotion. This approach aims to:

- *Provide broader career development opportunities for employees,*
- *Enhance motivation and loyalty, and*
- *Ensure business continuity by leveraging talents who already understand the Bank's culture, values, and business processes.*

2. External Sourcing

External sourcing is conducted by recruiting candidates from outside the Bank to enrich the organization's capabilities. This process is carried out through various channels, including:

- *The Bank's official website and professional platforms such as LinkedIn,*
- *Job fairs, and*
- *Employee referrals and internal networks.*

This approach enables Bank Maspion to access a wider talent pool and bring in fresh perspectives and new expertise to support transformation and innovation.

The combination of internal and external sourcing forms a complementary strategy to maintain a healthy balance between developing internal talents and refreshing external capabilities. Through a structured and well-governed recruitment process, Bank Maspion is committed to building superior, inclusive, and future-ready human capital to drive sustainable growth.

Pengembangan Kompetensi Karyawan

Di tengah akselerasi perubahan industri perbankan, Bank Maspion memandang penguatan kompetensi karyawan sebagai fondasi utama dalam menjaga keberlanjutan kinerja dan daya saing Perseroan. Pengembangan SDM tidak hanya diarahkan untuk menjawab kebutuhan saat ini, tetapi juga untuk mempersiapkan insan Bank agar mampu beradaptasi terhadap transformasi teknologi, perubahan regulasi, serta dinamika ekspektasi nasabah di masa depan.

Untuk mewujudkan hal tersebut, Bank Maspion secara konsisten mengimplementasikan berbagai program pembelajaran yang terstruktur dan berkelanjutan, mencakup penguatan kapabilitas teknis perbankan sekaligus pengembangan kompetensi perilaku dan kepemimpinan. Pendekatan ini diyakini mampu membentuk sumber daya manusia yang tidak hanya andal dalam menjalankan fungsi operasional, tetapi juga memiliki pola pikir yang adaptif, kolaboratif, dan berorientasi pada solusi.

Investasi berkelanjutan dalam pengembangan kompetensi ini menjadi bagian dari upaya Bank Maspion dalam membangun organisasi pembelajar (*learning organization*), di mana setiap individu didorong untuk terus meningkatkan kapasitas diri dan berkontribusi secara optimal terhadap pencapaian tujuan jangka panjang Perseroan.

Sepanjang tahun 2025, Bank telah menyelenggarakan pengembangan SDM melalui 514 topik seminar dan pelatihan dengan total 3.416,15 jam sesi pelatihan, yang dilaksanakan baik secara luring (tatap muka) maupun daring (*online learning*). Program pelatihan tersebut disampaikan oleh fasilitator internal maupun eksternal.

Employee Competency Development

Amid the accelerating changes in the banking industry, Bank Maspion views the strengthening of employee competencies as a key foundation for sustaining performance and maintaining long-term competitiveness. Human capital development is not only designed to address current needs, but also to prepare the Bank's people to adapt to technological transformation, regulatory developments, and the evolving expectations of customers.

To achieve this, Bank Maspion consistently implements structured and continuous learning programs that cover both technical banking capabilities and behavioral and leadership competencies. This approach is expected to shape human capital that is not only operationally reliable, but also adaptive, collaborative, and solution-oriented.

This ongoing investment in competency development is an integral part of Bank Maspion's effort to build a learning organization, where every individual is encouraged to continuously enhance their capabilities and contribute optimally to the achievement of the Company's long-term objectives.

Throughout 2025, the Bank conducted human capital development programs through 514 training and seminar topics, totaling 3,416.15 hours of training sessions, delivered through both in-person (offline) and online learning methods. These programs were facilitated by both internal and external instructors.

Adapun ruang lingkup pelatihan yang diberikan antara lain mencakup:

- Pengembangan *soft skills* dan kompetensi teknis,
- Program kepemimpinan (*leadership*), dan
- Program sertifikasi bagi karyawan yang menempati fungsi atau jabatan tertentu.

Program pelatihan ini diberikan secara menyeluruh kepada:

 - *Workshop* dan pelatihan IT *project management*, *software quality management*, serta digital transformation dalam operasional perbankan.
 - Pelatihan terkait *data protection*, *data loss prevention*, serta pengelolaan data pribadi.
 - *Knowledge sharing* terkait *data center*, *cloud services*, *AI adoption*, dan *data analytics* dalam industri perbankan.
5. *Soft Skills* dan Pengembangan Profesional
- *Program English Development Program* untuk berbagai tingkat kemampuan.
 - Pelatihan *communication skills*, *impactful presentation skills*, *marketing communication*, dan *customer experience*.
 - Program pengembangan *leadership* dan manajemen SDM, termasuk *SPARK Leadership Development Program* dan *HR professional certification*.
- and increased awareness of TPPU/TPPT risks.
- *Socialization of Anti-Bribery, Anti-Fraud*, as well as handling of suspicious transactions and screening sanction lists.
 - *Workshops and dissemination of information on financial reporting integrity, internal control over financial reporting (ICoFR), and accounting and bank reporting policies.*
 - *Dissemination of information related to consumer protection, customer complaints, and banking information transparency.*
2. Finance and Banking
- *Training and workshops related to credit analysis, corporate and commercial credit processes, and non-performing loan management.*
 - *Training on treasury and financial transactions, including Treasury Dealer certification, treasury processes, and money market transactions.*
 - *Training on trade finance, cash management, funding products, as well as payment services and banking transaction systems.*
 - *Workshops on managing banking financial ratios, such as BMPK, liquidity, and strengthening financial system stability.*
 - *Seminars and discussion forums related to financial market developments, bullion banks, the repo market, and the stability of the financial services sector.*
3. Sustainability and ESG
- *Webinars and workshops related to ESG reporting, sustainability reporting, and the implementation of sustainability standards such as IFRS Sustainability Standards and GRI.*
 - *Training related to climate risk management, scenario analysis, and decarbonization strategies in the financial sector.*
 - *Socialization of sustainable finance taxonomy and GHG emissions management in the financial industry.*
 - *Workshops related to measuring the impact of CSR programs using the SROI approach.*
4. Information Technology and Cyber Security
- *Training and awareness related to cybersecurity, cyber hygiene, phishing awareness, and information system security.*
 - *Workshops and training on IT project management, software quality management, and digital transformation in banking operations.*
 - *Training related to data protection, data loss prevention, and personal data management.*
 - *Knowledge sharing related to data centers, cloud services, AI adoption, and data analytics in the banking industry.*
5. Soft Skills and Professional Development
- *English Development Program for various skill levels.*
 - *Training in communication skills, impactful presentation skills, marketing communication, and customer experience.*
 - *Leadership and HR management development programs, including the SPARK Leadership Development Program and HR professional certification.*

- *Workshop* terkait *self-branding*, *personal branding*, dan peningkatan produktivitas kerja.

6. Manajemen Risiko dan *Fraud Awareness*

- Pelatihan dan sertifikasi Manajemen Risiko berbagai jenjang serta *refreshment* terkait implementasinya.
- *Workshop* terkait *Enterprise Risk Management (ERM)*, *risk culture*, serta *risk appetite* dalam sektor keuangan.
- Pelatihan *fraud awareness*, *fraud auditing*, dan investigasi kejahatan keuangan.
- *Workshop* terkait identifikasi transaksi keuangan mencurigakan dan penguatan pengendalian internal.

7. Operasional dan Transformasi Bisnis

- *Workshop* terkait strategi transformasi bisnis, penguatan proses kredit, dan peningkatan efektivitas operasional bank.
- Pelatihan terkait *business continuity management*, *operational risk reporting*, dan *incident reporting*.
- Sosialisasi terkait perubahan kebijakan internal, SOP operasional, serta proses bisnis perbankan.
- *Workshop* terkait digitalisasi proses bisnis dan optimalisasi layanan perbankan.

8. *Team Building* dan Pengembangan Organisasi

- Kegiatan *team building* untuk berbagai divisi dan kantor cabang guna memperkuat kolaborasi dan sinergi tim.
- Program *mentoring*, *coaching clinic*, serta *knowledge sharing* antar unit kerja.
- Kegiatan penguatan budaya organisasi, *alignment* bisnis, dan peningkatan *engagement* karyawan.

- *Workshops* on *self-branding*, *personal branding*, and increasing work productivity.

6. Risk Management and Fraud Awareness

- *Risk Management* training and certification at various levels as well as *refreshment* courses on its implementation.
- *Workshops* on *Enterprise Risk Management (ERM)*, *risk culture*, and *risk appetite* in the financial sector.
- *Training* on *fraud awareness*, *fraud auditing*, and financial crime investigation.
- *Workshops* on identifying suspicious financial transactions and strengthening internal controls.

7. Operations and Business Transformation

- *Workshops* on business transformation strategies, strengthening credit processes, and improving bank operational effectiveness.
- *Training* on business continuity management, operational risk reporting, and incident reporting.
- *Socialization* of changes in internal policies, operational SOPs, and banking business processes.
- *Workshops* on business process digitization and banking service optimization.

8. Team Building and Organizational Development

- *Team building* activities for various divisions and branch offices to strengthen team collaboration and synergy.
- *Mentoring* programs, *coaching clinics*, and *knowledge sharing* between work units.
- *Activities* to strengthen organizational culture, business alignment, and increase employee engagement.

Visi TI IT Vision

Mendukung visi Bank dengan menyediakan *platform* teknologi yang unggul, aman, dan inovatif untuk mencapai pertumbuhan berkelanjutan — sejalan dengan visi Bank untuk menjadi bank pilihan yang berkelanjutan dengan konektivitas regional yang tumbuh bersama Nasabah.

Supporting the Bank's vision by providing a superior, secure, and innovative technology platform to achieve sustainable growth — in line with the Bank's vision to become a sustainable bank of choice with regional connectivity that grows alongside its customers.

Peran Strategis Teknologi Informasi

Teknologi Informasi (TI) telah menjadi elemen strategis dalam industri perbankan, tidak hanya sebagai pendukung operasional, tetapi juga sebagai penggerak utama dalam inovasi layanan dan transformasi bisnis. Perkembangan teknologi digital yang pesat telah mengubah ekspektasi nasabah terhadap layanan keuangan, sehingga Bank dituntut untuk memberikan solusi yang aman, cepat, dan relevan. Selain itu, regulasi perbankan yang semakin kompleks, termasuk

The Strategic Role of Information Technology

Information Technology (IT) has become a strategic element in the banking industry, not only as an operational support, but also as a key driver of service innovation and business transformation. Rapid developments in digital technology have changed customer expectations of financial services, requiring the Bank to provide secure, fast, and relevant solutions. In addition, increasingly complex banking regulations, including requirements for cybersecurity, customer data

persyaratan dalam penerapan keamanan siber, pengelolaan data nasabah, dan efisiensi proses operasional, memerlukan pendekatan teknologi yang proaktif dan adaptif.

Dalam konteks Rencana Korporasi Bank 2025–2029 dan Rencana Bisnis Bank (RBB) 2026–2028, TI memainkan peran penting dalam mendukung pencapaian visi Bank untuk “Menjadi bank pilihan yang berkelanjutan dengan konektivitas regional yang tumbuh bersama Anda.” Misi TI disusun untuk meningkatkan efisiensi operasional dan keandalan teknologi melalui modernisasi infrastruktur, mengembangkan solusi teknologi inovatif berbasis *cloud computing*, big data, dan *artificial intelligence*, mengelola risiko dan keamanan secara proaktif, menyediakan layanan digital yang unggul, serta memastikan kepatuhan terhadap regulasi termasuk AML, perlindungan data nasabah, dan tata kelola TI.

Strategi TI dibangun di atas prinsip kepatuhan regulasi, transformasi digital berorientasi nasabah, keamanan sebagai prioritas utama, efisiensi operasional melalui modernisasi infrastruktur, pengambilan keputusan berbasis data, serta inovasi berkelanjutan dalam ekosistem pembayaran digital. Untuk mewujudkan visi dan misi tersebut, Rencana Strategis TI mengelompokkan inisiatif ke dalam sembilan pilar fokus prioritas sebagaimana diuraikan pada bagian Rencana Pengembangan Teknologi Informasi ke Depan.

Pelaksanaan dan Pencapaian TI Tahun 2025

Tahun 2025 merupakan tahun yang menentukan bagi Divisi TI. Dengan memanfaatkan keahlian dari jaringan regional, Bank menjalankan siklus perencanaan, penyesuaian, dan eksekusi yang mencerminkan kedewasaan organisasi TI dalam merespons dinamika bisnis dan regulasi.

Perencanaan dan Penyesuaian Strategis

Pada awal tahun 2025, Bank menetapkan tujuh fokus utama pengembangan TI yang dirancang untuk mendukung pertumbuhan bisnis, menghadirkan layanan yang aman dan terpercaya, serta memastikan keberlanjutan operasional: (1) *Infrastructure Optimization* untuk penguatan infrastruktur guna mendukung skalabilitas dan keandalan operasional; (2) *Cyber Security Enhancement* untuk melindungi data nasabah dan sistem Bank dari ancaman siber yang terus berkembang; (3) Pengembangan Fundamental Bank untuk memastikan kelangsungan dan daya saing sistem inti perbankan; (4) *Data-Driven Enablement* untuk mendukung pengambilan keputusan berbasis data yang lebih cepat dan akurat; (5) *Regulatory Compliance* untuk pemenuhan kepatuhan termasuk penguatan sistem anti-pencucian uang, perlindungan data, dan standar akuntansi; (6) *Revenue Generation* untuk meningkatkan pendapatan melalui inovasi layanan digital dan integrasi ekosistem pembayaran; serta (7) *Ops Efficiency & Risk Mitigation* untuk efisiensi operasional dan pengelolaan risiko secara proaktif.

management, and operational process efficiency, require a proactive and adaptive technological approach.

In the context of the Bank's 2025–2029 Corporate Plan and 2026–2028 Business Plan (RBB), IT plays a crucial role in supporting the Bank's vision to “Be the sustainable bank of choice with regional connectivity that grows with you.” The IT mission is designed to improve operational efficiency and technology reliability through infrastructure modernization, developing innovative technology solutions based on cloud computing, big data, and artificial intelligence, proactively managing risk and security, providing superior digital services, and ensuring compliance with regulations including AML, customer data protection, and IT governance.

The IT strategy is built on the principles of regulatory compliance, customer-oriented digital transformation, security as a top priority, operational efficiency through infrastructure modernization, data-driven decision making, and continuous innovation in the digital payment ecosystem. To realize this vision and mission, the IT Strategic Plan groups initiatives into nine priority focus pillars as outlined in the Future Information Technology Development Plan section.

IT Implementation and Achievements in 2025

The year 2025 will be a decisive year for the IT Division. Leveraging expertise from its regional network, the Bank will implement a cycle of planning, adjustment, and execution that reflects the maturity of the IT organization in responding to business and regulatory dynamics.

Strategic Planning and Adjustment

At the beginning of 2025, the Bank established seven key IT development focuses designed to support business growth, deliver secure and reliable services, and ensure operational sustainability: (1) Infrastructure Optimization to strengthen infrastructure to support scalability and operational reliability; (2) Cyber Security Enhancement to protect customer data and Bank systems from evolving cyber threats; (3) Fundamental Bank Development to ensure the continuity and competitiveness of core banking systems; (4) Data-Driven Enablement to support faster and more accurate data-driven decision making; (5) Regulatory Compliance to ensure compliance, including strengthening anti-money laundering systems, data protection, and accounting standards; (6) Revenue Generation to increase revenue through digital service innovation and payment ecosystem integration; and (7) Ops Efficiency & Risk Mitigation for operational efficiency and proactive risk management.

Di tengah tahun 2025, hasil evaluasi berkala dan temuan dari proyek *IT Transformation* mendorong Bank melakukan penyesuaian strategis terhadap rencana kerja TI. Penyesuaian ini mencerminkan kemampuan organisasi TI dalam merespons kondisi aktual secara responsif dan mengalokasikan sumber daya pada inisiatif berdampak tertinggi. Perubahan terpenting adalah penambahan *IT Transformation* sebagai kategori strategis baru yang menjadi fondasi seluruh inisiatif, bertujuan memastikan Bank memiliki sistem TI yang aman dan kapabel untuk mendukung pertumbuhan bisnis secara kuat dan efisien.

Penyesuaian dilakukan dengan pendekatan konsolidasi dan penajaman prioritas. Beberapa inisiatif infrastruktur dialihkan ke program migrasi cloud yang lebih komprehensif, sementara program pengelolaan data dikonsolidasikan ke dalam satu platform Datalake terintegrasi. Beberapa inisiatif pengembangan layanan digital dijadwalkan ulang ke tahun 2026 untuk memastikan kesiapan ekosistem yang lebih matang. Program perlindungan data nasabah diperkuat melalui pendekatan multi-layer yang mencakup pencegahan kebocoran data, pengelolaan akses hak istimewa, dan edukasi regulasi perlindungan data pribadi. Inisiatif efisiensi operasional dikonsolidasikan dan diarahkan pada pembangunan platform layanan pelanggan digital sebagai prioritas baru.

Sebagai penguatan, Bank menambahkan sejumlah inisiatif kritis yang lahir dari temuan transformasi, mencakup persiapan migrasi cloud generasi terbaru, pembangunan ulang platform digital, penguatan keamanan aplikasi mobile, pengembangan sistem deteksi *fraud* pada seluruh kanal transaksi, serta penambahan kapabilitas layanan digital baru. Secara keseluruhan, penyesuaian ini mengubah rencana dari tujuh kategori awal menjadi delapan kategori revisi dengan komposisi inisiatif yang lebih tajam dan berdampak strategis.

Pencapaian Proyek Strategis

Sepanjang tahun 2025, Divisi TI telah menyelesaikan sejumlah inisiatif strategis yang memberikan dampak signifikan terhadap penguatan fondasi teknologi, keamanan, dan layanan digital Bank. Dari seluruh inisiatif dalam rencana revisi, mayoritas berhasil diselesaikan sesuai target, sementara proyek berskala besar yang bersifat *multi-year* berlanjut ke tahun 2026 dengan fondasi yang telah diletakkan secara solid. Berikut adalah pencapaian utama per kategori strategis.

1. *IT Transformation*.

Proyek yang menjadi fondasi seluruh *roadmap* TI telah berhasil diselesaikan. Proyek ini bertujuan memastikan Bank memiliki sistem TI yang aman dan mumpuni dengan langkah-langkah yang efisien. Tinjauan dan rekonstruksi menyeluruh dilakukan terhadap infrastruktur, keamanan, aplikasi, serta evaluasi terhadap pihak ketiga - mengidentifikasi dan meremediasi sejumlah area risiko. Temuan dan rekomendasi dari proyek ini menjadi dasar pengambilan keputusan strategis krusial: migrasi ke *platform cloud* generasi terbaru, pembangunan ulang *platform* digital, penguatan arsitektur keamanan secara menyeluruh, serta modernisasi aplikasi. *IT Transformation* membentuk seluruh arah strategis TI untuk tiga tahun ke depan.

In mid-2025, periodic evaluation results and findings from the IT Transformation project prompted the Bank to make strategic adjustments to its IT work plan. These adjustments reflect the IT organization's ability to respond responsively to actual conditions and allocate resources to the highest-impact initiatives. The most important change is the addition of IT Transformation as a new strategic category that forms the foundation of all initiatives, aiming to ensure that the Bank has a secure and capable IT system to support strong and efficient business growth.

The adjustments were made through a consolidation and prioritization approach. Several infrastructure initiatives were transferred to a more comprehensive cloud migration program, while data management programs were consolidated into a single integrated Datalake platform. Several digital service development initiatives have been rescheduled to 2026 to ensure a more mature ecosystem is in place. Customer data protection programs have been strengthened through a multi-layer approach that includes data leak prevention, privileged access management, and personal data protection regulation education. Operational efficiency initiatives have been consolidated and directed towards the development of a digital customer service platform as a new priority.

As reinforcement, the Bank added a number of critical initiatives born from the transformation findings, including preparations for the latest generation cloud migration, digital platform rebuilding, mobile application security strengthening, fraud detection system development across all transaction channels, and the addition of new digital service capabilities. Overall, these adjustments changed the plan from the initial seven categories to eight revised categories with a sharper and more strategically impactful composition of initiatives.

Strategic Project Achievements

Throughout 2025, the IT Division has completed a number of strategic initiatives that have had a significant impact on strengthening the Bank's technology, security, and digital services foundations. Of all the initiatives in the revised plan, the majority were completed on target, while large-scale multi-year projects continued into 2026 with a solid foundation in place. The following are the key achievements per strategic category.

1. *IT Transformation*.

The project that forms the foundation of the entire IT roadmap has been successfully completed. This project aims to ensure that the Bank has a secure and capable IT system with efficient measures. A comprehensive review and reconstruction of the infrastructure, security, applications, and evaluation of third parties was carried out — identifying and remediating a number of risk areas. The findings and recommendations from this project form the basis for crucial strategic decisions: migration to the latest generation cloud platform, rebuilding the digital platform, strengthening the overall security architecture, and modernizing applications. IT Transformation shapes the entire strategic direction of IT for the next three years.

2. Infrastructure Optimization.

Pengadaan *PC*, laptop, dan *tools endpoint management* telah selesai untuk meningkatkan produktivitas dan fleksibilitas karyawan serta mempermudah pengelolaan perangkat secara terpusat. Penambahan lisensi *Active Directory Client* untuk mendukung *single sign-on* dan pengaturan kebijakan keamanan terpusat juga telah dilaksanakan. Peningkatan perangkat *firewall* dengan fitur *deep packet inspection* dan *intrusion prevention system* masih berlangsung dan akan dilanjutkan di tahun 2026 sebagai *Firewall Resilience Upgrade* dengan penambahan mekanisme redundansi. Migrasi ke *platform cloud* generasi terbaru yang dimulai di pertengahan tahun sebagai hasil temuan *IT Transformation* juga masih berlangsung dan akan diperluas menjadi program *Cloud Platform Migration* yang komprehensif di tahun 2026.

3. Cyber Security Enhancement.

Pencapaian di bidang keamanan siber merepresentasikan lompatan kualitatif dalam postur keamanan Bank. *Cyber Security Operation Center (CSOC)* telah dibangun dan dioperasikan untuk deteksi, analisis, dan respons ancaman secara proaktif. Pengendalian akses jaringan melalui *Network Access Control (NAC)* di seluruh kantor cabang telah diimplementasikan untuk meningkatkan visibilitas jaringan dan mendeteksi ancaman. Perlindungan email dan *endpoint* melalui *E-Mail Security* dan *Endpoint Detection & Response* telah melindungi dari *phishing*, *malware*, dan ancaman siber lainnya. Pengamanan akses web melalui *DNS Security* dan *Secure Web Gateway* telah diterapkan. *Data Loss Prevention (DLP)* telah diimplementasikan untuk memantau, mendeteksi, dan memblokir aktivitas berisiko terhadap data sensitif. *Privilege Access Management (PAM)* telah operasional untuk mengelola, memantau, dan mengamankan seluruh akses hak istimewa ke sistem dan infrastruktur Bank. Pembangunan ulang *platform digital* dengan standar keamanan yang lebih tinggi masih berlangsung dan akan dilanjutkan di tahun 2026.

Secara khusus, penguatan keamanan pada infrastruktur BI-FAST yang telah di-*rebuild* merupakan ujian nyata kapabilitas keamanan siber Bank. Seluruh langkah implementasi telah direalisasikan, meliputi: penerapan segmentasi jaringan khusus dengan aturan *firewall* spesifik per *server*, penerapan kebijakan akses berbasis *whitelist* dengan prinsip *deny-all*, *hardening* ketat sesuai standar keamanan CIS, implementasi *Endpoint Detection and Response (EDR)* pada seluruh server dengan pemantauan aktif, pengendalian dan pengelolaan akses hak istimewa melalui PAM secara terpusat, pembentukan *server log* dan *jump host* sebagai satu-satunya akses terkontrol menuju server BI-FAST, penegasan tanggung jawab keamanan dalam perjanjian *managed service*, implementasi HTTPS dan *message signing* untuk keamanan integritas data dan komunikasi, penyelesaian audit PADG 14 untuk memastikan kepatuhan operasional dan keamanan BI-FAST, serta pelaksanaan *penetration test* dengan seluruh rekomendasi yang telah ditindaklanjuti.

2. Infrastructure Optimization.

The procurement of PCs, laptops, and endpoint management tools has been completed to increase employee productivity and flexibility and facilitate centralized device management. The addition of Active Directory Client licenses to support single sign-on and centralized security policy settings has also been implemented. The upgrade of firewall devices with deep packet inspection and intrusion prevention system features is still ongoing and will continue in 2026 as a Firewall Resilience Upgrade with the addition of redundancy mechanisms. The migration to the latest generation cloud platform, which began in the middle of the year as a result of IT Transformation findings, is also still ongoing and will be expanded into a comprehensive Cloud Platform Migration program in 2026.

3. Cyber Security Enhancement.

Achievements in cybersecurity represent a qualitative leap in the Bank's security posture. A Cyber Security Operation Center (CSOC) has been established and is operational for proactive threat detection, analysis, and response. Network access control through Network Access Control (NAC) has been implemented across all branch offices to improve network visibility and detect threats. Email and endpoint protection through E-Mail Security and Endpoint Detection & Response has protected against phishing, malware, and other cyber threats. Web access security through DNS Security and Secure Web Gateway has been implemented. Data Loss Prevention (DLP) has been implemented to monitor, detect, and block risky activities involving sensitive data. Privilege Access Management (PAM) is operational to manage, monitor, and secure all privileged access to the Bank's systems and infrastructure. The rebuilding of the digital platform with higher security standards is still ongoing and will continue in 2026.

Specifically, the strengthening of security on the rebuilt BI-FAST infrastructure is a real test of the Bank's cybersecurity capabilities. All implementation steps have been realized, including: the application of special network segmentation with specific firewall rules per server, the application of a whitelist-based access policy with a deny-all principle, strict hardening in accordance with CIS security standards, the implementation of Endpoint Detection and Response (EDR) on all servers with active monitoring, centralized control and management of privileged access through PAM, the establishment of log servers and jump hosts as the only controlled access to BI-FAST servers, the affirmation of security responsibilities in managed service agreements, the implementation of HTTPS and message signing for data integrity and communication security, the completion of the PADG 14 audit to ensure BI-FAST's operational and security compliance, and the implementation of penetration tests with all recommendations followed up.

4. Pengembangan Fundamental Bank.

Peningkatan *core banking* telah direalisasikan secara parsial dengan penambahan fitur-fitur baru untuk mendukung kebutuhan produk spesifik Bank, memastikan sistem inti mampu mendukung inovasi produk dan pertumbuhan volume transaksi. Pengembangan ini akan diperkuat di tahun 2026 melalui *Core Banking Secure Transfer* untuk meningkatkan keamanan pertukaran data. Peningkatan sistem *treasury & trade finance* juga telah direalisasikan secara parsial dengan penambahan fitur-fitur baru untuk memenuhi kebutuhan solusi pembiayaan perdagangan korporasi, dan akan dikembangkan lebih lanjut melalui integrasi dengan sistem pelaporan regulator di tahun 2026. *Fraud Detection System* (FDS) sebagai *first line of defense* pada level akun dan transaksi di seluruh kanal - mencakup *mobile banking*, *internet banking*, BI-FAST, RTGS, APMK, dan QRIS - telah memasuki tahap implementasi dan akan dirampungkan di tahun 2026.

5. Data-Driven Enablement.

Pengembangan *Self-Service Analytics* bagi pengguna bisnis melalui dasbor interaktif dan alat visualisasi telah dibangun fondasinya di tahun 2025. Inisiatif ini akan dilanjutkan dan diperluas sebagai program MIS & *Dedicated Datalake* di tahun 2026, memungkinkan pengambilan keputusan berbasis data yang lebih cepat dan akurat di seluruh lini bisnis.

6. Regulatory Compliance.

Penguatan sistem anti-pencucian uang berhasil mengintegrasikan API dengan PPATK untuk pembaruan otomatis database PEP, meningkatkan akurasi deteksi nasabah berisiko tinggi. Otomasi perhitungan *Single Lending Limit* telah memastikan kepatuhan terhadap ketentuan BMPK dan meningkatkan pengelolaan risiko kredit. Pengembangan model PSAK 71 *New Modeling* dengan alternatif model data historis dan *forward looking* untuk perhitungan PD, LGD, EAD, dan ECL telah berhasil diselesaikan, memastikan fleksibilitas analisis sesuai standar akuntansi terkini. Otomasi perhitungan GWM berdasarkan data saldo telah memasuki tahap pengembangan dan akan diintegrasikan ke dalam program *Datalake* di tahun 2026.

7. Revenue Generation.

Peluncuran *Mobile Banking MVP 4* dengan fitur-fitur baru yang relevan telah meningkatkan peluang transaksi dan daya tarik bagi segmen *digital-savvy*. Pengembangan SNAP API *Transfer* yang dimodifikasi dari rencana awal API *Transfer Out* (ISO 8583) menjadi standar nasional open API pembayaran - telah memasuki tahap pengembangan dan akan dilanjutkan di tahun 2026. Pengembangan QRIS *Merchant App Enhancement* dan QRIS *Realtime Settlement* dijadwalkan ulang untuk memastikan kesiapan ekosistem yang lebih matang.

8. Ops Efficiency & Risk Mitigation.

Web Customer Handling telah selesai diimplementasikan sebagai *platform* layanan pelanggan digital, menggantikan pendekatan manual sebelumnya dengan alur kerja terintegrasi untuk penyelesaian keluhan nasabah secara lebih efisien dan terstruktur.

4. Fundamental Bank Development.

Core banking enhancements have been partially realized with the addition of new features to support the Bank's specific product needs, ensuring that the core system is capable of supporting product innovation and transaction volume growth. This development will be strengthened in 2026 through Core Banking Secure Transfer to improve data exchange security. Improvements to the treasury & trade finance system have also been partially realized with the addition of new features to meet the needs of corporate trade financing solutions, and will be further developed through integration with the regulatory reporting system in 2026. The Fraud Detection System (FDS) as the first line of defense at the account and transaction level across all channels - including mobile banking, internet banking, BI-FAST, RTGS, APMK, and QRIS - has entered the implementation phase and will be completed in 2026.

5. Data-Driven Enablement.

The development of Self-Service Analytics for business users through interactive dashboards and visualization tools has been established in 2025. This initiative will be continued and expanded as an MIS & Dedicated Datalake program in 2026, enabling faster and more accurate data-driven decision making across all lines of business.

6. Regulatory Compliance.

The strengthening of the anti-money laundering system has successfully integrated the API with PPATK for automatic updates to the PEP database, improving the accuracy of high-risk customer detection. The automation of Single Lending Limit calculations has ensured compliance with BMPK provisions and improved credit risk management. The development of the PSAK 71 New Modeling model with alternative historical and forward-looking data models for calculating PD, LGD, EAD, and ECL has been successfully completed, ensuring flexibility of analysis in accordance with the latest accounting standards. The automation of GWM calculations based on balance data has entered the development stage and will be integrated into the Datalake program in 2026.

7. Revenue Generation.

The launch of Mobile Banking MVP 4 with new relevant features has increased transaction opportunities and appeal for the digital-savvy segment. The development of SNAP API Transfer — modified from the initial plan of API Transfer Out (ISO 8583) to a national open payment API standard — has entered the development stage and will continue with the s in 2026. The development of QRIS Merchant App Enhancement and QRIS Realtime Settlement has been rescheduled to ensure a more mature ecosystem readiness.

8. Ops Efficiency & Risk Mitigation.

Web Customer Handling has been fully implemented as a digital customer service platform, replacing the previous manual approach with integrated workflows for more efficient and structured customer complaint resolution.

Kinerja dan Kapabilitas TI

Di luar proyek-proyek strategis, Divisi TI menjalankan peran fundamental dalam menjaga keberlangsungan dan kelancaran bisnis Bank sehari-hari. Kinerja ini mencerminkan kapabilitas organisasi TI dalam mengelola kompleksitas layanan perbankan secara menyeluruh, mulai dari tata kelola proyek dan pengadaan, pengembangan dan pemeliharaan aplikasi, pengelolaan infrastruktur dan layanan, hingga penyediaan data dan analitik bagi seluruh lini bisnis.

Di bidang tata kelola, perencanaan, dan arsitektur TI, tim mengelola seluruh siklus proyek secara terstruktur melalui metodologi baku, menyelesaikan proses pengadaan dan pengelolaan kontrak pihak ketiga, serta menyelenggarakan forum tinjauan solusi untuk memastikan setiap inisiatif memenuhi standar arsitektur dan keamanan Bank.

Di bidang pengembangan aplikasi dan analitik data, tim menghasilkan kontribusi substansial berupa peningkatan aplikasi inti perbankan untuk mendukung produk dan layanan nasabah, pengembangan fitur dan penguatan keamanan kanal digital, peningkatan sistem pendukung *treasury*, perbaikan keandalan aplikasi melalui pengujian menyeluruh, serta remediasi temuan audit. Di sisi analitik data, platform analisis mandiri telah diimplementasikan dan melayani pengguna di berbagai divisi bisnis, dengan pengembangan dasbor dan laporan otomatis secara *in-house*, serta pemenuhan kebutuhan data strategis bagi seluruh lini bisnis sepanjang tahun.

Di bidang infrastruktur dan layanan TI, tim mengelola penanganan insiden dan perubahan pada infrastruktur secara disiplin untuk menjaga stabilitas dan mendukung kelancaran bisnis. Seluruh perangkat kerja dipastikan terpatch dan aman, perangkat usang diganti secara terencana, dan pengelolaan aset dilakukan secara terstandar di seluruh lokasi Bank. Seluruh temuan risiko yang teridentifikasi berhasil diremediasi, dan kapabilitas pemulihan bencana telah dibangun secara menyeluruh. Unit pemantauan TI yang beroperasi sepanjang waktu telah dibentuk dan terintegrasi dengan pusat keamanan siber Bank.

Organisasi dan Sumber Daya TI

Penguatan Organisasi TI

Memasuki tahun 2025, Bank melakukan penguatan struktur organisasi TI yang signifikan untuk mendukung eksekusi strategi transformasi dan memastikan tata kelola teknologi yang lebih efektif. Organisasi TI dipimpin oleh *Chief Technology Officer* (CTO) dengan lima divisi langsung yang masing-masing memiliki fokus strategis yang jelas.

Perubahan terpenting dalam restrukturisasi ini adalah pemisahan fungsi *Cyber Security* dan *IT Governance* dari Divisi *IT Infrastructure & Services* menjadi divisi tersendiri, yaitu Divisi *Cyber Security & IT Governance*. Pada struktur Desember 2024, fungsi *Cyber Security* dan *IT Governance* berada di bawah *Head of IT Infrastructure & Services*. Mulai Januari 2025, fungsi tersebut diangkat menjadi divisi setingkat yang dipimpin oleh *Head of Cyber Security & IT Governance*. Pemisahan

IT Performance and Capabilities

Beyond strategic projects, the IT Division plays a fundamental role in maintaining the Bank's daily business continuity and smooth operations. This performance reflects the IT organization's capabilities in managing the complexity of banking services as a whole, from project and procurement governance, application development and maintenance, infrastructure and service management, to the provision of data and analytics for all lines of business.

In the areas of governance, planning, and IT architecture, the team manages the entire project cycle in a structured manner using standard methodologies, completes the procurement process and manages third-party contracts, and organizes solution review forums to ensure that every initiative meets the Bank's architecture and security standards.

In the field of application development and data analytics, the team makes substantial contributions in the form of improvements to core banking applications to support customer products and services, development of features and strengthening of digital channel security, improvements to treasury support systems, improvements to application reliability through comprehensive testing, and remediation of audit findings. On the data analytics side, a self-service analytics platform has been implemented and serves users across various business divisions, with in-house development of dashboards and automated reports, as well as fulfillment of strategic data needs for all business lines throughout the year.

In the field of IT infrastructure and services, the team manages incident handling and changes to the infrastructure in a disciplined manner to maintain stability and support business continuity. All work devices are ensured to be patched and secure, obsolete devices are replaced in a planned manner, and asset management is carried out in a standardized manner across all Bank locations. All identified risk findings have been successfully remediated, and disaster recovery capabilities have been built comprehensively. A full-time IT monitoring unit has been established and integrated with the Bank's cybersecurity center.

IT Organization and Resources

Strengthening the IT Organization

Entering 2025, the Bank has significantly strengthened its IT organizational structure to support the execution of its transformation strategy and ensure more effective technology governance. The IT organization is led by a Chief Technology Officer (CTO) with five direct divisions, each with a clear strategic focus.

The most important change in this restructuring is the separation of Cyber Security and IT Governance functions from the IT Infrastructure & Services Division into a separate division, namely the Cyber Security & IT Governance Division. In the December 2024 structure, the Cyber Security and IT Governance functions were under the Head of IT Infrastructure & Services. Starting in January 2025, these functions were elevated to a division-level position led by the Head

ini dilakukan untuk memperkuat independensi fungsi keamanan siber dan tata kelola TI dalam menghadapi kompleksitas ancaman siber yang terus meningkat, memastikan bahwa pengawasan keamanan tidak berada di bawah unit yang diawasi (*segregation of duties*), serta meningkatkan fokus dan akuntabilitas keamanan siber sebagai pilar strategis yang mandiri.

Dengan restrukturisasi ini, organisasi TI per Januari 2025 terdiri dari lima divisi: Divisi *Digital Transformation & Innovation* yang menangani perbankan digital, kanal mobile, dan otomatisasi proses; Divisi *Core Banking & Surrounding* yang mengelola sistem inti perbankan, transaksi terintegrasi, dan *treasury*; Divisi *Data Analytics & IT Management* yang mencakup analitik data, perencanaan strategis TI, arsitektur *enterprise*, dan pengelolaan proyek; Divisi *IT Infrastructure & Services* yang menangani infrastruktur, layanan TI, dan pengelolaan vendor; serta Divisi *Cyber Security & IT Governance* sebagai divisi baru hasil pemisahan. Posisi *Head of Digital Transformation & Innovation* masih dalam status penunjukan dan dikelola langsung oleh CTO.

Budaya dan Lingkungan Kerja TI

Pengembangan budaya kerja merupakan elemen penting dalam mendukung transformasi TI. Pada November 2025, seluruh anggota tim TI mengikuti acara *IT Annual Outing* yang mencakup sesi *brainstorming* intensif untuk membangun keselarasan visi dan memperkuat semangat kolaborasi menjelang tahun 2026. Acara ini merupakan forum di mana seluruh anggota tim, dari level eksekutif hingga staf, berpartisipasi aktif dalam sesi refleksi dan perencanaan budaya kerja.

Sesi *brainstorming* menghasilkan kesepakatan bersama mengenai evolusi budaya kerja TI dari “*Can Do Attitude*” di tahun 2025 menuju “*Beyond Can Do*” di tahun 2026. Evolusi ini menekankan bahwa sikap proaktif saja tidak cukup; tim TI harus memiliki komitmen untuk menuntaskan setiap inisiatif hingga tuntas (*follow through*), bukan sekadar memantau status (*follow up*). Konsep ini dirumuskan dalam kerangka budaya EASY: *Empowered* (setiap anggota tim diberdayakan untuk mengambil keputusan dan inisiatif), *Agile* (tim yang tangkas dan adaptif terhadap perubahan), *Secure* (keamanan sebagai tanggung jawab bersama, bukan hanya fungsi teknis), dan *Yielding* (berorientasi pada hasil yang terukur dan berdampak).

Kerangka budaya ini didukung oleh tiga pilar: *Structure & Coordination* yang memastikan kejelasan peran (*Who*), tugas (*What*), dan tenggat waktu (*When*) dalam setiap inisiatif; *Culture* sebagai nilai bersama yang diwujudkan dalam perilaku sehari-hari, di mana “*follow through*” menjadi standar kerja, bukan sekadar “*follow up*”; dan Mantra “*Impossible We Do, Miracle We Try*” sebagai energi moral yang mendorong tim untuk melampaui batasan yang ada. Setiap anggota tim diminta untuk memberikan satu komitmen pribadi untuk tahun 2026, sehingga membangun akuntabilitas individual yang mendukung tujuan kolektif sebagai SUPER Team dengan peningkatan *Capability* dan *Performance*.

of Cyber Security & IT Governance. This separation was carried out to strengthen the independence of cyber security and IT governance functions in facing the increasing complexity of cyber threats, ensuring that security oversight is not under the unit being supervised (segregation of duties), and increasing the focus and accountability of cyber security as an independent strategic pillar.

With this restructuring, as of January 2025, the IT organization will consist of five divisions: the Digital Transformation & Innovation Division, which handles digital banking, mobile channels, and process automation; the Core Banking & Surrounding Division, which manages core banking systems, integrated transactions, and treasury; the Data Analytics & IT Management Division, which covers data analytics, IT strategic planning, enterprise architecture, and project management; the IT Infrastructure & Services Division, which handles infrastructure, IT services, and vendor management; and the Cyber Security & IT Governance Division, a new division resulting from the separation. The position of Head of Digital Transformation & Innovation is still under appointment and is managed directly by the CTO.

IT Culture and Work Environment

Work culture development is an important element in supporting IT transformation. In November 2025, all IT team members participated in the IT Annual Outing event, which included intensive brainstorming sessions to build vision alignment and strengthen the spirit of collaboration ahead of 2026. This event was a forum where all team members, from executive to staff level, actively participated in work culture reflection and planning sessions.

The brainstorming session resulted in a mutual agreement on the evolution of the IT work culture from a “Can Do Attitude” in 2025 to “Beyond Can Do” in 2026. This evolution emphasizes that a proactive attitude alone is not enough; the IT team must be committed to following through on every initiative to completion, not just monitoring its status (follow up). This concept is formulated in the EASY culture framework: Empowered (each team member is empowered to make decisions and take initiatives), Agile (teams are agile and adaptive to change), Secure (security is a shared responsibility, not just a technical function), and Yielding (results-oriented and impactful).

This cultural framework is supported by three pillars: Structure & Coordination, which ensures clarity of roles (Who), tasks (What), and deadlines (When) in every initiative; Culture as shared values embodied in everyday behavior, where “follow through” is the standard of work, not just “follow up”; and the mantra “Impossible We Do, Miracle We Try” as the moral energy that drives the team to exceed existing limits. Each team member is asked to make one personal commitment for 2026, thereby building individual accountability that supports the collective goal of becoming a SUPER Team with increased Capability and Performance.

Pengembangan Kompetensi dan Pelatihan TI

Sepanjang tahun 2025, Bank menginvestasikan sumber daya yang signifikan dalam pengembangan kompetensi seluruh anggota tim TI melalui program pelatihan yang terstruktur dan berjenjang. Program ini dirancang untuk memastikan kesiapan organisasi TI dalam mengeksekusi strategi transformasi, memperkuat postur keamanan, serta memenuhi tuntutan regulasi yang terus berkembang.

Di level pimpinan tertinggi TI (*Chief Technology Officer*), pengembangan difokuskan pada penyelarasan visi strategis dan kepemimpinan transformasi. CTO mengikuti program *SPARK Leadership Development* bersama seluruh *Head of Division*, *Balanced Score Card Workshop* bersama jajaran Direksi, *Workshop Transformation Journey for Executive Management*, serta sesi *AI Adoption* yang memperkuat pemahaman tentang pemanfaatan kecerdasan buatan dalam perbankan. Selain itu, CTO secara aktif menghadiri forum regulator termasuk Forum SERASI Bank Indonesia untuk penguatan keamanan siber industri, serta sosialisasi perizinan Bank Indonesia untuk memastikan kepatuhan terhadap ketentuan terbaru.

Di level *Head of Division*, seluruh pimpinan divisi TI mengikuti program pengembangan kepemimpinan strategis. *SPARK Leadership Development* yang difasilitasi oleh PT Dunamis membekali para pimpinan dengan kapabilitas kepemimpinan berbasis kepercayaan. *Executive Management Outing* memperkuat keselarasan visi antar pimpinan divisi. *IT Workshop* yang difasilitasi oleh jaringan regional KBank memastikan penyelarasan strategi TI dengan praktik terbaik di tingkat grup. Di bidang manajemen risiko, para *Head of Division* menyelesaikan sertifikasi dan *refresher* Manajemen Risiko Jenjang 5 untuk memperkuat kapabilitas pengelolaan risiko di level pengambil keputusan. *Head of Cyber Security* secara khusus mengikuti forum regulator terkait keamanan siber dan sistem pembayaran, serta program sertifikasi yang memperkuat kapabilitas pengelolaan keamanan. *Head of Data Analytics & IT Management* mengikuti program analitik berbasis AI dan sosialisasi tata kelola investasi TI bersama jajaran Bank.

Di level *Department Head* dan *Team Leader*, pengembangan difokuskan pada penguatan kapabilitas manajerial dan teknis menengah. Program *SPARK Leadership Development* khusus untuk level *Department Head* dan *Team Leader* diikuti oleh para *Section Head* yang membawahi fungsi layanan TI, manajemen proyek, dan analitik data. Pelatihan *Impactful Presentation Skills* membekali para pimpinan unit dengan kemampuan komunikasi yang lebih efektif dalam menyampaikan inisiatif strategis TI

IT Competency Development and Training

Throughout 2025, the Bank invested significant resources in developing the competencies of all IT team members through structured and tiered training programs. These programs were designed to ensure the IT organization's readiness to execute its transformation strategy, strengthen its security posture, and meet evolving regulatory requirements.

At the highest level of IT leadership (Chief Technology Officer), development is focused on aligning strategic vision and transformational leadership. The CTO participates in the SPARK Leadership Development program with all Heads of Division, the Balanced Score Card Workshop with the Board of Directors, the Transformation Journey for Executive Management Workshop, and AI Adoption sessions that strengthen understanding of the use of artificial intelligence in banking. In addition, the CTO actively attends regulatory forums, including Bank Indonesia's SERASI Forum for strengthening industry cybersecurity, as well as Bank Indonesia's licensing socialization to ensure compliance with the latest regulations.

At the Head of Division level, all IT division leaders participate in a strategic leadership development program. SPARK Leadership Development, facilitated by PT Dunamis, equips leaders with trust-based leadership capabilities. Executive Management Outing strengthens the alignment of vision among division leaders. IT Workshops facilitated by KBank's regional network ensure the alignment of IT strategies with best practices at the group level. In the field of risk management, the Heads of Division complete Level 5 Risk Management certification and refresher courses to strengthen risk management capabilities at the decision-making level. The Head of Cyber Security specifically participates in regulatory forums related to cyber security and payment systems, as well as certification programs that strengthen security management capabilities. The Head of Data Analytics & IT Management participates in AI-based analytics programs and IT investment governance socialization with Bank officials.

At the Department Head and Team Leader levels, development focuses on strengthening mid-level managerial and technical capabilities. The SPARK Leadership Development program specifically for Department Heads and Team Leaders is attended by Section Heads who oversee IT services, project management, and data analytics functions. Impactful Presentation Skills training equips unit leaders with more effective communication skills in conveying strategic IT initiatives to

kepada pemangku kepentingan. Sertifikasi Manajemen Risiko Jenjang 4 dan 5 juga dipenuhi di level ini untuk memastikan pemahaman risiko yang memadai di seluruh lini manajerial.

Di level staf, program pengembangan mencakup penguatan kapabilitas teknis dan profesional sesuai fungsi masing-masing. Tim pengembangan aplikasi dan analitik data mengikuti program *Software Quality Management* yang difasilitasi oleh mitra teknologi regional dalam beberapa sesi, pelatihan manajemen proyek TI secara berseri, serta sosialisasi metodologi *Project Management Life Cycle* (PMLC) yang menjadi standar pelaksanaan proyek Bank. Tim keamanan siber mengikuti pelatihan khusus termasuk sertifikasi keamanan informasi profesional bertaraf internasional serta *workshop* terkait sistem pelaporan keamanan dan ketahanan siber. Tim infrastruktur mengikuti transfer *knowledge* di bidang layanan TI serta sertifikasi Manajemen Risiko untuk memperkuat disiplin pengelolaan perubahan dan insiden.

Secara menyeluruh, seluruh anggota tim TI tanpa terkecuali mengikuti program wajib yang mencakup: *Cyber Hygiene* (keamanan AI, praktik data aman, dan kewaspadaan *phishing*) yang diselenggarakan oleh jaringan regional, ujian keamanan siber tahunan, pelatihan kepatuhan anti-pencucian uang dan kewaspadaan *fraud*, serta *e-learning* terkait pelaporan insiden dan kerangka *Three Lines of Defense*. Program perlindungan data pribadi termasuk *refresher* kebijakan perlindungan data dan sosialisasi prosedur anti-penyuapan juga diikuti oleh seluruh tim. Investasi pengembangan kompetensi ini ditutup dengan *Team Building IT Division* yang dipimpin langsung oleh CTO untuk memperkuat kohesi dan keselarasan seluruh organisasi TI.

stakeholders. Level 4 and 5 Risk Management certifications are also fulfilled at this level to ensure adequate risk understanding across all managerial lines.

At the staff level, the development program includes strengthening technical and professional capabilities according to their respective functions. The application development and data analytics teams participated in the Software Quality Management program facilitated by regional technology partners in several sessions, a series of IT project management training sessions entitled " " and an introduction to the Project Management Life Cycle (PMLC) methodology, which is the standard for implementing Bank projects. The cybersecurity team participates in specialized training, including international professional information security certification and workshops on security reporting and cybersecurity systems. The infrastructure team participates in knowledge transfer in the field of IT services and Risk Management certification to strengthen change and incident management disciplines.

Overall, all IT team members without exception participated in mandatory programs covering: Cyber Hygiene (AI security, secure data practices, and phishing awareness) organized by the regional network, annual cybersecurity exams, anti-money laundering compliance and fraud awareness training, and e-learning related to incident reporting and the Three Lines of Defense framework. The personal data protection program, including data protection policy refreshers and anti-bribery procedure socialization, is also followed by the entire team. This competency development investment is concluded with IT Division Team Building led directly by the CTO to strengthen the cohesion and alignment of the entire IT organization.

Investasi SDM TI IT Human Resource Investment

Program pelatihan yang berjenjang dari CTO hingga staf memastikan bahwa setiap level organisasi TI memiliki kompetensi yang selaras dengan perannya dalam mendukung transformasi. Kombinasi kepemimpinan strategis di level eksekutif, penguatan manajerial di level pimpinan unit, dan kapabilitas teknis di level staf menciptakan fondasi SDM yang kuat untuk mengeksekusi rencana strategis TI di tahun 2026.

A tiered training program from the CTO to staff ensures that every level of the IT organization has competencies aligned with their role in supporting transformation. The combination of strategic leadership at the executive level, managerial reinforcement at the unit leadership level, and technical capabilities at the staff level creates a strong HR foundation for executing the IT strategic plan in 2026.

Manajemen Risiko TI, Kepatuhan, dan Regulasi

Sebagai lembaga keuangan yang diawasi oleh Otoritas Jasa Keuangan (OJK) dan Bank Indonesia (BI), Bank menempatkan manajemen risiko teknologi informasi, kepatuhan regulasi, perlindungan data nasabah, keamanan siber, dan ketahanan operasional sebagai pilar yang tidak terpisahkan dari strategi TI. Bagian ini menguraikan kerangka kerja, implementasi, dan pencapaian Bank di bidang-bidang tersebut sepanjang tahun 2025.

IT Risk Management, Compliance, and Regulation

As a financial institution supervised by the Financial Services Authority (OJK) and Bank Indonesia (BI), the Bank places IT risk management, regulatory compliance, customer data protection, cybersecurity, and operational resilience as integral pillars of its IT strategy. This section outlines the Bank's framework, implementation, and achievements in these areas throughout 2025.

Kepatuhan terhadap Regulasi dan Ketentuan

Bank secara konsisten memenuhi seluruh kewajiban pelaporan dan ketentuan regulasi yang ditetapkan oleh otoritas pengawas. Sepanjang tahun 2025, Divisi TI menyampaikan seluruh laporan regulasi secara tepat waktu, mencakup laporan berkala terkait sistem pembayaran kepada Bank Indonesia, laporan pemantauan keamanan siber, laporan ketersediaan layanan TI, serta laporan rutin kepada OJK dan BI. Kepatuhan pelaporan ini mencerminkan komitmen Bank dalam menjaga transparansi dan akuntabilitas kepada regulator.

Di bidang kepatuhan aplikasi dan proses bisnis, sejumlah inisiatif sebagaimana diuraikan pada bagian Pelaksanaan dan Pencapaian TI telah diselesaikan untuk memastikan kesesuaian dengan ketentuan yang berlaku, mencakup penguatan sistem anti-pencucian uang, otomasi perhitungan batas kredit, pengembangan model perhitungan kerugian kredit ekspektasian, serta pemenuhan kebutuhan pelaporan regulasi yang berkembang. Seluruh anggota tim TI juga diwajibkan mengikuti pelatihan kepatuhan anti-pencucian uang dan kewaspadaan *fraud* untuk memperkuat kesadaran di seluruh level organisasi.

Audit TI dan Tindak Lanjut Perbaikan

Tahun 2025 merupakan periode intensif dalam penyelesaian temuan audit dari berbagai pihak. Divisi TI secara aktif menindaklanjuti temuan audit yang bersumber dari pemeriksaan Bank Indonesia, OJK, Internal Audit, audit jaringan regional, dan *External Audit*. Sebagian besar temuan telah berhasil diremediasi dan ditutup, sementara temuan yang memerlukan penanganan lebih lanjut terus dipantau dan dijadwalkan penyelesaiannya di tahun 2026.

Divisi *IT Governance* juga menyelesaikan kegiatan audit signifikan mencakup audit ketahanan siber tahunan untuk memastikan kesesuaian dengan standar yang berlaku, serta audit kepatuhan sistem pembayaran nasional sebagai prasyarat pemulihan layanan. Temuan risiko yang teridentifikasi sepanjang tahun, termasuk yang terbawa dari tahun sebelumnya, telah ditangani secara terstruktur dengan prioritas berdasarkan tingkat risiko. Temuan audit terkait aplikasi pelaporan juga telah ditindaklanjuti. Untuk memperkuat tata kelola, *IT Governance* menerbitkan sejumlah kebijakan dan prosedur baru yang mendukung pengelolaan TI dan kebutuhan bisnis Bank.

Penerapan Perlindungan Data Pribadi dari Sisi Teknologi

Dalam mendukung kepatuhan terhadap Undang-Undang Perlindungan Data Pribadi (UU PDP) serta ketentuan OJK dan Bank Indonesia, Divisi TI berperan dalam penerapan lapisan perlindungan data dari sisi teknologi dan infrastruktur. Peran ini bersifat komplementer terhadap fungsi *Data Protection Officer* yang berada di luar organisasi TI.

Pencegahan kebocoran data dilakukan melalui implementasi sistem *Data Loss Prevention* yang memantau, mendeteksi, dan memblokir aktivitas berisiko terhadap data sensitif nasabah secara otomatis.

Regulatory and Compliance

The Bank consistently fulfills all reporting obligations and regulatory requirements set by the supervisory authorities. Throughout 2025, the IT Division submitted all regulatory reports in a timely manner, including periodic reports on payment systems to Bank Indonesia, cybersecurity monitoring reports, IT service availability reports, and routine reports to the OJK and BI. This reporting compliance reflects the Bank's commitment to maintaining transparency and accountability to regulators.

In the area of application and business process compliance, a number of initiatives as outlined in the IT Implementation and Achievements section have been completed to ensure compliance with applicable regulations, including strengthening the anti-money laundering system, automating credit limit calculations, developing an expected credit loss calculation model, and fulfilling the evolving regulatory reporting requirements of the Financial Transaction Reports and Analysis Center. All IT team members are also required to undergo anti-money laundering compliance and fraud awareness training to strengthen awareness at all levels of the organization.

IT Audit and Follow-up Improvements

The year 2025 is an intensive period for resolving audit findings from various parties. The IT Division actively followed up on audit findings sourced from Bank Indonesia, OJK, Internal Audit, regional network audits, and External Audit. Most of the findings have been successfully remediated and closed, while findings that require further handling continue to be monitored and scheduled for completion in 2026.

The IT Governance Division also completed significant audit activities, including the annual cyber resilience audit to ensure compliance with applicable standards, as well as the national payment system compliance audit as a prerequisite for service recovery. Risk findings identified throughout the year, including those carried over from the previous year, have been addressed in a structured manner with priority based on risk level. Audit findings related to reporting applications have also been followed up. To strengthen governance, IT Governance has issued a number of new policies and procedures that support the Bank's IT management and business needs.

Implementation of Personal Data Protection from a Technological Perspective

In supporting compliance with the Personal Data Protection Law (PDP Law) and the provisions of the OJK and Bank Indonesia, the IT Division plays a role in implementing layers of data protection from a technological and infrastructural perspective. This role is complementary to the function of the Data Protection Officer, who is outside the IT organization.

Data leakage prevention is carried out through the implementation of a Data Loss Prevention system that automatically monitors, detects, and blocks risky activities involving sensitive customer data. All IT teams

Sosialisasi perubahan alur pengendalian kebocoran data juga telah dilakukan kepada seluruh tim TI untuk memastikan pemahaman dan kepatuhan terhadap prosedur terbaru. Pengelolaan akses hak istimewa diterapkan melalui sistem terpusat yang memastikan bahwa akses ke data sensitif hanya dapat dilakukan oleh personel yang berwenang melalui mekanisme yang terkontrol dan teraudit. Penguatan keamanan komunikasi data ditegakkan melalui penerapan enkripsi pada infrastruktur sistem pembayaran, serta rencana peningkatan protokol pertukaran data antara sistem inti dan sistem pendukung yang akan diselesaikan di tahun 2026.

Seluruh anggota tim TI juga berpartisipasi aktif dalam program *refresher* kebijakan perlindungan data pribadi Bank yang diselenggarakan oleh fungsi *Compliance*, memastikan bahwa kesadaran perlindungan data melekat dalam setiap aktivitas pengembangan dan pengelolaan sistem teknologi informasi.

Penguatan Kerangka Keamanan Siber

Pencapaian proyek keamanan siber yang diuraikan pada bagian Pelaksanaan dan Pencapaian TI serta penguatan organisasi pada bagian Organisasi dan Sumber Daya TI dilandasi oleh kerangka tata kelola keamanan siber yang mengacu pada regulasi OJK, Peraturan Bank Indonesia, Undang-Undang Perlindungan Data Pribadi, serta praktik terbaik internasional. Kerangka ini memastikan bahwa setiap inisiatif keamanan bukan sekadar respons teknis, melainkan bagian dari strategi pengelolaan risiko siber yang terstruktur dan berkelanjutan.

Dalam pelaksanaannya, pendekatan *security by design* diterapkan pada seluruh inisiatif pengembangan sistem baru, sehingga aspek keamanan telah menjadi bagian integral sejak tahap perencanaan dan desain. Pusat operasi keamanan siber yang telah dibangun beroperasi dengan cakupan pemantauan yang terus diperluas untuk memperkuat kemampuan deteksi dan respons terhadap ancaman secara proaktif.

Penerapan Disaster Recovery Plan

Ketahanan operasional merupakan aspek kritis dalam menjamin kelangsungan layanan perbankan. Bank menerapkan kerangka *Disaster Recovery Plan* (DRP) dan *Business Continuity Management* (BCM) yang mencakup kesiapan infrastruktur, proses pemulihan, dan pengujian berkala sesuai ketentuan OJK dan praktik terbaik industri.

Sepanjang tahun 2025, kapabilitas BCM diperkuat melalui pembangunan kesiapan pemulihan di lokasi utama dan lokasi cadangan, mencakup prosedur *failover* dan mekanisme komunikasi krisis. Konektivitas antara pusat data utama dan pusat pemulihan bencana diperkuat melalui optimasi replikasi data. Pemulihan layanan sistem pembayaran nasional sebagaimana diuraikan pada bagian Pelaksanaan dan Pencapaian TI menjadi ujian nyata kapabilitas pemulihan Bank. Bank akan terus melaksanakan uji coba DRP secara berkala untuk memastikan kesiapan pemulihan sesuai target yang ditetapkan.

have also been informed of changes to the data leakage control flow to ensure understanding and compliance with the latest procedures. Privileged access management is implemented through a centralized system that ensures access to sensitive data can only be carried out by authorized personnel through controlled and audited mechanisms. Strengthened data communication security is enforced through the implementation of encryption in the payment system infrastructure, as well as plans to upgrade the data exchange protocol between the core system and the support system, which will be completed in 2026.

All IT team members also actively participate in the Bank's personal data protection policy refresher program organized by the Compliance function, ensuring that data protection awareness is embedded in every information technology system development and management activity.

Strengthening the Cybersecurity Framework

The achievements of the cybersecurity project described in the IT Implementation and Achievements section and organizational strengthening in the IT Organization and Resources section are based on a cybersecurity governance framework that refers to OJK regulations, Bank Indonesia regulations, the Personal Data Protection Law, and international best practices. This framework ensures that every security initiative is not merely a technical response, but part of a structured and sustainable cyber risk management strategy.

In its implementation, the security by design approach is applied to all new system development initiatives, so that security aspects have become an integral part of the planning and design stages. The cybersecurity operations center that has been established operates with an expanding scope of monitoring to strengthen proactive threat detection and response capabilities.

Implementation of Disaster Recovery Plan

Operational resilience is a critical aspect in ensuring the continuity of banking services. The Bank implements a Disaster Recovery Plan (DRP) and Business Continuity Management (BCM) framework that covers infrastructure readiness, recovery processes, and periodic testing in accordance with OJK regulations and industry best practices.

Throughout 2025, BCM capabilities will be strengthened through the development of recovery readiness at primary and backup locations, including failover procedures and crisis communication mechanisms. Connectivity between the main data center and the disaster recovery center will be strengthened through data replication optimization. The recovery of national payment system services as outlined in the IT Implementation and Achievements section is a real test of the Bank's recovery capabilities. The Bank will continue to conduct periodic DRP trials to ensure recovery readiness in accordance with the set targets.

Komitmen Tata Kelola dan Keamanan TI *Commitment to IT Governance and Security*

Bank berkomitmen untuk menjaga kepatuhan regulasi, melindungi data pribadi nasabah, mempertahankan postur keamanan siber yang proaktif, serta memastikan ketahanan operasional melalui DRP dan BCM yang teruji — seluruhnya sebagai fondasi kepercayaan nasabah dan keberlanjutan bisnis Bank.

The Bank is committed to maintaining regulatory compliance, protecting customer personal data, maintaining a proactive cybersecurity posture, and ensuring operational resilience through proven DRP and BCM — all of which form the foundation of customer trust and the Bank's business continuity.

Rencana Pengembangan Teknologi Informasi ke Depan

Fondasi yang telah dibangun di tahun 2025 - mulai dari penyelesaian proyek transformasi TI, pembangunan ekosistem keamanan siber, hingga penguatan organisasi dan kompetensi SDM - membuka peluang bagi Bank untuk mengakselerasi pengembangan teknologi secara lebih ambisius. Dalam rangka mendukung visi Bank untuk menjadi bank pilihan yang berkelanjutan dengan konektivitas regional, strategi pengembangan TI ke depan diarahkan pada empat sasaran utama: meningkatkan ketahanan infrastruktur dan keamanan siber, mendukung digitalisasi layanan dan integrasi bisnis, mengoptimalkan pemanfaatan teknologi berbasis *cloud* dan *data-driven*, serta menjamin kepatuhan terhadap regulasi dan standar industri. Pengembangan ini diwujudkan melalui inisiatif strategis yang terstruktur dalam sembilan pilar fokus prioritas berikut.

1. IT Transformation.

Sebagai kelanjutan dari proyek *IT Transformation* yang telah menghasilkan peta jalan modernisasi teknologi, program ini menjadi prioritas tertinggi untuk membangun fondasi teknologi yang aman, skalabel, dan sesuai regulasi. Inisiatif utama adalah *Cloud Platform Migration*: migrasi menyeluruh seluruh server dan aplikasi perbankan ke *platform cloud* generasi terbaru secara bertahap dengan pendekatan risiko terkendali. Gelombang pertama mencakup sistem pelaporan keuangan (PSAK), *data lake*, sistem monitoring valas, SLIK, serta seluruh server infrastruktur pendukung termasuk *Active Directory*, file server, proxy, dan DLP. Gelombang berikutnya mencakup sistem anti-pencucian uang, sistem *treasury & trade finance*, sistem analisis kredit, dan *platform* pelaporan. Bersamaan dengan itu, *Firewall Resilience Upgrade* akan meningkatkan ketahanan perangkat keamanan perimeter dengan mekanisme redundansi. Penguatan *Network Access Control* (NAC) akan memperluas pengendalian akses dan visibilitas jaringan di seluruh kantor cabang. *Backup Solution Enhancement* dalam dua fase akan meningkatkan keandalan dan kecepatan pemulihan data di pusat data. Di sisi *Application Security Enhancement*, penguatan keamanan akan diterapkan pada *mobile banking* mencakup proteksi terhadap perangkat yang telah dimodifikasi, pengamanan koneksi antar sistem pada *core banking* dan sistem pendukung, serta penguatan metode autentikasi pada *platform* digital.

Future Information Technology Development Plan

The foundation that has been built in 2025 - from the completion of IT transformation projects, the development of a cybersecurity ecosystem, to the strengthening of the organization and human resource competencies - opens up opportunities for the Bank to accelerate technology development more ambitiously. In order to support the Bank's vision of becoming a sustainable bank of choice with regional connectivity, the future IT development strategy is directed at four main objectives: improving infrastructure resilience and cybersecurity, supporting service digitalization and business integration, optimizing the use of cloud-based and data-driven technologies, and ensuring compliance with regulations and industry standards. This development is realized through strategic initiatives structured into the following nine priority focus pillars.

1. IT Transformation.

As a continuation of the IT Transformation project that has produced a roadmap for technological modernization, this program is the highest priority for building a secure, scalable, and regulatory-compliant technology foundation. The main initiative is Cloud Platform Migration: the gradual migration of all banking servers and applications to the latest generation cloud platform with a controlled risk approach. The first wave covers financial reporting systems (PSAK), data lakes, foreign exchange monitoring systems, SLIK, and all supporting infrastructure servers including Active Directory, file servers, proxies, and DLP. The next wave covers anti-money laundering systems, treasury & trade finance systems, credit analysis systems, and reporting platforms. At the same time, the Firewall Resilience Upgrade will improve the resilience of perimeter security devices with redundancy mechanisms. Strengthening Network Access Control (NAC) will expand access control and network visibility across all branch offices. Backup Solution Enhancement in two phases will improve data reliability and recovery speed in data centers. On the Application Security Enhancement side, security enhancements will be applied to mobile banking, including protection against modified devices, securing connections between core banking and support systems, and strengthening authentication methods on digital platforms.

2. Bank Rebranding Enablement.

Sejalan dengan strategi penguatan posisi pasar dan pengenalan identitas baru, seluruh ekosistem teknologi Bank akan diselaraskan secara menyeluruh. Cakupan meliputi lima dimensi: pertama, penyesuaian sistem inti mencakup *core banking*, sistem transaksi terintegrasi, sistem *treasury & trade finance*, dan sistem anti-pencucian uang agar seluruh *output* mencerminkan identitas baru. Kedua, pembaruan antarmuka (UI/UX) pada seluruh aplikasi digital mencakup *mobile banking*, *internet banking* bisnis, aplikasi *virtual assistant*, dan QRIS Merchant. Ketiga, penyesuaian seluruh sistem pelaporan regulator dan internal mencakup sistem *monitoring* valas, pelaporan LPS, dan platform analitik. Keempat, migrasi domain dan pembaruan sertifikat keamanan digital. Kelima, penyesuaian *platform* komunikasi internal, *web application firewall*, *DNS Security*, dan DLP. Program ini dirancang untuk dilaksanakan secara simultan agar transisi berlangsung mulus tanpa mengganggu layanan kepada nasabah.

3. Bank Fundamental.

Sebagai kelanjutan dari peningkatan sistem inti dan pembiayaan perdagangan di tahun 2025, penguatan fundamental diperdalam melalui empat inisiatif. GPN Messaging Upgrade akan mengimplementasikan versi terbaru *messaging switching* untuk mendukung skema harga RTOL dan *card-based*. Integrasi sistem *treasury & trade finance* dengan sistem pelaporan regulator akan mengotomasi pencatatan transaksi sesuai ketentuan. *Fraud Detection System* (FDS) yang telah memasuki tahap implementasi di tahun 2025 akan dirampungkan sebagai lini pertahanan pertama pada seluruh kanal transaksi mencakup *mobile banking*, *internet banking*, BI-FAST, RTGS, APMK, dan QRIS sesuai ketentuan regulator. Peningkatan sistem transaksi terintegrasi akan dilakukan untuk memenuhi standar keamanan PCI DSS terkini dan mendukung layanan berbasis API.

4. Infrastructure Optimization.

Pembaruan seluruh perangkat kerja ke Windows 11 akan meningkatkan produktivitas dan keamanan perangkat di seluruh lokasi Bank. Implementasi sistem *recording treasury call* akan mendukung kepatuhan dan penyelesaian perselisihan pada layanan *treasury*.

5. Cyber Security Enhancement.

Melanjutkan lompatan kualitatif keamanan siber di tahun 2025, penguatan ke depan difokuskan pada empat area strategis. Pertama, operasionalisasi penuh *Cyber Security Operation Center* (CSOC) dengan cakupan pemantauan menyeluruh terhadap seluruh server dan sistem Bank untuk deteksi dan respons ancaman secara *real-time*. Kedua, penguatan *Privilege Access Management* (PAM) untuk mengelola, memantau, dan mengamankan seluruh akses hak istimewa guna mengurangi risiko kebocoran data dan penyalahgunaan akses. Ketiga, migrasi protokol pertukaran data dari FTP ke SFTP antara *core banking* dan sistem pendukung untuk meningkatkan keamanan dan keandalan komunikasi data. Keempat, pembangunan ulang arsitektur *platform digital* dengan pendekatan modular yang meningkatkan skalabilitas sekaligus mengurangi permukaan serangan.

2. Bank Rebranding Enablement.

In line with the strategy of strengthening market position and introducing a new identity, the entire Bank's technology ecosystem will be comprehensively aligned. The scope covers five dimensions: first, core system adjustments covering core banking, integrated transaction systems, treasury & trade finance systems, and anti-money laundering systems so that all outputs reflect the new identity. Second, updating the user interface (UI/UX) on all digital applications, including mobile banking, business internet banking, virtual assistant applications, and QRIS Merchant. Third, adjusting all regulatory and internal reporting systems, including foreign exchange monitoring systems, LPS reporting, and analytics platforms. Fourth, domain migration and digital security certificate updates. Fifth, adjustments to the internal communication platform, web application firewall, DNS Security, and DLP. This program is designed to be implemented simultaneously to ensure a smooth transition without disrupting customer services.

3. Bank Fundamental.

As a continuation of core system and trade finance enhancements in 2025, fundamental strengthening will be deepened through four initiatives. GPN Messaging Upgrade will implement the latest messaging switching version to support RTOL and card-based pricing schemes. The integration of the treasury & trade finance system with the regulatory reporting system will automate transaction recording in accordance with regulations. The Fraud Detection System (FDS), which entered the implementation phase in 2025, will be completed as the first line of defense across all transaction channels—including mobile banking, internet banking, BI-FAST, RTGS, APMK, and QRIS—in accordance with regulatory requirements. The integrated transaction system will be upgraded to meet the latest PCI DSS security standards and support API-based services.

4. Infrastructure Optimization.

Updating all work devices to Windows 11 will improve device productivity and security across all Bank locations. The implementation of a treasury call recording system will support compliance and dispute resolution in treasury services.

5. Cyber Security Enhancement.

Continuing the qualitative leap in cyber security in 2025, future strengthening will focus on four strategic areas. First, the full operationalization of the Cyber Security Operation Center (CSOC) with comprehensive monitoring coverage of all Bank servers and systems for real-time threat detection and response. Second, strengthening Privilege Access Management (PAM) to manage, monitor, and secure all privileged access to reduce the risk of data leaks and access abuse. Third, migrating the data exchange protocol from FTP to SFTP between core banking and support systems to improve data communication security and reliability. Fourth, rebuilding the digital platform architecture with a modular approach that improves scalability while reducing the attack surface.

6. **Regulatory Compliance.**

Sebagai kelanjutan dari penyelesaian model perhitungan kerugian kredit ekspektasian dan penguatan sistem anti-pencucian uang di tahun 2025, program kepatuhan ke depan mencakup dua inisiatif utama. Otomasi penjurnalan debit interest sesuai PSAK 50/55 akan mempercepat proses akuntansi berdasarkan parameter sistem. Integrasi *platform* pelaporan keuangan PSAK 50/55 dan PSAK 71 menjadi satu sistem terpadu khusus Bank akan meningkatkan keakuratan pelaporan dan kesiapan dalam memenuhi ketentuan OJK.

7. **Data-Driven Enablement.**

Fondasi analitik mandiri yang dibangun di tahun 2025 akan diperluas menjadi *program MIS & Dedicated Datalake* yang komprehensif. Fase pertama berfokus pada migrasi infrastruktur data ke *platform cloud*, peningkatan kapasitas penyimpanan, dan pembangunan kapabilitas *self-service analytics* bagi pengguna bisnis. Fase kedua pada implementasi *platform* data khusus Bank yang terintegrasi dengan seluruh *source system* operasional beserta pilot *self-service analytics*. Fase ketiga pada integrasi data secara menyeluruh serta pembangunan tata kelola dan manajemen data yang komprehensif. Program ini akan memungkinkan pengambilan keputusan berbasis data yang lebih cepat dan akurat di seluruh lini bisnis Bank.

8. **Operational Efficiency & Risk Mitigation.**

Keberhasilan implementasi *Web Customer Handling* di tahun 2025 akan dilanjutkan dengan pengembangan lanjutan untuk memperluas cakupan layanan pelanggan digital. Migrasi SWIFT ke model operasional yang lebih efisien akan dilaksanakan termasuk pembaruan infrastruktur dan kode BIC untuk meningkatkan responsivitas layanan perbankan lintas batas.

9. **Revenue Generation.**

Sebagai kelanjutan dari peluncuran versi terbaru *mobile banking* di tahun 2025, pengembangan layanan digital diarahkan untuk meningkatkan pendapatan berbasis komisi. SNAP API Transfer dan SNAP API Balance Inquiry akan menyediakan interoperabilitas *transfer* dana dan *inquiry* saldo antarbank melalui standar nasional open API pembayaran. Penyempurnaan fitur dan pengalaman pengguna pada *mobile banking* akan terus dilakukan untuk memperkuat daya saing. QRIS Merchant App Enhancement akan meningkatkan kapabilitas pengelolaan transaksi *merchant*. Modernisasi *platform Internet Banking* Bisnis (IBB) dengan fitur *Soft Token*, aktivasi mandiri *Hard Token*, dan penguatan keamanan akan melengkapi portofolio layanan digital Bank.

Seluruh inisiatif di atas dirancang sebagai kelanjutan strategis dari fondasi yang telah dibangun di tahun 2025, memastikan bahwa pengembangan TI berjalan selaras dengan strategi bisnis Bank, mendukung pertumbuhan yang berkelanjutan, dan memperkuat posisi Bank di era perbankan digital.

6. **Regulatory Compliance.**

As a continuation of the completion of the expected credit loss calculation model and the strengthening of the anti-money laundering system in 2025, the future compliance program includes two main initiatives. Automation of debit interest journaling in accordance with PSAK 50/55 will accelerate the accounting process based on system parameters. The integration of the PSAK 50/55 and PSAK 71 financial reporting platforms into a single integrated system specific to the Bank will improve the accuracy of reporting and readiness to comply with OJK regulations.

7. **Data-Driven Enablement.**

The independent analytics foundation built in 2025 will be expanded into a comprehensive MIS & Dedicated Datalake program. The first phase focuses on migrating data infrastructure to a cloud platform, increasing storage capacity, and developing self-service analytics capabilities for business users. The second phase involves the implementation of a dedicated Bank data platform integrated with all operational source systems and a self-service analytics pilot. The third phase involves comprehensive data integration and the development of comprehensive data governance and management. This program will enable faster and more accurate data-driven decision making across all lines of the Bank's business.

8. **Operational Efficiency & Risk Mitigation.**

The successful implementation of Web Customer Handling in 2025 will be followed by further development to expand the scope of digital customer service. The migration of SWIFT to a more efficient operational model will be carried out, including infrastructure and BIC code updates to improve the responsiveness of cross-border banking services.

9. **Revenue Generation.**

As a continuation of the launch of the latest version of mobile banking in 2025, digital service development will be directed towards increasing commission-based revenue. SNAP API Transfer and SNAP API Balance Inquiry will provide interoperability for interbank fund transfers and balance inquiries through national open payment API standards. Features and user experience on mobile banking will continue to be improved to strengthen competitiveness. QRIS Merchant App Enhancement will improve merchant transaction management capabilities. Modernization of the Business Internet Banking (IBB) platform with Soft Token features, self-activation of Hard Tokens, and enhanced security will complement the Bank's digital service portfolio.

All of the above initiatives are designed as a strategic continuation of the foundation that has been built in 2025, ensuring that IT development is in line with the Bank's business strategy, supporting sustainable growth, and strengthening the Bank's position in the era of digital banking.

Laporan Tata Kelola Perusahaan

*Good Corporate
Governance Report*

Sebagai bentuk komitmen terhadap *Good Corporate Governance* (GCG), Bank senantiasa menerapkan prinsip tata kelola yang baik dalam setiap aspek operasionalnya. Tata kelola perusahaan yang efektif dan transparan menjadi dasar dalam menciptakan nilai jangka panjang bagi seluruh pemangku kepentingan serta memastikan kepatuhan terhadap regulasi yang berlaku. Prinsip utama GCG, yaitu transparansi, akuntabilitas, responsibilitas, independensi, dan kesetaraan (*fairness*), menjadi pedoman dalam pengambilan keputusan strategis dan pelaksanaan kegiatan usaha yang berkelanjutan.

Bank juga berkomitmen menerapkan praktik GCG secara konsisten, dengan menjadikan berbagai regulasi dan kebijakan sebagai landasan utama. Penerapan GCG tidak hanya sekadar memenuhi kewajiban kepatuhan, tetapi juga sebagai upaya memperkuat kepercayaan pemegang saham, regulator, serta masyarakat. Dalam hal ini, Bank berpedoman pada:

1. Undang-Undang Republik Indonesia yang mengatur Pasar Modal, Perseroan Terbatas, dan Perbankan sebagai dasar hukum utama;
2. Peraturan Otoritas Jasa Keuangan (POJK) dan Surat Edaran Otoritas Jasa Keuangan (SEOJK) terkait tata kelola, pelaporan tahunan, manajemen risiko, serta ketentuan relevan lainnya;
3. Anggaran Dasar serta keputusan Rapat Umum Pemegang Saham (RUPS) sebagai representasi kehendak dan otoritas pemegang saham; dan
4. Kebijakan serta pedoman tata kelola internal Bank yang memastikan penerapan prinsip GCG secara efektif dan konsisten di seluruh organisasi.

Adapun dalam pengimplementasiannya, Bank memiliki struktur tata kelola yang terdiri dari Dewan Komisaris, Direksi, serta komite-komite pendukung, yang bekerja secara sinergis dalam mengawasi dan mengelola perusahaan. Dewan Komisaris berperan dalam memberikan arahan strategis serta mengawasi kebijakan manajemen, sedangkan Direksi bertanggung jawab atas pelaksanaan operasional yang selaras dengan visi dan misi perusahaan. Selain itu, penerapan kebijakan kepatuhan, manajemen risiko, serta audit internal yang independen memastikan bahwa seluruh aktivitas perusahaan dilakukan secara profesional dan sesuai standar terbaik di industri perbankan.

Sebagai bagian dari transparansi dan keterbukaan informasi, Bank secara berkala menyampaikan laporan tata kelola perusahaan dalam Laporan Tahunan dan Laporan Keberlanjutan. Laporan ini mencakup evaluasi terhadap efektivitas kebijakan tata kelola, implementasi program kepatuhan, serta berbagai inisiatif dalam meningkatkan kualitas pengelolaan perusahaan. Dengan adanya sistem pengawasan yang ketat, termasuk melalui mekanisme *whistleblowing system* (WBS), perusahaan memastikan bahwa setiap dugaan pelanggaran dapat ditindaklanjuti secara profesional dan bertanggung jawab.

Ke depan, Bank akan terus memperkuat penerapan tata kelola perusahaan dengan mengadopsi praktik terbaik, baik di tingkat nasional maupun internasional. Upaya peningkatan transparansi, penguatan budaya kepatuhan, serta penerapan kebijakan berbasis keberlanjutan akan menjadi fokus utama dalam menjaga reputasi dan meningkatkan

As a form of commitment to Good Corporate Governance (GCG), the Bank consistently applies good governance principles in every aspect of its operations. Effective and transparent corporate governance is the basis for creating long-term value for all stakeholders and ensuring compliance with applicable regulations. The main principles of GCG, namely transparency, accountability, responsibility, independence, and fairness, serve as guidelines in strategic decision-making and the implementation of sustainable business activities.

The Bank is also committed to consistently implementing GCG practices, using various regulations and policies as the main foundation. The implementation of GCG is not only to fulfill compliance obligations, but also as an effort to strengthen the trust of shareholders, regulators, and the community. In this case, the Bank is guided by:

1. *Laws and regulations of the Republic of Indonesia governing Capital Markets, Limited Liability Companies, and Banking as the primary legal framework;*
2. *Financial Services Authority (OJK) Regulations (POJK) and Circular Letters (SEOJK) concerning governance, annual reporting, risk management, and other relevant provisions;*
3. *The Articles of Association and resolutions of the General Meeting of Shareholders (GMS) as representations of shareholder authority; and*
4. *The Bank's internal governance policies and guidelines to ensure effective and consistent implementation of GCG principles throughout the organization.*

In its implementation, the Bank has a governance structure consisting of a Board of Commissioners, a Board of Directors, and supporting committees, which work synergistically in supervising and managing the company. The Board of Commissioners plays a role in providing strategic direction and overseeing management policies, while the Board of Directors is responsible for operational implementation in line with the company's vision and mission. In addition, the implementation of compliance policies, risk management, and independent internal audits ensures that all company activities are carried out professionally and in accordance with the best standards in the banking industry.

As part of transparency and information disclosure, the Bank regularly submits corporate governance reports in its Annual Report and Sustainability Report. These reports include evaluations of the effectiveness of governance policies, the implementation of compliance programs, and various initiatives to improve the quality of corporate management. With a strict monitoring system, including a whistleblowing system (WBS), the company ensures that any alleged violations are followed up professionally and responsibly.

Going forward, the Bank will continue to strengthen the implementation of corporate governance by adopting best practices, both nationally and internationally. Efforts to increase transparency, strengthen a culture of compliance, and implement sustainability-based policies will be the main focus in maintaining reputation and increasing stakeholder trust.

kepercayaan pemangku kepentingan. Dengan fondasi tata kelola yang kuat, Bank optimis dapat menghadapi tantangan industri yang dinamis serta memberikan kontribusi positif bagi pertumbuhan ekonomi yang berkelanjutan.

With a strong governance foundation, the Bank is optimistic that it can face dynamic industry challenges and make a positive contribution to sustainable economic growth.

Implementasi Tata Kelola yang dilakukan Bank mengacu pada 5 prinsip dasar dalam mewujudkan dan menyempurnakan penerapan prinsip-prinsip GCG antara lain :

The Bank's implementation of governance refers to 5 basic principles in realizing and perfecting the application of GCG principles, including:

Prinsip GCG GCG Principles	Penerapan di Bank Implementation in the Bank
Transparansi <i>Transparency</i>	Diwujudkan melalui penyediaan informasi keuangan dan non-keuangan yang relevan, akurat, dan tepat waktu. Informasi tersebut disampaikan secara terbuka melalui berbagai saluran komunikasi resmi, termasuk situs web Bank, sehingga dapat diakses oleh pemangku kepentingan sesuai dengan hak dan kewenangannya. <i>Upheld by providing relevant, accurate, and timely financial and non-financial information. Such information is disclosed through official communication channels, including the Bank's website, ensuring accessibility to stakeholders in accordance with their rights and authority.</i>
Akuntabilitas <i>Accountability</i>	Diterapkan dengan menetapkan struktur tugas, fungsi, dan tanggung jawab yang jelas pada setiap organ tata kelola, selaras dengan strategi dan arah bisnis Bank. Sistem pengendalian internal, penerapan <i>four eyes principle</i>, serta mekanisme evaluasi kinerja berbasis <i>reward and consequence</i> menjadi bagian dari sistem <i>check and balance</i> yang menjaga kualitas pengelolaan Bank. <i>Strengthened through clearly defined roles, functions, and responsibilities for each governance organ, aligned with the Bank's strategic direction. A robust internal control system, the application of the four-eyes principle, and performance evaluation mechanisms based on reward and consequence form part of the Bank's check-and-balance framework.</i>
Responsibilitas <i>Responsibility</i>	Tercermin dalam kepatuhan terhadap regulasi perbankan dan peraturan perundang-undangan yang berlaku, serta penerapan prinsip kehati-hatian dalam setiap kegiatan usaha. Bank juga mengintegrasikan komitmen keuangan berkelanjutan sebagai bagian dari tanggung jawab terhadap lingkungan dan masyarakat. <i>Demonstrated through compliance with applicable banking regulations and laws, as well as the consistent application of prudential principles in business activities. The Bank also incorporates sustainable finance commitments as part of its broader responsibility toward society and the environment.</i>
Independensi <i>Independency</i>	Dijaga melalui pengambilan keputusan yang objektif dan bebas dari benturan kepentingan maupun tekanan pihak tertentu. Setiap organ perusahaan menjalankan fungsi pengawasan dan pengelolaan secara profesional sesuai kewenangannya. <i>Maintained by ensuring objective decision-making processes free from conflicts of interest or undue influence from any party. Each corporate organ performs its supervisory and managerial duties professionally within its respective authority.</i>
Kewajaran <i>Fairness</i>	Menjadi dasar dalam memperlakukan seluruh pemangku kepentingan secara adil, termasuk dalam pemenuhan hak-hak mereka serta pemberian ruang untuk menyampaikan aspirasi dan masukan yang konstruktif demi peningkatan kinerja Bank. <i>Guide the Bank in treating all stakeholders equitably, safeguarding their rights, and providing opportunities for constructive feedback to support continuous improvement and long-term performance.</i>

Mengacu pada Pedoman Umum Governansi Korporat Indonesia 2021 yang diterbitkan oleh Komite Nasional Kebijakan Governansi (KNKG), praktik tata kelola Bank dibangun di atas empat pilar utama yang menjadi kerangka integritas dan keberlanjutan Bank, sebagai berikut:

Referring to the 2021 Indonesian Corporate Governance Guidelines issued by the National Committee on Governance Policy (KNKG), the Bank's governance practices are structured around four key pillars that form the foundation of the Bank's integrity and sustainability, as follows

Prinsip GCG GCG Principles	Penerapan di Bank Implementation in the Bank
Perilaku Beretika <i>Ethical Behavior</i>	Dalam melaksanakan kegiatannya, Bank senantiasa mengedepankan kejujuran, memperlakukan semua pihak dengan hormat (<i>respect</i>), memenuhi komitmen, membangun serta menjaga nilai-nilai moral dan kepercayaan secara konsisten. Bank memperhatikan kepentingan Pemegang Saham dan pemangku kepentingan lainnya berdasarkan asas kewajaran dan kesetaraan (<i>fairness</i>) dan dikelola secara independen sehingga masing-masing organ GCG tidak saling mendominasi dan tidak dapat diintervensi oleh pihak lain. <i>In carrying out its activities, the Bank always prioritizes honesty, treats all parties with respect, fulfills its commitments, and consistently builds and maintains moral values and trust. The Bank considers the interests of Shareholders and other stakeholders based on the principles of fairness and equality and is managed independently so that each GCG organ does not dominate the others and cannot be interfered with by other parties.</i>
Transparansi <i>Transparency</i>	Bank dapat mempertanggungjawabkan kinerja secara transparan dan wajar. Untuk itu Bank harus dikelola secara benar, terukur dan sesuai dengan kepentingan perusahaan dengan tetap memperhitungkan kepentingan Pemegang Saham dan pemangku kepentingan. Akuntabilitas merupakan prasyarat yang diperlukan untuk mencapai kinerja yang berkelanjutan. <i>Banks must be accountable for their performance in a transparent and reasonable manner. To that end, banks must be managed properly, measurably, and in accordance with the interests of the company, while taking into account the interests of shareholders and stakeholders. Accountability is a prerequisite for achieving sustainable performance.</i>
Akuntabilitas <i>Accountability</i>	Untuk menjaga objektivitas dalam menjalankan bisnis, Bank menyediakan informasi yang material dan relevan dengan cara yang mudah diakses dan dipahami oleh pemangku kepentingan. Bank mengambil inisiatif untuk mengungkapkan tidak hanya masalah yang disyaratkan oleh peraturan perundang-undangan, tetapi juga hal yang penting untuk pengambilan keputusan oleh Pemegang Saham, kreditur dan pemangku kepentingan lainnya. <i>To maintain objectivity in conducting business, the Bank provides material and relevant information in a manner that is easily accessible and understandable to stakeholders. The Bank takes the initiative to disclose not only matters required by law, but also matters that are important for decision-making by shareholders, creditors, and other stakeholders.</i>
Keberlanjutan <i>Sustainability</i>	Bank mematuhi peraturan perundang-undangan serta berkomitmen melaksanakan tanggung jawab terhadap masyarakat dan lingkungan agar berkontribusi pada pembangunan berkelanjutan melalui kerjasama dengan semua pemangku kepentingan terkait untuk meningkatkan kehidupan mereka dengan cara yang selaras dengan kepentingan bisnis dan agenda pembangunan berkelanjutan. <i>The bank complies with laws and regulations and is committed to fulfilling its responsibilities to society and the environment in order to contribute to sustainable development through cooperation with all relevant stakeholders to improve their lives in a manner consistent with business interests and the sustainable development agenda.</i>

Dalam mendukung program transformasi guna meningkatkan kinerja dan daya saing, Bank terus berupaya menyempurnakan penerapan prinsip-prinsip Tata Kelola secara efektif, akurat, dan konsisten. Komitmen Bank tercermin dalam pengintegrasian lima prinsip utama Tata Kelola ke dalam seluruh aspek operasional dan proses pengambilan keputusan. Bank juga berfokus pada perlindungan hak dan kepentingan seluruh pemangku kepentingan serta mendorong pertumbuhan bisnis yang berkelanjutan. Partisipasi aktif dari seluruh jajaran manajemen dan karyawan menjadi faktor penting dalam merealisasikan visi dan misi transformasi untuk mempercepat pertumbuhan dan memperkuat posisi Bank di industri perbankan nasional.

In supporting its transformation program to improve performance and competitiveness, the Bank continues to strive to improve the effective, accurate, and consistent implementation of governance principles. The Bank's commitment is reflected in the integration of the five key governance principles into all aspects of its operations and decision-making processes. The Bank also focuses on protecting the rights and interests of all stakeholders and promoting sustainable business growth. The active participation of all levels of management and employees is an important factor in realizing the vision and mission of transformation to accelerate growth and strengthen the Bank's position in the national banking industry.

Rapat Umum Pemegang Saham

General Meeting of Shareholders

Rapat Umum Pemegang Saham (RUPS) merupakan organ tertinggi dalam struktur tata kelola Perseroan yang memiliki wewenang untuk mengambil keputusan strategis bagi Bank Maspion. RUPS menjadi sarana bagi pemegang saham untuk menyetujui kebijakan utama, mengevaluasi kinerja manajemen, dan memastikan implementasi *Good Corporate Governance* (GCG) secara efektif. Setiap keputusan yang dihasilkan dalam RUPS wajib mematuhi peraturan perundang-undangan yang berlaku serta memperhatikan kepentingan seluruh pemangku kepentingan, termasuk usulan dari Direksi, Dewan Komisaris, maupun pemegang saham.

The General Meeting of Shareholders (GMS) is the highest authority in the Company's governance structure, with the authority to make strategic decisions for Bank Maspion. The GMS is a forum for shareholders to approve key policies, evaluate management performance, and ensure the effective implementation of Good Corporate Governance (GCG). Every decision made at the GMS must comply with applicable laws and regulations and take into account the interests of all stakeholders, including proposals from the Board of Directors, Board of Commissioners, and shareholders.

Terdapat dua jenis RUPS yang diselenggarakan, yaitu RUPS Tahunan dan RUPS Luar Biasa. RUPS Tahunan diadakan sekali dalam setahun dengan agenda utama membahas dan mengesahkan laporan tahunan, termasuk laporan keuangan, laporan tata kelola, serta penilaian terhadap kinerja Dewan Komisaris dan Direksi. Sementara itu, RUPS Luar Biasa dapat diselenggarakan kapan saja di luar jadwal rutin apabila terdapat keputusan signifikan yang memerlukan persetujuan pemegang saham, seperti perubahan struktur permodalan, pengangkatan atau pemberhentian anggota Dewan Komisaris dan Direksi, atau amandemen anggaran dasar Perseroan.

There are two types of GMS, namely the Annual GMS and the Extraordinary GMS. The Annual GMS is held once a year with the main agenda being to discuss and approve the annual report, including the financial statements, governance report, and assessment of the performance of the Board of Commissioners and the Board of Directors. Meanwhile, an Extraordinary GMS can be held at any time outside of the regular schedule if there is a significant decision that requires shareholder approval, such as changes in capital structure, the appointment or dismissal of members of the Board of Commissioners and Board of Directors, or amendments to the Company's articles of association.

Pelaksanaan RUPST dan RUPSLB Tahun 2025

Sepanjang tahun 2025, Bank menyelenggarakan 1 (satu) kali Rapat Umum Pemegang Saham Tahunan (RUPST) dan 2 (dua) kali Rapat Umum Pemegang Saham Luar Biasa (RUPSLB). RUPST dilaksanakan pada 27 Mei 2025 di Pacific Century Place, Function Room B Level B1, Jakarta pukul 11.24 WIB. RUPSLB pertama diselenggarakan pada 4 Maret 2025 di Pacific Century Place, Function Room B Level B1, Jakarta pukul 10.17 WIB, sedangkan RUPSLB kedua dilaksanakan pada 9 Desember 2025 di Kantor Pusat Bank Maspion lantai 32, Ruangan Parang, Pakuwon Tower Tunjungan Plaza 6, Surabaya pada pukul 10.27 WIB. Seluruh anggota Komisaris dan Direksi menghadiri Rapat baik secara daring maupun luring.

Dewan Komisaris

Board of Commissioners [OJK E.1][GRI 2-11]

Dewan Komisaris merupakan organ utama yang memiliki tugas untuk mengawasi kebijakan pengelolaan serta jalannya operasional Perseroan yang dijalankan oleh Direksi, sekaligus memberikan nasihat guna mendukung kepentingan Perseroan sesuai dengan visi dan misinya. Sebagai bagian dari implementasi Tata Kelola Perusahaan yang mengacu pada Anggaran Dasar, Dewan Komisaris menjalankan tugas dan tanggung jawabnya secara independen untuk mencegah terjadinya benturan kepentingan (*conflict of interest*) dan memastikan kepatuhan Perseroan terhadap seluruh ketentuan hukum dan peraturan yang berlaku. Proses pengangkatan dan pemberhentian anggota Dewan Komisaris dilakukan melalui mekanisme RUPS, di mana Dewan Komisaris menyampaikan laporan pertanggungjawaban atas pelaksanaan tugasnya dalam forum tersebut.

The Board of Commissioners is the main body responsible for supervising the management policies and operations of the Company carried out by the Board of Directors, as well as providing advice to support the interests of the Company in accordance with its vision and mission. As part of the implementation of Corporate Governance in accordance with the Articles of Association, the Board of Commissioners carries out its duties and responsibilities independently to prevent conflicts of interest and ensure the Company's compliance with all applicable laws and regulations. The process of appointing and dismissing members of the Board of Commissioners is carried out through the GMS mechanism, where the Board of Commissioners submits an accountability report on the performance of its duties in that forum.

Piagam Dewan Komisaris

Perseroan telah memiliki pedoman dan tata tertib kerja Dewan Komisaris sebagaimana yang tertuang dalam Piagam Dewan Komisaris (*BOC Charter*). *BOC Charter* berfungsi sebagai panduan pelaksanaan tugas tanggung jawab dan wewenang Dewan Komisaris yang disusun dengan mengacu pada Anggaran Dasar Perseroan, peraturan perundang-undangan yang berlaku, serta praktik-praktik tata kelola yang baik.

Board of Commissioners Charter

The Company has guidelines and rules of procedure for the Board of Commissioners as set forth in the Board of Commissioners Charter (BOC Charter). The BOC Charter serves as a guide for the implementation of the duties, responsibilities, and authorities of the Board of Commissioners, which are formulated with reference to the Company's Articles of Association, applicable laws and regulations, and good governance practices.

Bank wajib mengungkapkan hubungan keuangan dan hubungan keluarga sampai dengan derajat kedua anggota Dewan Komisaris dengan sesama anggota Dewan Komisaris, anggota Direksi dan/atau Pemegang Saham Pengendali sesuai dengan aspek transparansi Dewan Komisaris pada Peraturan Otoritas Jasa Keuangan No. 17 tahun 2023 tentang Penerapan Tata Kelola Bagi Bank Umum. Hubungan afiliasi anggota Dewan Komisaris dapat dilihat pada tabel berikut :

Diversity of the Board of Commissioners

The diversity of the composition of the Bank's Board of Commissioners is in accordance with the provisions of Financial Services Authority Circular Letter No. 32/SEOJK.04/2015 concerning Guidelines for Corporate Governance of Public Companies. This diversity is reflected in a combination of complementary expertise, knowledge, and experience, thereby supporting the effective implementation of supervisory and advisory functions to the Board of Directors in an objective and comprehensive manner.

The composition of the Board of Commissioners is determined by considering the needs and complexity of the Company's business. Currently, the Board of Commissioners meets the diversity criteria, which include age, gender, education, experience, integrity, and dedication, and has an adequate understanding of corporate management and the banking industry. This diversity enables the Board of Commissioners to consider a wider range of aspects in every strategic decision-making process, in order to support the implementation of good and sustainable corporate governance.

Disclosure of Affiliated Relationships of the Board of Commissioners

Banks are required to disclose financial and family relationships up to the second degree of members of the Board of Commissioners with fellow members of the Board of Commissioners, members of the Board of Directors and/or Controlling Shareholders in accordance with the transparency aspects of the Board of Commissioners in Financial Services Authority Regulation No. 17 of 2023 concerning the Implementation of Governance for Commercial Banks. Pedoman dan Tata Tertib Kerja Dewan Komisaris

Pedoman dan Tata tertib kerja Dewan Komisaris merupakan acuan bagi Dewan Komisaris dalam melaksanakan tugas dan tanggung jawabnya secara efektif, efisien dan independen. Muatan dokumen Pedoman dan Tata tertib kerja Dewan Komisaris mengacu pada POJK No. 17 Tahun 2023 tentang Penerapan Tata Kelola bagi Bank Umum dan POJK No. 33/POJK.04/2014 tentang Direksi dan Dewan Komisaris Emiten atau Perusahaan Publik. Pedoman dan Tata Tertib Kerja Dewan Komisaris bersifat mengikat bagi setiap anggota Dewan Komisaris. Pedoman dan Tata Tertib Kerja Dewan Komisaris dievaluasi secara berkala sesuai dengan peraturan yang berlaku. Pedoman dan Tata Tertib Kerja Dewan Komisaris memuat dan mengatur hal-hal terkait dengan:

Guidelines and Rules of Procedure for the Board of Commissioners

The Guidelines and Rules of Procedure for the Board of Commissioners serve as a reference for the Board of Commissioners in carrying out their duties and responsibilities effectively, efficiently, and independently. The content of the Guidelines and Work Procedures of the Board of Commissioners refers to POJK No. 17 of 2023 concerning the Implementation of Governance for Commercial Banks and POJK No. 33/POJK.04/2014 concerning the Board of Directors and Board of Commissioners of Issuers or Public Companies. The Guidelines and Work Procedures of the Board of Commissioners are binding on every member of the Board of Commissioners. The Guidelines and Rules of Procedure of the Board of Commissioners are evaluated periodically in accordance with applicable regulations. The Guidelines and Rules of Procedure of the Board of Commissioners contain and regulate matters related to:

- Komposisi, kriteria, independensi dan masa jabatan;
- Ketentuan mengenai rangkap jabatan;
- Tugas, tanggung jawab dan wewenang;
- Tempat dan waktu kerja;
- Etika dan Kepatutan;
- Rapat;
- Remunerasi;
- Aspek transparansi.

Hasil Pengawasan

Dalam menjalankan fungsi pengawasan, Dewan Komisaris melaksanakan langkah-langkah dan metode pengawasan melalui pemeriksaan atas laporan-laporan yang disampaikan kepada Dewan Komisaris. Evaluasi kinerja komite-komite di bawah Dewan Komisaris dilakukan paling sedikit melalui penyusunan laporan kinerja oleh Sekretaris Komite, yang selanjutnya disampaikan kepada Dewan Komisaris untuk memperoleh persetujuan. Mekanisme persetujuan tersebut diatur lebih lanjut dalam Pedoman dan Tata Tertib Kerja masing-masing Komite.

Hasil pengawasan Dewan Komisaris selama tahun 2025 adalah:

1. Pengawasan atas pelaksanaan prinsip-prinsip GCG pada seluruh tingkatan atau jenjang organisasi baik secara aktif dengan menghadiri rapat-rapat, melakukan kunjungan maupun secara *off site* melalui laporan-laporan yang disampaikan.
2. Memberikan saran/nasihat untuk peningkatan kinerja dan pengendalian internal kepada Direksi yang disampaikan dalam forum rapat koordinasi Direksi dan Komisaris.
3. Melakukan pengawasan aktif terhadap pelaksanaan Rencana Bisnis Bank tahun 2025 yang telah disetujui oleh otoritas baik dari aspek pengembangan bisnis maupun aspek-aspek terkait kepatuhan terhadap regulasi, penerapan manajemen risiko, efektifitas SKAI dan kebijakan terkait remunerasi – nominasi, dengan mengoptimalkan komite-komite di bawah supervisi Dewan Komisaris.
4. Mengevaluasi kinerja Bank bulanan selama Semester I & II 2025.
5. Memantau Tingkat Kesehatan Bank termasuk di dalamnya profil risiko, GCG, rentabilitas dan permodalan serta mengambil langkah-langkah yang diperlukan untuk meningkatkan Tingkat Kesehatan Bank.
6. Memantau program kerja *Policy Division* untuk memperkuat tata kelola kebijakan dengan mengembangkan kerangka kerja manajemen kebijakan yang sesuai dengan *best practice*.

Penilaian Kinerja Dewan Komisaris [GRI 2-18]

Sebagai bentuk penerapan tata kelola yang baik dan mengacu pada Peraturan Otoritas Jasa Keuangan No. 17 tahun 2023 dan Surat Edaran Otoritas Jasa Keuangan Nomor 13/SEOJK.03/2017 tentang Penerapan Tata Kelola bagi Bank Umum maka Bank menyusun kebijakan penilaian kinerja yang digunakan sebagai pedoman untuk mengukur efektivitas pelaksanaan tugas dan tanggung jawab Dewan Komisaris. Kebijakan

- *Composition, criteria, independence, and term of office;*
- *Provisions regarding concurrent positions;*
- *Duties, responsibilities, and authority;*
- *Place and time of work;*
- *Ethics and propriety;*
- *Meetings;*
- *Remuneration;*
- *Transparency aspects.*

Supervision Results

In performing its supervisory function, the Board of Commissioners implements supervisory measures and methods by examining reports submitted to the Board of Commissioners. The performance of committees under the Board of Commissioners is evaluated at least through the preparation of performance reports by the Committee Secretary, which are then submitted to the Board of Commissioners for approval. This approval mechanism is further regulated in the Guidelines and Rules of Procedure of each Committee.

The results of the Board of Commissioners' oversight during 2025 are:

1. *Overseeing the implementation of GCG principles at all levels of the organization, either actively by attending meetings and conducting visits, or off-site through submitted reports.*
2. *Providing advice/recommendations for performance improvement and internal control to the Board of Directors, delivered in coordination meetings between the Board of Directors and Board of Commissioners.*
3. *Actively supervising the implementation of the Bank's 2025 Business Plan, which has been approved by the authorities, in terms of business development and aspects related to regulatory compliance, risk management implementation, SKAI effectiveness, and remuneration-related policies, by optimizing the committees under the supervision of the Board of Commissioners.*
4. *Evaluate the Bank's monthly performance during the first and second semesters of 2025.*
5. *Monitor the Bank's Health Rating, including its risk profile, GCG, profitability, and capitalization, and take the necessary steps to improve the Bank's Health Rating.*
6. *Monitoring the Policy Division's work program to strengthen policy governance by developing a policy management framework in line with best practices.*

Performance Assessment of the Board of Commissioners

As a form of implementing good governance and referring to Financial Services Authority Regulation No. 17 of 2023 and Financial Services Authority Circular Letter Number 13/SEOJK.03/2017 concerning the Implementation of Governance for Commercial Banks, the Bank has formulated a performance assessment policy that is used as a guideline to measure the effectiveness of the Board of Commissioners

tersebut adalah melalui metode penilaian sendiri (*self-assessment*) terhadap kinerja Dewan Komisaris. Kebijakan *self-assessment* adalah salah satu bentuk akuntabilitas Dewan Komisaris dalam melaksanakan tugas dan tanggung jawabnya.

Sepanjang tahun 2025, Dewan Komisaris melaksanakan tugas dan tanggung jawabnya berjalan dengan sangat baik. Terdapat Laporan Pengawasan Dewan Komisaris yang dilakukan setiap semesteran dan juga dimuat dalam Laporan Tahunan. Laporan tersebut mencakup pelaksanaan tugas dan tanggung jawab Dewan Komisaris beserta komite-komite, kontribusi dan dukungan Dewan Komisaris dalam mencapai rencana bisnis di tahun berjalan, serta memastikan penerapan *Good Corporate Governance* berjalan dengan baik.

PENILAIAN KINERJA KOMITE DIBAWAH DEWAN KOMISARIS

Dalam menjalankan fungsi pengawasan yang aktif, Dewan Komisaris didukung oleh 3 organ pendukung, yaitu Komite Audit, Komite Pemantau Risiko, dan Komite Remunerasi dan Nominasi. Pembentukan komite selalu disesuaikan dan dievaluasi berdasarkan ketentuan tata kelola yang berlaku terkait Komite. Di tahun 2025, Dewan Komisaris menilai bahwa seluruh organ pendukung tersebut telah menjalankan tugas dan tanggung jawab dengan sangat baik. Kinerja Komite-komite di bawah Dewan Komisaris selalu dievaluasi melalui *self-assessment* oleh Dewan Komisaris. Adapun hasil rekomendasi dari Dewan Komisaris untuk Komite Audit, Komite Pemantau Risiko, dan Komite Remunerasi dan Nominasi di sepanjang tahun 2025 sebagai berikut;

Pengungkapan Kepemilikan Saham Direksi

Kebijakan Bank terkait pengungkapan kepemilikan saham Direksi berpedoman pada Peraturan Otoritas Jasa Keuangan No. 17 Tahun 2023 tentang Penerapan Tata Kelola bagi Bank Umum. Dalam aspek transparansi Direksi yaitu anggota Direksi wajib mengungkapkan kepemilikan saham yang mencapai 5% (lima persen) atau lebih, baik pada Bank yang bersangkutan maupun pada bank dan/atau perusahaan lain, yang berkedudukan di dalam dan di luar negeri. Selain itu Bank juga mengacu pada POJK No. 11/POJK.04/2017 tentang Laporan Kepemilikan atau Setiap Perubahan Kepemilikan Saham Perusahaan Terbuka jika terdapat perubahan kepemilikannya atas saham Perusahaan Terbuka baik langsung maupun tidak langsung. Pada tahun 2025, Pengungkapan kepemilikan saham anggota Direksi dapat dilihat pada tabel dibawah ini :

Disclosure of Directors' Shareholdings

The Bank's policy regarding the disclosure of directors' share ownership is based on Financial Services Authority Regulation No. 17 of 2023 concerning the Implementation of Corporate Governance for Commercial Banks. In terms of transparency, members of the Board of Directors are required to disclose share ownership reaching 5% (five percent) or more, both in the Bank concerned and in other banks and/or companies, located domestically and abroad. In addition, the Bank also refers to POJK No. 11/POJK.04/2017 concerning Reports on Ownership or Any Changes in Ownership of Shares in Public Companies if there are changes in ownership of shares in Public Companies, either directly or indirectly. In 2025, the disclosure of share ownership by members of the Board of Directors can be seen in the table below:

Tata Kelola Remunerasi

Remuneration Governance

Dalam menghadapi dinamika perekonomian global, industri perbankan dituntut untuk memperkuat ketahanan operasional. Salah satu langkah yang diambil adalah memperbaiki tata kelola dalam pemberian Remunerasi. Perbaikan tersebut bertujuan mendorong pengambilan risiko yang bijaksana (*prudent risk-taking*) guna menjaga keberlanjutan usaha Bank. Selain itu, untuk mendukung transparansi dan sejalan dengan standar internasional, Bank berkomitmen mengungkapkan informasi mengenai kebijakan remunerasi secara kualitatif maupun kuantitatif.

Penerapan tata kelola remunerasi yang baik merupakan bagian dari komitmen Bank dalam memberikan imbalan yang kompetitif kepada karyawan, anggota Dewan Komisaris, dan anggota Direksi. Kebijakan ini dirancang untuk mendorong pengembangan kualitas sumber daya manusia di seluruh tingkat organisasi, dengan tetap mengedepankan keselarasan terhadap nilai-nilai Perseroan, kepatuhan pada peraturan perundang-undangan, prinsip kehati-hatian, serta mendukung pencapaian target jangka pendek dan jangka panjang Bank. Dalam pelaksanaannya, pengungkapan tata kelola remunerasi Bank mengacu pada:

- Peraturan Otoritas Jasa Keuangan No. 45/POJK.03/2015 tentang Penerapan Tata Kelola Dalam Pemberian Remunerasi bagi Bank Umum.
- Surat Edaran Otoritas Jasa Keuangan No. 40/SEOJK.03/2016 tentang Penerapan Tata Kelola dalam Pemberian Remunerasi bagi Bank Umum.
- Peraturan OJK No. 17 Tahun 2023 tentang Penerapan Tata Kelola bagi Bank Umum.
- Surat Edaran Otoritas Jasa Keuangan No. 13/SEOJK.03/2017 tentang Penerapan Tata Kelola bagi Bank Umum.
- Surat Edaran OJK No. 16/SEOJK.04/2021 tentang Bentuk dan Isi Laporan Tahunan Emiten atau Perusahaan Publik.
- Kebijakan remunerasi internal Bank melalui Surat Keputusan Direksi No. 109/SK/DIR/12/2016 pada tanggal 19 Desember 2016 tentang Tata Kelola Remunerasi.
- Anggaran Dasar Bank.

Proses Penyusunan Kebijakan Remunerasi [GRI 2-19]

Dalam merumuskan kebijakan remunerasi, Bank mempertimbangkan berbagai faktor, termasuk efektivitas manajemen risiko, stabilitas keuangan, kecukupan dan penguatan permodalan, kebutuhan likuiditas jangka pendek dan jangka panjang, prospek pendapatan di masa depan, perbandingan dengan *peer group*, tingkat inflasi, serta memastikan kesesuaian dengan peraturan perundang-undangan yang berlaku.

Bank secara berkala meninjau dan memperbarui kebijakan remunerasi sesuai kebutuhan, dengan mempertimbangkan kinerja Bank, kewajaran dibandingkan dengan *peer group*, perubahan regulasi, penyesuaian strategi bisnis, dan dinamika industri sesuai kapasitas Bank. Evaluasi terhadap kebijakan remunerasi dilakukan bersama Kasikorn Bank sebagai perusahaan induk dan melibatkan konsultan eksternal. Penyesuaian kebijakan mencakup aspek-aspek seperti struktur dan skala remunerasi, mekanisme penetapan bonus, serta kebijakan *merit*.

In facing the dynamics of the global economy, the banking industry is required to strengthen its operational resilience. One of the steps taken is to improve governance in the provision of remuneration. This improvement aims to encourage prudent risk-taking in order to maintain the Bank's business sustainability. In addition, to support transparency and in line with international standards, the Bank is committed to disclosing information on remuneration policies both qualitatively and quantitatively.

The implementation of good remuneration governance is part of the Bank's commitment to providing competitive remuneration to employees, members of the Board of Commissioners, and members of the Board of Directors. This policy is designed to encourage the development of human resources at all levels of the organization, while maintaining alignment with the Company's values, compliance with laws and regulations, the principle of prudence, and supporting the achievement of the Bank's short-term and long-term targets. In its implementation, the disclosure of the Bank's remuneration governance refers to:

- *Financial Services Authority Regulation No. 45/POJK.03/2015 concerning the Implementation of Governance in the Provision of Remuneration for Commercial Banks.*
- *Financial Services Authority Circular Letter No. 40/SEOJK.03/2016 concerning the Implementation of Governance in the Provision of Remuneration for Commercial Banks.*
- *OJK Regulation No. 17 of 2023 concerning the Implementation of Governance for Commercial Banks.*
- *Financial Services Authority Circular Letter No. 13/SEOJK.03/2017 concerning the Implementation of Governance for Commercial Banks.*
- *OJK Circular Letter No. 16/SEOJK.04/2021 concerning the Form and Content of Annual Reports of Issuers or Public Companies.*
- *The Bank's internal remuneration policy through Board of Directors Decree No. 109/SK/DIR/12/2016 dated December 19, 2016 concerning Remuneration Governance. [MK6.1]*
- *The Bank's Articles of Association.*

Remuneration Policy Formulation Process [GRI 2-19]

In formulating its remuneration policy, the Bank considers various factors, including the effectiveness of risk management, financial stability, capital adequacy and strengthening, short-term and long-term liquidity needs, future income prospects, comparisons with peer groups, inflation rates, and ensuring compliance with applicable laws and regulations.

The Bank periodically reviews and updates its remuneration policy as necessary, taking into account the Bank's performance, fairness compared to peer groups, regulatory changes, business strategy adjustments, and industry dynamics in line with the Bank's capacity. The remuneration policy is evaluated jointly with Kasikorn Bank as the parent company and involves external consultants. Policy adjustments cover aspects such as remuneration structure and scale, bonus determination mechanisms, and merit policies.

Bank menerapkan tata kelola remunerasi dengan menyusun kebijakan remunerasi melalui Surat Keputusan Direksi No. 109/SK/DIR/12/2016 tentang Tata Kelola Remunerasi. Dalam proses penyusunan kebijakan remunerasi tersebut Bank mengacu pada Peraturan Otoritas Jasa Keuangan No. 45/POJK.03/2015 tentang Penerapan Tata Kelola Dalam Pemberian Remunerasi bagi Bank Umum. Berdasarkan peraturan tersebut, maka remunerasi terdiri dari:

1. Remunerasi yang bersifat tetap Remunerasi yang tidak dikaitkan dengan kinerja dan risiko, antara lain gaji pokok, fasilitas, tunjangan perumahan, tunjangan kesehatan, tunjangan pendidikan, tunjangan hari raya, dan pensiun.
2. Remunerasi yang bersifat variabel Remunerasi yang dikaitkan dengan kinerja dan risiko, antara lain bonus atau bentuk lainnya yang dipersamakan dengan itu.

Komite Remunerasi dan Nominasi

Dewan Komisaris telah membentuk Komite Remunerasi dan Nominasi (KRN) yang salah satu fungsinya adalah untuk membantu Dewan Komisaris dalam melaksanakan pengembangan kebijakan serta penerapan remunerasi bagi anggota Dewan Komisaris dan Direksi.

Komposisi, struktur keanggotaan, tugas dan tanggung jawab, pelaksanaan rapat, dan remunerasi yang telah dibayarkan kepada anggota KRN selengkapnya disajikan pada halaman 228-229 bagian Komite Remunerasi dan Nominasi pada Laporan Integrasi ini.

Cakupan Kebijakan Remunerasi dan Implementasi per Unit Bisnis dan per Wilayah

Kebijakan remunerasi Bank mencakup anggota Dewan Komisaris, Direksi, dan seluruh pegawai baik yang berada di kantor pusat maupun di kantor cabang yang ada di dalam negeri dan baik di unit bisnis maupun non-bisnis. Bank selalu memastikan kebijakan remunerasi telah diterapkan dengan merata, adil, dan seimbang sehingga setiap pegawai mendapatkan imbal jasa yang sesuai. Bank saat ini tidak memiliki kantor cabang di luar negeri.

Remunerasi Dikaitkan dengan Risiko

Bank dalam memberikan remunerasi kepada pegawai selalu mempertimbangkan potensi risiko jabatan yang melekat pada tugas dan tanggung jawab pegawai. Sehubungan dengan hal tersebut, Bank telah menetapkan pihak-pihak yang menjadi MRT (*Material Risk Taker*) dengan metode kualitatif, penentuan kategori tersebut ditentukan berdasarkan tugas dan tanggung jawab organ Bank yang berdampak signifikan terhadap profil Risiko Bank. Organ Bank yang berperan sebagai *Material Risk Taker* (MRT) untuk posisi jabatan sebagai berikut

- Dewan Komisaris
- Direksi

Sebagai MRT, Dewan Komisaris dan Direksi berhak atas remunerasi dalam bentuk gaji dan tunjangan, pemberian bonus yang besarnya ditentukan berdasarkan kinerja Bank, fasilitas kendaraan dinas dan asuransi kesehatan.

The Bank implements remuneration governance by formulating remuneration policies through Board of Directors Decree No. 109/SK/DIR/12/2016 concerning Remuneration Governance. In the process of formulating the remuneration policy, the Bank refers to Financial Services Authority Regulation No. 45/POJK.03/2015 concerning the Implementation of Governance in the Provision of Remuneration for Commercial Banks. Based on this regulation, remuneration consists of:

1. *Fixed remuneration Remuneration that is not linked to performance and risk, including basic salary, facilities, housing allowances, health allowances, education allowances, holiday allowances, and pensions.*
2. *Variable remuneration Remuneration linked to performance and risk, including bonuses or other forms equivalent to them.*

Remuneration and Nomination Committee

The Board of Commissioners has established a Remuneration and Nomination Committee (KRN), one of whose functions is to assist the Board of Commissioners in developing policies and implementing remuneration for members of the Board of Commissioners and Board of Directors.

The composition, membership structure, duties and responsibilities, meeting procedures, and remuneration paid to CRN members are presented in full on pages 228-229 of the Remuneration and Nomination Committee section of this Integrated Report.

Scope of Remuneration Policy and Implementation per Business Unit and per Region

The Bank's remuneration policy covers members of the Board of Commissioners, Board of Directors, and all employees, both at the head office and at domestic branch offices, in both business and non-business units. The Bank always ensures that the remuneration policy is applied evenly, fairly, and equitably so that every employee receives appropriate compensation. The Bank currently has no overseas branch offices.

Remuneration Linked to Risk

When providing remuneration to employees, the Bank always considers the potential risks inherent in the duties and responsibilities of the position. In this regard, the Bank has determined the parties who are Material Risk Takers (MRTs) using a qualitative method, with the categories determined based on the duties and responsibilities of the Bank's organs that have a significant impact on the Bank's risk profile. The Bank's organs that act as Material Risk Takers (MRTs) for the following positions are:

- *Board of Commissioners*
- *Board of Directors*

As MRT, the Board of Commissioners and Directors are entitled to remuneration in the form of salaries and allowances, bonuses determined based on the Bank's performance, official vehicle facilities, and health insurance.

Pengukuran Kinerja Dikaitkan dengan Remunerasi

Dalam memberikan remunerasi, Bank selalu mempertimbangkan pengukuran kinerja yang disusun berdasarkan pencapaian kinerja Bank, pencapaian kinerja unit terkait, dan pencapaian kinerja individu yang disesuaikan dengan tujuan dan strategi Bank dengan tetap mempertimbangkan aspek risiko dan kepatuhan termasuk hasil pemenuhan tindak lanjut temuan audit internal dan eksternal. Bank senantiasa melakukan *review* secara berkala terhadap indikator kinerja yang dijadikan dasar dalam menentukan pemberian remunerasi.

Penyesuaian Remunerasi Dikaitkan dengan Kinerja dan Risiko

Bank dalam melakukan penyesuaian remunerasi yang dikaitkan dengan kinerja dan risiko berpedoman pada Peraturan Otoritas Jasa Keuangan No. 45/POJK.03/2015 tentang Penerapan Tata Kelola dalam Pemberian Remunerasi bagi Bank Umum. Pada implementasinya untuk organ Bank yang ditetapkan sebagai sebagai MRT, maka kebijakan remunerasi yang dikaitkan dengan kinerja dan risiko adalah sebagai berikut:

- Pemberian bonus diberikan dalam bentuk tunai.
- Bonus kinerja tahunan ditarik kembali (*clawback*) sesuai kesepakatan antara Bank dengan Pejabat Bank paling sedikit untuk periode 1 tahun. Bank dapat menarik kembali (*clawback*) pembayaran remunerasi yang bersifat variabel kepada MRT yang terbukti melakukan *Individual Fraud*.
- Besaran porsi bonus yang di *clawback* dari pejabat yang ditunjuk sebagai MRT adalah sebesar 3% dari bonus.

Prosedur Penetapan Remunerasi bagi Dewan Komisaris dan Direksi [GRI 2-20]

Bank dalam menetapkan remunerasi bagi anggota Dewan Komisaris dan Direksi adalah melalui Rapat Umum Pemegang Saham Tahunan. Keputusan RUPST Tahun 2023 yaitu menyetujui bahwa kewenangan untuk menetapkan gaji atau honorarium serta tunjangan lain diserahkan kepada pemegang saham pengendali untuk menetapkan besaran gaji atau honorarium serta tunjangan lain yang akan diberikan oleh Bank kepada para anggota Direksi dan Dewan Komisaris. Dalam melakukan penetapan tersebut, pemegang saham pengendali mempertimbangkan rekomendasi dari Komite Remunerasi dan Nominasi.

Secara umum prosedur penetapan remunerasi Dewan Komisaris dan Direksi dilakukan melalui tahapan sebagai berikut:

- Komite Remunerasi dan Nominasi melakukan evaluasi terhadap kebijakan remunerasi Dewan Komisaris dan Direksi.
- Komite Remunerasi dan Nominasi memberikan rekomendasi kepada Dewan Komisaris mengenai kebijakan remunerasi bagi Dewan Komisaris dan Direksi dengan memperhatikan kinerja, risiko, kewajaran dengan *peer group*, sasaran dan strategi jangka panjang Bank, pemenuhan cadangan sebagaimana diatur dalam peraturan perundang-undangan yang berlaku dan potensi pendapatan Bank pada masa yang akan datang.

Performance Measurement Linked to Remuneration

In determining remuneration, the Bank always considers performance measurements based on the Bank's performance achievements, the performance achievements of related units, and individual performance achievements in line with the Bank's objectives and strategies, while taking into account risk and compliance aspects, including the results of follow-up actions on internal and external audit findings. The Bank regularly reviews the performance indicators used as the basis for determining remuneration.

Remuneration Adjustments Linked to Performance and Risk

In adjusting remuneration linked to performance and risk, banks are guided by Financial Services Authority Regulation No. 45/POJK.03/2015 on the Implementation of Governance in the Provision of Remuneration for Commercial Banks. In its implementation for bank organs designated as MRT, the remuneration policy linked to performance and risk is as follows:

- Bonuses are given in cash.*
- Annual performance bonuses are clawback in accordance with the agreement between the Bank and Bank Officials for a minimum period of 1 year. The Bank may clawback variable remuneration payments to MRTs who are proven to have committed Individual Fraud.*
- The amount of the bonus clawback from officials appointed as MRTs is 3% of the bonus.*

Procedure for Determining Remuneration for the Board of Commissioners and Board of Directors [GRI 2-20]

The Bank determines the remuneration for members of the Board of Commissioners and Board of Directors through the Annual General Meeting of Shareholders. The 2023 AGMS resolution approved that the authority to determine salaries or honoraria and other benefits be delegated to the controlling shareholders to determine the amount of salaries or honoraria and other benefits to be provided by the Bank to members of the Board of Directors and Board of Commissioners. In making such determinations, the controlling shareholders consider the recommendations of the Remuneration and Nomination Committee.

In general, the procedure for determining the remuneration of the Board of Commissioners and Board of Directors is carried out through the following stages:

- The Remuneration and Nomination Committee evaluates the remuneration policy for the Board of Commissioners and Board of Directors.*
- The Remuneration and Nomination Committee provides recommendations to the Board of Commissioners regarding the remuneration policy for the Board of Commissioners and Board of Directors, taking into account performance, risk, fairness with peer groups, the Bank's long-term goals and strategies, compliance with reserves as stipulated in applicable laws and regulations, and the Bank's future income potential.*

3. Dewan Komisaris akan menyampaikan usulan rekomendasi remunerasi tersebut kepada pemegang saham pengendali untuk mendapatkan persetujuan.

3. The Board of Commissioners will submit the remuneration recommendation proposal to the controlling shareholders for approval.

Komite Remunerasi dan Nominasi

Komite Remunerasi dan Nominasi merupakan komite yang dibentuk Dewan Komisaris dengan fungsi untuk membantu pelaksanaan dan pengawasan kegiatan yang berkaitan dengan remunerasi dan nominasi dengan memperhatikan ketentuan yang berlaku. Masa jabatan anggota Komite Remunerasi dan Nominasi adalah akan berakhir bersamaan dengan berakhirnya masa jabatan Dewan Komisaris, kecuali apabila anggota yang bersangkutan mengundurkan diri atau apabila Dewan Komisaris menggunakan haknya untuk memberhentikan anggota Komite Remunerasi dan Nominasi sewaktu-waktu atau merubah susunan keanggotaan komite. Pembentukan Komite Remunerasi dan Nominasi adalah salah satu bentuk kepatuhan pada ketentuan regulator yaitu POJK No. 17 tahun 2023 tentang Penerapan Tata Kelola bagi Bank Umum.

Dasar Pembentukan Komite Remunerasi dan Nominasi

Bank membentuk Komite Remunerasi dan Nominasi sebagai organ pendukung bagi Dewan Komisaris dalam melaksanakan fungsi nominasi dan remunerasi. Pembentukan Komite Remunerasi dan Nominasi mengacu pada peraturan-peraturan berikut ini:

- Peraturan Otoritas Jasa Keuangan No. 34/POJK.04/2014 tanggal 8 Desember 2014 tentang Komite Nominasi dan Remunerasi Emiten atau Perusahaan Publik.
- Peraturan Otoritas Jasa Keuangan No. 045/POJK.03/2015 tentang Penerapan Tata Kelola dalam Pemberian Remunerasi bagi Bank Umum.
- Surat Edaran Otoritas Jasa Keuangan No. 40/SEOJK.03/2016 tentang Penerapan Tata Kelola dalam Pemberian Remunerasi bagi Bank Umum.
- Peraturan Otoritas Jasa Keuangan No. 55/POJK.03/2016 tentang Penerapan Tata Kelola bagi Bank Umum.
- Surat Edaran Otoritas Jasa Keuangan No. 13/SEOJK.03/2017 tentang Penerapan Tata Kelola bagi Bank Umum.

Remuneration and Nomination Committee

The Remuneration and Nomination Committee is a committee formed by the Board of Commissioners with the function of assisting in the implementation and supervision of activities related to remuneration and nominations, taking into account applicable regulations. The term of office of members of the Remuneration and Nomination Committee shall expire concurrently with the expiration of the term of office of the Board of Commissioners, unless the member concerned resigns or the Board of Commissioners exercises its right to dismiss a member of the Remuneration and Nomination Committee at any time or change the composition of the committee. The establishment of the Remuneration and Nomination Committee is a form of compliance with regulatory provisions, namely POJK No. 17 of 2023 concerning the Implementation of Governance for Commercial Banks.

Basis for The Establishment of The Remuneration and Nomination Committee

Piagam Komite Remunerasi dan Nominasi

Komite Nominasi dan Remunerasi memiliki suatu Pedoman Kerja berupa Piagam Komite Nominasi dan Remunerasi dalam menjalankan tugas dan tanggung jawabnya yang telah dibuat mengacu pada ketentuan perundang-undangan yang berlaku dan sudah disetujui oleh Dewan Komisaris. Piagam Komite Remunerasi dan Nominasi menguraikan hal-hal terkait komposisi, keanggotaan, etika dan kepatutan, wewenang, tugas dan tanggung jawab, rapat komite, dll. Piagam Komite Nominasi dan Remunerasi ini dikaji dan dikinikan secara berkala oleh Dewan Komisaris agar fungsi Komite Nominasi dan Remunerasi dapat dilaksanakan pada tingkat yang optimal sesuai dengan ketentuan perundangan terkait yang berlaku.

Tugas, Wewenang dan Tanggung Jawab Komite Remunerasi dan Nominasi

Dalam menjalankan fungsinya, Komite Remunerasi dan Nominasi memiliki tugas, wewenang dan tanggung jawab sebagai berikut :

1. Komite Remunerasi dan Nominasi bertanggung jawab kepada Dewan Komisaris.
2. Terkait dengan remunerasi, Komite Remunerasi dan Nominasi wajib:
 - Kebijakan remunerasi bagi Dewan Komisaris untuk disampaikan kepada Rapat Umum Pemegang Saham;
 - Kebijakan remunerasi bagi Direksi sebagai bahan pertimbangan Dewan Komisaris;
 - Kebijakan remunerasi bagi Pejabat Eksekutif dan pegawai secara keseluruhan untuk disampaikan kepada Direksi.
3. Terkait dengan nominasi, Komite Remunerasi dan Nominasi wajib:
 - Menyusun dan memberikan rekomendasi mengenai sistem serta prosedur pemilihan dan/atau penggantian anggota Dewan Komisaris dan Direksi kepada Dewan Komisaris untuk disampaikan kepada Rapat Umum Pemegang Saham;
 - Memberikan rekomendasi mengenai calon anggota Dewan Komisaris dan/atau Direksi kepada Dewan Komisaris untuk disampaikan kepada Rapat Umum Pemegang Saham;
 - Memberikan rekomendasi mengenai Pihak Independen yang akan menjadi anggota Komite Audit dan Komite Pemantau Risiko.

Charter of The Remuneration and Nomination Committee

The Nomination and Remuneration Committee has a Work Charter in the form of a Nomination and Remuneration Committee Charter in carrying out its duties and responsibilities, which has been prepared in accordance with applicable laws and regulations and has been approved by the Board of Commissioners. The Charter of the Remuneration and Nomination Committee outlines matters related to composition, membership, ethics and propriety, authority, duties and responsibilities, committee meetings, etc. The Charter of the Nomination and Remuneration Committee is reviewed and updated periodically by the Board of Commissioners so that the functions of the Nomination and Remuneration Committee can be carried out at an optimal level in accordance with applicable laws and regulations.

Duties, Authority, and Responsibilities of The Remuneration and Nomination Committee

In carrying out its functions, the Remuneration and Nomination Committee has the following duties, authorities, and responsibilities:

1. *The Remuneration and Nomination Committee is accountable to the Board of Commissioners.*
2. *With regard to remuneration, the Remuneration and Nomination Committee is required to:*
 - *Submit the remuneration policy for the Board of Commissioners to the General Meeting of Shareholders;*
 - *Submit the remuneration policy for the Board of Directors to the Board of Commissioners for consideration;*
 - *Submit the remuneration policy for Executive Officers and employees as a whole to the Board of Directors.*
3. *With regard to nominations, the Remuneration and Nomination Committee shall:*
 - *Formulating and providing recommendations regarding the system and procedures for the election and/or replacement of members of the Board of Commissioners and Board of Directors to the Board of Commissioners to be submitted to the General Meeting of Shareholders;*
 - *Provide recommendations on candidates for the Board of Commissioners and/or Board of Directors to the Board of Commissioners for submission to the General Meeting of Shareholders;*
 - *Provide recommendations regarding Independent Parties who will become members of the Audit Committee and Risk Oversight Committee.*

4. Dalam hal anggota Komite Remunerasi dan Nominasi memiliki benturan kepentingan (*conflict of interest*) dengan usulan yang direkomendasikan, maka benturan kepentingan wajib diungkapkan dalam usulan tersebut.
5. Komite Remunerasi dan Nominasi wajib memastikan bahwa kebijakan remunerasi paling kurang sesuai dengan:
 - Kinerja keuangan dan pemenuhan cadangan sebagaimana diatur dalam peraturan perundang-undangan yang berlaku;
 - Prestasi kerja individual;
 - Kewajaran dengan *peer group*;
 - Pertimbangan sasaran dan strategi jangka panjang Bank.
6. Pembagian tugas anggota Komite Remunerasi dan Nominasi tidak ditentukan secara khusus, tetapi akan ditetapkan oleh rapat Komite Remunerasi dan Nominasi dari waktu ke waktu dan dilaporkan ke Dewan Komisaris.
7. Anggota Komite Remunerasi dan Nominasi dilarang melakukan usaha dan/atau kegiatan yang mempunyai dan/atau menimbulkan benturan kepentingan, atau dapat merugikan dan/atau membahayakan Bank.

Independensi Komite Remunerasi dan Nominasi

Seluruh anggota Komite Remunerasi dan Nominasi telah memenuhi kriteria independensi, komposisi, kualifikasi, keahlian, serta integritas sesuai dengan ketentuan Otoritas Jasa Keuangan (OJK). Komposisi keanggotaan Komite di Bank telah disusun untuk mendukung penerapan prinsip independensi dalam pelaksanaan tugas dan tanggung jawabnya. Seluruh anggota Komite Remunerasi dan Nominasi yang berasal dari pihak independen tidak memiliki hubungan keuangan, kepengurusan, kepemilikan saham, dan/atau hubungan keluarga dengan Dewan Komisaris, Direksi, dan/atau Pemegang Saham Pengendali, maupun hubungan lain dengan Bank yang dapat memengaruhi kemampuan bertindak secara independen.

Komite Remunerasi dan Nominasi memiliki kedudukan yang independen, oleh karena itu:

- Komite Remunerasi dan Nominasi hanya menerima penugasan dari Dewan Komisaris dan bertanggung jawab kepada Dewan Komisaris.
- Ketua dan anggota Komite Remunerasi dan Nominasi diangkat dan diberhentikan oleh Dewan Komisaris.
- Ketua dan anggota Komite Remunerasi dan Nominasi harus bebas dari pengaruh Direksi dan pihak lain.
- Anggota Direksi dilarang menjadi anggota Komite Remunerasi dan Nominasi.

4. *In the event that a member of the Remuneration and Nomination Committee has a conflict of interest with the recommended proposal, the conflict of interest must be disclosed in the proposal.*
5. *The Remuneration and Nomination Committee must ensure that the remuneration policy is at least in accordance with:*
 - *Financial performance and the fulfillment of reserves as stipulated in applicable laws and regulations;*
 - *Individual work performance;*
 - *Fairness with peer groups;*
 - *Consideration of the Bank's long-term objectives and strategies.*
6. *The division of duties among members of the Remuneration and Nomination Committee is not specifically determined, but will be determined by the Remuneration and Nomination Committee meeting from time to time and reported to the Board of Commissioners.*
7. *Members of the Remuneration and Nomination Committee are prohibited from engaging in any business and/or activity that has and/or gives rise to a conflict of interest, or that may harm and/or endanger the Bank.*

Independence of The Remuneration and Nomination Committee

All members of the Remuneration and Nomination Committee have met the criteria of independence, composition, qualifications, expertise, and integrity in accordance with the provisions of the Financial Services Authority (OJK). The composition of the Committee's membership at the Bank has been structured to support the application of the principle of independence in the performance of its duties and responsibilities. All members of the Remuneration and Nomination Committee who are independent parties have no financial, management, share ownership, and/or family relationships with the Board of Commissioners, Board of Directors, and/or Controlling Shareholders, nor any other relationships with the Bank that could affect their ability to act independently.

The Compensation and Nomination Committee is independent, therefore:

- *The Remuneration and Nomination Committee only receives assignments from the Board of Commissioners and is accountable to the Board of Commissioners.*
- *The chairperson and members of the Remuneration and Nomination Committee are appointed and dismissed by the Board of Commissioners.*
- *The Chair and members of the Remuneration and Nomination Committee must be free from the influence of the Board of Directors and other parties.*
- *Members of the Board of Directors are prohibited from becoming members of the Remuneration and Nomination Committee.*

Struktur dan Keanggotaan Komite Remunerasi dan Nominasi

Anggota dan komposisi serta independensi anggota Komite Remunerasi dan Nominasi sudah memenuhi ketentuan yang berlaku. Komite Remunerasi dan Nominasi beranggotakan 7 anggota, yaitu 1 (satu) Komisaris Independen sebagai ketua komite, 1 (satu) Komisaris Utama, 1 (satu) Komisaris Independen, 1 (satu) Komisaris dan 3 (tiga) Pejabat Eksekutif yang membawahkan fungsi sumber daya manusia. Purpose of The Assets and Liabilities Committee

The Assets and Liabilities Committee is accountable to the President Director and submits regular reports to the President Director, as well as assisting the Board of Directors in matters including the following:

1. Menganalisa struktur neraca dan mengkaji semua risiko yang timbul dari eksposur Bank berupa risiko likuiditas, suku bunga dan nilai tukar secara konsisten dengan tujuan manajemen.
2. Mengevaluasi penetapan *pricing* aset dan liabilitas untuk memastikan bahwa *pricing* tersebut memberikan hasil yang optimal dalam penanaman dana, meminimumkan biaya dan memelihara struktur neraca Bank sesuai dengan strategi *Assets & Liabilities Management* yang telah ditetapkan.
3. Memantau perkembangan kondisi perekonomian dan kondisi pasar serta mengevaluasi dampaknya terhadap struktur neraca Bank, khususnya profil maturitas arus kas serta sensitivitas risiko suku bunga di neraca, termasuk proyeksi *net interest income* dan margin.
4. Melakukan kaji ulang deviasi antara realisasi dengan target proyeksi strategi bisnis bank.
5. Merumuskan dan mengkaji ulang kebijakan dan strategi pengelolaan *assets & liabilities*.
6. Memantau tingkat likuiditas Bank pada level yang optimal untuk memenuhi kebutuhan proyeksi likuiditas Bank.
7. Mengevaluasi setiap perubahan ketentuan dan peraturan yang mempengaruhi strategi dan kebijakan *Assets and Liabilities Management*.
8. Menyusun dan menerapkan Tingkat suku bunga acuan untuk bank.
9. Melakukan diskusi dan menetapkan limit-limit terkait manajemen likuiditas, gap manajemen, *pricing* manajemen, dan manajemen nilai tukar.
10. Melakukan monitoring atas indikator keuangan bank yang tercantum dalam rencana *contingency* likuiditas termasuk *indicator* likuiditas, permodalan, profitabilitas, dan kualitas aset.
11. Melakukan *monitoring* dan penerapan/aktivitas rencana pemulihan.

1. *Analyzing the balance sheet structure and reviewing all risks arising from the Bank's exposure in the form of liquidity, interest rate, and exchange rate risks in line with the management's goal.*
2. *Evaluate the pricing of assets and liabilities to ensure that the pricing provides optimal results in fund investment, minimizes costs, and maintains the Bank's balance sheet structure in accordance with the established Assets & Liabilities Management strategy.*
3. *Monitor economic and market developments and evaluate their impact on the Bank's balance sheet structure, particularly the cash flow maturity profile and interest rate risk sensitivity in the balance sheet, including net interest income and margin projections.*
4. *Reviewing deviations between actual results and the bank's business strategy projections.*
5. *Formulating and reviewing asset and liability management policies and strategies.*
6. *Monitoring the Bank's liquidity level at an optimal level to meet the Bank's liquidity projection needs.*
7. *Evaluate any changes in regulations and rules that affect the bank's asset and liability management strategies and policies.*
8. *Develop and implement the Bank's benchmark interest rate.*
9. *Conduct discussions and set limits related to liquidity management, gap management, pricing management, and exchange rate management.*
10. *Monitor financial indicators listed in the liquidity contingency plan, including liquidity, capital, profitability, and asset quality indicators.*
11. *Monitoring and implementing/activating the recovery plan.*

Fungsi Kepatuhan

Compliance Function [GRI 2-27]

Fungsi Kepatuhan adalah serangkaian tindakan atau langkah-langkah yang bersifat preventif (*ex-ante*) untuk memastikan bahwa kebijakan, ketentuan, sistem, dan prosedur, serta kegiatan usaha yang dilakukan oleh Bank telah sesuai dengan ketentuan Otoritas Jasa Keuangan dan ketentuan peraturan perundang-undangan, serta memastikan kepatuhan Bank terhadap komitmen yang dibuat oleh Bank kepada Otoritas Jasa Keuangan dan/atau otoritas pengawas lain yang berwenang.

Risiko Kepatuhan adalah risiko yang timbul akibat Bank tidak mematuhi dan/atau tidak melaksanakan ketentuan peraturan perundang-undangan.

Pengelolaan Risiko Kepatuhan yang baik dan tepat waktu diharapkan dapat meminimalisasi dampak risiko sedini mungkin. Dengan demikian peran dan Fungsi Kepatuhan maupun satuan kerja kepatuhan tidak hanya melihat suatu kejadian yang bersifat preventif (*ex-ante*) melainkan juga harus mampu mengelola Risiko Kepatuhan secara keseluruhan. Dalam menjalankan fungsi kepatuhan, Bank mengacu pada Peraturan Otoritas Jasa Keuangan No. 46/POJK.03/2017 tentang Pelaksanaan Fungsi Kepatuhan Bank Umum (POJK 46/2017).

Tugas yang dimiliki fungsi kepatuhan antara lain:

- Mewujudkan terlaksananya budaya kepatuhan pada semua tingkatan organisasi dan kegiatan usaha Bank.
- Mengelola risiko kepatuhan yang dihadapi oleh Bank.
- Memastikan agar kebijakan, ketentuan, sistem dan prosedur, serta kegiatan usaha yang dilakukan oleh Bank telah sesuai dengan ketentuan regulator dan perundang-undangan yang berlaku.
- Memastikan kepatuhan Bank terhadap komitmen yang dibuat oleh Bank kepada Otoritas Jasa Keuangan dan/atau otoritas pengawas lain yang berwenang.

Direktur yang membawahkan Fungsi Kepatuhan (Direktur Kepatuhan)

Untuk mendukung terciptanya Budaya Kepatuhan dan penegakan kepatuhan (*compliance*) Bank dan berpedoman pada POJK 46/2017 maka Bank wajib untuk memiliki direktur yang membawahkan Fungsi Kepatuhan. Sampai tahun 2025, direktur yang membawahkan Fungsi Kepatuhan adalah Bapak Viktor Ebenheizer Faggidae yang memiliki pengalaman di bidang perbankan selama lebih dari 10 (sepuluh) tahun sehingga memiliki integritas dan pengetahuan yang memadai mengenai ketentuan Otoritas Jasa Keuangan dan ketentuan peraturan perundang-undangan.

Penunjukan direktur yang membawahkan Fungsi Kepatuhan telah memenuhi syarat yang berlaku yaitu :

1. Direktur yang membawahkan Fungsi Kepatuhan wajib memenuhi persyaratan independensi.
2. Direktur Utama dilarang merangkap jabatan sebagai direktur yang membawahkan Fungsi Kepatuhan.
3. Direktur yang membawahkan Fungsi Kepatuhan dilarang membawahkan fungsi:
 - bisnis dan operasional

Compliance is a series of preventive (ex-ante) actions or measures to ensure that the policies, provisions, systems, and procedures, as well as business activities carried out by the Bank are in accordance with the provisions of the Financial Services Authority and the provisions of laws and regulations, and to ensure the Bank's compliance with the commitments made by the Bank to the Financial Services Authority and/or other authorized supervisory authorities.

Compliance Risk is the risk arising from the Bank's failure to comply with and/or implement statutory provisions.

Good and timely compliance risk management is expected to minimize the impact of risks as early as possible. Thus, the role and function of compliance and compliance work units should not only look at preventive (ex-ante) events but also be able to manage compliance risks as a whole. In carrying out its compliance functions, the Bank refers to Financial Services Authority Regulation No. 46/POJK.03/2017 concerning the Implementation of Compliance Functions of Commercial Banks (POJK 46/2017).

The tasks of the compliance function include:

- *Fostering a culture of compliance at all levels of the Bank's organization and business activities.*
- *Managing compliance risks faced by the Bank.*
- *Ensuring that the Bank's policies, provisions, systems and procedures, as well as its business activities, comply with applicable regulatory and legal requirements.*
- *Ensuring the Bank's compliance with the commitments made by the Bank to the Financial Services Authority and/or other authorized supervisory authorities.*

Director in charge of the Compliance Function (Compliance Director)

To support the creation of a culture of compliance and enforcement of compliance at the Bank, and in accordance with POJK 46/2017, the Bank is required to have a director who oversees the Compliance Function. Until 2025, the director in charge of the Compliance Function is Mr. Viktor Ebenheizer Faggidae, who has more than 10 (ten) years of experience in the banking sector and therefore has the integrity and adequate knowledge of the Financial Services Authority's provisions and the provisions of laws and regulations.

The appointment of the director overseeing the Compliance Function has met the applicable requirements, namely:

1. *The director overseeing the Compliance Function must meet the independence requirements.*
2. *The Chief Executive Officer is prohibited from concurrently serving as a director who oversees the Compliance Function.*
3. *The director overseeing the Compliance Function is prohibited from overseeing the following functions:*
 - *business and operations*

- manajemen risiko yang melakukan pengambilan keputusan pada kegiatan usaha Bank
 - treasuri (*treasury*)
 - keuangan dan akuntansi
 - logistik dan pengadaan barang atau jasa
 - teknologi informasi
 - audit internal
4. Wajib memiliki integritas dan pengetahuan yang memadai mengenai ketentuan Otoritas Jasa Keuangan dan ketentuan peraturan perundang-undangan.

Pengangkatan dan pelaksanaan tugas direktur yang membawahkan Fungsi Kepatuhan tersebut telah mengikuti ketentuan Otoritas Jasa Keuangan. Persetujuan dan pengangkatan direktur yang membawahkan Fungsi Kepatuhan telah mengikuti proses berdasarkan ketentuan atau peraturan yang berlaku.

Tugas dan tanggung jawab direktur yang membawahkan Fungsi Kepatuhan antara lain:

- Merumuskan strategi guna mendorong terciptanya Budaya Kepatuhan Bank;
- Mengusulkan kebijakan kepatuhan atau prinsip-prinsip kepatuhan yang akan ditetapkan oleh Direksi;
- Menetapkan sistem dan prosedur kepatuhan yang akan digunakan untuk menyusun ketentuan dan pedoman internal Bank;
- Memastikan bahwa seluruh kebijakan, ketentuan, sistem, dan prosedur, serta kegiatan usaha yang dilakukan oleh Bank telah sesuai dengan ketentuan Otoritas Jasa Keuangan dan ketentuan peraturan perundang-undangan;
- Memantau dan menjaga Risiko Kepatuhan Bank agar tidak menyimpang dari ketentuan yang berlaku;
- Melakukan tindakan pencegahan agar kebijakan dan/atau keputusan yang diambil Direksi Bank tidak menyimpang dari ketentuan regulator dan ketentuan peraturan perundang-undangan;
- Memantau dan menjaga Risiko Kepatuhan Bank agar tidak menyimpang dari ketentuan yang berlaku;
- Menjaga dan memantau kepatuhan Bank terhadap semua perjanjian dan komitmen yang dibuat Bank kepada regulator;
- Melakukan tugas dan tanggung jawab Direksi sesuai dengan UU tentang Perseroan Terbatas.

Satuan Kerja Kepatuhan

Sesuai dengan POJK 46/2017 pada Pasal 4 maka Bank wajib membentuk Satuan Kerja Kepatuhan.

Satuan kerja kepatuhan harus memenuhi kriteria antara lain:

- a. Satuan kerja kepatuhan wajib independen yaitu Satuan Kerja Kepatuhan harus dibentuk secara tersendiri dan bebas dari pengaruh satuan kerja lainnya, serta mempunyai akses langsung kepada direktur yang membawahkan Fungsi Kepatuhan.
- b. Pejabat dan staf di Satuan Kerja Kepatuhan dilarang ditempatkan pada posisi menghadapi benturan kepentingan (*conflict of interest*) dalam melaksanakan tanggung jawab Fungsi Kepatuhan.

- *risk management that makes decisions on the Bank's business activities*
- *treasury*
- *finance and accounting*
- *logistics and procurement of goods or services*
- *information technology*
- *Internal audit*

4. *Must have integrity and adequate knowledge of the provisions of the Financial Services Authority and the provisions of laws and regulations.*

The appointment and performance of duties of the director in charge of the Compliance Function have complied with the provisions of the Financial Services Authority. The approval and appointment of the director in charge of the Compliance Function have followed the process based on applicable provisions or regulations.

The duties and responsibilities of the director in charge of the Compliance Function include:

- *Formulating strategies to promote the creation of a Bank Compliance Culture;*
- *Proposing compliance policies or principles to be established by the Board of Directors;*
- *Establishing compliance systems and procedures to be used in developing the Bank's internal rules and guidelines;*
- *Ensuring that all policies, provisions, systems, and procedures, as well as business activities carried out by the Bank are in accordance with the provisions of the Financial Services Authority and the provisions of laws and regulations;*
- *Monitoring and maintaining the Bank's Compliance Risk so that it does not deviate from applicable regulations;*
- *Taking preventive measures to ensure that the policies and/or decisions made by the Bank's Board of Directors do not deviate from regulatory requirements and statutory provisions;*
- *Monitoring and maintaining the Bank's Compliance Risk so that it does not deviate from applicable regulations;*
- *Maintain and monitor the Bank's compliance with all agreements and commitments made by the Bank to regulators;*
- *Performing the duties and responsibilities of the Board of Directors in accordance with the Limited Liability Company Law.*

Compliance Unit

In accordance with POJK 46/2017 Article 4, the Bank is required to establish a Compliance Unit.

The compliance unit must meet the following criteria:

- a. *The Compliance Unit must be independent, meaning that it must be established separately and free from the influence of other work units, and have direct access to the director in charge of the Compliance Function.*
- b. *Officials and staff in the Compliance Unit are prohibited from being placed in positions that pose a conflict of interest in carrying out their Compliance Function responsibilities.*

Dalam menjalankan Fungsi Kepatuhan sesuai dengan POJK 46/2017, Bank telah membentuk Satuan Kerja Kepatuhan sebagai satuan kerja yang independen dan bebas dari pengaruh satuan kerja lainnya, Satuan Kerja Kepatuhan bertugas memantau kepatuhan seluruh unit kerja Bank terhadap peraturan/ketentuan yang berlaku baik internal maupun eksternal serta memantau tindak lanjut oleh satuan kerja terkait. Adapun, Satuan Kerja Kepatuhan Bank dibagi menjadi 2 (dua) unit kerja yaitu *Compliance Advisory and Training* serta *Compliance Monitoring, Review, and Reporting*.

Direksi melalui Satuan Kerja Kepatuhan secara rutin melaporkan laporan kepatuhan untuk memastikan bahwa kebijakan, prosedur, dan kegiatan usaha yang dilakukan Bank telah sesuai dengan ketentuan regulator. Satuan Kerja Kepatuhan telah melakukan pengujian terhadap Manual Kepatuhan dengan menerbitkan kebijakan Kepatuhan yang telah disetujui oleh Direktur Utama. Pada Kebijakan Kepatuhan mengatur mengenai Organisasi dan Kewenangan, Fungsi Kepatuhan serta Pelaporan dan Pemantauan Kepatuhan.

Pelaksanaan Fungsi Kepatuhan Bank antara lain dilaksanakan dengan:

- Membuat langkah untuk mendukung terciptanya Budaya Kepatuhan pada seluruh kegiatan usaha Bank pada setiap jenjang organisasi
- Melakukan identifikasi, pengukuran, pemantauan dan pengendalian terhadap Risiko Kepatuhan dengan mengacu pada Peraturan Otoritas Jasa Keuangan mengenai penerapan manajemen risiko bagi Bank Umum.
- Menilai dan mengevaluasi efektivitas, kecukupan, dan kesesuaian kebijakan, ketentuan, sistem maupun prosedur yang dimiliki oleh Bank dengan peraturan perundang-undangan yang berlaku.
- Melakukan review dan/atau merekomendasikan pengkajian dan penyempurnaan kebijakan, ketentuan, sistem maupun prosedur yang dimiliki oleh Bank agar sesuai dengan ketentuan regulator dan ketentuan peraturan perundang-undangan.
- Melakukan upaya-upaya untuk memastikan bahwa kebijakan, ketentuan, sistem dan prosedur, serta kegiatan usaha Bank telah sesuai dengan ketentuan regulator dan ketentuan peraturan perundang-undangan, salah satunya dengan melakukan uji kepatuhan.
- Melakukan tugas-tugas lainnya yang terkait dengan Fungsi Kepatuhan

Bank senantiasa memberikan kesempatan kepada pegawai di Satuan Kerja Kepatuhan untuk meningkatkan pengetahuan dan kompetensi untuk mendukung pelaksanaan tugasnya pada berbagai pelatihan, seminar, atau sosialisasi termasuk aktif berpartisipasi dalam Forum Komunikasi Direktur Kepatuhan Perbankan (FKDKP) dan mengikuti sertifikasi kepatuhan yang diselenggarakan oleh Lembaga Sertifikasi Profesi Perbankan (LSPP). Selain itu, sebagai bagian dari upaya membangun Budaya Kepatuhan, Bank juga telah menyelenggarakan berbagai pelatihan dan sosialisasi terkait ketentuan-ketentuan baru kepada divisi yang terkait.

In carrying out its Compliance Function in accordance with POJK 46/2017, the Bank has established a Compliance Unit as an independent unit that is free from the influence of other work units. The Compliance Unit is tasked with monitoring the compliance of all Bank work units with applicable internal and external regulations/provisions and monitoring follow-up actions by the relevant work units. The Bank's Compliance Unit is divided into two (2) work units, namely Compliance Advisory and Training, and Compliance Monitoring, Review, and Reporting.

The Board of Directors, through the Compliance Unit, regularly reports compliance reports to ensure that the Bank's policies, procedures, and business activities are in accordance with regulatory requirements. The Compliance Unit has updated the Compliance Manual by issuing a Compliance Policy that has been approved by the President Director. The Compliance Policy regulates the Organization and Authority, Compliance Functions, and Compliance Reporting and Monitoring.

The implementation of the Bank's Compliance Function is carried out through, among other things:

- *Taking steps to support the creation of a culture of compliance in all of the Bank's business activities at every level of the organization*
- *Identifying, measuring, monitoring, and controlling Compliance Risks with reference to Financial Services Authority regulations regarding the implementation of risk management for Commercial Banks.*
- *Assessing and evaluating the effectiveness, adequacy, and suitability of the Bank's policies, provisions, systems, and procedures with applicable laws and regulations.*
- *Reviewing and/or recommending updates and improvements to the Bank's policies, provisions, systems, and procedures to ensure compliance with regulatory requirements and laws and regulations.*
- *Making efforts to ensure that the Bank's policies, provisions, systems and procedures, as well as business activities, comply with regulatory requirements and statutory provisions, including by conducting compliance tests.*
- *Performing other tasks related to the Compliance Function.*

The Bank always provides opportunities for employees in the Compliance Unit to improve their knowledge and competencies to support the performance of their duties through various training sessions, seminars, or socialization programs, including active participation in the Banking Compliance Directors Communication Forum (FKDKP) and compliance certification organized by the Banking Professional Certification Agency (LSPP). In addition, as part of its efforts to build a Culture of Compliance, the Bank has also organized various training and socialization programs related to new regulations for relevant divisions.

Dewan Komisaris melakukan pengawasan secara aktif terhadap Fungsi Kepatuhan Bank dengan melakukan evaluasi pelaksanaan Fungsi Kepatuhan Bank serta memberikan saran untuk meningkatkan kualitas pelaksanaan Fungsi Kepatuhan Bank agar aktifitas Bank selalu berada dalam koridor peraturan yang berlaku. Dewan Komisaris juga mengawasi jika ada potensi penyimpangan terhadap rasio-rasio kepatuhan wajib seperti Kewajiban Penyediaan Modal Minimum (KPMM), Batas Maksimum Penyediaan Kredit (BMPK), *Non-Performing Loan* (NPL), Posisi Devisa Neto (PDN), Giro Wajib Minimum (GWM), Rasio Pendanaan Luar Negeri (RPLN), dll. Direksi bersama Dewan Komisaris selalu mengupayakan penyelesaian komitmen dan tindak lanjut hasil pemeriksaan oleh regulator.

The Board of Commissioners actively supervises the Bank's Compliance Function by evaluating the implementation of the Bank's Compliance Function and providing recommendations to improve the quality of the implementation of the Bank's Compliance Function so that the Bank's activities always remain within the applicable regulatory framework. The Board of Commissioners also monitors any potential deviations from mandatory compliance ratios such as Minimum Capital Requirements (KPMM), Maximum Credit Provision Limit (BMPK), Non-Performing Loans (NPL), Net Foreign Exchange Position (PDN), Minimum Reserve Requirement (GWM), Foreign Funding Ratio (RPLN), etc. The Board of Directors and the Board of Commissioners always strive to fulfill commitments and follow up on the results of regulatory audits.

Penerapan Anti Pencucian Uang (APU), Pencegahan Pendanaan Terorisme (PPT) dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Masal (PPSPM)

Implementation of Anti-Money Laundering (AML), Terrorist Financing Prevention (TFP), and Prevention of Financing The Proliferation of Weapons of Mass Destruction (PPWMD)

Penerapan program Anti Pencucian Uang, Pencegahan Pendanaan Terorisme, dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal (APU, PPT & PPSPM) merupakan kewajiban bagi seluruh pihak, khususnya Bank sebagai penyedia jasa layanan keuangan. Bank wajib menjalankan program tersebut secara berkesinambungan mengingat modus yang digunakan oleh pelaku kejahatan keuangan semakin variatif dalam memanfaatkan layanan perbankan sebagai sarana Tindak Pidana Pencucian Uang (TPPU), Tindak Pidana Pendanaan Terorisme (TPPT), dan Pendanaan Proliferasi Senjata Pemusnah Massal (PPSPM). Seiring dengan meningkatnya kompleksitas produk dan layanan, serta pemanfaatan teknologi informasi untuk kemudahan transaksi dan akses layanan perbankan, risiko penyalahgunaan sistem perbankan juga semakin meningkat dengan berbagai pola dan skema yang semakin beragam.

The implementation of Anti-Money Laundering, Counter-Terrorism Financing, and Counter-Proliferation Financing (AML, CTF & CPFP) programs is mandatory for all parties, especially banks as financial service providers. Banks are required to implement these programs on an ongoing basis, given that the methods used by financial criminals to exploit banking services as a means of Money Laundering (TPPU), Terrorism Financing (TPPT), and Proliferation Financing of Weapons of Mass Destruction (PPSPM) are becoming increasingly varied. Along with the increasing complexity of products and services, as well as the use of information technology to facilitate transactions and access to banking services, the risk of banking system abuse is also increasing with various patterns and schemes that are increasingly diverse.

Oleh karena itu, Bank menerapkan program APU, PPT & PPPSPM secara konsisten, optimal, dan efektif pada seluruh produk, layanan, dan aktivitas transaksi. Implementasi program ini didukung oleh kebijakan internal, prosedur operasional, sistem pemantauan transaksi, serta peningkatan kompetensi sumber daya manusia secara berkelanjutan. Sebagai bentuk komitmen Bank dalam menjaga integritas sistem keuangan dan memperkuat praktik tata kelola yang baik, penerapan program tersebut dilaksanakan dengan mengacu pada ketentuan peraturan perundang-undangan yang berlaku, antara lain sebagai berikut:

- Undang Undang Republik Indonesia Nomor 40 Tahun 2007 jo Peraturan Pemerintah Pengganti Undang Undang Republik Indonesia Nomor 2 Tahun 2022 jo Undang-Undang Nomor 24 Tahun 2011 jo Putusan Mahkamah Konstitusi Nomor 84/PUU XI/2013 tentang Perseroan Terbatas;
- Undang-Undang Nomor 8 Tahun 2010 tentang Pencegahan dan Pemberantasan Tindak Pidana Pencucian Uang;
- Undang-Undang Republik Indonesia Nomor 3 Tahun 2011 tentang Transfer Dana;
- Undang-Undang Nomor 9 Tahun 2013 tentang Pencegahan dan Pemberantasan Tindak Pidana Pendanaan Terorisme;
- Undang-Undang No.27 tahun 2022 tentang Pelindungan Data Pribadi;
- Undang-Undang No.4 tahun 2023 tentang Pengembangan dan Penguatan Sektor Keuangan;
- Peraturan Pemerintah Republik Indonesia Nomor 43 Tahun 2015 tentang Pihak Pelapor Dalam Pencegahan dan Pemberantasan Tindak Pidana Pencucian Uang;
- Peraturan Presiden Nomor 13 tahun 2018 tentang Penerapan Prinsip Mengenali Pemilik Manfaat dari Korporasi dalam Rangka Pencegahan dan Pemberantasan Tindak Pidana Pencucian Uang dan Tindak Pidana Pendanaan Terorisme;
- Peraturan Otoritas Jasa Keuangan Nomor 8 Tahun 2023 tentang Penerapan Program Anti Pencucian Uang, Pencegahan Pendanaan Terorisme dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal di Sektor Jasa Keuangan;
- Peraturan Otoritas Jasa Keuangan Nomor 12 /POJK.03/2021 tentang Bank Umum;
- Peraturan Otoritas Jasa Keuangan Nomor 17/POJK.03/2023 tentang Penerapan Tata Kelola bagi Bank Umum;
- Peraturan Bersama Kementerian Luar Negeri, Kepolisian Negara Republik Indonesia, PPATK dan Badan Pengawas Tenaga Nuklir No.7 tahun 2023, No.2 tahun 2023, No.12 tahun 2023 dan No.2 tahun 2023 yang merupakan perubahan kedua atas peraturan yang sama No.4 tahun 2017, No.1 tahun 2017, No.9 tahun 2017 dan No.5 tahun 2017 tentang Pencantuman Identitas Orang dan Korporasi dalam Daftar Pendanaan Proliferasi Senjata Pemusnah Massal dan Pemblokiran serta merta Atas Dana Milik Orang atau Korporasi yang tercantum dalam Daftar Pendanaan Proliferasi Senjata Pemusnah Massal;
- Peraturan PPATK Nomor 1 tahun 2021 tentang Tata Cara Penyampaian Laporan Transaksi Keuangan Mencurigakan, Transaksi Keuangan Tunai, dan Transaksi Keuangan Transfer Dana

Therefore, the Bank consistently, optimally, and effectively implements the APU, PPT & PPPSPM programs across all products, services, and transaction activities. The implementation of this program is supported by internal policies, operational procedures, transaction monitoring systems, and continuous improvement of human resource competencies. As a form of the Bank's commitment to maintaining the integrity of the financial system and strengthening good governance practices, the implementation of these programs is carried out with reference to the provisions of applicable laws and regulations, including the following:

- *Law of the Republic of Indonesia Number 40 of 2007 in conjunction with Government Regulation in Lieu of Law of the Republic of Indonesia Number 2 of 2022 in conjunction with Law Number 24 of 2011 in conjunction with Constitutional Court Decision Number 84/PUU XI/2013 concerning Limited Liability Companies;*
- *Law Number 8 of 2010 concerning the Prevention and Eradication of Money Laundering;*
- *Law of the Republic of Indonesia Number 3 of 2011 concerning Fund Transfers;*
- *Law No. 9 of 2013 concerning the Prevention and Eradication of Terrorism Financing Crimes;*
- *Law No. 27 of 2022 concerning Personal Data Protection;*

- Pengkinian data berdasarkan risiko secara berkala atas informasi dan dokumen nasabah yang dilakukan pada wilayah kerja masing-masing
- Memantau kesesuaian profil nasabah dan pelaksanaan transaksi nasabah.
- Pelaporan kepada Lembaga Pengawas dan Pengatur serta Otoritas berwenang lainnya.

- *Regularly updating data based on risk regarding customer information and documents carried out in their respective work areas.*
- *Monitoring the suitability of customer profiles and the execution of customer transactions.*
- *Reporting to Supervisory and Regulatory Institutions and other competent authorities.*

Berikut Struktur organisasi penerapan program APU PPT dan PPPSPM di Bank:

The following is the organizational structure for the implementation of the APU PPT and PPPSPM programs at the Bank:

Bank memiliki tanggung jawab untuk memastikan bahwa kebijakan dan prosedur terkait program Anti Pencucian Uang (APU), Pencegahan Pendanaan Terorisme (PPT), dan Pencegahan Pendanaan Proliferasi Senjata Pemusnah Massal (PPPSPM) diterapkan secara efektif dan berkelanjutan. Oleh karena itu, diperlukan penyusunan dan pemutakhiran kebijakan serta prosedur yang mengatur berbagai aspek dalam implementasi program tersebut guna memastikan kepatuhan terhadap regulasi yang berlaku serta memitigasi risiko yang dapat timbul dalam operasional perbankan.

The Bank has a responsibility to ensure that policies and procedures related to Anti-Money Laundering (AML), Countering the Financing of Terrorism (CFT), and Countering the Financing of Proliferation of Weapons of Mass Destruction (CFPWMD) programs are implemented effectively and sustainably. Therefore, it is necessary to develop and update policies and procedures that regulate various aspects of the implementation of these programs to ensure compliance with applicable regulations and mitigate risks that may arise in banking operations.

Beberapa aspek utama dalam kebijakan dan prosedur ini mencakup penerimaan, identifikasi, dan verifikasi nasabah untuk memastikan bahwa setiap individu atau entitas yang membuka rekening atau melakukan transaksi telah melalui proses identifikasi dan verifikasi yang komprehensif. Selain itu, Bank juga wajib melakukan identifikasi dan verifikasi terhadap *beneficial owner*, yakni pihak yang memiliki kendali akhir atas suatu entitas atau transaksi keuangan, guna mencegah penyalahgunaan rekening untuk tujuan pencucian uang atau pendanaan terorisme.

Some of the main aspects of these policies and procedures include the acceptance, identification, and verification of customers to ensure that every individual or entity that opens an account or conducts a transaction has undergone a comprehensive identification and verification process. In addition, banks are also required to identify and verify beneficial owners, namely parties who have ultimate control over an entity or financial transaction, in order to prevent the misuse of accounts for money laundering or terrorist financing purposes.

Dalam rangka meningkatkan keamanan dan transparansi, Bank menerapkan *Customer Due Diligence* (CDD) yang bertujuan untuk memahami profil nasabah, sumber dana, serta tujuan transaksi guna mengidentifikasi aktivitas yang mencurigakan sejak awal. Jika ditemukan adanya indikasi transaksi yang tidak sesuai dengan profil nasabah atau adanya pelanggaran kebijakan kepatuhan, Bank berwenang melakukan penutupan hubungan usaha dengan nasabah tersebut.

In order to improve security and transparency, the Bank implements Customer Due Diligence (CDD) which aims to understand customer profiles, sources of funds, and transaction purposes in order to identify suspicious activities early on. If there are indications of transactions that do not match the customer's profile or violations of compliance policies, the Bank has the authority to terminate its business relationship with the customer.

Bank juga menerapkan pendekatan berbasis risiko (*risk-based approach*) dalam pengelolaan risiko pencucian uang dan pendanaan terorisme, sehingga sumber daya dapat difokuskan pada nasabah, transaksi, atau area yang memiliki tingkat risiko tinggi. Dalam hal ini, nasabah yang berisiko tinggi, seperti individu yang tergolong dalam kategori *Politically Exposed Person* (PEP), pihak yang berasal dari atau bertransaksi dengan pihak dari area berisiko tinggi, akan dilakukan *Enhance Due Dilligence*.

The Bank also implements a risk-based approach in managing money laundering and terrorist financing risks, so that resources can be focused on customers, transactions, or areas with high risk levels. In this case, high-risk customers, such as individuals classified as Politically Exposed Persons (PEPs), parties originating from or transacting with parties from high-risk areas, will undergo Enhanced Due Diligence.

Selain itu, kebijakan dan prosedur juga mencakup pengelolaan *cross border correspondent banking*, yaitu hubungan perbankan lintas negara yang memerlukan pengawasan ketat guna mencegah pemanfaatan sistem keuangan internasional untuk tujuan ilegal. Bank juga mengatur mekanisme transfer dana yang aman dan transparan guna memastikan bahwa setiap transaksi sesuai dengan ketentuan yang berlaku.

In addition, policies and procedures also cover the management of cross-border correspondent banking, which is a cross-border banking relationship that requires strict supervision to prevent the use of the international financial system for illegal purposes. The bank also regulates secure and transparent fund transfer mechanisms to ensure that every transaction complies with applicable regulations.

Sebagai bagian dari implementasi yang menyeluruh, Bank harus memastikan penatausahaan dokumen dilakukan dengan baik, termasuk pencatatan, penyimpanan, serta pemantauan dokumen terkait transaksi keuangan. Hal ini bertujuan untuk memastikan bahwa informasi yang relevan selalu tersedia bagi otoritas yang berwenang jika diperlukan. Selain itu, Bank wajib menjalankan kewajiban pelaporan kepada regulator terkait aktivitas atau transaksi yang terindikasi mencurigakan, sebagai bentuk kepatuhan terhadap regulasi dan upaya pencegahan tindak kejahatan keuangan.

As part of comprehensive implementation, the Bank must ensure that documents are properly managed, including the recording, storage, and monitoring of documents related to financial transactions. This is to ensure that relevant information is always available to the competent authorities when needed. In addition, the Bank is required to report to regulators on any activities or transactions that are suspected to be suspicious, as a form of compliance with regulations and efforts to prevent financial crime.

Dengan penerapan kebijakan dan prosedur yang komprehensif serta pemutakhiran yang dilakukan secara berkala, Bank memastikan efektivitas pelaksanaan program APU, PPT, dan PPPSPM guna mendukung terciptanya sistem keuangan yang transparan, aman, dan terpercaya. Implementasi tersebut juga diikuti dengan pemenuhan kewajiban pelaporan kepada PPATK secara tepat waktu dan sesuai ketentuan yang berlaku.

With the implementation of comprehensive policies and procedures as well as regular updates, the Bank ensures the effective implementation of the APU, PPT, and PPPSPM programs to support the creation of a transparent, secure, and reliable financial system. This implementation is also followed by the fulfillment of reporting obligations to PPATK in a timely manner and in accordance with applicable regulations.

Sepanjang tahun 2025, Bank telah menyampaikan laporan kepada PPATK dengan total 6.064 laporan, yang terdiri dari 1.637 Laporan Transaksi Keuangan Tunai (LTKT), 138 Laporan Transaksi Keuangan Mencurigakan (LTKM proaktif), dan 4.289 Laporan Transfer dari dan ke Luar Negeri (LTKL).

Throughout 2025, the Bank submitted a total of 6,064 reports to PPATK, consisting of 1,637 Cash Transaction Reports (LTKT), 138 Proactive Suspicious Transaction Reports (LTKM), and 4,289 Reports of Transfers from and to Foreign Countries (LTKL).

Kategori Nasabah <i>Customer Categories</i>	Jumlah <i>Total</i>
High Risk	312
Medium Risk	38.732
Low Risk	26.376
Jumlah <i>Total</i>	65.420

Untuk terus meningkatkan kualitas dan kapasitas penerapan program APU-PPT & PPPSPM Bank selalu berkomitmen dalam menyempurnakan kebijakan, serta pengawasan aktif dari manajemen melalui pelatihan-pelatihan yang diberikan melalui internal maupun external. Bank juga senantiasa melakukan pengembangan dan penyempurnaan dalam penerapan program APU, PPT & PPPSPM antara lain meliputi:

- Menyusun dan mengevaluasi kebijakan dan prosedur pelaksanaan APU, PPT & PPPSPM sesuai dengan peraturan dan kebijakan otoritas / regulator terkini.
- Memastikan kecukupan kebijakan dan prosedur APU-PPT & PPPSPM telah sesuai dengan, perkembangan bisnis maupun kompleksitas usaha Bank.
- Mengelola pelaporan kepada Regulator terkait Laporan Transaksi Keuangan Tunai (LTKT), Laporan Transaksi Keuangan Mencurigakan (LTKM), Laporan Transaksi Keuangan dari dan ke Luar Negeri (LTKL) dan Laporan Sistem Informasi Pengguna Jasa Terpadu (SIPESAT).
- Melakukan sosialisasi kebijakan dan prosedur penerapan program APU PPT & PPPSPM yang di usulkan oleh Direksi dan di setuju oleh Dewan Komisaris kepada unit-unit terkait
- Memantau pengkinian profil nasabah dan profil transaksi nasabah.
- Memastikan pengkinian *database* daftar teroris dilakukan secara berkala berdasarkan database Daftar Tereoris dan Organisasi Tereoris (DTTOT) dan Daftar Proliferasi Senjata Pemusnah Massal (DPPSPM) yang dipublikasikan.
- Memastikan pengkinian kategori Negara berisiko tinggi setelah diterimanya daftar baru/pengkinian data dari Otoritas Jasa Keuangan atau setelah diterbitkannya publikasi Negara berisiko tinggi dan tidak kooperatif oleh FATF
- Memastikan adanya sistem yang mendukung program APU-PPT & PPPSPM dan kebijakan dan prosedur APU-PPT & PPPSPM telah dilaksanakan sesuai dengan kebijakan dan prosedur yang ditetapkan.

To continue improving the quality and capacity of the implementation of the APU-PPT & PPPSPM programs, the Bank is always committed to refining its policies and actively monitoring management through internal and external training. The Bank also continuously develops and refines the implementation of the APU, PPT & PPPSPM programs, including:

- *Formulating and evaluating APU, PPT & PPPSPM implementation policies and procedures in accordance with the latest regulations and policies of the authorities/regulators.*
- *Ensuring that APU-PPT & PPPSPM policies and procedures are adequate and in line with the Bank's business development and complexity.*
- *Managing reports to regulators related to Cash Transaction Reports (LTKT), Suspicious Transaction Reports (LTKM), Domestic and Foreign Transaction Reports (LTKL), and Integrated Service User Information System Reports (SIPESAT).*
- *Conducting socialization of policies and procedures for the implementation of the APU PPT & PPPSPM program proposed by the Board of Directors and approved by the Board of Commissioners to the relevant units.*
- *Monitoring updates to customer profiles and customer transaction profiles.*
- *Ensuring that the terrorist list database is updated regularly based on the published Terrorist and Terrorist Organization List (DTTOT) and Weapons of Mass Destruction Proliferation List (DPPSPM) databases.*
- *Ensuring the updating of high-risk country categories after receiving new lists/data updates from the Financial Services Authority or after the publication of high-risk and non-cooperative countries by the FATF.*
- *Ensuring that there is a system that supports the APU-PPT & PPPSPM program and that the APU-PPT & PPPSPM policies and procedures have been implemented in accordance with the established policies and procedures.*

Fungsi Manajemen Risiko dan Pengendalian Internal

Risk Management and Internal Control Functions

Manajemen Risiko

Manajemen Risiko adalah serangkaian metodologi dan prosedur yang digunakan untuk mengidentifikasi, mengukur, memantau, dan mengendalikan Risiko yang timbul dari seluruh kegiatan usaha Bank. Seiring dengan tumbuh dan berkembangnya kegiatan usaha Bank menyebabkan semakin meningkatnya risiko yang dihadapi. Oleh karena itu, agar mampu beradaptasi dalam lingkungan bisnis perbankan, Bank dituntut untuk menerapkan Manajemen Risiko. Dalam penerapannya, Bank merujuk pada Peraturan Otoritas Jasa Keuangan No. 18/POJK.03/2016 tentang Penerapan Manajemen Risiko bagi Bank Umum dan Surat Edaran Otoritas Jasa Keuangan No. 34/SE0JK.03/2016 tentang Penerapan Manajemen Risiko bagi Bank Umum. Pendekatan yang dilakukan dalam mendukung penerapan manajemen risiko secara efektif dan komprehensif yang mencakup 4 pilar, yaitu:

- Pengawasan aktif Dewan Komisaris dan Direksi
- Kecukupan kebijakan dan prosedur manajemen risiko serta penetapan limit risiko
- Kecukupan proses identifikasi, pengukuran, pemantauan dan pengendalian manajemen risiko serta sistem informasi manajemen risiko
- Sistem pengendalian intern

Bank telah membentuk Divisi Manajemen Risiko yang melakukan pengelolaan seluruh risiko dalam kaitannya dengan aktifitas perbankan yang dijalankan. Divisi Manajemen Risiko berada pada pengawasan Direktur *Credit* dan *Risk* yang dalam implementasi terdiri atas beberapa bagian yakni:

- *Portfolio Management*
- *Integrated Risk Management*
- *Credit Risk Control*
- *Credit Model*
- *Risk Reporting*
- *Unit Anti Fraud*

Divisi manajemen Risiko yang dibentuk, independen terhadap bisnis unit, fungsi kepatuhan dan audit internal. Secara umum Divisi manajemen risiko telah melakukan penyusunan, penetapan, dan mengkinikan prosedur dan *framework* untuk mengidentifikasi, mengukur, memonitor dan mengendalikan risiko, yang dilakukan sesuai dengan perkembangan kegiatan usaha Bank maupun perubahan peraturan otoritas. Selama tahun 2025, secara garis besar pengelolaan risiko Bank dapat dideskripsikan sebagai berikut:

- Melakukan monitoring terhadap kredit-kredit yang telah disalurkan dan berfokus pada pengendalian *Non-Performing Loan (NPL)*
- Melakukan mitigasi risiko kredit melalui *Early Alert Monitoring Forum & Credit Risk Control Unit*
- Mengembangkan credit risk rating untuk dapat membantu menilai pengajuan kredit.
- Menetapkan *portfolio guideline* guna mengarahkan dan memantau penyaluran kredit ke sektor sektor yang memiliki pertumbuhan baik

Risk Management

Risk Management is a series of methodologies and procedures used to identify, measure, monitor, and control risks arising from all of a Bank's business activities. The growth and development of a Bank's business activities leads to increasing risks. Therefore, to adapt to the banking business environment, Banks are required to implement Risk Management. In implementing this, Banks refer to Financial Services Authority Regulation No. 18/POJK.03/2016 concerning the Implementation of Risk Management for Commercial Banks and Financial Services Authority Circular Letter No. 34/SE0JK.03/2016 concerning the Implementation of Risk Management for Commercial Banks. The approach taken to support the effective and comprehensive implementation of risk management encompasses 4 pillars:

- *Active supervision by the Board of Commissioners and Directors*
- *Adequate risk management policies and procedures and risk limit setting*
- *Adequate risk management identification, measurement, monitoring, and control processes, as well as risk management information systems*
- *Internal control systems*

The Bank has established a Risk Management Division that manages all risks related to its banking activities. The Risk Management Division is under the supervision of the Credit and Risk Director, and in its implementation, it consists of several sections, namely:

- *Portfolio Management*
- *Integrated Risk Management*
- *Credit Risk Control*
- *Credit Model*
- *Risk Reporting*
- *Unit Anti Fraud*

The Risk Management Division was established independently of the business units, compliance functions, and internal audit. In general, the Risk Management Division has developed, established, and updated procedures and frameworks to identify, measure, monitor, and control risks in accordance with the development of the Bank's business activities and changes in regulatory requirements. During 2025, the Bank's risk management can be described as follows:

- *Monitoring disbursed loans and focusing on controlling Non-Performing Loans (NPLs)*
- *Mitigating credit risk through the Early Alert Monitoring Forum & Credit Risk Control Unit*
- *Developing credit risk ratings to assist in assessing loan applications.*
- *Establishing portfolio guidelines to direct and monitor credit distribution to sectors with good growth*

- Mengembangkan prosedur dan alat untuk identifikasi, pengukuran, pemantauan, dan pengendalian Risiko
- Melakukan kajian risiko terhadap usulan produk dan/atau aktivitas baru
- Melakukan stress test untuk risiko kredit, pasar maupun likuiditas
- Melakukan monitoring likuiditas harian seperti *Liquidity Coverage Ratio* (LCR), *Net Stable Funding Ratio* (NSFR), aset likuid terhadap *Non-Core Deposit*, aset likuid terhadap Dana Pihak Ketiga, Rasio Intermediasi Makroprudensial (RIM) serta rasio-rasio likuiditas lainnya
- Melakukan pengelolaan Risiko Operasional di seluruh Unit yang ada di bank Maspion meliputi identifikasi, pengukuran, pemantauan, dan pengendalian melalui perangkat Risiko Operasional, seperti *Risk Control Self Assessment* (RCSA), *Key Risk Indicator* (KRI), dan *Operational Risk Event Database* (ORED).
- Berperan aktif dalam meningkatkan *risk awareness* bagi seluruh karyawan di setiap Unit, melalui sosialisasi, implementasi perangkat Risiko Operasional, dan *sharing session*.
- Melakukan pengembangan *Business Continuity Management* (BCM) dengan fokus meningkatkan ketahanan operasional (*operational resilience*) dan kesiapan dalam menghadapi potensi gangguan kritikal terhadap layanan utama Bank.
- Melakukan pemantauan atas *Risk Appetite* dan *Tolerance* secara rutin
- Melakukan penerapan Strategi *Anti Fraud*, berdasarkan 4 pilar yaitu pencegahan; deteksi; Investigasi, pelaporan dan sanksi; pemantauan, evaluasi dan tindak lanjut.
- *Developing procedures and tools for identifying, measuring, monitoring, and controlling risk*
- *Conducting risk assessments on proposed new products and/or activities*
- *Conducting stress tests for credit, market, and liquidity risks*
- *Monitoring daily liquidity such as Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), liquid assets against Non-Core Deposits, liquid assets against Third Party Funds, Macroprudential Intermediation Ratio (RIM) and other liquidity ratios*
- *Managing Operational Risk across all units at Maspion Bank, including identification, measurement, monitoring, and control through Operational Risk tools such as Risk Control Self Assessment (RCSA), Key Risk Indicator (KRI), and Operational Risk Event Database (ORED).*
- *Playing an active role in increasing risk awareness for all employees in each Unit, through socialization, implementation of Operational Risk tools, and sharing sessions.*
- *Developing Business Continuity Management (BCM) with a focus on improving operational resilience and readiness in facing potential critical disruptions to the Bank's main services.*
- *Conducting regular monitoring of Risk Appetite and Tolerance.*
- *Implementing an Anti-Fraud Strategy based on four pillars: prevention; detection; investigation, reporting, and sanctions; monitoring, evaluation, and follow-up.*

Pembahasan mengenai Fungsi Manajemen Risiko secara lebih lanjut terdapat pada bagian Manajemen Risiko pada Laporan Tahunan ini.

Further discussion on the Risk Management Function can be found in the Risk Management section of this Annual Report.

Pengendalian Internal

Pengendalian Internal merupakan satu kesatuan metodologi, kebijakan, prosedur, dan penyusunan organisasi yang ditujukan untuk melakukan identifikasi, pengukuran, pemantauan, serta pengendalian risiko yang timbul dengan pendekatan berbasis risiko. Kerangka kerja Pengelolaan Risiko dan Pengendalian Internal di Bank Maspion mengadopsi Pendekatan Tiga Lini Pertahanan (*Three Lines of Defense*) yang tertera seperti di bawah ini:

- Lini Pertahanan Pertama, yaitu unit bisnis dan unit pendukung (*risk taking units*), bertanggung jawab secara langsung atas penerapan dan pelaksanaan pengendalian internal dalam kegiatan operasional sehari-hari. Pada lini ini, Bank telah membentuk fungsi *Quality Assurance* yang bertugas melakukan evaluasi atas implementasi pengendalian internal oleh unit kerja terkait, guna memastikan bahwa proses dan aktivitas telah berjalan sesuai dengan kebijakan, prosedur, dan ketentuan yang berlaku.
- Lini Pertahanan Kedua, yaitu fungsi manajemen risiko dan fungsi kepatuhan, berperan dalam menyusun kerangka kebijakan, metodologi, serta melakukan pemantauan dan pengawasan atas penerapan pengendalian internal dan manajemen risiko oleh lini pertahanan pertama. Lini ini juga memberikan rekomendasi perbaikan serta memastikan kesesuaian penerapan pengendalian internal dengan ketentuan regulator dan kebijakan internal Bank.
- *The First Line of Defense, namely business units and support units (risk taking units), is directly responsible for the application and implementation of internal control in daily operational activities. In this line, the Bank has established a Quality Assurance function tasked with evaluating the implementation of internal controls by the relevant work units to ensure that processes and activities are carried out in accordance with applicable policies, procedures, and regulations.*
- *The Second Line of Defense, namely the risk management and compliance functions, plays a role in developing policy frameworks and methodologies, as well as monitoring and supervising the implementation of internal controls and risk management by the first line of defense. This line also provides recommendations for improvement and ensures that the implementation of internal controls complies with regulatory requirements and the Bank's internal policies.*

Internal Control

Internal Control is a set of methodologies, policies, procedures, and organizational structures aimed at identifying, measuring, monitoring, and controlling risks that arise using a risk-based approach. The Risk Management and Internal Control framework at Bank Maspion adopts the Three Lines of Defense Approach. Defense Approach (Three Lines of Defense) as described below:

- Lini pertahanan Ketiga, yaitu fungsi Audit Intern, bertanggung jawab untuk memberikan penilaian yang independen dan objektif atas kecukupan dan efektivitas sistem pengendalian intern Bank secara keseluruhan. Audit Intern melakukan pengujian dan evaluasi secara berkala serta menyampaikan hasilnya kepada Direksi dan Dewan Komisaris.

Terselenggaranya sistem pengendalian *intern* Bank yang handal dan efektif menjadi tanggung jawab dari seluruh Risk Taking Unit, Divisi fungsi Audit Intern, dan Divisi / unit pendukung lainnya. sistem pengendalian intern secara keseluruhan yang meliputi:

1. Pelaksanaan sistem pengendalian intern secara efektif dalam penerapan Manajemen Risiko Bank dengan mengacu pada kebijakan dan prosedur yang telah ditetapkan. Penerapan prinsip pemisahan fungsi (*four eyes principle*) memadai dan dilaksanakan secara konsisten.
2. Sistem pengendalian internal menyeluruh dalam penerapan Manajemen Risiko
3. Pelaksanaan kaji ulang terhadap penerapan Manajemen Risiko
4. Hasil penilaian kaji ulang oleh Divisi fungsi Manajemen Risiko disampaikan kepada Dewan Komisaris, Divisi fungsi Audit Intern, Direktur yang membawahkan fungsi Manajemen Risiko dan Kepatuhan, Komite Audit (apabila ada), dan Direksi terkait lainnya sebagai masukan dalam rangka penyempurnaan kerangka dan Proses Manajemen Risiko.
5. Pemantauan oleh Divisi fungsi Audit Intern terhadap perbaikan atas hasil temuan intern maupun ekstern. Temuan audit yang belum ditindaklanjuti diinformasikan oleh Divisi fungsi Audit Intern kepada Direksi untuk diambil langkah-langkah yang diperlukan.
6. Tingkat responsif Bank terhadap kelemahan dan/atau penyimpangan yang terjadi terhadap ketentuan internal dan eksternal yang berlaku.
7. Efektivitas dan efisiensi kegiatan operasional, termasuk diantaranya efektivitas budaya kepatuhan pada organisasi Bank secara menyeluruh

Evaluasi Pengendalian Internal dan Manajemen Risiko

Evaluasi terhadap manajemen risiko dan pengendalian internal Bank dilakukan oleh SKAI dan akan menyampaikan hasil evaluasi kepada Direktur Utama dan Dewan Komisaris. SKAI melakukan pemeriksaan secara independen dan objektif terhadap aktivitas di setiap unit kerja termasuk prosedur dan kegiatan operasional secara berkala.

Efektifitas penerapan manajemen risiko yang dilakukan oleh bank telah dievaluasi secara berkala oleh Komite Pemantau Risiko berdasarkan laporan berkala yang disampaikan oleh Satuan Kerja Manajemen Risiko. Selama tahun 2025, Direksi menilai bahwa Manajemen risiko dan Pengendalian internal Bank telah berjalan secara baik dan memadai.

- *The Third Line of Defense, namely the Internal Audit function, is responsible for providing an independent and objective assessment of the adequacy and effectiveness of the Bank's overall internal control system. Internal Audit conducts periodic testing and evaluation and reports the results to the Board of Directors and Board of Commissioners.*

The implementation of a reliable and effective internal control system for the Bank is the responsibility of all Risk Taking Units, the Internal Audit Division, and other supporting divisions/units. The internal control system as a whole includes:

1. *Effective implementation of the internal control system in the application of Bank Risk Management with reference to established policies and procedures. Adequate application of the four eyes principle and consistent implementation.*
2. *Comprehensive internal control system in the implementation of Risk Management*
3. *Review of the implementation of Risk Management*
4. *The results of the review assessment by the Risk Management function division are submitted to the Board of Commissioners, the Internal Audit function division, the Director in charge of Risk Management and Compliance, the Audit Committee (if any), and other relevant directors as input for the improvement of the Risk Management framework and processes.*
5. *Monitoring by the Internal Audit Division of improvements to internal and external findings. Audit findings that have not been followed up are reported by the Internal Audit Division to the Board of Directors so that necessary measures can be taken.*
6. *The Bank's responsiveness to weaknesses and/or deviations from applicable internal and external regulations.*
7. *The effectiveness and efficiency of operational activities, including the effectiveness of the Bank's overall compliance culture.*

Evaluation of Internal Control and Risk Management

The evaluation of the Bank's risk management and internal control is conducted by SKAI and the results of the evaluation will be submitted to the President Director and the Board of Commissioners. SKAI conducts independent and objective examinations of the activities in each work unit, including procedures and operational activities on a regular basis.

The effectiveness of risk management implemented by the bank has been evaluated periodically by the Risk Oversight Committee based on periodic reports submitted by the Risk Management Unit. During 2025, the Board of Directors assessed that the Bank's risk management and internal control had been running well and adequately.

Laporan Pengendalian Internal dalam Proses Pelaporan Keuangan

Internal Control Over Financial Reporting (ICOFR)

Bank Maspion berkomitmen untuk menjaga integritas Laporan Keuangan sesuai dengan ketentuan Peraturan Otoritas Jasa Keuangan No. 15 Tahun 2024 tentang Integritas Pelaporan Keuangan Bank. Untuk itu, Bank Maspion telah:

- Menyusun dan menetapkan kebijakan dan prosedur yang bertujuan untuk memastikan kebenaran, keakuratan, dan transparansi atas Informasi Keuangan dan Laporan Keuangan.
- Menunjuk unit kerja khusus yang bertanggung jawab untuk melakukan pencegahan kecurangan atau manipulasi dalam Informasi Keuangan dan/atau Laporan Keuangan Bank.
- Melaksanakan penerapan proses ICOFR secara berkelanjutan sesuai dengan ketentuan internal yang telah disusun.

Untuk memenuhi ketentuan POJK Nomor 15 Tahun 2024, serta sejalan dengan prinsip-prinsip pengendalian internal atas pelaporan keuangan, Bank Maspion menerapkan kerangka kerja ICOFR yang terdiri atas lima (5) tahapan sebagai berikut:

1. Tahapan Perancangan

Tahap perancangan menetapkan ruang lingkup ICOFR, yang meliputi:

- Penetapan tingkat materialitas, termasuk *Overall Materiality* dan *Performance Materiality*.
 - a. Penentuan akun-akun signifikan dan pengungkapan laporan keuangan yang signifikan.
 - b. Penentuan proses bisnis yang signifikan.
 - c. Penentuan aplikasi yang signifikan.
 - d. Penyusunan *Business Process Mapping* (BPM) dan *Risk Control Matrices* (RCM), yang mencakup:
 - *Entity Level Control* (ELC).
 - *Transaction Level Control* (TLC).
 - *IT General Control* (ITGC).

Seluruh BPM dan RCM disusun oleh Lini Pertama (*Business Process Owner*) dan divalidasi oleh Lini Kedua (*Financial Risk Management*).

2. Tahapan Implementasi dan Pemantauan Berkelanjutan

Hasil validasi BPM dan RCM oleh Lini Kedua (*Financial Risk Management*) selanjutnya dilakukan *Control Self-Assessment* (CSA) oleh Lini Pertama, dan hasilnya dievaluasi kembali oleh Lini Kedua (*Financial Risk Management*).

3. Tahapan Evaluasi

Evaluasi atas Fungsi Lini Kedua (*Financial Risk Management*) dalam implementasi ICOFR dilakukan oleh Lini Ketiga secara independen dan objektif dengan menitikberatkan pada pelaksanaan pengujian implementasi ICOFR yang telah dilakukan oleh Lini Kedua (*Financial Risk Management*) secara keseluruhan.

4. Tahapan Remediasi

Seluruh pengendalian yang dinyatakan tidak efektif dalam proses validasi desain, *Control Self-Assessment* (CSA), dan evaluasi ditindaklanjuti melalui remediasi oleh Lini Pertama. Remediasi dilakukan atas kelemahan operasional maupun kelemahan desain.

Bank Maspion is committed to maintaining the integrity of its Financial Statements in accordance with the provisions of Financial Services Authority Regulation (POJK) No. 15 of 2024 concerning the Integrity of Bank Financial Reporting. To this end, Bank Maspion has undertaken the following measures:

- *Established and implemented policies and procedures aimed at ensuring the validity, accuracy, and transparency of Financial Information and Financial Statements.*
- *Appointed a dedicated work unit responsible for preventing fraud or manipulation in the Bank's Financial Information and/or Financial Statements.*
- *Continuously implemented the Internal Control over Financial Reporting (ICOFR) process in accordance with established internal provisions.*

To comply with POJK No. 15 of 2024, and in line with the principles of internal control over financial reporting, Bank Maspion applies an ICOFR framework consisting of five (5) stages, as follows:

1. Design Stage

The design stage determines the scope of ICOFR, which includes:

- *Determining the level of materiality, including Overall Materiality and Performance Materiality.*
 - a. *Identifying significant accounts and significant financial statement disclosures.*
 - b. *Identifying significant business processes.*
 - c. *Identifying significant applications.*
 - d. *Preparing Business Process Mapping (BPM) and Risk Control Matrices (RCM), which include:*
 - *Entity Level Control (ELC)*
 - *Transaction Level Control (TLC)*
 - *IT General Control (ITGC)*

All BPM and RCM are prepared by the First Line (Business Process Owner) and validated by the Second Line (Financial Risk Management).

2. Implementation and Continuous Monitoring Stage

Following the validation of BPM and RCM by the Second Line (Financial Risk Management), the First Line conducts a Control Self-Assessment (CSA), and the results are subsequently re-evaluated by the Second Line (Financial Risk Management).

3. Evaluation Stage

The evaluation of the Second Line Function (Financial Risk Management) in implementing ICOFR is carried out by the Third Line independently and objectively, with a focus on testing the overall implementation of ICOFR performed by the Second Line (Financial Risk Management).

4. Remediation Stage

All controls deemed ineffective during the design validation process, Control Self-Assessment (CSA), and evaluation are followed up through remediation by the First Line. Remediation is conducted for both operational weaknesses and design weaknesses.

5. Tahapan Pelaporan

Apabila pada akhir periode pelaporan keuangan masih terdapat pengendalian yang tidak efektif berdasarkan validasi CSA oleh Lini Kedua (*Financial Risk Management*), maka Bank Maspion menetapkan tingkat kelemahan atas pengendalian yang tidak efektif tersebut.

Dampak pengendalian yang tidak efektif terhadap laporan keuangan diukur dan dikategorikan ke dalam 3 (tiga) kategori, yaitu:

- a. *Control Deficiency* (CD)
- b. *Significant Deficiency* (SD)
- c. *Material Weakness* (MW)

Sebagai hasil dari penerapan tahapan-tahapan di atas, Bank Maspion akan melakukan peningkatan dan *review* berkelanjutan untuk proses penerapan ICOFR dalam menjaga integritas proses pelaporan keuangan perusahaan.

Laporan Manajemen atas Pengendalian Internal dalam Proses Pelaporan Keuangan

Direksi Bank Maspion bertanggung jawab untuk menerapkan pengendalian internal yang memadai dalam proses pelaporan keuangan, yang diawasi oleh Dewan Komisaris melalui Komite Audit, serta dilaksanakan oleh seluruh jajaran manajemen dan pegawai Bank Maspion guna memberikan keyakinan yang memadai atas integritas, keandalan, keakuratan, dan konsistensi Informasi Keuangan dan Laporan Keuangan Bank.

Direksi bertanggung jawab dalam:

- a. Penyusunan dan penyajian Informasi Keuangan dan Laporan Keuangan;
- b. Kesesuaian penyusunan dan penyajian Laporan Keuangan dengan standar akuntansi keuangan dan ketentuan Otoritas Jasa Keuangan mengenai pencatatan transaksi keuangan;
- c. Kelengkapan dan kebenaran isi Laporan Keuangan;
- d. Penerapan pengendalian internal dalam proses pelaporan keuangan Bank.

Berdasarkan penilaian Direksi, Bank Maspion telah melakukan implementasi tahapan ICOFR secara fundamental berdasarkan dari ketentuan yang berlaku dan akan dilakukan peningkatan serta *review* berkelanjutan secara menyeluruh. Dalam melakukan implementasi tersebut, Bank Maspion juga mengacu pada prinsip-prinsip dasar *Internal Control – Integrated Framework* yang diterbitkan oleh *Committee of Sponsoring Organizations of the Treadway Commission* (COSO).

Dengan demikian, laporan ini disusun sebagai bentuk akuntabilitas dan komitmen Direksi Bank Maspion dalam menjaga integritas proses pelaporan keuangan perusahaan.

5. Reporting Stage

If, at the end of the financial reporting period, there are still ineffective controls based on CSA validation by the Second Line (Financial Risk Management), Bank Maspion determines the level of deficiency associated with those ineffective controls.

The impact of ineffective controls on financial statements is measured and categorized into three categories, namely:

- a. *Control Deficiency* (CD)
- b. *Significant Deficiency* (SD)
- c. *Material Weakness* (MW)

As a result of implementing the above steps, Bank Maspion will conduct ongoing improvements and reviews of the ICOFR implementation process to maintain the integrity of the company's financial reporting.

Management Report on Internal Control over Financial Reporting

The Board of Directors of Bank Maspion is responsible for implementing adequate internal controls in the financial reporting process. These controls are overseen by the Board of Commissioners through the Audit Committee and carried out by all levels of management and employees of Bank Maspion to provide reasonable assurance regarding the integrity, reliability, accuracy, and consistency of the Bank's Financial Information and Financial Statements.

The Board of Directors is responsible for:

- a. *The preparation and presentation of financial information and financial statements;*
- b. *Ensuring that the preparation and presentation of financial statements comply with financial accounting standards and the Financial Services Authority's regulations regarding the recording of financial transactions;*
- c. *The completeness and accuracy of the content of the Financial Statements;*
- d. *The implementation of internal controls in the Bank's financial reporting process.*

Based on the Board of Directors' assessment, Bank Maspion has fundamentally implemented the ICOFR framework in accordance with applicable regulations and will continue to conduct comprehensive improvements and ongoing reviews. In implementing this framework, Bank Maspion also adheres to the fundamental principles of the Internal Control – Integrated Framework published by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Thus, this report is prepared as a form of accountability and commitment by the Board of Directors of Bank Maspion to maintain the integrity of the company's financial reporting process.

Penyediaan Dana Kepada Pihak Terkait dan Eksposur Besar

Provision of Funds to Related Parties and Significant Exposure

Bank perlu membatasi konsentrasi pinjaman kepada individu, kelompok, atau sektor industri tertentu dan melakukan penyebaran atau diversifikasi portofolio dalam rangka mengurangi risiko konsentrasi yang dapat menjadi sumber kegagalan bisnis Bank. Penyediaan dana kepada pihak terkait dan penyediaan dana besar (*large exposure*) harus dilakukan dengan persyaratan yang wajar, memperhatikan prinsip kehati-hatian, serta mematuhi peraturan dan ketentuan yang berlaku serta persetujuan dari Dewan Komisaris.

Kode Etik

Code of Ethics

Bank Maspion memiliki pedoman perilaku berupa Kode Etik yang menjadi dasar sikap dan tindakan bagi seluruh karyawan serta setiap individu yang bekerja untuk dan atas nama Bank. Kode Etik ini memastikan bahwa seluruh insan Bank menjalankan tugas secara profesional dan beretika, berlandaskan prinsip-prinsip yang selaras dengan Visi, Misi, dan Nilai-Nilai Bank Maspion, serta mematuhi seluruh regulasi internal maupun eksternal yang berlaku. Kode Etik Bank Maspion berlaku bagi seluruh tingkatan organisasi, mencakup Dewan Komisaris, Direksi, dan seluruh karyawan dan sebagai acuan bagi Manajemen untuk mengoptimalkan penerapan tata kelola yang baik.

Kode etik dibentuk dengan prinsip-prinsip dasar mengacu kepada:

1. Visi dan Misi Bank.
2. Nilai-nilai budaya Bank yaitu *Service Excellence* (Layanan Prima), Kedisiplinan, Komunikasi, Kerjasama dan Kebersamaan serta Dedikasi dan Loyalitas.
3. Prinsip-prinsip moral yaitu nilai-nilai mengenai hal-hal yang dianggap baik dan tidak baik serta hal-hal yang dianggap benar dan tidak benar.

Bank Maspion has a code of conduct in the form of a Code of Ethics that serves as the basis for the attitudes and actions of all employees and every individual who works for and on behalf of the Bank. This Code of Ethics ensures that all Bank personnel carry out their duties professionally and ethically, based on principles that are in line with the Vision, Mission, and Values of Bank Maspion, and comply with all applicable internal and external regulations. The Bank Maspion Code of Ethics applies to all levels of the organization, including the Board of Commissioners, the Board of Directors, and all employees, and serves as a reference for Management to optimize the implementation of good governance.

The code of ethics is formulated based on the following basic principles:

1. *Bank Vision and Mission.*
2. *The Bank's cultural values are Service Excellence, Discipline, Communication, Cooperation and Togetherness, as well as Dedication and Loyalty.*
3. *Moral principles are values regarding what is considered good and bad, as well as what is considered right and wrong.*

Dengan memahami Kode Etik diharapkan karyawan Bank senantiasa dapat bersikap hati-hati dan cermat pada saat menghadapi hal-hal yang berpotensi menimbulkan risiko kerugian perusahaan baik risiko yang bersifat materiil maupun non-materiil. Kode Etik Bank berlaku bagi seluruh jenjang organisasi, meliputi anggota Direksi, anggota Dewan Komisaris, dan seluruh karyawan Bank.

Pokok-Pokok Kode Etik

Pokok-pokok Kode Etik Bank Maspion mencakup prinsip-prinsip utama yang menjadi pedoman perilaku seluruh insan Bank dalam menjalankan aktivitas profesionalnya, antara lain sebagai berikut:

1. Kepatuhan

Setiap karyawan wajib mematuhi seluruh ketentuan internal Bank, regulasi yang dikeluarkan oleh otoritas, serta peraturan perundang-undangan yang berlaku. Kepatuhan ini menjadi dasar dalam menjaga operasional Bank tetap sehat, aman, dan sesuai standar *governance*.

2. Etika

Setiap Karyawan diharapkan menjunjung tinggi standar etika yang profesional dan menjaga reputasi Bank dalam setiap aktivitas. Pegawai dilarang mencapai target kinerja dengan mengabaikan prinsip etika, Kode Etik, ketentuan internal, maupun regulasi otoritas dan perundang-undangan. Integritas merupakan nilai utama dalam menjalankan tugas.

3. Pertentangan Kepentingan [GRI 2-15]

Seluruh pegawai wajib menghindari situasi yang dapat menimbulkan benturan kepentingan antara kepentingan pribadi dan kepentingan Bank. Pertentangan kepentingan dapat memengaruhi objektivitas pegawai dan berpotensi menempatkan kepentingan pribadi di atas kepentingan Bank atau nasabah, sehingga harus diidentifikasi dan dihindari.

4. Hubungan Pegawai dengan Pihak Lain

Dalam berhubungan dengan pihak eksternal, pegawai diwajibkan menghindari kerja sama yang didasarkan pada hubungan keluarga atau pertemanan apabila hal tersebut berpotensi membuka peluang terjadinya penipuan dan kecurangan. Setiap tindakan yang dapat menimbulkan risiko kerugian bagi Bank harus dihindari.

5. Hubungan Antar Pegawai

7. Penanganan Informasi

Seluruh informasi yang dimiliki perusahaan merupakan hak milik (*proprietary right*) dan tidak boleh digunakan atau disebarluaskan tanpa izin. Setiap karyawan bertanggung jawab menjaga

By understanding the Code of Ethics, it is hoped that Bank employees will always be careful and thorough when dealing with matters that have the potential to cause risks of loss to the company, both material and non-material risks. The Bank's Code of Ethics applies to all levels of the organization, including members of the Board of Directors, members of the Board of Commissioners, and all Bank employees.

Key Points of The Code of Ethics

The main points of Bank Maspion's Code of Ethics cover the key principles that guide the behavior of all Bank employees in carrying out their professional activities, including the following:

1. Compliance

Every employee must comply with all internal Bank regulations, regulations issued by authorities, and applicable laws and regulations. This compliance is the basis for maintaining the Bank's operations in a healthy, safe, and governance-compliant manner.

2. Ethics

Every employee is expected to uphold professional ethical standards and maintain the Bank's reputation in all activities. Employees are prohibited from achieving performance targets by disregarding ethical principles, the Code of Ethics, internal regulations, or regulatory and legal requirements. Integrity is a core value in carrying out duties.

3. Conflict of Interest [GRI 2-15]

All employees must avoid situations that could give rise to a conflict of interest between their personal interests and those of the Bank. Conflicts of interest can affect an employee's objectivity and potentially place personal interests above those of the Bank or its customers, and must therefore be identified and avoided.

4. Employee Relations with Other Parties

When dealing with external parties, employees are required to avoid cooperation based on family or friendship relationships if this could potentially open up opportunities for fraud and cheating. Any action that could pose a risk of loss to the Bank must be avoided.

5. Relationships Between Employees

Relationships between employees must be built on a foundation of mutual trust, respect, and harmony. Every working relationship must be in line with the Bank's values and the applicable Code of Ethics.

6. Relationships with Stakeholders [GRI 2-29] [OJK E.4]

All forms of communication and activities with stakeholders must be conducted carefully, transparently, and in accordance with applicable regulations. Employees must ensure that such relationships do not give rise to potential violations of internal or external regulations.

7. Information Handling

All information owned by the company is proprietary and may not be used or disseminated without permission. Each employee is responsible for maintaining the confidentiality of Bank data,

kerahasiaan data Bank, nasabah, maupun informasi sensitif lainnya sesuai kebijakan dan peraturan yang berlaku.

8. Perlindungan dan Penggunaan Fasilitas

Bank menyediakan fasilitas dan peralatan kerja untuk mendukung efektivitas tugas pegawai. Penggunaan fasilitas tersebut wajib dilakukan secara bertanggung jawab, hanya untuk kepentingan pekerjaan, dan mengikuti prosedur yang telah ditetapkan.

9. Tata Cara Penanganan Nasabah

Bank berkomitmen memberikan pelayanan terbaik kepada seluruh nasabah tanpa diskriminasi terkait jumlah dana, jenis kelamin, usia, ras, agama, atau latar belakang lainnya. Pegawai wajib memberikan layanan yang profesional, sopan, ramah, dan wajar dalam setiap interaksi dengan nasabah.

10. Penyampaian Aspirasi

Bank menjamin kerahasiaan identitas pegawai serta informasi yang disampaikan melalui mekanisme *whistleblowing*. Pegawai diberikan perlindungan apabila melaporkan perilaku tidak etis, pelanggaran, atau dugaan *fraud*, sebagai bagian dari upaya memperkuat budaya integritas dalam organisasi.

customer data, and other sensitive information in accordance with applicable policies and regulations.

8. Protection and Use of Facilities

The Bank provides facilities and work equipment to support the effectiveness of employee tasks. The use of these facilities must be carried out responsibly, only for work purposes, and in accordance with established procedures.

9. Customer Service Procedures

The bank is committed to providing the best service to all customers without discrimination based on the amount of funds, gender, age, race, religion, or other background. Employees are required to provide professional, polite, friendly, and reasonable service in every interaction with customers.

10. Submission of Aspirations

The Bank guarantees the confidentiality of employee identities and information submitted through the whistleblowing mechanism. Employees are protected when reporting unethical behavior, violations, or suspected fraud, as part of efforts to strengthen a culture of integrity within the organization.

Lingkup Penerapan, Sosialisasi dan Upaya Penegakan Kode Etik

Implementasi kode etik merupakan tanggung jawab bersama bagi seluruh anggota Direksi, Dewan Komisaris, termasuk seluruh pegawai Bank. Setiap pejabat Bank wajib melakukan sosialisasi Kode etik Bank kepada pegawai di unit kerjanya. Penyimpangan, penyalahgunaan, kelalaian dan/atau pelanggaran Kode Etik dapat dikenakan sanksi baik secara perdata maupun pidana sesuai dengan prosedur dan ketentuan yang berlaku.

Scope of Application, Socialization, and Enforcement of The Code of Ethics

The implementation of the code of ethics is the shared responsibility of all members of the Board of Directors, Board of Commissioners, and all Bank employees. Every Bank official is required to disseminate the Bank's Code of Ethics to employees in their work units. Deviations, misuse, negligence and/or violations of the Code of Ethics are subject to civil and criminal sanctions in accordance with applicable procedures and regulations.

Whistleblowing

Whistleblowing [GRI 2-16, 2-25, 2-26]

PT. Bank Maspion Indonesia, Tbk ("Bank") berkomitmen untuk menerapkan Tata Kelola Perusahaan yang Baik (*Good Corporate Governance*) secara berintegritas dan transparan dalam rangka menjaga kepercayaan para pemangku kepentingan serta memberikan layanan terbaik kepada nasabah. Sebagai bagian dari komitmen tersebut, Bank menyediakan sarana pelaporan atas indikasi pelanggaran yang terjadi di lingkungan Bank melalui mekanisme *Whistleblowing*. Setiap laporan indikasi pelanggaran yang memenuhi kriteria *whistleblowing* akan ditindaklanjuti sesuai dengan ketentuan yang berlaku.

Sebagai tindak lanjut atas ketentuan Otoritas Jasa Keuangan mengenai Penerapan Strategi *Anti Fraud* bagi Lembaga Jasa Keuangan serta Kebijakan Strategi *Anti Fraud* Bank, khususnya sejalan dengan Pilar ke-2 Strategi *Anti Fraud* (deteksi), Bank telah menyusun dan menetapkan Standar Operasional Prosedur (SOP) *Whistleblowing* Nomor PD-60/SOP/1224. SOP ini menjadi pedoman dalam pengelolaan mekanisme pelaporan pelanggaran yang disediakan Bank bagi seluruh pihak yang berkepentingan, sehingga mekanisme *whistleblowing* dapat berfungsi secara efektif dalam mendukung penanganan pelanggaran, serta mengidentifikasi dan mendeteksi potensi *fraud* dalam kegiatan usaha Bank.

Sistem pelaporan pelanggaran adalah salah satu mekanisme penting dalam menjaga integritas dan akuntabilitas. Berikut aspek – aspek yang perlu diperhatikan:

1. Prinsip Sistem Pelaporan Pelanggaran
Bank berkomitmen untuk menerapkan prinsip Rahasia, Umum, Bertanggung Jawab dan Independen
2. Kerahasiaan
Kerahasiaan identitas Pelapor maupun kasus yang dilaporkan perlu dijaga dengan sebaik-baiknya.
3. Perlindungan Terhadap Pelapor
Fasilitas dan perlindungan yang bisa diberikan kepada Pelapor
4. Penghargaan dan Insentif Bagi Pelapor
Bank dapat memberikan penghargaan dan insentif bagi Pelapor yang nilainya dapat ditentukan berdasarkan kerugian yang dapat dihindari.
5. Sosialisasi *Whistleblowing*
Sosialisasikan ke seluruh Karyawan Bank dan pihak eksternal Bank dimaksudkan untuk mempergunakan sarana *whistleblowing* dalam hal pelaporan pelanggaran

Penyampaian Laporan

Melalui penyampaian pelaporan *Whistleblowing*, setiap individu dalam lingkungan Bank diberikan kesempatan untuk menyampaikan informasi terkait dugaan tindakan yang tidak sesuai dengan peraturan yang berlaku secara aman, rahasia, dan tanpa risiko pembalasan.

1. Media Pelaporan
Pelaporan dapat dilakukan dengan menggunakan media sebagai berikut:
 - a. Surat elektronik/email
Email yang digunakan adalah email khusus untuk menjaga kerahasiaan, email tersebut hanya dapat diakses/diterima oleh PIC *whistleblowing*, dengan alamat: whistleblowing@bankmaspion.co.id

PT. Bank Maspion Indonesia, Tbk ("Bank") is committed to implementing Good Corporate Governance with integrity and transparency in order to maintain the trust of stakeholders and provide the best service to customers. As part of this commitment, the Bank provides a means of reporting indications of violations occurring within the Bank through a Whistleblowing mechanism. Every report of an indication of a violation that meets the whistleblowing criteria will be followed up in accordance with applicable regulations.

As a follow-up to the Financial Services Authority's provisions on the Implementation of Anti-Fraud Strategies for Financial Services Institutions and Bank Anti-Fraud Strategy Policies, particularly in line with the 2nd Pillar of the Anti-Fraud Strategy (detection), the Bank has compiled and established Whistleblowing Standard Operating Procedures (SOP) Number PD-60/SOP/1224. This SOP serves as a guideline in managing the violation reporting mechanism provided by the Bank for all interested parties, so that the whistleblowing mechanism can function effectively in supporting the handling of violations, as well as identifying and detecting potential fraud in the Bank's business activities.

The violation reporting system is one of the important mechanisms in maintaining integrity and accountability. The following aspects need to be considered:

1. Principles of the Violation Reporting System
The bank is committed to implementing the principles of Confidentiality, Publicity, Responsibility, and Independence.
2. Confidentiality
The confidentiality of the identity of the reporter and the reported case must be maintained as best as possible.
3. Protection for Reporters
Facilities and protection that can be provided to the reporter
4. Rewards and Incentives for Reporters
Banks may provide rewards and incentives to whistleblowers, the value of which may be determined based on the losses that were avoided.
5. Whistleblowing Socialization
Socialize to all Bank Employees and external parties that the Bank intends to use whistleblowing facilities for reporting violations

Submitting Reports

Through the submission of whistleblowing reports, every individual within the Bank is given the opportunity to convey information related to alleged actions that do not comply with applicable regulations in a safe, confidential manner and without risk of retaliation.

1. Reporting Media

Seluruh laporan WB akan diadministrasikan oleh WB *Officer* sesuai dengan ketentuan yang berlaku.
 5. Dokumentasi
Seluruh dokumen pelaporan *Whistleblowing*, data pendukung, dan bukti hasil investigasi bersifat rahasia dan wajib diadministrasikan dengan baik. Akses terhadap dokumentasi laporan dan perkembangan kasus dibatasi hanya untuk PIC *Whistleblowing* dan *Whistleblowing Officer* tanpa mencantumkan identitas pelapor, sementara dokumentasi investigasi dan bukti pelanggaran disimpan oleh Internal Audit dan hanya dapat diakses oleh pihak yang berwenang serta ditempatkan di lokasi yang aman.
- b. *Written letter*
It can also be in the form of a written letter in a sealed envelope, addressed to:
PIC Whistleblowing / Chief Executive Officer / Head of Internal Audit Division
Pakuwon Tower, Tunjungan Plaza 6, 33rd Floor.
Jl. Embong Malang No. 21-31, Kedungdoro District, Tegalsari, Surabaya.
 - c. *Others*
Every employee who has received information, whether from within or outside the Bank, must submit a copy of the information and related documents to the Internal Audit Division after receiving the information.
 2. *Report information*
To simplify and expedite the follow-up process, reports must include at least the following information: Identity of the reporter (anonymous reports are permitted); Description of the violation; The reported party and other parties involved (if any) and their units; The work unit where the incident occurred and the time of the incident; Supporting documents and other evidence (if any).
 3. *Reports that Cannot be Followed Up*
The Bank appreciates every report submitted as an effort to improve and protect the Bank's assets and reputation. However, reports that do not meet the requirements and, after analysis, are proven to be unsupported by adequate evidence, submitted in bad faith, or intended for personal or group interests, will not be followed up.
 4. *Reporting Mechanism*
Whistleblowing reports submitted by internal or external parties via written letter or email will undergo an initial assessment by Internal Audit. Reports that meet the criteria and indicate a violation will proceed to the investigation stage with the approval of the Whistleblowing PIC and will be communicated to the Audit Committee and the reporter. Meanwhile, reports that do not meet the criteria will not be forwarded to the investigation stage and the reporter will be notified. All WB reports will be administered by the WB Officer in accordance with applicable regulations.
 5. *Documentation*
All whistleblowing reports, supporting data, and evidence from investigations are confidential and must be properly administered. Access to report documentation and case developments is restricted to the Whistleblowing PIC and Whistleblowing Officer without disclosing the identity of the reporter, while investigation documentation and evidence of violations are stored by Internal Audit and can only be accessed by authorized parties and placed in a secure location.

Penanganan Penyelesaian Laporan

Penanganan Investigasi dan penyelesaian laporan *whistleblowing* dilakukan seperti kasus *fraud* dan pelanggaran lainnya berpedoman pada Kebijakan Strategi *Anti Fraud*.

1. Investigasi

Laporan WB yang telah dilakukan *assessment* akan disampaikan kepada Direksi dan Anggota Direksi dapat melalui email maupun meeting serta proses persetujuan dilanjutkan investigasi melalui media *email* maupun *minute of meeting*. Investigasi oleh unit kerja yang independen yaitu Satuan Kerja Internal Audit. Mekanisme Investigasi telah dijelaskan pada Kebijakan Strategi *Anti Fraud*.

2. Pelaporan

Laporan administrasi akan dicatat oleh WB officer, berdasarkan informasi yang diberikan dari PIC WB (Bentuk Laporan administrasi WB pada Lampiran I). Untuk laporan *whistleblowing* yang berdampak signifikan akan segera dilaporkan kepada Regulator dengan persetujuan PIC WB. Laporan kepada Regulator akan dikirimkan melalui Unit *Anti Fraud* sebagaimana disebutkan dalam Kebijakan Strategi *Anti Fraud*.

3. Sanksi

Bank memberikan sanksi yang tegas kepada karyawan yang bersalah melalui mekanisme pemberian sanksi sesuai dengan ketentuan yang berlaku. Pemberian sanksi menjadi langkah penting dalam menegakkan disiplin serta memberikan efek jera bagi para pelanggar. Ketika sebuah laporan *Whistleblowing* terbukti benar melalui proses investigasi, Bank wajib memberikan sanksi yang sesuai dengan tingkat pelanggaran yang terjadi. Sanksi ini dapat berupa teguran, pemutusan hubungan kerja, denda, hingga tindakan hukum lebih lanjut jika pelanggaran tersebut menyangkut aspek pidana.

4. Penyelesaian Secara Hukum

Penyelesaian secara hukum atas laporan *Whistleblowing* menjadi opsi ketika temuan dari investigasi internal menunjukkan adanya pelanggaran yang melibatkan tindak pidana, seperti korupsi, penipuan, pencucian uang, atau tindakan kriminal perbankan lainnya. Dalam kasus-kasus seperti ini, Bank akan bekerja sama dengan aparat penegak hukum untuk memastikan bahwa pelanggaran tersebut ditangani sesuai dengan ketentuan perundang-undangan yang berlaku.

Hasil Penanganan Pengaduan

Selama tahun 2025, Perseroan menerima 1 (satu) laporan *Whistleblowing* yang disampaikan kepada PIC *Whistleblowing*. Laporan tersebut telah ditindaklanjuti dan diselesaikan sesuai dengan Standar Operasional Prosedur (SOP) *Whistleblowing* yang berlaku. Perseroan senantiasa berkomitmen untuk menjaga efektivitas mekanisme *Whistleblowing* sebagai bagian dari penerapan tata kelola perusahaan yang baik serta strategi pencegahan *fraud*.

Report Resolution Process

The handling of investigations and resolution of whistleblowing reports is carried out in the same manner as fraud and other violations, guided by the Anti-Fraud Strategy Policy.

1. Investigation

WB reports that have been assessed will be submitted to the Board of Directors and Board Members via email or meeting, and the approval process will be followed by an investigation via email or meeting minutes. Investigations will be conducted by an independent work unit, namely the Internal Audit Work Unit. The investigation mechanism is explained in the Anti-Fraud Strategy Policy.

2. Reporting

Administrative reports will be recorded by the WB officer based on information provided by the WB PIC (WB Administrative Report Form in Appendix I). For whistleblowing reports with significant impact, they will be immediately reported to the Regulator with the approval of the WB PIC. Reports to the Regulator will be submitted through the Anti-Fraud Unit as stated in the Anti-Fraud Strategy Policy.

3. Sanctions

The Bank imposes strict sanctions on employees who are found guilty through a sanctioning mechanism in accordance with applicable regulations. The imposition of sanctions is an important step in enforcing discipline and providing a deterrent effect for violators. When a whistleblowing report is proven to be true through an investigation process, the Bank is obliged to impose sanctions in accordance with the level of violation that has occurred. These sanctions can take the form of warnings, termination of employment, fines, and further legal action if the violation involves criminal aspects.

4. Legal Resolution

Legal resolution of whistleblowing reports is an option when findings from internal investigations indicate violations involving criminal acts, such as corruption, fraud, money laundering, or other banking crimes. In such cases, the Bank will cooperate with law enforcement agencies to ensure that violations are handled in accordance with applicable laws and regulations.

Results of Complaint Handling

During 2025, the Company received one (1) whistleblowing report submitted to the Whistleblowing PIC. The report was followed up and the whistleblowing case was resolved in accordance with the applicable Whistleblowing Standard Operating Procedures (SOP). The Company remains committed to maintaining the effectiveness of the whistleblowing mechanism as part of its implementation of good corporate governance and fraud prevention strategy.

Kebijakan Anti Korupsi

Anti-Corruption Policy [GRI 3-3, 205-2, 205-3]

Perseroan melaksanakan usahanya dengan berlandaskan pada prinsip-prinsip tata kelola yang baik. Oleh karena itu, Perseroan dengan tegas menetapkan *zero tolerance* terhadap segala bentuk praktik korupsi, balas jasa, suap dan/atau gratifikasi. Komitmen Perseroan akan hal ini dituangkan dalam SOP Anti Penyuapan dan Pengendalian Gratifikasi yang telah disahkan oleh Direktur Kepatuhan dan Legal melalui ketetapan PD-54/SOP/1224 tertanggal 18 Desember 2024. Adapun tujuan Pembentukan peraturan Anti Penyuapan dan Pengendalian Gratifikasi sebagai berikut:

1. Mewujudkan budaya anti korupsi dan value integrity di lingkungan Bank melalui pengendalian penyuapan dan gratifikasi;
2. Memberikan panduan dalam menangani atau mengendalikan segala bentuk penyuapan dan gratifikasi di Bank serta agar seluruh insan Bank dapat memiliki pemahaman yang sama terhadap pelaksanaan anti penyuapan dan pengendalian gratifikasi;
3. Mengendalikan praktik penyuapan dan gratifikasi yang selaras dengan kode etik Bank;
4. Mendukung terciptanya praktik *Good Corporate Governance* (GCG) dan mewujudkan *value integrity* insan Bank untuk tidak menerima dan/atau memberikan gratifikasi yang berhubungan dengan jabatannya dan berlawanan dengan kewajiban atau tugasnya.

Peraturan Anti Penyuapan dan Pengendalian Gratifikasi ini bersifat mengikat bagi seluruh karyawan, termasuk Dewan Komisaris dan Direksi serta bagi pihak ketiga seperti konsultan, *advisor*, *outsourcer*, *vendor*, atau pihak lain yang bekerja untuk/atas nama Bank. Selaras dengan itu, seluruh karyawan Bank juga diwajibkan untuk melaporkan penerimaan gratifikasi yang telah diklasifikasikan pada ketentuan Peraturan Anti Penyuapan dan Pengendalian Gratifikasi.

Dengan adanya kebijakan tertulis ini, Perseroan secara konkret mewujudkan hadirnya lingkungan kerja yang bersih dan terbebas dari segala bentuk korupsi, kolusi dan nepotisme (KKN). Perseroan akan terus menjaga komitmennya dalam mendukung serta mendorong pengelolaan bisnis dan operasional agar dapat berjalan secara akuntabel dan transparan.

Untuk pelatihan Anti Penyuapan dan Pengendalian Gratifikasi baru dilaksanakan pada awal tahun 2025 sebagai langkah proaktif dalam memperkuat kepatuhan terhadap prinsip transparansi dan integritas untuk seluruh karyawan Bank.

The Company conducts its business based on the principles of good governance. Therefore, the Company firmly establishes zero tolerance for all forms of corruption, kickbacks, bribery, and/or gratuities. The Company's commitment to this is outlined in the Anti-Bribery and Gratuity Control SOP, which has been approved by the Compliance and Legal Director Affairs through decree PD-54/SOP/1224 dated December 18, 2024. The objectives of the Anti-Bribery and Gratuity Control regulations are as follows:

- 1. To foster an anti-corruption culture and integrity values within the Bank through the control of bribery and gratuities;*
- 2. Providing guidance on handling or controlling all forms of bribery and gratuities at the Bank and ensuring that all Bank employees have a common understanding of anti-bribery and gratuity control measures;*
- 3. Controlling bribery and gratuity practices in accordance with the Bank's code of ethics;*
- 4. Supporting the creation of Good Corporate Governance (GCG) practices and realizing the value of integrity among Bank personnel to not accept and/or give gratuities related to their position and contrary to their obligations or duties.*

These Anti-Bribery and Gratuity Control Regulations are binding on all employees, including the Board of Commissioners and Directors, as well as third parties such as consultants, advisors, outsourced personnel, vendors, or other parties working for/on behalf of the Bank. In line with this, all Bank employees are also required to report any gratuities received that are classified under the provisions of the Anti-Bribery and Gratuity Control Regulations.

With this written policy, the Company concretely realizes a clean working environment that is free from all forms of corruption, collusion, and nepotism (KKN). The Company will continue to uphold its commitment to supporting and encouraging business and operational management to run in an accountable and transparent manner.

Anti-Bribery and Gratuity Control training will be implemented in early 2025 as a proactive step in strengthening compliance with the principles of transparency and integrity for all Bank employees.

Manajemen Risiko

Risk Management [OJK E.3]

Manajemen Risiko adalah suatu metode pendekatan terstruktur dalam mengelola ketidakpastian yang berkaitan dengan ancaman kerugian sebagai dampak dari rangkaian aktivitas atau kegiatan usaha yang dijalankan. Untuk meminimalkan risiko-risiko yang dihadapi, manajemen perlu memiliki keahlian dan kompetensi yang memadai sehingga segala risiko yang berpotensi muncul dapat diantisipasi sejak awal dan disiapkan penanggulangannya.

Dalam menerapkan manajemen risiko yang efektif harus disesuaikan dengan tujuan dan kebijakan usaha ukuran, dan kompleksitas kegiatan usaha. Penerapan sistem manajemen risiko Peraturan Otoritas Jasa Keuangan Nomor 18/POJK.03/2016 tentang Penerapan Manajemen Risiko bagi Bank Umum dan Surat Edaran No. 34/SEOJK.03/2016 tanggal 1 September 2016 tentang Penerapan Manajemen Risiko bagi Bank Umum. Tujuan Utama Bank melakukan penerapan manajemen risiko untuk meminimalisir dan memitigasi risiko yang akan ditimbulkan dari aktivitas bisnis bank agar tidak berdampak terhadap rentabilitas dan permodalan Bank baik pada masa sekarang maupun pada masa datang.

Bank Maspion melakukan pengelolaan risiko secara proaktif dan *prudent* pada setiap proses bisnis dan operasional untuk mencapai *profitability* yang optimal sesuai dengan *risk appetite* yang telah ditentukan. Bank Maspion berkomitmen dalam menjalankan manajemen risiko yang baik dengan memiliki kebijakan, proses, kompetensi, akuntabilitas, pelaporan dan teknologi pendukung yang bertujuan agar pengelolaan risiko Bank Maspion senantiasa berjalan efektif dan efisien.

Struktur dan Tata Kelola Risiko

Di dalam penerapan manajemen risiko, Bank menerapkan struktur organisasi dengan membentuk Satuan Kerja Manajemen Risiko (SKMR), Komite Manajemen Risiko dan Komite Pemantau Risiko. SKMR bertanggung jawab langsung kepada Direktur Credit & Risk. Sebagai pertahanan lini kedua, SKMR bekerja sama dengan satuan kerja lainnya melakukan identifikasi risiko dan mengkaji dan mengawasi semua risiko utama Bank sesuai dengan kebijakan dan prosedur manajemen risiko yang telah ditetapkan. Fungsi pengendalian risiko merupakan tanggung jawab SKMR.

Dalam implementasinya Bank membagi risiko yang melekat menjadi 8 (delapan) jenis risiko sesuai dengan ketentuan OJK, berdasarkan Peraturan OJK No. 18/POJK.03/2016 tanggal 22 Maret 2016 dan Surat Edaran OJK No. 34/SEOJK.03/2016 tanggal 1 September 2016. Masing-masing risiko dinilai dari 2 (dua) aspek yakni Risiko Inheren dan Kualitas Penerapan Manajemen Risiko (KPMR). Parameter-parameter penilaian pada Risiko Inheren sesuai dengan Surat Edaran OJK No. 14/SEOJK.03/2017 tanggal 17 Maret 2017 tentang Penilaian Tingkat Kesehatan Bank Umum (TKB).

Risk Management is a structured approach to managing uncertainty related to the threat of loss as a result of a series of activities or business operations. To minimize the risks faced, management needs to have adequate expertise and competence so that all potential risks can be anticipated from the outset and preparations made to address them.

Effective risk management must be tailored to the objectives and policies of the business, as well as the size and complexity of its activities. The implementation of the risk management system is based on Financial Services Authority Regulation No. 18/POJK.03/2016 concerning the Implementation of Risk Management for Commercial Banks and Circular Letter No. 34/SEOJK.03/2016 dated September 1, 2016 concerning the Implementation of Risk Management for Commercial Banks. The main objective of banks in implementing risk management is to minimize and mitigate the risks arising from their business activities so that they do not impact the bank's profitability and capital, both now and in the future.

Bank Maspion proactively and prudently manages risk in every business and operational process to achieve optimal profitability in accordance with its predetermined risk appetite. Bank Maspion is committed to implementing sound risk management by establishing policies, processes, competencies, accountability, reporting, and supporting technology aimed at ensuring that Bank Maspion's risk management is always effective and efficient.

Risk Structure and Governance

In implementing risk management, the Bank has established an organizational structure comprising a Risk Management Unit (RMU), a Risk Management Committee, and a Risk Oversight Committee. The RMU reports directly to the Director of Credit & Risk. As the second line of defense, the RMU works with other units to identify risks and assess and monitor all major risks to the Bank in accordance with established risk management policies and procedures. The risk control function is the responsibility of the RMU.

In its implementation, the Bank divides inherent risks into eight types of risks in accordance with OJK provisions, based on OJK Regulation No. 18/POJK.03/2016 dated March 22, 2016 and OJK Circular Letter No. 34/SEOJK.03/2016 dated September 1, 2016. Each risk is assessed from two aspects, namely Inherent Risk and Risk Management Implementation Quality (KPMR). The assessment parameters for Inherent Risk are in accordance with OJK Circular Letter No. 14/SEOJK.03/2017 dated March 17, 2017 concerning the Assessment of Commercial Bank Health Levels (TKB).

Secara sederhana, organisasi manajemen risiko Bank Maspion dapat dijelaskan sebagai berikut:

In simple terms, Bank Maspion's risk management organization can be described as follows:

Tata kelola risiko pada Bank merujuk pada ketentuan regulator yang tertuang dalam Peraturan Otoritas Jasa Keuangan dan Surat Otoritas Jasa Keuangan yang mana berdasarkan 4 Pilar yakni :

Risk management at the Bank refers to regulatory provisions set forth in Financial Services Authority Regulations and Financial Services Authority Letters, which are based on 4 Pillars, namely:

1. Pengawasan Aktif Dewan Komisaris dan Direksi

Direksi dan Dewan Komisaris memberikan arahan yang jelas, melakukan pengawasan dan mitigasi secara aktif serta mengembangkan budaya Manajemen Risiko. Selain itu Direksi dan Dewan Komisaris juga memastikan struktur organisasi yang memadai, menetapkan tugas dan tanggung jawab yang jelas pada masing-masing unit, serta memastikan kecukupan kuantitas dan kualitas Sumber Daya Manusia (SDM) untuk mendukung penerapan Manajemen Risiko secara efektif. Hal ini tercermin dengan persetujuan atas kebijakan manajemen risiko yang ditetapkan, melakukan pengawasan untuk memastikan kebijakan dan pelaksanaan penerapan manajemen risiko telah memadai dan efektif diterapkan serta melakukan evaluasi berkala terhadap penerapan manajemen risiko. Adapun dalam kaitannya dengan pelaksanaan penerapan risiko telah disusun kebijakan manajemen risiko beserta pengkiniannya, melakukan evaluasi terhadap pedoman atau kebijakan manajemen risiko dan kerangka pelaksanaan manajemen risiko, menyediakan sumber daya manusia yang cukup untuk mengisi struktur organisasi dalam rangka penerapan manajemen risiko serta memastikan fungsi pelaksanaan manajemen risiko *independent* terhadap bisnis unit dan unit kerja yang melaksanakan kegiatan transaksi.

2. Kecukupan Kebijakan Prosedur dan Penetapan Limit

Bank Maspion menerapkan manajemen risiko berdasarkan pada Kebijakan Manajemen Risiko, yang menjadi pedoman utama dalam pengelolaan risiko. Untuk area bisnis tertentu seperti kredit, *treasury*, dan operasional, Bank memiliki kebijakan dan prosedur khusus yang mengatur penetapan limit untuk setiap aktivitas pada tingkat portofolio maupun transaksi. Kebijakan dan prosedur ini

1. Active Supervision by the Board of Commissioners and Directors

The Board of Directors and Board of Commissioners provide clear direction, actively supervise and mitigate risks, and develop a Risk Management culture. In addition, the Board of Directors and Board of Commissioners also ensure an adequate organizational structure, establish clear duties and responsibilities for each unit, and ensure the adequacy of the quantity and quality of Human Resources (HR) to support the effective implementation of Risk Management. This is reflected in the approval of the established risk management policy, conducting supervision to ensure that the policy and implementation of risk management are adequate and effectively applied, and conducting periodic evaluations of the implementation of risk management. In relation to the implementation of risk management, risk management policies and their updates have been formulated, evaluations of risk management guidelines or policies and the risk management implementation framework have been conducted, sufficient human resources have been provided to fill the organizational structure for the implementation of risk management, and the independent function of risk management implementation has been ensured for business units and work units that carry out transaction activities.

2. Adequacy of Policies, Procedures, and Limit Setting

Bank Maspion implements risk management based on the Management Policy. Risk, which is the main guideline in risk management. For certain business areas such as credit, treasury, and operations, the Bank has specific policies and procedures that regulate the setting of limits for each activity at the portfolio and transaction levels. These policies and procedures are integrated

terintegrasi dalam setiap aspek operasional Bank, dievaluasi, dan diperbarui setiap tahun. Sesuai dengan SEOJK 34/SEOJK.03/2016 tentang Penerapan Manajemen Risiko bagi Bank Umum, kebijakan dan prosedur Bank didasarkan pada Strategi Manajemen Risiko dengan memperhatikan tingkat risiko yang akan diambil Bank (*Risk Appetite*) untuk mencapai visi dan misi yang telah ditetapkan melalui rencana bisnis dan rencana strategi Bank dan tingkat risiko yang secara maksimum dapat diterima Bank (*Risk Tolerance*). *Risk appetite* dan *Risk tolerance* selanjutnya dikinikan secara periodik dan disesuaikan dengan Rencana Bisnis Bank dan perkembangan eksternal yang dapat mempengaruhi kinerja Bank. Selanjutnya Bank telah menetapkan limit – limit untuk tiap jenis risiko, limit untuk setiap kegiatan usaha yang memiliki paparan risiko dan limit secara keseluruhan.

into every aspect of the Bank's operations, evaluated, and updated annually. In accordance with SEOJK 34/SEOJK.03/2016 concerning the Implementation of Risk Management for Commercial Banks, the Bank's policies and procedures are based on a Risk Management Strategy that takes into account the level of risk that the Bank is willing to take (Risk Appetite) to achieve its vision and mission as set out in the Bank's business plan and strategic plan, and the maximum level of risk that the Bank is willing to accept (Risk Tolerance). Risk appetite and risk tolerance are periodically reviewed and adjusted in line with the Bank's Business Plan and external developments that may affect the Bank's performance. Furthermore, the Bank has set limits for each type of risk, limits for each business activity that has risk exposure, and overall limits.

3. Kecukupan Proses Identifikasi, Pengukuran, Pemantauan dan Pengendalian Risiko serta Sistem informasi Manajemen Risiko

Proses Manajemen Risiko Bank Maspion dilaksanakan secara lengkap dan dilakukan terhadap seluruh faktor-faktor risiko yang bersifat material, yaitu yang berpengaruh secara signifikan terhadap kondisi keuangan Maspion. Proses Manajemen Risiko dilakukan dengan sebagai berikut:

a. Identifikasi Risiko

Identifikasi risiko dilakukan dengan menganalisis seluruh risiko dan karakteristik risiko yang terdapat pada setiap kegiatan usaha termasuk risiko dari produk dan jasa-jasa lainnya. Proses identifikasi risiko akan sangat menentukan cakupan dan skala tahapan pengukuran, pemantauan dan pengendalian risiko. Tujuan dilakukannya identifikasi risiko adalah untuk mengidentifikasi seluruh jenis risiko yang melekat pada setiap aktivitas fungsional yang berpotensi merugikan bank.

b. Pengukuran Risiko

Sistem pengukuran risiko digunakan untuk mengukur eksposur risiko dan sebagai acuan dalam melakukan pengendalian. Pengukuran risiko dilakukan secara berkala baik untuk produk, portofolio maupun seluruh aktivitas bisnis. Pendekatan dan metodologi pengukuran dapat bersifat kuantitatif, kualitatif atau merupakan kombinasi antara keduanya.

Stress test merupakan salah satu metode yang digunakan dalam pengukuran risiko. Bank Maspion melakukan *stress testing* dengan tujuan untuk mengestimasi potensi kerugian pada kondisi pasar yang tidak normal dan cenderung ekstrim, dengan menggunakan skenario tertentu guna melihat sensitivitas kinerja dan kondisi keuangan Bank Maspion terhadap perubahan faktor risiko dan mengidentifikasi pengaruh yang berdampak terhadap portofolio kredit, risiko akibat perubahan suku bunga dan nilai tukar (*stress test* risiko pasar), portofolio likuiditas, dan portofolio lainnya.

3. Adequacy of Risk Identification, Measurement, Monitoring, and Control Processes and Risk Management Information Systems

Bank Maspion's Risk Management Process is implemented comprehensively and applied to all material risk factors, i.e., those that have a significant impact on Maspion's financial condition. The Risk Management Process is carried out as follows:

a. Risk Identification

Risk identification is carried out by analyzing all risks and risk characteristics inherent in each business activity, including risks from products and other services. The risk identification process will greatly determine the scope and scale of the risk measurement, monitoring, and control stages. The purpose of risk identification is to identify all types of risks inherent in each functional activity that have the potential to cause losses to the bank.

b. Risk Measurement

The risk measurement system is used to measure risk exposure and as a reference for control. Risk measurement is carried out periodically for products, portfolios, and all business activities. The measurement approach and methodology can be quantitative, qualitative, or a combination of both.

Stress testing is one of the methods used in risk measurement. Bank Maspion conducts stress testing with the aim of estimating potential losses in abnormal and extreme market conditions, using specific scenarios to observe the sensitivity of Bank Maspion's performance and financial condition to changes in risk factors and to identify the impact on the credit portfolio, risks due to changes in interest rates and exchange rates (market risk stress test), liquidity portfolio, and other portfolios.

c. Pemantauan Risiko

Pemantauan risiko dilakukan dengan mengevaluasi eksposur risiko yang terdapat dalam seluruh portofolio produk dan kegiatan usaha terhadap kepatuhan limit internal yang telah ditetapkan serta efektivitas proses Manajemen Risiko. Pemantauan dilakukan oleh *Risk Taking Unit* dan SKMR bidang *Risk Reporting Unit*. Hasil pemantauan disajikan dalam laporan berkala yang disampaikan kepada Manajemen dalam rangka mitigasi risiko dan tindakan yang diperlukan.

Pemantauan dan pelaporan risiko yang bersifat material atau yang berdampak kepada kondisi permodalan dapat didasarkan atas penilaian potensi risiko dengan menggunakan *historical trend*, perbandingan portofolio pada periode yang berbeda, posisi parameter risiko terhadap limit.

d. Pengendalian Risiko

Pengendalian risiko bertujuan untuk mengelola risiko tertentu yang dapat membahayakan kelangsungan usaha Bank Maspion. Kerangka kerja proses pengendalian risiko didasarkan atas suatu hasil evaluasi eksposur risiko yang terdapat pada seluruh portofolio produk dan aktivitas fungsional. Prosedur dan metodologi pengendalian risiko ditetapkan dengan memperhatikan kompleksitas usaha, kondisi implementasi dan kemampuan sistem Manajemen Risiko internal serta ketentuan yang berlaku.

e. Sistem Informasi Manajemen Risiko

Sistem informasi manajemen risiko yang cepat, tepat dan akurat berperan penting dalam pengambilan keputusan bisnis dan pengembangan strategi usaha. Bank mengadakan dan membangun sistem informasi manajemen secara mandiri.

4. Pengendalian Internal

Bank Maspion menerapkan Sistem Pengendalian Internal untuk fungsi Manajemen Risiko melalui kebijakan *Three Lines Model*, dimana dalam pelaksanaannya merupakan tanggung jawab bersama baik lini pertama, lini kedua maupun lini ketiga. Satuan Kerja Audit Intern, sebagai lini ketiga, melaksanakan kegiatan *assurance* dan *consulting* untuk mengevaluasi kecukupan sistem pengendalian internal, manajemen risiko, dan proses tata kelola Bank, sesuai dengan peraturan perundang-undangan yang berlaku serta kebijakan Bank. Terselenggaranya pengendalian internal Bank yang handal dan efektif merupakan bagian penting dalam manajemen risiko Bank dan menjadi dasar bagi kegiatan usaha Bank yang sehat.

Budaya Risiko

Budaya manajemen risiko yang kuat tercipta apabila seluruh karyawan mengetahui dan mengerti risiko-risiko yang dihadapi, serta menjalankan proses manajemen risiko secara memadai dalam menjalankan pekerjaan mereka. Dalam hal ini, Bank Maspion berkomitmen membangun suatu kombinasi nilai-nilai yang unik, yakni kepercayaan, pelaksanaan, dan pengawasan Manajemen,

c. Risk Monitoring

Risk monitoring is carried out by evaluating the risk exposure in all product portfolios and business activities against the established internal limits and the effectiveness of the Risk Management process. Monitoring is carried out by the Risk Taking Unit and SKMR in the Risk Reporting Unit. The monitoring results are presented in a periodic report submitted to Management for risk mitigation and necessary actions.

Monitoring and reporting of material risks or those that have an impact on capital conditions can be based on an assessment of potential risks using historical trends, portfolio comparisons over different periods, and the position of risk parameters against limits.

d. Risk Control

Risk control aims to manage certain risks that could jeopardize the continuity of Bank Maspion's business. The risk control process framework is based on an evaluation of risk exposure across the entire portfolio of products and functional activities. Risk control procedures and methodologies are established with consideration given to the complexity of the business, implementation conditions, the capabilities of the internal Risk Management system, and applicable regulations.

e. Risk Management Information System

A fast, accurate, and precise risk management information system plays an important role in business decision-making and business strategy development. The Bank independently establishes and develops its management information system.

4. Internal Control

Bank Maspion implements an Internal Control System for Risk Management functions through the Three Lines Model policy, which is the shared responsibility of the first, second, and third lines. The Internal Audit Unit, as the third line, carries out assurance and consulting activities to evaluate the adequacy of the Bank's internal control system, risk management, and governance processes, in accordance with applicable laws and regulations and Bank policies. The implementation of reliable and effective internal controls is an important part of the Bank's risk management and forms the basis for the Bank's sound business activities.

Risk Culture

A strong risk management culture is created when all employees are aware of and understand the risks faced, and carry out adequate risk management processes in performing their jobs. In this regard, Bank Maspion is committed to building a unique combination of values, namely trust, implementation, and management supervision, to ensure that all Maspion personnel carry out business and operational

guna memastikan bahwa seluruh jajaran Maspion telah menjalankan aktivitas bisnis dan operasional berdasarkan prinsip kehati-hatian (*prudent*) dan praktik terbaik (*best practice*). Budaya risiko ditetapkan melalui:

- Pengarahan dan pengawasan dari Dewan Komisaris dan Direksi
- Pengenalan manajemen risiko sebagai bagian yang utuh dari pelaksanaan bisnis. Kepatuhan terhadap semua kebijakan, prosedur, hukum, dan peraturan yang berlaku

Budaya dan kesadaran risiko pada semua tingkatan organisasi harus dibangun melalui:

- Komunikasi akan pentingnya mengelola risiko.
- Komunikasi atas tingkat toleransi risiko dan profil risiko yang diharapkan melalui berbagai batasan dan manajemen portofolio.
- Memberi kewenangan kepada karyawan untuk menangani risiko dengan prinsip kehati-hatian (*prudent*) dalam kegiatan mereka, termasuk menyiapkan mitigasi risiko yang memadai.
- Memantau efektivitas penerapan manajemen risiko di seluruh area.

activities based on the principles of prudence and best practices. Risk culture is established through:

- *Direction and supervision from the Board of Commissioners and Directors*
- *The introduction of risk management as an integral part of business implementation. Compliance with all applicable policies, procedures, laws, and regulations*

Risk culture and awareness at all levels of the organization must be built through:

- *Communication of the importance of risk management.*
- *Communication of the level of risk tolerance and expected risk profile through various limits and portfolio management.*
- *Empowering employees to handle risks with prudence in their activities, including preparing adequate risk mitigation measures.*
- *Monitoring the effectiveness of risk management implementation across all areas.*

Pengungkapan Rencana Aksi Pemulihan (*Recovery Plan*)

Disclosure of Recovery Plan

Rencana Aksi Pemulihan merupakan suatu dokumen strategis yang disusun sebagai panduan komprehensif bagi Bank ketika menghadapi kondisi kesulitan keuangan, baik yang disebabkan oleh tekanan internal maupun faktor eksternal. Dokumen ini berfungsi sebagai pedoman yang sistematis dan terstruktur dalam mengidentifikasi permasalahan, menilai tingkat dampak terhadap kondisi keuangan dan operasional Bank, serta menentukan langkah-langkah yang perlu segera diambil untuk menjaga kelangsungan usaha.

Di dalam Rencana Aksi Pemulihan juga tercantum berbagai opsi dan skenario pemulihan yang dapat dipilih dan disesuaikan dengan tingkat keparahan permasalahan yang dihadapi. Opsi-opsi tersebut mencakup langkah perbaikan permodalan, peningkatan likuiditas, efisiensi operasional, restrukturisasi aset dan kewajiban, hingga strategi komunikasi kepada para pemangku kepentingan. Dengan adanya rencana ini, Bank diharapkan dapat merespons kondisi krisis secara cepat, tepat, dan terukur, sehingga mampu memulihkan kondisi keuangan serta menjaga stabilitas dan kepercayaan terhadap institusi.

Bank Maspion telah melakukan pengkinian Rencana Aksi Pemulihan (*Recovery Plan*) untuk agar sesuai dengan kondisi terkini Bank, dengan pengkinian tersebut dokumen Rencana Aksi Pemulihan dapat efektif mencegah, memulihkan maupun memperbaiki kondisi keuangan serta kelangsungan usaha Bank, sebagaimana diatur dalam Peraturan OJK No. 5 tahun 2024 tentang Penetapan Status Pengawasan dan Penanganan Permasalahan Bank Umum. Kaji ulang Rencana Aksi Pemulihan mencakup hal-hal berikut ini:

The Recovery Action Plan is a strategic document prepared as a comprehensive guide for the Bank when facing financial difficulties, whether caused by internal pressures or external factors. This document serves as a systematic and structured guideline for identifying problems, assessing the level of impact on the Bank's financial and operational conditions, and determining the steps that need to be taken immediately to maintain business continuity.

The Recovery Action Plan also includes various recovery options and scenarios that can be selected and adjusted according to the severity of the problems faced. These options include capital improvement measures, liquidity enhancement, operational efficiency, asset and liability restructuring, and communication strategies for stakeholders. With this plan in place, the Bank is expected to respond to crisis conditions quickly, appropriately, and measurably, thereby restoring financial conditions and maintaining stability and confidence in the institution.

Bank Maspion has updated its Recovery Plan to reflect the Bank's current condition. With this update, the Recovery Plan document can effectively prevent, recover, and improve the Bank's financial condition and business continuity, as stipulated in OJK Regulation No. 5 of 2024 concerning the Determination of Supervision Status and Handling of Commercial Bank Problems. The review of the Recovery Action Plan covers the following:

1) Gambaran Umum Bank

Bank Maspion telah melakukan penilaian terhadap kondisi Bank, lini bisnis maupun jaringan kantor. Selain itu, Bank Maspion juga telah melakukan analisis skenario secara menyeluruh untuk menilai ketahanan dan potensi kerentanan terhadap beberapa indikator yang ditentukan oleh OJK (yaitu permodalan, likuiditas, kualitas aset dan rentabilitas). Hasil analisis skenario menunjukkan bahwa Bank Maspion memiliki posisi permodalan yang kuat (*resilient*), sehingga kecil kemungkinannya untuk mengancam kelangsungan usaha Bank Maspion.

2) Opsi Pemulihan

Bank telah mengidentifikasi daftar Opsi Pemulihan untuk masing-masing fase dan menilai setiap opsi-opsi tersebut dalam hal kelayakan, kredibilitas, jangka waktu, dan efektivitas. Opsi pemulihan ini mencakup indikator keuangan utama, yaitu permodalan, likuiditas, kualitas aset dan rentabilitas dan akan menjadi dasar Rencana Aksi Pemulihan dan strategi Bank Maspion dalam kondisi stres.

3) Pengungkapan Rencana Aksi Pemulihan

Karena sifat rahasia dari beberapa bagian tertentu dari Rencana Aksi Pemulihan (misalnya opsi dan strategi pemulihan yang terperinci), maka pengungkapan Rencana Aksi Pemulihan hanya berdasarkan yang perlu diketahui (*need-to-know basis*), dimana diberlakukan tingkat pengungkapan yang berbeda untuk berbagai pihak. Bank Maspion melakukan pengungkapan Rencana Aksi Pemulihan kepada pihak internal dan pihak eksternal sesuai regulasi yang berlaku.

Pihak Internal

Pihak internal merupakan organ-organ internal Bank yang, sesuai dengan kewenangan, tanggung jawab, dan fungsinya masing-masing, memiliki peran strategis dalam pelaksanaan Rencana Aksi Pemulihan. Keterlibatan organ internal ini mencakup fungsi pengambilan keputusan, pengawasan, pelaksanaan kebijakan, serta pengendalian dan mitigasi risiko yang timbul dalam kondisi tekanan keuangan. Sehubungan dengan hal tersebut, setiap organ internal Bank diberikan penjelasan dan pemahaman yang memadai mengenai tugas, fungsi, serta tanggung jawabnya dalam skenario pemulihan, termasuk mekanisme koordinasi, jalur pelaporan, dan langkah-langkah yang harus diambil apabila Bank menghadapi permasalahan keuangan yang berpotensi mempengaruhi kelangsungan usaha. Penyampaian penjelasan tersebut bertujuan untuk memastikan kesiapan organisasi, keselarasan tindakan, serta efektivitas implementasi Rencana Aksi Pemulihan secara tepat waktu, terstruktur, dan sesuai dengan ketentuan yang berlaku, guna menjaga stabilitas dan keberlanjutan operasional Bank.

1) General Overview of the Bank

Bank Maspion has assessed the Bank's condition, business lines, and office network. In addition, Bank Maspion has also conducted a comprehensive scenario analysis to assess resilience and potential vulnerabilities to several indicators determined by the OJK (namely capital, liquidity, asset quality, and profitability). The results of the scenario analysis show that Bank Maspion has a strong (resilient) capital position, making it unlikely to threaten the Bank's business continuity.

2) Recovery Options

The Bank has identified a list of Recovery Options for each phase and assessed each option in terms of feasibility, credibility, time frame, and effectiveness. These recovery options cover key financial indicators, namely capital, liquidity, asset quality, and profitability, and will form the basis of Bank Maspion's Recovery Action Plan and strategy in times of stress.

3) Disclosure of the Recovery Action Plan

Due to the confidential nature of certain parts of the Recovery Action Plan (e.g., detailed recovery options and strategies), disclosure of the Recovery Action Plan is based on a need-to-know basis, with different levels of disclosure applied to different parties. Bank Maspion discloses the Recovery Action Plan to internal and external parties in accordance with applicable regulations.

Internal Parties

Internal parties are the Bank's internal organs which, in accordance with their respective authorities, responsibilities, and functions, play a strategic role in the implementation of the Recovery Action Plan. The involvement of these internal organs includes decision-making, supervision, policy implementation, as well as control and mitigation of risks arising in conditions of financial stress. In this regard, each internal organ of the Bank is provided with adequate explanations and understanding of its duties, functions, and responsibilities in a recovery scenario, including coordination mechanisms, reporting channels, and steps to be taken if the Bank faces financial problems that could potentially affect its business continuity. The purpose of providing these explanations is to ensure organizational readiness, alignment of actions, and effective implementation of the Recovery Action Plan in a timely, structured manner and in accordance with applicable regulations, in order to maintain the stability and sustainability of the Bank's operations.

Pihak Eksternal

Dalam rangka pengungkapan Rencana Aksi Pemulihan, *Corporate Secretary* melaksanakan koordinasi secara intensif dengan berbagai pihak eksternal Bank guna memastikan proses komunikasi berjalan secara terarah dan terkontrol. Pengungkapan informasi dilakukan secara hati-hati dengan tetap memperhatikan prinsip kehati-hatian (*prudential principle*), kecukupan, akurasi, serta keterbukaan informasi yang memadai sesuai dengan ketentuan yang berlaku. Adapun pihak eksternal yang dimaksud dalam konteks ini meliputi investor, mitra bisnis, dan nasabah. Penyampaian informasi kepada pihak-pihak tersebut dilakukan secara proporsional, transparan, dan bertanggung jawab, dengan mempertimbangkan dampak strategis serta menjaga kepercayaan dan reputasi Bank.

External Parties

In order to disclose the Recovery Action Plan, the Corporate Secretary coordinates intensively with various external parties of the Bank to ensure that the communication process runs in a focused and controlled manner. Information disclosure is carried out carefully while still paying attention to the principles of prudence, adequacy, accuracy, and adequate disclosure of information in accordance with applicable regulations. The external parties referred to in this context include investors, business partners, and customers. Information is conveyed to these parties in a proportional, transparent, and responsible manner, taking into account the strategic impact and maintaining the Bank's trust and reputation.

Pengungkapan Permodalan

Capital Disclosure

Dalam pengelolaan struktur modal, Bank Maspion menjalankan kebijakan permodalan Bank yang meliputi pemenuhan *regulatory capital requirement* secara *prudent*, diversifikasi sumber permodalan untuk mengantisipasi rencana strategis jangka panjang, dan pengalokasian modal secara efisien pada segmen bisnis yang memiliki potensi untuk memberikan profil *risk return* yang optimal dalam rangka memenuhi ekspektasi *stakeholder* termasuk investor dan regulator. Disamping itu, Bank senantiasa memastikan kecukupan modal untuk dapat memenuhi risiko kredit, risiko pasar dan risiko operasional dalam rangka mendukung ekspansi bisnis dalam situasi normal maupun antisipasi dalam kondisi *stress*.

In managing its capital structure, Bank Maspion implements a capital policy which includes prudent fulfillment of regulatory capital requirements, diversification of capital sources to anticipate long-term strategic plans, and efficient allocation of capital to business segments that have the potential to provide an optimal risk-return profile in order to meet the expectations of stakeholders, including investors and regulators. In addition, the Bank always ensures sufficient capital to cover credit risk, market risk, and operational risk in order to support business expansion in normal situations and anticipate stress conditions.

Per akhir Desember 2025, rasio kecukupan modal (CAR) Bank tercatat sebesar 45,76% yang terdiri modal inti utama (*common equity tier 1*) sebesar Rp6.182.266 juta atau 44,58% dari total ATMR. Persentase modal inti utama tersebut mencapai 97,42% dari total modal. Modal Bank selanjutnya adalah modal pelengkap (*tier 2*) sebesar Rp163.594 juta atau 1,18% dari total ATMR. Persentase modal pelengkap (*tier 2*) tersebut mencapai 2,58% dari total modal. Nilai ATMR per akhir Desember 2025 adalah sebesar Rp. 13.869.014 juta yang terdiri atas ATMR risiko kredit sebesar Rp. 13.087.575 juta, ATMR Risiko Pasar Rp52.994 juta, dan ATMR untuk risiko operasional sebesar Rp728.445 juta.

As of the end of December 2025, the Bank's capital adequacy ratio (CAR) was recorded at 45.76%, consisting of common equity tier 1 capital of IDR 6,182,266 million or 44.58% of total ATMR. The percentage of common equity tier 1 capital reached 97.42% of total capital. The Bank's next capital is supplementary capital (tier 2) amounting to Rp163,594 million or 1.18% of total ATMR. The percentage of supplementary capital (tier 2) reached 2.58% of total capital. The ATMR value at the end of December 2025 is Rp13,869,014 million, consisting of credit risk ATMR of Rp13,087,575 million, market risk ATMR of Rp52,994 million, and operational risk ATMR of Rp728,445 million.

Bank telah menerapkan *Internal Capital Adequacy Assessment Process* (ICAAP) yaitu proses untuk mengevaluasi kecukupan modal yang sesuai dengan profil risiko agar mengetahui kekuatan permodalan bank dalam kondisi *stress* sekaligus mengantisipasi kerugian yang mungkin timbul di masa mendatang dari risiko kredit, risiko pasar, dan risiko operasional yang belum sepenuhnya diperhitungkan dalam ATMR. Per posisi Desember 2025, Bank menilai sendiri (*self-assessment*) profil risiko pada peringkat 2 (dua) atau rendah-moderat (*Low to Moderate*) dengan rasio Kewajiban Penyediaan Modal Minimum (KPMM) adalah 21,86% untuk Bank secara individu dan 14,50%. Rasio ini telah sesuai dengan ketentuan yang ditetapkan oleh Otoritas Jasa Keuangan yaitu paling rendah 9% sampai dengan kurang dari 10% dari Aset Tertimbang Menurut Risiko (ATMR) untuk Bank dengan profil risiko peringkat 2 (dua).

The Bank has implemented the Internal Capital Adequacy Assessment Process (ICAAP), which is a process to evaluate capital adequacy in accordance with risk profiles in order to determine the strength of the Bank's capital in stressful conditions and to anticipate future losses that may arise from credit risk, market risk, and operational risk that have not been fully taken into account in the ATMR. As of December 2025, the Bank self-assessed its risk profile at a rating of 2 (two) or low to moderate, with a Minimum Capital Adequacy Ratio (KPMM) of 21.86% for the Bank individually and 14.50%. This ratio is in accordance with the provisions set by the Financial Services Authority, which is a minimum of 9% to less than 10% of Risk-Weighted Assets (RWA) for banks with a risk profile rating of 2 (two).

OJK dan Bank Indonesia telah mengeluarkan peraturan permodalan yang sejalan dengan Basel III yang efektif diterapkan mulai tanggal 1 Januari 2016. Bank diharapkan untuk menyediakan tambahan 3 (tiga) *capital buffer* secara bertahap dalam bentuk modal inti utama (CET1) sebagai berikut:

- *Capital Conservation Buffer* sebesar 2,50% dari Aktiva Tertimbang Menurut Risiko (ATMR)
- *Countercyclical Buffer* sebesar 0,00% dari ATMR
- *Capital Surcharge* untuk Bank Sistemik sebesar 2,50% dari ATMR

Per posisi Desember 2025, tingkat permodalan Bank tetap memenuhi ketentuan 3 (tiga) *capital buffer* tersebut di atas. Hasil penilaian sendiri atas rasio permodalan Bank selama 2025 dinilai baik, dimana rasio permodalan berada di atas persyaratan yang ditentukan oleh regulator dan cukup untuk mendukung pertumbuhan bisnis.

Pengungkapan komposisi permodalan Bank per 31 Desember 2025 dalam Tabel 5.

The OJK and Bank Indonesia have issued capital regulations in line with Basel III, which took effect on January 1, 2016. Banks are expected to provide an additional 3 (three) capital buffers in the form of Common Equity Tier 1 (CET1) capital as follows:

- *Capital Conservation Buffer of 2.50% of Risk-Weighted Assets (RWA)*
- *Countercyclical Buffer of 0.00% of ATMR*
- *Capital Surcharge for Systemic Banks of 2.50% of RWA*

As of December 2025, the Bank's capital adequacy ratio continues to meet the requirements of the three capital buffers mentioned above. The Bank's own assessment of its capital adequacy ratio for 2025 is considered good, with the capital adequacy ratio above the requirements set by the regulator and sufficient to support business growth.

Disclosure of the Bank's capital composition as of December 31, 2025 is presented in Table 5.

Pengungkapan Eksposur dan Penerapan Manajemen Risiko

Disclosure of Exposure and Application of Risk Management

RISIKO KREDIT

Risiko kredit merupakan risiko kerugian akibat kegagalan debitur dan/atau pihak lain dalam memenuhi kewajibannya pada saat jatuh tempo. Termasuk dalam risiko kredit/pembiayaan yaitu risiko akibat kegagalan debitur, risiko akibat terkonsentrasinya penyediaan dana (risiko konsentrasi kredit/pembiayaan), risiko akibat kegagalan pihak lawan (*counterparty credit risk*), risiko akibat kegagalan *settlement* (*settlement risk*) dan risiko akibat *country risk*. Tujuan dari pengelolaan risiko kredit adalah untuk mengendalikan dan mengelola eksposur risiko kredit dalam batasan yang dapat diterima, sekaligus memaksimalkan *risk-adjusted return*.

Bank menerapkan *four eyes principles* untuk uji kelayakan sebelum memutuskan pemberian kredit, seperti misalnya terlebih dahulu memastikan Batas Minimum Pemberian Kredit (BMPK), kecukupan performa finansial dan/atau kualitas jaminan, fasilitas kredit dan persyaratan dokumentasinya sehingga keputusan pemberian kredit yang dibuat dapat dimaksimalkan. Di saat bersamaan, Bank juga memantau pertumbuhan dan kualitas portofolio kredit secara berkala yang memungkinkan untuk melakukan tindakan pencegahan secara tepat waktu apabila terjadi penurunan kualitas kredit. Pengawasan dilakukan oleh SKMR dengan memberikan indikator peringatan dini jika akan terjadi pelanggaran atas pelaksanaan kredit dan segera melaporkan kepada Komite Kredit dan Komite Manajemen Risiko.

CREDIT RISK

Credit risk is the risk of loss due to the failure of debtors and/or other parties to fulfill their obligations when due. Credit/financing risk includes risk arising from borrower default, risk arising from concentration of funding (credit/financing concentration risk), risk arising from counterparty default (counterparty credit risk), risk arising from settlement failure (settlement risk), and risk arising from country risk. The objective of credit risk management is to control and manage credit risk exposure within acceptable limits, while maximizing risk-adjusted return.

The Bank applies the four eyes principle to assess eligibility before deciding on credit granting, such as first ensuring the Minimum Credit Limit (BMPK), adequate financial performance and/or collateral quality, credit facilities and documentation requirements so that credit granting decisions can be maximized. At the same time, the Bank also monitors the growth and quality of its credit portfolio on a regular basis, enabling it to take timely preventive action in the event of a decline in credit quality. Supervision is carried out by SKMR by providing early warning indicators in the event of a credit violation and immediately reporting to the Credit Committee and Risk Management Committee.

Selain SKMR, unit atau perangkat organisasi lain yang terlibat dalam pengelolaan risiko kredit di lini masing-masing, yaitu:

- Divisi Bisnis merupakan unit yang melakukan aktivitas penyaluran kredit termasuk analisis terhadap kelayakan usaha nasabah;
- Divisi *Credit Review* merupakan unit yang melakukan analisis terhadap pengajuan kredit dari Divisi Bisnis serta memberikan opini independen kepada Komite Kredit mengenai kelayakan usaha nasabah;
- Komite Kredit merupakan pemutus atas usulan kredit yang diajukan oleh unit bisnis, keputusan ditetapkan dalam forum rapat Komite Kredit dengan memperhatikan opini dari *Credit Review*, *Legal Corporate*, *Appraisal* dan *Admin Kredit*. Adapun kredit kepada pihak terkait harus mendapatkan persetujuan dari Dewan Komisaris sebagai bagian dari fungsi pengawasan;
- *Credit Quality Assurance* (CQA) berperan dalam memastikan kualitas penerapan proses perkreditan melalui kegiatan *independent review* atas analisis, persetujuan, dan pemantauan kredit, guna memastikan kesesuaian dengan kebijakan internal, ketentuan regulator, serta prinsip kehati-hatian. CQA juga melakukan evaluasi kualitas portofolio kredit dan memberikan rekomendasi perbaikan untuk memitigasi risiko kredit secara berkelanjutan.
- Satuan Kerja Kepatuhan merupakan unit independen yang berperan dalam memastikan bahwa seluruh aktivitas perkreditan dilaksanakan sesuai dengan peraturan perundang-undangan yang berlaku, ketentuan regulator, serta kebijakan dan prosedur internal Bank. Fungsi Kepatuhan melakukan pemantauan, evaluasi, dan pemberian rekomendasi guna memitigasi risiko kepatuhan yang timbul dari kegiatan perkreditan.
- Divisi *Special Asset Management* (SAM) merupakan unit yang melakukan pemantauan intensif terhadap portofolio kredit yang mulai menunjukkan penurunan kualitas kredit, bertanggung jawab dalam penyelesaian proses pengambilalihan agunan maupun litigasi;

Langkah-langkah yang diambil Bank untuk pengelolaan risiko kredit melalui :

- Penetapan dan penyempurnaan kebijakan serta prosedur perkreditan yang mencakup proses pengajuan dan persetujuan kredit, pemantauan eksposur, pengelolaan kredit bermasalah, serta manajemen portofolio kredit. Kebijakan dan prosedur tersebut ditinjau dan disempurnakan secara berkala sejalan dengan perkembangan usaha Bank dan perubahan ketentuan otoritas.
- Penetapan target pasar dan sektor prioritas, khususnya pada segmen Korporasi dan Komersial, sebagaimana tertuang dalam *Loan Portfolio Guideline*, guna menjaga kualitas dan keseimbangan portofolio kredit. Selain itu, Bank telah mulai menerapkan *Credit Risk Rating* sejak tahap awal sebagai pertimbangan tambahan dalam pengambilan keputusan kredit.
- Penerapan pemenuhan persyaratan pengajuan kredit secara ketat, termasuk pelaksanaan prescreening, pengikatan kredit dan agunan, guna meminimalkan potensi risiko kredit sejak awal.

In addition to SKMR, other organizational units or devices involved in credit risk management in their respective lines are:

- *The Business Division is the unit that carries out credit distribution activities, including analyzing the feasibility of customer businesses;*
- *The Credit Review Division is the unit that analyzes credit applications from the Business Division and provides independent opinions to the Credit Committee regarding the feasibility of customer businesses;*
- *The Credit Committee is the decision maker on credit proposals submitted by business units. Decisions are made in Credit Committee meetings, taking into account opinions from Credit Review, Legal Corporate, Appraisal, and Credit Admin. Credit to related parties must be approved by the Board of Commissioners as part of its supervisory function.*
- *Credit Quality Assurance (CQA) plays a role in ensuring the quality of credit application processes through independent review of credit analysis, approval, and monitoring to ensure compliance with internal policies, regulatory requirements, and prudential principles. CQA also evaluates the quality of the credit portfolio and provides recommendations for improvements to mitigate credit risk on an ongoing basis.*
- *The Compliance Unit is an independent unit that plays a role in ensuring that all credit activities are carried out in accordance with applicable laws and regulations, regulatory requirements, and the Bank's internal policies and procedures. The Compliance function monitors, evaluates, and provides recommendations to mitigate compliance risks arising from credit activities.*
- *The Special Asset Management (SAM) Division is a unit that conducts intensive monitoring of credit portfolios that are beginning to show a decline in credit quality, and is responsible for completing the collateral takeover and litigation processes.*

The steps taken by the Bank to manage credit risk are through:

- *Establishment and refinement of credit policies and procedures covering the credit application and approval process, exposure monitoring, non-performing loan management, and credit portfolio management. These policies and procedures are reviewed and refined periodically in line with the Bank's business development and changes in regulatory requirements.*
- *Setting market targets and priority sectors, particularly in the Corporate and Commercial segments, as outlined in the Loan Portfolio Guideline, in order to maintain the quality and balance of the credit portfolio. In addition, the Bank has begun to apply Credit Risk Rating from an early stage as an additional consideration in credit decision-making.*
- *Strict implementation of credit application requirements, including prescreening, credit binding, and collateral, to minimize potential credit risk from the outset.*

- Pemantauan kualitas kredit debitur secara berkala untuk memastikan kualitas kredit tetap terjaga. Dalam rangka mencegah dan meminimalkan kredit bermasalah, Bank melakukan pemantauan intensif secara dini melalui *Early Alert Monitoring*.
- Pengelolaan kredit bermasalah secara terstruktur dan berkesinambungan, melalui penagihan intensif kepada debitur yang gagal memenuhi kewajibannya, pembentukan pencadangan yang memadai, upaya penyelamatan kredit, serta penyelesaian kredit bermasalah melalui jalur hukum dan/atau pengambilalihan agunan sesuai ketentuan yang berlaku.
- Pemantauan dan evaluasi atas penyebaran portofolio kredit, termasuk pemantauan portofolio secara keseluruhan, eksposur terhadap sektor ekonomi tertentu, serta debitur besar (*large exposure*). Setiap perkembangan yang berpotensi mempengaruhi kualitas portofolio kredit dipantau secara berkelanjutan guna memungkinkan dilakukannya tindakan pencegahan dan mitigasi risiko ke depan.

TAGIHAN YANG TELAH JATUH TEMPO DAN TAGIHAN YANG MENGALAMI PENURUNAN NILAI

Tagihan yang telah jatuh tempo merupakan seluruh tagihan yang telah jatuh tempo lebih dari 90 (sembilan puluh) hari, baik atas pembayaran pokok dan/atau pembayaran bunga. Tagihan yang mengalami penurunan nilai/*impairment* ditentukan berdasarkan aset keuangan atau kelompok aset keuangan yang jika dan hanya jika, terdapat bukti yang objektif mengenai penurunan nilai tersebut sebagai akibat dari satu atau lebih peristiwa yang terjadi setelah pengakuan awal aset tersebut (peristiwa yang merugikan), yang berdampak pada estimasi arus kas masa depan atas aset keuangan atau kelompok aset keuangan yang dapat diestimasi secara handal.

Dalam pengelolaan kualitas aset, aset *performing* terdiri atas aset dengan kolektibilitas Lancar dan Dalam Perhatian Khusus, sedangkan aset *non-performing* meliputi aset dengan kolektibilitas Kurang Lancar, Diragukan, dan Macet. Kriteria yang digunakan oleh Bank Maspion untuk menentukan bukti objektif dari penurunan nilai di antaranya adalah sebagai berikut:

- a. Kesulitan keuangan signifikan yang dialami pihak penerbit atau peminjam.
- b. Terjadinya wanprestasi atau tunggakan pembayaran pokok atau bunga.
- c. Data yang dapat diobservasi mengindikasikan adanya penurunan yang dapat diukur atas estimasi arus kas masa datang dari kelompok aset keuangan sejak pengakuan awal aset dimaksud, meskipun penurunannya belum dapat diidentifikasi terhadap aset keuangan secara individual dalam kelompok aset tersebut, termasuk memburuknya status pembayaran pihak peminjam dalam kelompok tersebut.
- d. Hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan.

Bank melakukan pemantauan dan peninjauan terhadap debitur yang memiliki indikasi penurunan kualitas kredit melalui forum *Early Alert Meeting*. Dalam rangka mencegah dan meminimalkan peningkatan

OVERDUE BILLS AND BILLS THAT HAVE DECREASED IN VALUE

Past due receivables are all receivables that are more than 90 (ninety) days past due, both for principal and/or interest payments. Impairment of receivables is determined based on financial assets or groups of financial assets if and only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (adverse events), which have an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

In asset quality management, performing assets consist of assets with Current and Special Attention collectibility, while non-performing assets include assets with Less Current, Doubtful, and Non-Performing collectibility. The criteria used by Bank Maspion to determine objective evidence of impairment include the following:

- a. *Significant financial difficulties experienced by the issuer or borrower.*
- b. *The occurrence of default or arrears in principal or interest payments.*
- c. *Observable data indicating a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of the assets, even though the decrease cannot yet be identified for individual financial assets within the group, including a deterioration in the payment status of borrowers within the group.*
- d. *Loss of an active market for financial assets due to financial difficulties.*

The Bank monitors and reviews debtors who show signs of declining credit quality through Early Alert Meetings. In order to prevent and minimize an increase in non-performing loans, the Bank implements

kredit bermasalah, Bank menerapkan pemantauan intensif secara dini. Terhadap debitur yang mengalami penurunan kualitas kredit atau kredit bermasalah namun masih memiliki prospek usaha, kemampuan membayar, serta bersikap kooperatif, Bank dapat melakukan restrukturisasi kredit sesuai dengan ketentuan yang berlaku. Bentuk restrukturisasi kredit yang dapat dilakukan antara lain meliputi penurunan suku bunga, perpanjangan jangka waktu kredit, pengurangan tunggakan pokok dan/atau bunga, penambahan fasilitas kredit, serta bentuk restrukturisasi lainnya yang disesuaikan dengan kondisi dan kemampuan debitur.

PENDAKATAN YANG DIGUNAKAN UNTUK PEMBENTUKAN CADANGAN KERUGIAN PENURUNAN NILAI

Bank telah melakukan perhitungan Cadangan Kerugian Penurunan Nilai (CKPN) sesuai ketentuan PSAK 71 di tahun 2024. CKPN dihitung untuk semua instrumen aset keuangan sesuai ekspektasi kerugian kredit berdasarkan berbagai faktor termasuk di dalamnya antara lain data historis, kondisi aset saat ini, dan proyeksi ekonomi di masa mendatang. Pencadangan ini dipantau melalui indikator biaya kredit (*cost of credit*).

Dalam melakukan pembentukan CKPN kredit, Bank menggunakan pendekatan secara kolektif dan individual. Perhitungan CKPN kolektif telah dilakukan sesuai ketentuan dengan menggunakan perhitungan *Probability of Default* (PD) dan *Loss Given Default* (LGD), dan *Exposure at Default* (EAD).

a. *Probability of Default* (PD)

Probabilitas yang timbul di suatu waktu dimana debitur mengalami gagal bayar, dikalibrasikan sampai dengan periode 12 bulan dari tanggal laporan (Tahap 1) atau sepanjang umur (Tahap 2 dan 3) dan digabungkan pada dampak asumsi ekonomi masa depan yang memiliki risiko kredit. PD diestimasi pada *point in time* dimana hal ini berfluktuasi sejalan dengan siklus ekonomi. *Variable* makro asumsi ekonomi mencakup antara lain : suku bunga, produk domestik bruto, inflasi, harga properti, kurs rupiah terhadap USD, pengangguran, harga BBM dan dengan perkiraan arah siklus ekonomi. Selain itu dilengkapi juga dengan memasukkan informasi *forward looking* untuk menambah justifikasi mengenai dampak perubahan pada faktor-faktor makro ekonomi akan mempengaruhi perhitungan ECL. Metodologi dan asumsi termasuk setiap perkiraan kondisi ekonomi masa depan ditelaah secara berkala.

b. *Loss Given Default* (LGD)

Kerugian yang diperkirakan akan timbul dari debitur yang mengalami gagal bayar dengan menggabungkan dampak dari asumsi ekonomi masa depan yang relevan (jika ada) dimana hal ini mewakili perbedaan antara arus kas kontraktual yang akan jatuh tempo dengan arus kas yang diharapkan untuk diterima. Bank Maspion mengestimasi LGD berdasarkan data historis dari tingkat pemulihan dan memperhitungkan pemulihan yang berasal dari jaminan terhadap aset keuangan dengan mempertimbangkan asumsi ekonomi di masa depan jika relevan. Selain itu, untuk keperluan perhitungan permodalan, Bank Maspion melakukan

intensive early monitoring. For debtors who experience a decline in credit quality or have non-performing loans but still have business prospects, the ability to pay, and are cooperative, the Bank may restructure the loan in accordance with applicable regulations. The forms of credit restructuring that can be carried out include interest rate reductions, credit term extensions, principal and/or interest arrears reductions, credit facility additions, and other forms of restructuring tailored to the conditions and capabilities of the debtor.

APPROACH USED FOR THE FORMATION OF IMPAIRMENT LOSS RESERVES

The Bank has calculated the Allowance for Impairment Losses (AIL) in accordance with PSAK 71 in 2024. AIL is calculated for all financial asset instruments based on expected credit losses based on various factors, including historical data, current asset conditions, and future economic projections. This provision is monitored through the cost of credit indicator.

*In establishing the credit CKPN, the Bank uses a collective and individual approach. Collective CKPN calculations have been carried out in accordance with the provisions using *Probability of Default* (PD) and *Loss Given Default* (LGD) calculations, and *Exposure at Default* (EAD).*

a. *Probability of Default* (PD)

The probability that arises at a time when a debtor defaults is calibrated up to a 12-month period from the report date (Stage 1) or throughout the life of the loan (Stages 2 and 3) and combined with the impact of future economic assumptions that carry credit risk. PD is estimated at a point in time where it fluctuates in line with the economic cycle. Macroeconomic assumptions include: interest rates, gross domestic product, inflation, property prices, the rupiah exchange rate against the USD, unemployment, fuel prices, and the estimated direction of the economic cycle. In addition, forward-looking information is also included to further justify the impact of changes in macroeconomic factors on ECL calculations. The methodology and assumptions, including any estimates of future economic conditions, are reviewed periodically.

b. *Loss Given Default* (LGD)

The estimated loss that will arise from a debtor who defaults by combining the impact of relevant future economic assumptions (if any), which represents the difference between contractual cash flows that will fall due and the expected cash flows to be received. Bank Maspion estimates LGD based on historical data from recovery rates and takes into account recoveries from collateral on financial assets, considering future economic assumptions where relevant. In addition, for capital calculation purposes, Bank Maspion calculates Asset Quality Allowances (PPKA) for all productive and non-productive assets in accordance with

perhitungan Penyisihan Penilaian Kualitas Aset (PPKA) untuk seluruh aset produktif dan non produktif sesuai ketentuan yang berlaku.

c. *Exposure at Default (EAD)*

Perkiraan nilai eksposur neraca pada saat gagal bayar dengan mempertimbangkan bahwa perubahan ekspektasi yang diharapkan selama masa eksposur. Hal ini menggabungkan dampak penarikan fasilitas yang *committed* pembayaran pokok dan bunga, amortisasi dan pembayaran dipercepat, bersama dengan dampak asumsi ekonomi masa depan jika relevan.

Terhadap aset keuangan yang signifikan dan terdapat bukti objektif penurunan nilai yaitu mengalami kolektibilitas 3 atau tunggakan pembayaran pokok dan/atau bunga lebih dari 90 (Sembilan puluh) hari maka akan dibentuk CKPN individual. CKPN individual dilakukan menggunakan perhitungan diskonto arus kas (*discounted cash flows*). Dalam melakukan perhitungan CKPN individual, Bank telah melakukan analisis kualitas kredit dari debitur menggunakan tiga pilar berdasarkan ketentuan regulator yaitu prospek usaha, kinerja keuangan, dan kemampuan membayar.

Bank terus melakukan identifikasi dan *monitoring* secara berkelanjutan terhadap pembentukan CKPN. Manajemen juga berpendapat bahwa jumlah CKPN yang telah dibentuk cukup untuk menutupi kerugian yang mungkin timbul akibat tidak tertagihnya kredit yang diberikan.

Pengungkapan kualitas aset termasuk pengungkapan tambahan dapat dilihat dalam Tabel 12 - 15

PENGUKURAN RISIKO KREDIT DENGAN PENDEKATAN STANDAR

Bank melakukan pengukuran risiko kredit dengan menggunakan Pendekatan Standar, sesuai dengan ketentuan regulator yang berlaku. Dalam pendekatan ini, risiko kredit diukur dengan menetapkan bobot risiko pada seluruh eksposur kredit berdasarkan jenis aset, karakteristik debitur, serta kualitas kredit. Bobot risiko juga mempertimbangkan peringkat kredit eksternal yang diakui oleh regulator, keberadaan agunan atau penjaminan yang memenuhi persyaratan, serta faktor-faktor lain yang relevan untuk mencerminkan tingkat risiko kredit secara akurat.

Hasil pengukuran risiko kredit ini digunakan sebagai dasar perhitungan Aset Tertimbang Menurut Risiko (ATMR), yang selanjutnya menjadi acuan dalam penghitungan kecukupan modal Bank. Bank secara berkala meninjau dan mengevaluasi keandalan metodologi pengukuran risiko kredit untuk memastikan kesesuaian dengan profil risiko dan perkembangan kegiatan usaha Bank.

Pengungkapan Eksposur berdasarkan kelas aset dan bobot risiko Bank ditampilkan dalam Tabel 20.

applicable regulations.

c. *Exposure at Default (EAD)*

An estimate of the balance sheet exposure value at the time of default, taking into account that changes in expected expectations during the exposure period. This combines the impact of committed principal and interest payments, amortization and accelerated payments, along with the impact of future economic assumptions, if relevant.

For significant financial assets and where there is objective evidence of impairment, namely collectibility of 3 or principal and/or interest payments in arrears for more than 90 (ninety) days, an individual CKPN will be formed. Individual CKPN is carried out using discounted cash flow calculations. In calculating individual CKPN, the Bank has analyzed the credit quality of debtors using three pillars based on regulatory provisions, namely business prospects, financial performance, and ability to pay.

The Bank continues to identify and monitor the formation of CKPN on an ongoing basis. Management also believes that the amount of CKPN that has been formed is sufficient to cover losses that may arise from uncollectible loans.

Disclosures regarding asset quality, including additional disclosures, can be found in Tables 12–15

CREDIT RISK MEASUREMENT USING THE STANDARD APPROACH

The bank measures credit risk using the Standardized Approach, in accordance with applicable regulatory requirements. In this approach, credit risk is measured by assigning risk weights to all credit exposures based on asset type, debtor characteristics, and credit quality. Risk weights also take into account external credit ratings recognized by regulators, the existence of collateral or guarantees that meet the requirements of the Capital Adequacy Regulation, as well as other relevant factors to accurately reflect the level of credit risk.

The results of this credit risk measurement are used as the basis for calculating Risk-Weighted Assets (RWA), which in turn are used as a reference in calculating the Bank's capital adequacy. The Bank periodically reviews and evaluates the reliability of its credit risk measurement methodology to ensure that it is in line with the Bank's risk profile and business developments.

The Bank's exposure by asset class and risk weight is presented in Table 20.

MITIGASI RISIKO KREDIT

Sesuai dengan Surat Edaran Otoritas Jasa Keuangan Nomor 24/SEOJK.03/2021 tentang Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Kredit dengan Menggunakan Pendekatan Standar bagi Bank Umum, Bank mengakui keberadaan agunan, garansi, penjaminan, atau asuransi kredit sebagai teknik Mitigasi Risiko Kredit (MRK). Beberapa teknik yang digunakan Bank dalam teknik MRK sesuai SEOJK tersebut adalah sebagai berikut:

1. Teknik MRK – Agunan
2. Teknik MRK – Garansi, dan/atau
3. Teknik MRK - Penjaminan atau Asuransi Kredit

Untuk menghitung mitigasi risiko kredit sebagai pengurang ATMR (Risiko Kredit), Bank Maspion menggunakan Teknik MRK (Mitigasi Risiko Kredit) - agunan. Jenis agunan yang diterima oleh Bank terdiri dari :

- *Physical collateral* berupa tanah, bangunan, kendaraan bermotor, mesin, persediaan, dan sebagainya;
- *Financial collateral* berupa deposito dan *cash margin*;
- Lainnya berupa garansi.

Selain aspek agunan untuk meminimalkan risiko kredit, pemberian kredit oleh Bank selalu dilakukan berdasarkan evaluasi dan analisa kelayakan untuk mengetahui kemampuan pengembalian kredit (*first way out*). Penilaian agunan dinilai oleh penilai *independent* atau unit kerja *Appraisal* yang *independent* terhadap unit bisnis serta dilakukan penilaian ulang secara berkala untuk memonitor kondisi agunan yang diagunkan debitur ke Bank.

Pengungkapan kuantitatif terkait Teknik MRK ditampilkan dalam tabel 17 sedangkan Pengungkapan eksposur risiko kredit dan dampak Teknik MRK ditampilkan dalam tabel 19.

EKSPOSUR SEKURITISASI, TRANSAKSI DERIVATIF

Sekuritisasi adalah proses pengambilan aset tidak likuid atau kelompok aset dan melalui *financial engineering*, mentransformasikannya menjadi efek. Efek yang diterbitkan atas dasar pengalihan aset keuangan dari kreditur asal tersebut diikuti oleh pembayaran dari hasil penjualan efek beragun aset kepada investor.

Pada 31 Desember 2025, Bank Maspion tidak memiliki transaksi derivatif kredit dan transaksi sekuritisasi sehingga tidak ada pengungkapan pada tabel berikut ini:

- Tagihan Bersih Derivatif Kredit (CCR6)
- Eksposur Sekuritisasi pada *Banking Book* (SEC1)
- Eksposur Sekuritisasi pada *Trading Book* (SEC2)
- Eksposur Sekuritisasi pada *Banking Book* dan terkait Persyaratan Modalnya – Bank yang Bertindak sebagai Originator atau Sponsor (SEC3)
- Eksposur Sekuritisasi pada *Banking Book* dan terkait Persyaratan Modalnya - Bank yang Bertindak Sebagai Investor (SEC4)

CREDIT RISK MITIGATION

In accordance with Financial Services Authority Circular Letter Number 24/SEOJK.03/2021 concerning the Calculation of Risk-Weighted Assets for Credit Risk Using the Standard Approach for Commercial Banks, the Bank recognizes the existence of collateral, guarantees, sureties, or credit insurance as Credit Risk Mitigation (CRM) techniques. Some of the techniques used by the Bank in MRK techniques in accordance with the aforementioned SEOJK are as follows:

1. *CRM Technique – Collateral*
2. *CRM Technique – Guarantees, and/or*
3. *CRM Technique – Credit Guarantees or Credit Insurance*

To calculate credit risk mitigation as a reduction in ATMR (Credit Risk), Bank Maspion uses the MRK (Credit Risk Mitigation) technique - collateral. The types of collateral accepted by the Bank consist of:

- *Physical collateral in the form of land, buildings, motor vehicles, machinery, inventory, and so on;*
- *Financial collateral in the form of deposits and cash margins;*
- *Others in the form of guarantees.*

In addition to collateral aspects to minimize credit risk, the Bank always grants credit based on feasibility evaluations and analyses to determine credit repayment capabilities (first way out). Collateral is assessed by independent appraisers or the Appraisal unit, which is independent of the business unit, and is reassessed periodically to monitor the condition of collateral pledged by debtors to the Bank.

Quantitative disclosures related to the MRK technique are presented in Table 17, while disclosures regarding credit risk exposure and the impact of the MRK technique are presented in Table 19.

SECURITIZATION EXPOSURE, DERIVATIVE TRANSACTIONS

Securitization is the process of taking illiquid assets or groups of assets and, through financial engineering, transforming them into securities. Securities issued on the basis of the transfer of financial assets from the original creditor are followed by payments from the proceeds of the sale of asset-backed securities to investors.

As of December 31, 2025, Bank Maspion had no credit derivative transactions or securitization transactions, so there are no disclosures in the following table:

- *Net Credit Derivative Exposure (CCR6)*
- *Securitization Exposure in the Banking Book (SEC1)*
- *Securitization Exposure in the Trading Book (SEC2)*
- *Securitization Exposure in the Banking Book and Related Capital Requirements – Banks Acting as Originators or Sponsors (SEC4)*
- *Securitization Exposure in the Banking Book and Related Capital Requirements – Banks Acting as Investors (SEC4)*

PERHITUNGAN ASET TERTIMBANG MENURUT RISIKO KREDIT MENGGUNAKAN PENDEKATAN STANDAR

Perhitungan Aset Tertimbang Menurut Risiko untuk risiko kredit dengan menggunakan Pendekatan Standar sesuai dengan ketentuan regulator ditampilkan pada Tabel 20.

RISIKO KREDIT AKIBAT KEGAGALAN PIHAK LAWAN (COUNTERPARTY CREDIT RISK)

Risiko kredit akibat kegagalan pihak lawan (*counterparty credit risk*) timbul dari jenis transaksi yang secara umum dipengaruhi oleh karakteristik sebagai berikut:

- Transaksi dipengaruhi oleh pergerakan nilai wajar atau nilai pasar.
- Nilai wajar dari transaksi dipengaruhi oleh pergerakan variabel pasar tertentu.
- Transaksi menghasilkan pertukaran arus kas atau instrumen keuangan.
- Bersifat bilateral.

Salah satu transaksi yang menimbulkan risiko kredit akibat kegagalan pihak lawan adalah transaksi *Over The Counter* (OTC) *derivative* dan transaksi *repo/reverse repo*, baik posisi *Trading Book* maupun *Banking Book*, termasuk transaksi dengan *Central Counter Party* (CCP). Pada 31 Desember 2025, Bank tidak memiliki eksposur atas transaksi derivatif OTC, *repo*, maupun *reverse repo*. Dengan demikian, tidak terdapat risiko kredit akibat kegagalan pihak lawan yang timbul dari jenis transaksi tersebut.

RISIKO PASAR

Risiko pasar merupakan risiko akibat pergerakan variabel pasar yaitu suku bunga, nilai tukar dan harga opsi yang dapat merugikan Bank yang ada pada *trading book* dan *banking book*. Risiko pasar terdapat pada aktivitas perdagangan (*trading*) valuta asing, surat berharga, derivatif, instrumen pasar uang, dan lain-lain. Risiko suku bunga pada *banking book* dapat timbul dari perbedaan eksposur aktiva dan pasiva Bank dan pergerakan suku bunga yang akan mempengaruhi pendapatan dan nilai ekonomis modal Bank. Pada *trading book*, dampak risiko pasar langsung mempengaruhi rugi laba. Sedang pada *banking book* dampak risiko pasar secara tidak langsung mempengaruhi perolehan NII (margin bunga bersih) dan nilai ekonomis modal Bank.

Pengelolaan risiko pasar dituangkan dalam bentuk kebijakan, prosedur, limit risiko dan hasil Keputusan lainnya yang terkait. Limit dan *risk appetite* dievaluasi secara periodik sesuai dengan perubahan lingkungan bisnis Bank di antaranya strategi usaha Tresuri dan perkembangan pasar serta ketentuan internal dan eksternal. Untuk pengendalian limit risiko yang efektif, Bank menetapkan struktur limit yang komprehensif, sesuai dengan kompleksitas aktivitas yang diambil, dengan memperhatikan tujuan bisnis Bank, dan toleransi risiko. Limit risiko pasar yang diaplikasikan oleh Bank di antaranya adalah sensitivitas (DV01, MTD MAT, YTD SLL, OPL), *trigger loss*, dan *notional size* untuk portofolio tertentu. Kerangka limit tersebut dirancang untuk memastikan bahwa eksposur risiko pasar tetap berada dalam batas yang dapat diterima, sejalan dengan *risk appetite* dan strategi

CALCULATION OF RISK-WEIGHTED ASSETS USING THE STANDARDIZED APPROACH

The calculation of risk-weighted assets for credit risk using the Standard Approach in accordance with regulatory provisions is shown in Table 20.

CREDIT RISK DUE TO COUNTERPARTY FAILURE (COUNTERPARTY CREDIT RISK)

Credit risk due to counterparty default (*counterparty credit risk*) arises from transactions that are generally influenced by the following characteristics:

- Transactions are affected by movements in fair value or market value.
- The fair value of transactions is affected by movements in certain market variables.
- Transactions result in the exchange of cash flows or financial instruments.
- They are bilateral in nature.

One type of transaction that gives rise to counterparty credit risk is *Over The Counter* (OTC) *derivative* transactions and *repo/reverse repo* transactions, both in the *Trading Book* and *Banking Book*, including transactions with a *Central Counter Party* (CCP). As of December 31, 2025, the Bank had no exposure to OTC *derivative*, *repo*, or *reverse repo* transactions. Thus, there was no credit risk arising from counterparty default in these types of transactions.

MARKET RISK

Market risk is the risk resulting from movements in market variables, namely interest rates, exchange rates, and option prices, which can cause losses to the Bank in its *trading book* and *banking book*. Market risk is present in trading activities involving foreign exchange, securities, derivatives, money market instruments, and others. Interest rate risk in the *banking book* may arise from differences in the Bank's asset and liability exposures and interest rate movements that will affect the Bank's income and economic value of capital. In the *trading book*, the impact of market risk directly affects profit and loss. Meanwhile, in the *banking book*, the impact of market risk indirectly affects the Bank's net interest income (NII) and economic value of capital.

Market risk management is formalized through policies, procedures, risk limits, and other related decisions. Limits and risk appetite are periodically evaluated in accordance with changes in the Bank's business environment, including Treasury business strategies, market developments, and internal and external regulations. To ensure effective risk limit control, the Bank establishes a comprehensive limit structure tailored to the complexity of the activities undertaken, while taking into account the Bank's business objectives and risk tolerance. Market risk limits applied by the Bank include sensitivity measures (DV01, MTD, YTD, SLL, OPL), loss triggers, and notional size for specific portfolios. This limit framework is designed to ensure that market risk exposure remains within acceptable limits, in line with the Bank's risk appetite and business strategy, and is supported by regular monitoring

bisnis Bank, serta didukung oleh proses pemantauan dan pelaporan yang dilakukan secara berkala. Sementara itu, penetapan limit terkait dengan risiko suku bunga di *Banking Book* di antaranya adalah limit *Economic Value of Equity (EVE)* dan *Net Interest Income (NII)*.

Bank melakukan pengelolaan risiko pasar, dengan melibatkan bagian terkait seperti :

- Komite Aktiva dan Pasiva bertanggung jawab dalam pengelolaan struktur neraca Bank, khususnya terkait risiko suku bunga pada *banking book*. ALCO berperan dalam mengevaluasi dampak perkembangan pasar dan pergerakan tingkat suku bunga acuan terhadap kinerja dan posisi keuangan Bank. Selain itu, ALCO mengusulkan serta menetapkan kebijakan, strategi, dan limit yang diperlukan guna memitigasi risiko pasar, termasuk strategi pengelolaan aset dan liabilitas agar tetap sejalan dengan *risk appetite Bank*.
- Divisi Tresuri berperan sebagai *first line of defense* dalam pengelolaan risiko pasar dan bertanggung jawab atas pelaksanaan operasional transaksi harian di pasar keuangan. Divisi ini mengelola posisi dan eksposur risiko pasar yang timbul dari aktivitas transaksi sesuai dengan kebijakan dan limit yang telah ditetapkan.
- Satuan Kerja Manajemen Risiko melakukan pemantauan, pengukuran, dan pengendalian risiko pasar secara berkala dan independen. SKMR mengukur risiko pasar menggunakan metode yang sesuai, seperti sensitivitas, stress testing, serta memantau kepatuhan terhadap limit risiko yang telah ditetapkan. Selain itu, SKMR menyusun laporan risiko pasar secara berkala kepada manajemen dan komite terkait sebagai dasar evaluasi dan pengambilan keputusan.

PENGELOLAAN RISIKO PASAR UNTUK PORTOFOLIO TRADING BOOK

Dalam mengelola risiko pasar untuk *portfolio trading book*, secara internal Bank menggunakan analisa sensitivitas, yaitu perubahan nilai *portfolio* akibat pergerakan satu satuan variabel pasar yang independen, seperti DV01 dan basis DV01 untuk portofolio instrumen terkait suku bunga, *net open position* untuk posisi terbuka valuta asing. Selain analisa sensitivitas, Bank juga stress test dalam pengukuran risiko pasar.

Dalam rangka perhitungan modal minimum menggunakan metode standar, Bank mengukur seluruh posisi instrumen keuangan dalam trading book yang memiliki eksposur terhadap risiko pasar. Eksposur tersebut meliputi risiko gagal bayar pada portofolio surat berharga, risiko suku bunga yang mencakup surat berharga serta instrumen derivatif, serta risiko *Credit Valuation Adjustment (CVA)*. Hingga saat ini, aktivitas transaksi derivatif Bank masih terbatas pada instrumen *FX Forward* dan *FX Swap*, sementara pengembangan instrumen derivatif lainnya seperti *Interest Rate Swap (IRS)*, *Cross Currency Swap (CCS)*, *Interest Rate Futures*, dan instrumen sejenis masih dalam tahap pengembangan. Seiring dengan rencana pengembangan tersebut, Bank secara bertahap terus memperkuat kerangka manajemen risiko, termasuk metodologi pengukuran, infrastruktur sistem, serta tata kelola yang diperlukan

and reporting processes. Meanwhile, limits related to interest rate risk in the *Banking Book* include the *Economic Value of Equity (EVE)* and *Net Interest Income (NII)* limits.

The Bank manages market risk by involving relevant departments such as:

- The Assets and Liabilities Committee is responsible for managing the Bank's balance sheet structure, particularly in relation to interest rate risk in the banking book. ALCO evaluates the impact of market developments and movements in benchmark interest rates on the Bank's performance and financial position. In addition, ALCO proposes and establishes the policies, strategies, and limits necessary to mitigate market risk, including asset and liability management strategies to remain in line with the Bank's risk appetite.
- The Treasury Division acts as the first line of defense in managing market risk and is responsible for the operational execution of daily transactions in the financial markets. This division manages market risk positions and exposures arising from transaction activities in accordance with established policies and limits.
- The Risk Management Unit monitors, measures, and controls market risk on a regular and independent basis. The RMU measures market risk using appropriate methods, such as sensitivity and stress testing, and monitors compliance with established risk limits. In addition, the RMU compiles regular market risk reports for management and relevant committees as a basis for evaluation and decision making.

MARKET RISK MANAGEMENT FOR TRADING BOOK PORTFOLIOS

In managing market risk for the trading book portfolio, the Bank internally uses sensitivity analysis, which is the change in portfolio value due to the movement of one unit of an independent market variable, such as DV01 and DV01 basis for interest rate-related instrument portfolios, and *net open position* for open foreign exchange positions. In addition to sensitivity analysis, the Bank also conducts stress tests in measuring market risk.

In calculating minimum capital using the standard method, the Bank measures all financial instrument positions in the trading book that are exposed to market risk. These exposures include default risk in the securities portfolio, interest rate risk covering securities and derivative instruments, and *Credit Valuation Adjustment (CVA)* risk. To date, the Bank's derivative trading activities remain limited to *FX Forward* and *FX Swap* instruments, while the development of other derivative instruments such as *Interest Rate Swaps (IRS)*, *Cross Currency Swaps (CCS)*, *Interest Rate Futures*, and similar instruments is still in the development phase. In line with these development plans, the Bank is gradually strengthening its risk management framework, including measurement methodologies, system infrastructure, and the necessary governance to ensure readiness in managing more complex risk

guna memastikan kesiapan dalam mengelola eksposur risiko yang lebih kompleks di masa mendatang. Untuk risiko nilai tukar, Bank menghitung seluruh posisi on dan *off-balance sheet*, baik dalam *portfolio trading book* dan *banking book*.

Dalam proses pengendalian risiko pasarnya, Bank menerapkan berbagai strategi bauran portofolio yang diselaraskan dengan pergerakan volatilitas pasar dan tujuan bisnis Bank. Pengelolaan portofolio dilakukan melalui *hedging*, *squaring position*, *back-to-back* dan cara lain yang bertujuan untuk *off-setting* atas suatu transaksi/posisi yang memiliki eksposur risiko pasar serta dapat digunakan untuk proses transfer risiko yang dimiliki. Bank hanya melakukan transaksi yang sesuai dengan *risk appetite* dan strategi bisnis Bank.

PENGELOLAAN RISIKO SUKU BUNGA DI BANKING BOOK

Bank melakukan pengukuran dan pengendalian atas risiko suku bunga di *banking book* yang timbul dari perbedaan antara waktu perubahan suku bunga dan arus kas (*repricing risk*), perubahan keterkaitan suku bunga dari beberapa *yield curve* dengan posisi berbeda yang mempengaruhi aktivitas Bank (*basis risk*), perubahan keterkaitan suku bunga pada rentang jatuh tempo (*yield curve risk*), dan suku bunga terkait *option embedded* dalam produk *banking book* (*option risk*). Bank mengukur eksposur risiko suku bunga baik dari perspektif pendapatan dan perspektif ekonomis di bawah rentang kemungkinan dari skenario suku bunga potensial, termasuk kondisi *stress*.

Bank mempunyai kebijakan dan prosedur IRRBB, termasuk strategi mitigasi dalam mendukung pelaksanaan manajemen risiko suku bunga. Secara internal, Bank Maspion mengukur dan memantau eksposur IRRBB melalui metode Δ EVE (*Economic Value of Equity*) dan Δ NII (*Net Interest Income*) secara bulanan. Skenario *shock* suku bunga yang digunakan dalam perhitungan IRRBB dengan menggunakan metode EVE adalah sebanyak 6 (enam) skenario, yaitu *parallel up*, *parallel down*, *steepener*, *flattener*, *short rate up* dan *short rate down*. Sementara perhitungan untuk metode NII menggunakan 2 (dua) skenario, yaitu *parallel up* dan *parallel down*.

Bank melakukan pengukuran NII menggunakan asumsi *constant balance sheet* dimana instrumen yang jatuh tempo akan diperpanjang dengan mempertahankan ukuran dan struktur neraca saat ini. Bank belum memperhitungkan margin komersial dan *spread components* lainnya dalam arus kas dan dalam tingkat suku bunga diskonto yang digunakan dalam perhitungan dengan metode EVE.

Perhitungan total Δ EVE dan Δ NII merupakan hasil agregasi antar mata uang yang termasuk kategori *significant currency*. Saat ini terdapat mata uang Rupiah dan U.S. Dollar yang termasuk kategori *significant currency*. Rata-rata jangka waktu penyesuaian suku bunga (*repricing maturity*) yang diterapkan untuk NMD adalah 1 tahun dengan pendekatan *run-off rates*, yang mencerminkan persentase simpanan yang diperkirakan akan keluar (ditarik) atau mengubah suku bunga dalam periode tertentu. Semakin tinggi *decay rate*, semakin cepat simpanan tersebut dapat diubah dalam *repricing buckets* yang lebih pendek

exposures in the future. For foreign exchange risk, the Bank calculates all on- and off-balance sheet positions, both in the trading book and banking book portfolios.

In the process of controlling market risk, the Bank implements various portfolio mix strategies that are aligned with market volatility movements and the Bank's business objectives. Portfolio management is carried out through hedging, squaring positions, back-to-back and other methods aimed at offsetting transactions/positions that have market risk exposure and can be used for the risk transfer process. The Bank only conducts transactions that are in line with its risk appetite and business strategy.

INTEREST RATE RISK MANAGEMENT IN THE BANKING BOOK

The Bank measures and controls interest rate risk in the banking book arising from differences between the timing of interest rate changes and cash flows (repricing risk), changes in the correlation of interest rates from several yield curves with different positions that affect the Bank's activities (basis risk), changes in the correlation of interest rates over the maturity (yield curve risk), and interest rates related to options embedded in banking book products (option risk). The Bank measures interest rate risk exposure from both an income and economic perspective under a range of potential interest rate scenarios, including stress conditions.

The Bank has IRRBB policies and procedures, including mitigation strategies to support the implementation of interest rate risk management. Internally, Bank Maspion measures and monitors IRRBB exposure using the Δ EVE (Economic Value of Equity) and Δ NII (Net Interest Income) methods on a monthly basis. The interest rate shock scenarios used in IRRBB calculations using the EVE method are six (6) scenarios, namely parallel up, parallel down, steepener, flattener, short rate up, and short rate down. Meanwhile, calculations for the NII method use two (2) scenarios, namely parallel up and parallel down.

The bank measures NII using the constant balance sheet assumption, whereby maturing instruments will be extended while maintaining the current size and structure of the balance sheet. The bank has not taken into account commercial margins and other spread components in cash flows and in the discount rate used in calculations using the EVE method.

The calculation of total Δ EVE and Δ NII is the result of aggregation between currencies included in the significant currency category. Currently, the Rupiah and U.S. Dollar are included in the significant currency category. The average repricing maturity applied to NMD is 1 year using the run-off rates approach, which reflects the percentage of deposits that are expected to be withdrawn or have their interest rates changed within a certain period. The higher the decay rate, the faster the deposits can be changed in shorter repricing buckets.

Bank melakukan perhitungan ATMR risiko pasar dengan menggunakan metode standard sesuai dengan ketentuan Otoritas Jasa Keuangan yang tertuang dalam SE OJK No.23/SEOJK.03/2022 tentang Aset Tertimbang Menurut Risiko untuk Risiko Pasar bagi Bank.

The Bank calculates market risk ATMR using the standard method in accordance with the provisions of the Financial Services Authority as stipulated in SE OJK No.23/SEOJK.03/2022 concerning Risk-Weighted Assets for Market Risk for Banks.

RISIKO LIKUIDITAS

Risiko Likuiditas adalah risiko akibat ketidakmampuan Bank untuk memenuhi kewajiban yang jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat diagunkan, tanpa mengganggu aktivitas dan kondisi keuangan Bank. Ada dua jenis risiko likuiditas, yaitu risiko likuiditas pendanaan dan risiko likuiditas pasar. Risiko likuiditas pendanaan Adalah risiko ketidakmampuan mendapatkan dana dengan biaya wajar dalam jangka waktu wajar untuk memenuhi kewajiban keuangan. Risiko likuiditas pasar muncul ketika aset tertentu tidak dapat dikonversi menjadi uang tunai pada harga yang wajar dalam jangka waktu yang wajar. Karena mungkin berdampak terhadap risiko likuiditas pendanaan, risiko likuiditas pasar harus diperhitungkan ketika menilai risiko likuiditas pendanaan.

LIQUIDITY RISK

Liquidity risk is the risk arising from the Bank's inability to meet its maturing obligations from cash flow funding sources and/or from high-quality liquid assets that can be used as collateral, without disrupting the Bank's activities and financial condition. There are two types of liquidity risk, namely funding liquidity risk and market liquidity risk. -funding liquidity risk is the risk of being unable to obtain funds at a reasonable cost within a reasonable period of time to meet financial obligations. Market liquidity risk arises when certain assets cannot be converted into cash at a reasonable price within a reasonable period of time. Because it may have an impact on funding liquidity risk, market liquidity risk must be taken into account when assessing funding liquidity risk.

Dalam menjalankan manajemen risiko likuiditas, Bank telah memiliki pembagian tugas dan tanggung jawab secara jelas dan terstruktur. Pengelolaan risiko likuiditas Bank dilaksanakan oleh:

- Komite Pemantau Risiko bertanggung jawab kepada Dewan Komisaris dan bekerja sama dengan Direktorat Satuan Kerja Manajemen Risiko dan Komite Manajemen Risiko guna memastikan bahwa penerapan manajemen risiko dan proses pengendalian terhadap risiko likuiditas dan risiko suku bunga dalam banking book dilakukan secara efektif dan konsisten dengan strategi dan kebijakan yang disetujui.
- Komite Manajemen Risiko bertanggung jawab untuk menyusun kebijakan dan kerangka manajemen risiko serta limit risiko, berikut pengkinian, perbaikan, dan/ atau penyempurnaannya,
- Komite Aktiva Pasiva yang membantu Direksi dalam hal mengembangkan, mengkaji dan menetapkan strategi dan kebijakan manajemen aset dan liabilitas, menetapkan limit sebagai mekanisme pengendalian risiko likuiditas dan risiko suku bunga, memantau secara berkala posisi likuiditas Bank, memantau secara berkala perkembangan dan strategi dana pihak ketiga dan kredit/pembiayaan, dan memantau secara berkala serta menetapkan tingkat suku bunga kredit/pembiayaan;
- Divisi Tresuri sebagai unit ALM secara efektif mengelola risiko suku bunga dan risiko likuiditas Bank. Tresuri bertanggung jawab menghasilkan pendapatan dan wajib menyesuaikan posisinya sesuai dengan keputusan manajemen Bank.
- Satuan Kerja Manajemen Risiko bertanggung jawab atas perumusan Kebijakan Manajemen Risiko, melakukan penetapan tingkat risiko yang akan diambil (*risk appetite*) dan toleransi risiko (*risk tolerance*) secara memadai dan sejalan dengan sasaran strategis dan bisnis Bank secara keseluruhan. Satuan Kerja Manajemen Risiko juga melakukan pemantauan dan pengukuran risiko likuiditas.

In implementing liquidity risk management, the Bank has clearly defined and structured roles and responsibilities. The Bank's liquidity risk management is carried out by:

- *The Risk Oversight Committee is responsible to the Board of Commissioners and works closely with the Risk Management Unit Directorate and the Risk Management Committee to ensure that the implementation of risk management and control processes for liquidity risk and interest rate risk in the banking book are carried out effectively and consistently with approved strategies and policies.*
- *The Risk Management Committee is responsible for formulating risk management policies and frameworks as well as risk limits, including updates, improvements, and/or refinements.*
- *The Assets and Liabilities Committee assists the Board of Directors in developing, reviewing, and establishing asset and liability management strategies and policies, setting limits as a mechanism for controlling liquidity and interest rate risks, periodically monitoring the Bank's liquidity position, periodically monitoring the development and strategy of third-party funds and credit/financing, and periodically monitoring and setting credit/financing interest rates.*
- *The Treasury Division, as the ALM unit, effectively manages the Bank's interest rate and liquidity risks. The Treasury is responsible for generating income and is required to adjust its position in accordance with the Bank's management decisions.*
- *The Risk Management Unit is responsible for formulating Risk Management Policies, determining the level of risk to be taken (risk appetite) and risk tolerance in a manner that is adequate and in line with the Bank's overall strategic and business objectives. The Risk Management Unit also monitors and measures liquidity risk.*

Pemantauan risiko likuiditas dilakukan Bank dengan memantau secara berkala indikator likuiditas di antaranya seperti Rasio 50 Depositor Inti, *Liquid Coverage Ratio* (LCR), *Net Stable Funding Ratio* (NSFR), *asset likuid terhadap NonCore Deposit*, *asset likuid terhadap Dana pihak ketiga* Rasio Intermediasi Makroprudensial (RIM) serta rasio – rasio likuiditas lainnya.

Skenario *Liquidity Stress Testing* dilakukan berdasarkan suatu skenario kejadian yang ekstrem tapi mungkin terjadi (*extreme but plausible*) baik yang disebabkan oleh faktor spesifik Bank (*Idiosyncratic*) ataupun oleh pasar secara keseluruhan (*Market Wide*). Hal ini akan mempengaruhi langkah-langkah yang akan dipilih dalam penanggulangan kondisi krisis. Skenario *Idiosyncratic* merupakan kondisi *stress*, di mana diasumsikan hanya Bank yang mengalami kesulitan likuiditas, namun pasar secara keseluruhan beroperasi relatif normal. Sedangkan skenario krisis pasar secara keseluruhan (*Market Wide*), mengasumsikan pasar keuangan mengalami tekanan likuiditas. Perhitungan *stress testing* dilakukan secara berkala atau sesuai kebutuhan, agar Bank dapat memastikan bahwa kondisi likuiditas dapat dikelola dengan baik dan selalu dalam batasan risiko yang ditetapkan.

Pada dasarnya, skenario stress likuiditas mengasumsikan meningkatnya arus kas keluar dari Bank di atas batas normal, khususnya dari sisi Deposit yang dikelola oleh Bank sebagai dampak menurunnya tingkat kepercayaan, menurunnya arus kas masuk karena gagal bayar dari debitur/*counterparty* serta turunnya nilai portofolio dari aset likuid yang dimiliki karena risiko pasar. Asumsi-asumsi tersebut ditinjau secara berkala dan disetujui oleh manajemen melalui rapat ALCO.

CONTINGENCY FUNDING PLAN

Contingency Funding Plan (CFP) adalah salah satu komponen Kebijakan Manajemen Risiko Likuiditas Bank, berupa suatu prosedur dan panduan operasional saat menghadapi kondisi krisis. Untuk menghadapi krisis likuiditas, Bank Maspion telah memiliki *Contingency Funding Plan* (CFP) yang secara formal menetapkan strategi untuk menghadapi krisis likuiditas dan prosedur untuk menutup defisit arus kas dalam situasi darurat. *Contingency Funding Plan* (CFP) secara komprehensif menjelaskan strategi manajemen kontingensi, prosedur eskalasi dan tanggung jawab dalam menangani peristiwa stress likuiditas.

RISIKO OPERASIONAL

Risiko Operasional adalah risiko akibat ketidakcukupan dan/ atau tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, dan/atau adanya kejadian-kejadian eksternal yang mempengaruhi operasional Bank. Tujuan Bank dalam mengelola risiko operasional adalah untuk mencegah atau meminimalisasi dampak risiko tersebut yang dapat mengakibatkan kerugian keuangan dan merusak reputasi Bank.

Pendekatan Bank Maspion terhadap manajemen risiko operasional adalah dengan menentukan strategi mitigasi guna memperoleh keseimbangan yang optimal antara paparan risiko operasional, efektivitas mekanisme kontrol, dan pembuatan *risk appetite* sebagai salah satu strategi Bank Maspion dengan melakukan implementasi

The Bank monitors liquidity risk by regularly monitoring liquidity indicators, including the Core Depositor Ratio, Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), liquid assets to Non-Core Deposits, liquid assets to Third Party Funds, Macroprudential Intermediation Ratio (RIM), and other liquidity ratios.

Liquidity Stress Testing scenarios are based on extreme but plausible scenarios caused by either bank-specific factors (Idiosyncratic) or the market as a whole (Market Wide). This will influence the measures chosen to address crisis conditions. An Idiosyncratic scenario is a stress condition in which it is assumed that only the Bank is experiencing liquidity difficulties, while the market as a whole is operating relatively normally. Meanwhile, a market-wide crisis scenario assumes that the financial market is experiencing liquidity pressure. Stress testing calculations are carried out periodically or as needed so that the Bank can ensure that liquidity conditions can be managed properly and always within the established risk limits.

Basically, the liquidity stress scenario assumes an increase in cash outflows from the Bank above normal limits, particularly from deposits managed by the Bank as a result of declining confidence, declining cash inflows due to defaults by debtors/counterparties, and a decline in the value of the Bank's liquid asset portfolio due to market risk. These assumptions are reviewed periodically and approved by management through ALCO meetings.

CONTINGENCY FUNDING PLAN

The Contingency Funding Plan (CFP) is one component of the Bank's Liquidity Risk Management Policy, in the form of procedures and operational guidelines for dealing with crisis conditions. To deal with liquidity crises, Bank Maspion has a Contingency Funding Plan (CFP) that formally establishes strategies for dealing with liquidity crises and procedures for covering cash flow deficits in emergency situations. The Contingency Funding Plan (CFP) comprehensively explains contingency management strategies, escalation procedures, and responsibilities in handling liquidity stress events.

OPERATIONAL RISK

Operational risk is the risk resulting from the inadequacy and/or malfunction of internal processes, human error, system failure, and/or external events that affect the Bank's operations. The Bank's objective in managing operational risk is to prevent or minimize the impact of such risks that could result in financial losses and damage to the Bank's reputation.

Bank Maspion's approach to operational risk management is to determine mitigation strategies in order to achieve an optimal balance between operational risk exposure, control mechanism effectiveness, and risk appetite creation as one of Bank Maspion's strategies by consistently implementing the Operational Risk Management (ORM)

yang konsisten atas kerangka kerja Manajemen Risiko Operasional (*Operational Risk Management - ORM*). Dalam pelaksanaan kerangka kerja ORM, diterapkan konsep “Tiga Lini Pertahanan” dengan penjelasan sebagai berikut:

- Lini bisnis dan fungsi pendukung sebagai pemilik dari proses pengelolaan risiko, ORM di Lini Bisnis/Fungsi Pendukung, dan Fungsi Pengendalian Internal yang ada pada setiap *Risk Taking Unit* (RTU) berperan sebagai lini pertahanan pertama dalam penegakan pengelolaan risiko operasional sehari-hari. Mereka bertanggung jawab dalam mengidentifikasi, mengelola, memitigasi, dan melaporkan Risiko Operasional.
- *Risk Management Division*, yang bertanggung jawab untuk menetapkan Kerangka Risiko Operasional (*Operational Risk Framework - ORF*) dan mengimplementasikan prinsip-prinsip serta tata kelola yang relevan dalam melakukan identifikasi, penilaian, dan mitigasi risiko operasional.
- Sedangkan SKAI secara independent berperan sebagai lini pertahanan ketiga yang bertanggung jawab untuk mengidentifikasi kelemahan yang ditemukan dalam pengelolaan risiko operasional dan menilai pelaksanaan kerangka manajemen risiko operasional telah berjalan sesuai dengan ketentuan.

Pelaksanaan kerangka kerja manajemen risiko operasional di Maspion dan Perusahaan Anak dilakukan dalam proses manajemen risiko operasional secara terpadu. Proses ini mencakup:

1. Identifikasi risiko yang digunakan untuk mengidentifikasi dan menganalisa risiko melekat pada produk, jasa, sistem dan proses baru maupun perubahannya, serta memastikan adanya kecukupan *control* preventif atas seluruh proses yang dijalankan.
2. Pengukuran risiko di tingkat unit operasional untuk mengetahui profil risiko Bank Maspion secara kuantitatif sehingga dapat digunakan untuk mengetahui efektivitas penerapan manajemen risiko operasional. Perhitungan Beban Modal Risiko operasional masih menggunakan Pendekatan Standar (*Standardized Measurement Approach*) dasar sesuai SEOJK No.6/SEOJK.03/2020.
3. Pemantauan risiko operasional melalui penyusunan laporan secara berkala terhadap manajemen melalui Komite Manajemen Risiko untuk mengidentifikasi masalah yang muncul terkait dengan adanya kelemahan atau kegagalan di dalam penerapan fungsi kontrol.
4. Pengendalian risiko dilakukan di antaranya dengan memastikan ketersediaan kebijakan operasional dan kecukupan kontrol pada seluruh prosedur operasional untuk memitigasi risiko operasional.

Bank memiliki serangkaian *methodology* dan perangkat manajemen risiko operasional dalam mendukung pengelolaan risiko, *methodology* dan perangkat manajemen risiko operasional yang digunakan antara lain :

1. *Risk Control Self-Assessment* (RCSA)
RCSA (*Risk and Control Self – Assessment*) adalah metode atau proses pemberdayaan dimana manajemen dan staf dari semua tingkatan secara kolektif mengidentifikasi dan mengevaluasi risiko dan kontrol. Keterlibatan *Process Owner* dan / *Risk Manager* dalam merancang dan memelihara *system* pengendalian risiko,

framework. In implementing the ORM framework, the concept of “Three Lines of Defense” is applied, with the following explanation:

- *Business lines and support functions as owners of the risk management process, ORM in Business Lines/Support Functions, and Internal Control Functions in each Risk Taking Unit (RTU) serve as the first line of defense in enforcing daily operational risk management. They are responsible for identifying, managing, mitigating, and reporting Operational Risks.*
- *The Risk Management Division is responsible for establishing the Operational Risk Framework (ORF) and implementing relevant principles and governance in identifying, assessing, and mitigating operational risks.*
- *Meanwhile, SKAI independently acts as the third line of defense, responsible for identifying weaknesses found in operational risk management and assessing whether the implementation of the operational risk management framework is in accordance with regulations.*

The implementation of the operational risk management framework at Maspion and its Subsidiaries is carried out through an integrated operational risk management process. This process includes:

1. *Risk identification, which is used to identify and analyze risks inherent in new products, services, systems, and processes, as well as changes thereto, and to ensure the adequacy of preventive controls over all processes carried out.*
2. *Risk measurement at the operational unit level to determine Bank Maspion’s risk profile quantitatively so that it can be used to determine the effectiveness of operational risk management implementation. The calculation of operational risk capital burden still uses the basic Standardized Measurement Approach in accordance with SEOJK No.6/SEOJK.03/2020.*
3. *Monitoring of operational risk is carried out through the preparation of periodic reports to management via the Risk Management Committee to identify issues arising from weaknesses or failures in the implementation of control functions.*
4. *Risk control is carried out, among other things, by ensuring the availability of operational policies and adequate controls in all operational procedures to mitigate operational risks.*

The Bank has a series of operational risk management methodologies and tools to support risk management, including:

1. *Risk Control Self-Assessment (RCSA)*
RCSA (Risk and Control Self-Assessment) is an empowerment method or process whereby management and staff at all levels collectively identify and evaluate risks and controls. The involvement of Process Owners and/or Risk Managers in designing and maintaining the risk control system, identifying risk

mengidentifikasi eksposur risiko dan menentukan tindakan kolektif akan menambah nilai dalam proses RCSA itu sendiri.

2. Key Risk indicator (KRI)

KRI merupakan salah satu perangkat manajemen risiko operasional bersifat kuantitatif yang menggunakan metode menetapkan parameter - parameter dengan ambang batas tertentu dalam proses bisnis/ aktivitas yang diasumsikan prediktif dalam memantau tingkat / tren profil risiko dalam proses tersebut. KRI memiliki fungsi sebagai pemantauan tingkat/ tren risiko, sinyal peringatan dini (*early warning signal*) terhadap perubahan/ tren tingkat risiko dari waktu ke waktu dan sebagai sinyal analisis awal.

3. Operational Risk Event (ORE) database

Kertas kerja yang digunakan IRM yang berisi seluruh kejadian risiko operasional sebagai alat bantu untuk memonitoring pengelolaan kejadian risiko operasional termasuk penyelesaian atas *action plan* dan tindakan mitigasi .

Kerangka manajemen risiko operasional selanjutnya adalah budaya dan kesadaran risiko. Budaya dan kesadaran risiko memegang peranan penting dalam mendukung penerapan kerangka kerja risiko operasional yang sehat dan berkelanjutan. Perusahaan yang memiliki budaya dan kesadaran risiko yang tinggi mampu secara proaktif menemukan serta mengidentifikasi berbagai potensi ancaman yang dapat mengganggu kelangsungan bisnis dan aktivitas operasional, baik pada tingkat karyawan maupun manajemen, serta didukung oleh jalur eskalasi yang jelas dan efektif.

Bank Maspion memitigasi dan mengelola risiko yang muncul akibat *fraud* berdasarkan kerangka kerja strategi *anti-fraud* sesuai yang tertuang dalam "Kebijakan dan Kerangka Kerja Pengelolaan *Anti-Fraud*" yang telah diimplementasikan secara nasional serta ke Perusahaan Anak. Kebijakan dan strategi ini sejalan dengan POJK No. 12/2024 tentang Penerapan Strategi *Anti Fraud* Bagi Lembaga Jasa Keuangan (LJK), dimana Bank Maspion telah melakukan pelaporan ke OJK tiap semester.

Pengungkapan kuantitatif risiko operasional Bank ditampilkan dalam Tabel 42 - 44.

RISIKO HUKUM

Risiko hukum merupakan risiko yang dihadapi Bank sebagai akibat dari adanya gugatan dan atau tuntutan hukum, baik yang dilakukan oleh pihak internal maupun eksternal dan/atau ditemukannya kelemahan dari aspek yuridis seperti ketiadaan peraturan perundang-undangan yang mendukung, kelemahan perikatan seperti tidak dipenuhinya syarat sahnya kontrak, atau pengikatan agunan yang tidak sempurna. Fungsi pengelolaan risiko hukum sebagai berikut:

1. Melakukan evaluasi sesuai dengan pengalaman kerugian di masa lalu dan atau pengalaman *industry* yang disebabkan karena adanya risiko hukum;
2. Melakukan analisa atas laporan eksposur risiko hukum;
3. Memastikan bahwa pengelolaan risiko hukum telah dilakukan sesuai dengan kebijakan dan prosedur pengelolaan risiko yang berlaku;

exposures, and determining collective actions will add value to the RCSA process itself.

2. Key Risk Indicator (KRI)

KRI is a quantitative operational risk management tool that uses methods to set parameters with certain thresholds in business processes/activities that are assumed to be predictive in monitoring the level/trend of risk profiles in those processes. KRI functions as a means of monitoring risk levels/trends, providing early warning signals regarding changes/trends in risk levels over time, and as an initial analysis signal.

3. Operational Risk Event (ORE) database

A working paper used by IRM that contains all operational risk events as a tool to monitor the management of operational risk events, including the completion of action plans and mitigation measures.

The next framework for operational risk management is risk culture and awareness. Risk culture and awareness play an important role in supporting the implementation of a sound and sustainable operational risk framework. Companies with a strong risk culture and awareness are able to proactively discover and identify various potential threats that could disrupt business continuity and operational activities, both at the employee and management levels, and are supported by clear and effective escalation channels.

Bank Maspion mitigates and manages risks arising from fraud based on an anti-fraud strategy framework as outlined in the "Anti-Fraud Management Policy and Framework" which has been implemented nationally and in its subsidiaries. This policy and strategy are in line with POJK No. 12/2024 concerning the Implementation of Anti-Fraud Strategies for Financial Services Institutions (LJK), whereby Bank Maspion has submitted reports to the OJK every semester.

The quantitative disclosure of the Bank's operational risks is presented in Table 42 - 44.

LEGAL RISK

Legal risk is the risk faced by the Bank as a result of lawsuits and/or legal claims, whether brought by internal or external parties and/or the discovery of weaknesses in legal aspects such as the absence of supporting laws and regulations, weaknesses in agreements such as non-fulfillment of contract validity requirements, or imperfect collateral agreements. The legal risk management function is as follows:

1. *Conduct evaluations based on past loss experiences and/or industry experiences caused by legal risks;*
2. *Analyzing legal risk exposure reports;*
3. *Ensuring that legal risk management has been carried out in accordance with applicable risk management policies and procedures;*

4. Memberikan saran perbaikan dalam hal pengelolaan risiko hukum;
5. Melakukan evaluasi atas efektivitas pengelolaan risiko hukum yang telah dilaksanakan

Dalam rangka pengendalian risiko hukum, Bank didukung oleh Divisi *Legal Corporate* dan Unit *Special Asset Management (SAM)*. Divisi *Legal Corporate* berperan sebagai legal advisor yang memberikan opini dan pertimbangan hukum kepada unit kerja terkait. Pengelolaan risiko hukum dilakukan melalui kajian atas dokumen hukum, perjanjian, dan kontrak antara Bank dan pihak ketiga; kajian hukum terhadap produk dan aktivitas baru serta penambahan atau perubahan fitur produk dan layanan; pemantauan penyelesaian perkara litigasi; penyebaran informasi dan peningkatan pemahaman hukum kepada unit kerja terkait; serta penyusunan dan penetapan kebijakan dan prosedur yang berkaitan dengan manajemen risiko hukum. Sementara itu, Unit *Special Asset Management (SAM)* bertanggung jawab dalam penanganan dan penyelesaian kredit bermasalah guna memitigasi potensi kerugian dan risiko hukum bagi Bank.

RISIKO REPUTASI

Risiko reputasi merupakan risiko akibat menurunnya tingkat kepercayaan pemangku kepentingan (*stakeholders*) yang disebabkan oleh persepsi negatif terhadap Bank. Risiko ini dapat bersumber dari berbagai aktivitas bisnis Bank, antara lain pemberitaan negatif di media massa, pelanggaran etika bisnis, pengaduan nasabah, serta faktor lainnya seperti kelemahan dalam tata kelola perusahaan, budaya perusahaan, dan komunikasi Bank yang kurang efektif. Bank mengelola risiko reputasi melalui pemantauan pemberitaan di media massa, penanganan dan penyelesaian pengaduan nasabah, pengawasan terhadap kepatuhan atas etika bisnis, serta pemantauan aktivitas lain yang berpotensi menimbulkan risiko reputasi.

Sejalan dengan status Bank sebagai perusahaan terbuka, *Corporate Secretary* memiliki peran strategis dalam mendukung pengelolaan risiko reputasi melalui pelaksanaan keterbukaan dan transparansi informasi, pengelolaan komunikasi dengan media massa dalam rangka menjaga reputasi Bank, serta penyampaian informasi material kepada seluruh pemangku kepentingan. Pengendalian risiko reputasi tercermin dalam penyampaian informasi keuangan, informasi mengenai transaksi material, dan keterbukaan informasi lainnya secara jelas, akurat, dan tepat waktu melalui media massa serta situs web resmi Bank.

Selain itu, Bank memastikan setiap produk dan layanan yang ditawarkan kepada nasabah dilengkapi dengan informasi yang jelas dan lengkap agar dapat dipahami secara menyeluruh. Bank juga menerapkan prinsip transparansi dan akuntabilitas dalam komunikasi publik, serta secara berkelanjutan meningkatkan standar layanan nasabah melalui program *service excellence*, penerapan etika pemasaran produk dan layanan, serta penyediaan saluran komunikasi bagi nasabah untuk menyampaikan masukan dan pengaduan.

4. *Providing recommendations for improvement in legal risk management;*
5. *Evaluating the effectiveness of legal risk management that has been implemented.*

In order to control legal risks, the Bank is supported by the Corporate Legal Division and the Special Asset Management (SAM) Unit. The Corporate Legal Division acts as a legal advisor that provides legal opinions and considerations to relevant work units. Legal risk management is carried out through the review of legal documents, agreements, and contracts between the Bank and third parties; legal reviews of new products and activities as well as additions or changes to product and service features; monitoring the settlement of litigation cases; disseminating information and increasing legal understanding to relevant work units; and formulating and establishing policies and procedures related to legal risk management. Meanwhile, the Special Asset Management (SAM) Unit is responsible for handling and resolving non-performing loans in order to mitigate potential losses and legal risks for the Bank.

REPUTATION RISK

Reputation risk is the risk of a decline in stakeholder confidence caused by negative perceptions of the Bank. This risk can arise from various Bank business activities, including negative media coverage, business ethics violations, customer complaints, and other factors such as weaknesses in corporate governance, corporate culture, and ineffective Bank communications. The Bank manages reputation risk by monitoring mass media coverage, handling and resolving customer complaints, supervising compliance with business ethics, and monitoring other activities that have the potential to cause reputation risk.

In line with the Bank's status as a public company, the Corporate Secretary has a strategic role in supporting reputation risk management through the implementation of information disclosure and transparency, managing communication with the mass media in order to maintain the Bank's reputation, and conveying material information to all stakeholders. Reputational risk control is reflected in the delivery of financial information, information on material transactions, and other information disclosure in a clear, accurate, and timely manner through the mass media and the Bank's official website.

In addition, the Bank ensures that every product and service offered to customers is accompanied by clear and complete information so that it can be fully understood. The Bank also applies the principles of transparency and accountability in public communications, and continuously improves customer service standards through service excellence programs, the application of product and service marketing ethics, and the provision of communication channels for customers to submit feedback and complaints.

Bank memiliki ketentuan internal terkait penanganan pengaduan nasabah yang didukung oleh unit kerja khusus. Unit tersebut bertugas menerima pengaduan melalui berbagai saluran, antara lain kantor cabang, telepon, surat elektronik, maupun media tertulis lainnya. Selanjutnya, pengaduan ditangani dan diselesaikan sesuai dengan batas waktu yang telah ditetapkan, serta dilakukan pemantauan atas jumlah dan tingkat penyelesaian pengaduan nasabah. Penerapan mekanisme ini bertujuan untuk mencegah dan memitigasi risiko reputasi Bank secara efektif.

RISIKO STRATEJIK

Risiko Strategik adalah risiko yang timbul akibat ketidaktepatan dalam pengambilan dan/atau pelaksanaan keputusan strategik serta kegagalan Bank dalam mengantisipasi perubahan lingkungan bisnis. Risiko ini dapat disebabkan oleh kurang optimalnya respons Bank terhadap perubahan kondisi eksternal, termasuk perkembangan teknologi, dinamika persaingan, kondisi ekonomi makro, serta perubahan ketentuan peraturan perundang-undangan.

Dalam rangka penerapan manajemen Risiko Strategik, Bank menyusun Rencana Bisnis Bank (RBB) sebagai acuan pelaksanaan kegiatan usaha untuk jangka pendek 1 (satu) tahun dan jangka menengah 3 (tiga) tahun. RBB disusun dengan memperhatikan visi, misi, dan strategi Bank, serta mencakup rencana peningkatan kinerja usaha, pengembangan produk dan aktivitas baru, pengembangan jaringan kantor, dan strategi pencapaian target usaha. Penyusunan dan pelaksanaan RBB dilakukan dengan tetap memperhatikan prinsip kehati-hatian serta kecukupan penerapan manajemen risiko. Apabila terdapat perubahan signifikan pada kondisi internal maupun eksternal yang berpotensi memengaruhi pencapaian rencana strategik Bank, maka dilakukan penyesuaian RBB dan disampaikan kepada Otoritas Jasa Keuangan sesuai dengan ketentuan yang berlaku.

Direksi bertanggung jawab atas penyusunan, implementasi, dan pemantauan RBB serta strategi Bank secara keseluruhan, termasuk memastikan penerapan manajemen Risiko Strategik yang memadai. Direksi secara berkala melakukan evaluasi terhadap pencapaian rencana bisnis, kinerja keuangan, serta efektivitas strategi Bank, dan mengambil langkah perbaikan yang diperlukan untuk mengelola Risiko Strategik.

Dewan Komisaris melakukan pengawasan terhadap pelaksanaan strategi dan RBB yang dijalankan oleh Direksi, termasuk memberikan arahan, nasihat, serta persetujuan atas kebijakan strategik Bank. Dewan Komisaris juga memastikan bahwa pengelolaan Risiko Strategik telah dilaksanakan sesuai dengan ketentuan regulator dan prinsip tata kelola perusahaan yang baik (*Good Corporate Governance*).

Pengukuran Risiko Strategik dilakukan melalui evaluasi terhadap kesesuaian strategi Bank dengan perkembangan lingkungan bisnis, posisi dan daya saing Bank dalam industri perbankan, serta tingkat pencapaian realisasi Rencana Bisnis Bank. Bank secara berkelanjutan melakukan pemantauan dan pelaporan atas kinerja dan realisasi RBB kepada Direksi dan Dewan Komisaris.

The Bank has internal regulations regarding the handling of customer complaints, which are supported by a special work unit. This unit is tasked with receiving complaints through various channels, including branch offices, telephone, electronic mail, and other written media. Furthermore, complaints are handled and resolved within a predetermined time frame, and the number and level of resolution of customer complaints are monitored. The implementation of this mechanism aims to effectively prevent and mitigate the Bank's reputational risk.

STRATEGIC RISK

Strategic risk is the risk that arises from inaccuracies in strategic decision-making and/or implementation, as well as the Bank's failure to anticipate changes in the business environment. This risk can be caused by the Bank's suboptimal response to changes in external conditions, including technological developments, competitive dynamics, macroeconomic conditions, and changes in laws and regulations.

In order to implement Strategic Risk Management, the Bank prepares a Bank Business Plan (BBP) as a reference for conducting business activities in the short term (1 (one) year) and medium term (3 (three) years). The BBP is prepared by taking into account the Bank's vision, mission, and strategy, and includes plans to improve business performance, develop new products and activities, expand the office network, and strategies for achieving business targets. The preparation and implementation of the BBP are carried out with due regard to the principles of prudence and adequate risk management. If there are significant changes in internal or external conditions that could potentially affect the achievement of the Bank's strategic plans, adjustments will be made to the BBP and submitted to the Financial Services Authority in accordance with applicable regulations.

The Board of Directors is responsible for the preparation, implementation, and monitoring of the RBB and the Bank's overall strategy, including ensuring the implementation of adequate Strategic Risk management. The Board of Directors periodically evaluates the achievement of business plans, financial performance, and the effectiveness of the Bank's strategy, and takes the necessary corrective measures to manage Strategic Risk.

The Board of Commissioners supervises the implementation of the strategy and RBB carried out by the Board of Directors, including providing direction, advice, and approval of the Bank's strategic policies. The Board of Commissioners also ensures that Strategic Risk management has been implemented in accordance with the Bank's Strategic Risk Management Framework with regulatory requirements and good corporate governance principles.

Strategic Risk Measurement is conducted through an evaluation of the Bank's strategy alignment with developments in the business environment, the Bank's position and competitiveness in the banking industry, and the level of achievement of the Bank's Business Plan. The Bank continuously monitors and reports on the performance and realization of the RBB to the Board of Directors and Board of Commissioners.

Pengendalian Risiko Strategik dilaksanakan melalui pengawasan secara berkala terhadap kinerja Bank, khususnya yang berdampak terhadap pendapatan dan keberlanjutan usaha, serta penerapan budaya manajemen Risiko Strategik yang melibatkan seluruh jenjang organisasi. Bank menetapkan indikator kinerja utama yang terukur sebagai tolok ukur keberhasilan strategi, serta melakukan evaluasi secara berkala terhadap kinerja dan efektivitas strategi Bank secara keseluruhan.

RISIKO KEPATUHAN

Risiko Kepatuhan merupakan risiko yang timbul akibat Bank tidak mematuhi dan/atau tidak melaksanakan peraturan perundang-undangan, ketentuan regulator, serta ketentuan internal yang berlaku. Risiko kepatuhan pada umumnya melekat pada pelanggaran terhadap prinsip kehati-hatian, antara lain terkait dengan pemenuhan Batas Maksimum Pemberian Kredit (BMPK), Posisi Devisa Neto (PDN), pembentukan Cadangan Kerugian Penurunan Nilai (CKPN), Giro Wajib Minimum (GWM), Kewajiban Penyediaan Modal Minimum (KPM), pemenuhan komitmen hasil pengawasan regulator, serta kewajiban penyampaian laporan wajib (*mandatory reporting*).

Bank menerapkan manajemen Risiko Kepatuhan untuk meminimalkan potensi dampak negatif yang dapat timbul akibat ketidakpatuhan terhadap ketentuan yang ditetapkan oleh otoritas berwenang. Strategi pengelolaan Risiko Kepatuhan dilaksanakan secara terintegrasi dan sejalan dengan *risk appetite* dan *risk tolerance* yang telah ditetapkan oleh Bank. Pelaksanaan fungsi kepatuhan dilakukan melalui pendekatan pencegahan (*ex-ante*) maupun tindakan perbaikan (*ex-post*). Dalam rangka memastikan pengendalian Risiko Kepatuhan berjalan secara efektif, Bank menerapkan langkah-langkah antara lain:

- Melakukan sosialisasi ketentuan guna memperkaya kesadaran kepatuhan dan meningkatkan pemahaman terhadap ketentuan.
- Melakukan *review*, konsolidasi dan proses pelaporan Bank ke regulator sehingga memastikan kepatuhan.
- Melakukan pengembangan sistem pelaporan Bank agar sesuai dengan perkembangan kompleksitas teknologi informasi sejalan dengan perkembangan usaha Bank ke depan.
- *Self-assessment* Risiko Kepatuhan sebagai bagian dari penyusunan profil risiko Bank yang dilakukan setiap triwulan dalam rangka mengelola Risiko Kepatuhan Bank.
- Melakukan *control testing* atas aktivitas Bank yang memiliki risiko tinggi untuk mencegah terjadinya ketidakpatuhan.
- Memastikan seluruh komitmen temuan dari pihak regulator telah dipenuhi.
- Melakukan pengembangan sistem informasi teknologi untuk mencegah dan mendeteksi transaksi keuangan mencurigakan.
- Melakukan sosialisasi dan pelatihan berkala kepada seluruh staf terkait dengan risiko kepatuhan.
- Melakukan penyempurnaan dan penyusunan Kebijakan dan Prosedur Bank yang sejalan dengan visi dan misi Bank.

Strategic Risk Management is implemented through regular monitoring of the Bank's performance, particularly in relation to revenue and business continuity, as well as the implementation of a Strategic Risk Management culture that involves all levels of the organization. The Bank establishes measurable key performance indicators as benchmarks for strategic success and conducts regular evaluations of the Bank's overall performance and strategic effectiveness.

COMPLIANCE RISK

Compliance risk is the risk that arises when the Bank does not comply with and/or implement applicable laws and regulations, regulatory requirements, and internal provisions. Compliance risk is generally inherent in violations of the principle of prudence, including those related to compliance with the Maximum Credit Limit (BMPK), Net Foreign Exchange Position (PDN), the establishment of a Loss Allowance for Decreased Value (CKPN), Minimum Reserve Requirement (GWM), the Minimum Capital Requirement (MCR), compliance with regulatory oversight commitments, and mandatory reporting obligations.

*The Bank implements Compliance Risk management to minimize the potential negative impact that may arise from non-compliance with the provisions set by the competent authorities. The Compliance Risk management strategy is implemented in an integrated manner and in line with the risk appetite and risk tolerance set by the Bank. Compliance functions are carried out through a preventive (*ex-ante*) and corrective (*ex-post*) approach. In order to ensure effective Compliance Risk control, the Bank implements measures including:*

- *Conducting dissemination of regulations to enrich compliance awareness and improve understanding of the regulations.*
- *Conducting reviews, consolidation, and reporting processes to regulators to ensure compliance.*
- *Developing the Bank's reporting system to keep pace with the increasing complexity of information technology in line with the Bank's future business development.*
- *Conducting a self-assessment of Compliance Risk as part of the preparation of the Bank's risk profile, which is carried out every quarter in order to manage the Bank's Compliance Risk.*
- *Conducting control testing on the Bank's high-risk activities to prevent non-compliance.*
- *Ensuring that all commitments made to regulators have been fulfilled.*
- *Developing information technology systems to prevent and detect suspicious financial transactions.*
- *Conducting regular socialization and training for all staff related to compliance risk.*
- *Refining and developing Bank Policies and Procedures in line with the Bank's vision and mission.*

Analisis Kualitatif Qualitative Analysis							
Rasio total modal terhadap ATMR Bank mengalami peningkatan dari 43,52% pada periode lalu menjadi 45,76% pada periode saat ini. Sedangkan, Rasio Pengungkit Bank mengalami penurunan dari 25,36% pada periode lalu menjadi 21,77% pada periode saat ini disebabkan karena meningkatnya total exposure bank sedangkan total modal inti bank mengalami penurunan. Meskipun demikian, <i>Leverage ratio</i> masih di atas ketentuan regulator yaitu sebesar 3%. Adapun untuk Rasio rata-rata <i>Liquidity Coverage Ratio</i> (LCR) pada periode ini adalah 171,52% di atas batas minimum yang ditentukan OJK yaitu 100%. Hal ini mengindikasikan bahwa kondisi kecukupan likuiditas Bank memadai dan mampu memenuhi kebutuhan likuiditas selama periode 30 (tiga puluh) hari ke depan dalam skenario stres. Untuk Rasio <i>Net Stable Funding Ratio</i> (NSFR) pada periode ini adalah 144,61% juga berada di atas ketentuan minimum NSFR yang ditetapkan oleh regulator sebesar 100%. <i>The ratio of total capital to ATMR increased from 43.52% in the previous period to 45.76% in the current period. Meanwhile, the Bank's Leverage Ratio decreased from 25.36% in the previous period to 21.77% in the current period due to an increase in the bank's total exposure and a decrease in the bank's total core capital. Nevertheless, the leverage ratio is still above the regulatory requirement of 3%. The average Liquidity Coverage Ratio (LCR) for this period is 171.52%, above the minimum limit set by the OJK of 100%. This indicates that the Bank's liquidity adequacy is sufficient and capable of meeting liquidity needs for the next 30 (thirty) days in a stress scenario. The Net Stable Funding Ratio (NSFR) for this period is 144.61%, which is also above the minimum NSFR requirement set by the regulator of 100%.</i>

Total nilai bersih pada kolom total merujuk pada ketentuan Standar Akuntansi Keuangan sedangkan Nilai Eksposur kerangka risiko kredit, <i>Counterparty credit risk</i> , dan risiko pasar merujuk pada pedoman perhitungan ATMR untuk risiko kredit dengan menggunakan pendekatan standar dimana nilai tagihan bersih telah dikurangi dengan provisi/pencadangan. Selain itu Bank juga merujuk pada pedoman penggunaan metode standar dalam perhitungan ATMR Bank Umum dengan memperhitungkan risiko pasar. <i>Total net worth in the total column refers to the provisions of the Financial Accounting Standards while the Exposure Value of the credit risk framework, counterparty credit risk, and market risk refer to the RWA calculation guidelines for credit risk using the standardized approach where the net charge-off value has been reduced by provisions/provisions. In addition, the Bank also refers to the guidelines for the use of standard methods in the calculation of RWA of Commercial Banks by taking into account market risk.</i>					

4. Umum - Penjelasan Mengenai Perbedaan Antara Nilai Eksposur Sesuai dengan Standar Akuntansi Keuangan dengan Ketentuan OJK

Bank tidak memiliki anak usaha berupa perusahaan asuransi sehingga nilai tercatat sebagaimana tercantum dalam publikasi laporan keuangan sesuai dengan nilai tercatat berdasarkan prinsip kehati-hatian. Bank tidak memiliki eksposur sesuai kerangka sekuritisasi.

Total nilai bersih pada kolom total merujuk pada ketentuan Standar Akuntansi Keuangan sedangkan Nilai Eksposur kerangka risiko kredit. *Counterparty credit risk*, dan risiko pasar merujuk pada pedoman perhitungan ATMR untuk risiko kredit dengan menggunakan pendekatan standar dimana nilai tagihan bersih telah dikurangi dengan provisi/pencadangan. Selain itu Bank juga merujuk pada pedoman pendekatan metode standar yang disederhanakan dalam perhitungan ATMR Bank Umum dengan memperhitungkan risiko pasar.

4. General - Explanation of Differences Between Exposure Values in Accordance with Financial Accounting Standards and OJK Requirements

The Bank does not have any subsidiaries in the form of insurance companies, so the recorded value as stated in the published financial statements is in accordance with the recorded value based on the principle of prudence. The Bank has no exposure under the securitization framework.

The total net value in the total column refers to the provisions of Financial Accounting Standards, while the Exposure Value refers to the credit risk framework. Counterparty credit risk and market risk refer to the ATMR calculation guidelines for credit risk using a standard approach where the net receivables have been reduced by provisions/reserves. In addition, the Bank also refers to the simplified standard method guidelines in calculating the ATMR for Commercial Banks by taking market risk into account.

18. Pengungkapan Penggunaan Peringkat Kredit Eksternal (CRD)

Dalam melakukan perhitungan ATMR untuk Risiko Kredit, Lembaga pemeringkat yang digunakan adalah Lembaga pemeringkat yang diakui oleh Otoritas Jasa Keuangan yaitu Moody's Investor Service, Standard and Poor's, Fitch Ratings dan PT. Pemeringkat Efek Indonesia (Pefindo). Apabila terdapat Surat Berharga yang memiliki lebih dari 1 (satu) peringkat, maka yang digunakan adalah peringkat yang paling buruk. Kategori portofolio yang menggunakan peringkat adalah Tagihan kepada Pemerintah, Tagihan kepada Entitas Sektor Publik, Tagihan kepada Bank, Tagihan kepada Perusahaan Efek dan Jasa Keuangan, dan Tagihan kepada Korporasi. Sedangkan tagihan yang lain menggunakan *unrated* (tanpa peringkat) karena tidak tersedianya data peringkat.

18. Disclosure of Use of External Credit Ratings (CRD)

In calculating ATMR for Credit Risk, the rating agencies used are those recognized by the Financial Services Authority, namely Moody's Investor Service, Standard and Poor's, Fitch Ratings, and PT. Pemeringkat Efek Indonesia (Pefindo). If there are securities with more than one rating, the worst rating is used. The portfolio categories that use ratings are Receivables from the Government, Receivables from Public Sector Entities, Receivables from Banks, Receivables from Securities and Financial Services Companies, and Receivables from Corporations. Other receivables use *unrated* (without rating) because rating data is not available.

The calculation of capital charges using the simplified standard approach refers to SEOJK NUMBER 23 /SEOJK.03/2022 concerning the Calculation of Risk-Weighted Assets for Market Risk for Commercial Banks

**Tabel 32 : Pengungkapan Informasi Kualitatif terkait CVA (CVAA)**

Risiko CVA merupakan risiko kerugian yang timbul dari perubahan nilai CVA sebagai akibat dari perubahan *credit spread* pihak lawan dan faktor risiko pasar yang mempengaruhi harga transaksi. Bank menghitung eksposur CVA atas transaksi derivatif yang dilakukan dengan pihak lawan. Bank menggunakan pendekatan CVA dasar yang disederhanakan (BA-CVA) sesuai kerangka SEOJK Nomor 23/SEOJK.03/2022 tentang Perhitungan ATMR Untuk Risiko Pasar bagi Bank Umum.

Table 32: Qualitative Information Disclosure related to CVA (CVAA)

CVA risk is the risk of loss arising from changes in CVA value as a result of changes in counterparty credit spreads and market risk factors affecting transaction prices. The Bank calculates CVA exposure on derivative transactions conducted with counterparties. The Bank uses a simplified basic CVA approach (BA-CVA) in accordance with the framework of SEOJK Number 23/SEOJK.03/2022 concerning the Calculation of ATMR for Market Risk for Commercial Banks.

Qualitative Analysis****a Definisi IRRBB untuk pengukuran dan pengendalian risiko
Definition of IRRBB for risk measurement and control**

Dalam rangka melaksanakan pengukuran dan pengendalian risiko, Bank mendefinisikan IRRBB sebagai suatu risiko yang berasal dari perbedaan sensitivitas aset dan kewajiban terhadap perubahan suku bunga. Sensitivitas semua komponen neraca terhadap pergerakan suku bunga harus dipertimbangkan dengan seksama ketika menilai risiko suku bunga.

In order to implement risk measurement and control, the Bank defines IRRBB as a risk arising from differences in the sensitivity of assets and liabilities to interest rate changes. The sensitivity of all balance sheet components to interest rate movements must be carefully considered when assessing interest rate risk.

**b Strategi manajemen risiko dan mitigasi risiko untuk IRRBB
Risk management and risk mitigation strategies for IRRBB**

Bank menyusun strategi manajemen risiko serta mitigasi risiko diantaranya dengan menetapkan pedoman pengukuran untuk pengukuran risiko suku bunga dalam *banking book*, serta menyesuaikan eksposur IRRBB dan memperbaiki kualitas proses Manajemen Risiko untuk IRRBB.

The bank develops risk management and risk mitigation strategies, including establishing measurement guidelines for measuring interest rate risk in the banking book, adjusting IRRBB exposure, and improving the quality of the IRRBB risk management process.

The Bank's IRRBB calculation period and specific measurements used by the Bank to measure sensitivity to IRRBB****i. Periode perhitungan yang dijalankan Bank adalah :
The calculation period used by the Bank is:**

- Triwulanan untuk posisi akhir bulan Maret, akhir bulan Juni, akhir bulan September, dan akhir bulan Desember sebagai bagian dari laporan profil Risiko untuk Risiko Pasar. Namun untuk meningkatkan efektivitasnya, pemantauan atas IRRBB juga dilakukan secara bulanan dan dilaporkan kepada Komite Manajemen Risiko.

Quarterly for the end of March, end of June, end of September, and end of December as part of the Risk Profile report for Market Risk. However, to improve its effectiveness, monitoring of IRRBB is also conducted monthly and reported to the Risk Management Committee.

- Semesteran untuk posisi akhir bulan Juni dan akhir bulan Desember sebagai bagian dari hasil penilaian sendiri (*self-assessment*) Tingkat Kesehatan Bank.
Semi-annually for positions at the end of June and the end of December as part of the Bank Health Level self-assessment results.

- ii. Bank mengkategorikan posisi *Banking Book* yang sensitif terhadap suku bunga dan menghitung perubahan nilai EVE (Δ EVE) berdasarkan 6 (enam) skenario suku bunga pada setiap eksposur dalam mata uang tertentu dengan nilai yang material, yaitu eksposur dalam mata uang tertentu dengan jumlah paling sedikit 5% (lima persen) dari total aset atau liabilitas dalam posisi *Banking Book*, dalam 19 (Sembilan belas) skala waktu.
The Bank categorizes Banking Book positions that are sensitive to interest rates and calculates changes in EVE (Δ EVE) based on 6 (six) interest rate scenarios for each exposure in a particular currency with a material value, namely exposures in a particular currency with a minimum amount of 5% (five percent) of total assets or liabilities in the Banking Book position, in 19 (nineteen) time scales.

- d Skenario *shock* suku bunga dan skenario *stress* yang digunakan Bank dalam perhitungan IRRBB dengan menggunakan metode EVE dan NII
Interest rate shock scenarios and stress scenarios used by the Bank in calculating IRRBB using the EVE and NII methods

Berdasarkan ketentuan regulator, untuk Δ EVE, Bank menerapkan skenario:

Based on regulatory provisions, for Δ EVE, the Bank applies the following scenario:

- *Shock* suku bunga yang paralel ke atas (*parallel shock up*)
Parallel upward interest rate shock (parallel shock up)
- *Shock* suku bunga yang paralel ke bawah (*parallel shock down*)
Parallel downward interest rate shock
- *Shock* suku bunga yang melandai (*steepener shock*)
Steepener shock
- *Shock* suku bunga yang mendatar (*flattener shock*)
Flattener shock
- *Shock* suku bunga jangka pendek yang meningkat (*short rates shock up*)
Short rates shock up
- *Shock* suku bunga jangka pendek yang menurun (*short rates shock down*)
Short-term interest rate shock down

Untuk Δ NII, Bank menerapkan skenario:

For Δ NII, the Bank applies the following scenario:

- *Shock* suku bunga yang paralel ke atas (*parallel shock up*)
Parallel upward interest rate shock (parallel shock up)
- *Shock* suku bunga yang paralel ke bawah (*parallel shock down*)
Parallel downward interest rate shock

- e Beberapa asumsi permodelan yang digunakan dalam pengukuran IRRBB adalah sebagai berikut:
Several modeling assumptions used in IRRBB measurement are as follows:

- Bank melakukan pengukuran NII menggunakan asumsi *constant balance sheet* dimana instrumen yang jatuh tempo akan diperpanjang dengan mempertahankan ukuran dan struktur neraca saat ini.
Banks measure NII using the constant balance sheet assumption, whereby maturing instruments are extended while maintaining the current size and structure of the balance sheet.
- Bank belum memperhitungkan margin komersial dan *spread components* lainnya dalam arus kas dan dalam tingkat suku bunga diskonto yang digunakan dalam perhitungan dengan metode EVE.
The bank has not taken into account commercial margins and other spread components in cash flows and in the discount rate used in calculations using the EVE method.
- Bank melakukan perhitungan IRRBB atas eksposur dalam 2 mata uang yang signifikan (IDR dan USD) menggunakan tingkat suku bunga diskonto dan skenario *shock* suku bunga tersendiri untuk setiap mata uang. Untuk eksposur dalam mata uang yang tidak signifikan diperhitungkan secara gabungan dengan eksposur dalam mata uang USD.
The bank calculates IRRBB for exposures in two significant currencies (IDR and USD) using separate discount rates and interest rate shock scenarios for each currency. Exposures in insignificant currencies are calculated jointly with exposures in USD.

Δ EVE

- Untuk posisi Des 2025 pada Risiko Suku Bunga pada *Banking Book* (IRRBB) pada indikator delta *Economic Value of Equity* (EVE) dimana risiko maksimum terjadi pada skenario *parallel up* (suku bunga naik) yaitu sebesar Rp524 miliar, selanjutnya apabila dibandingkan dengan Modal *Tier 1* Bank sebesar Rp6,18 triliun maka delta EVE adalah sebesar 8,49%.
For the Dec 2025 position on Interest Rate Risk on the Banking Book (IRRBB) on the Economic Value of Equity (EVE) delta indicator, where the maximum risk occurs in the parallel up scenario (interest rates rise) amounting to Rp524 billion, when compared to the Bank's Tier 1 Capital of Rp6.18 trillion, the EVE delta is 8.49%.

Δ NII

- Untuk posisi Des 2025, nilai delta net interest income (NII) dimana risiko maksimum terjadi pada skenario *parallel down* sebesar Rp9,3 miliar. Apabila dibandingkan dengan *projected income* akhir 2025 Bank sebesar Rp786 miliar, delta NII adalah sebesar 1,18%.

For the Dec 2025 position, the net interest income (NII) delta value where the maximum risk occurs in the Down parallel scenario is Rp9.3 billion. When compared to the Bank's projected income at the end of 2025 of Rp786 billion, the NII delta is 1.18%.

Analisis Kuantitatif Quantitative Analysis

- a Rata - rata *repricing maturity* yang diterapkan untuk NMD.
Average repricing maturity applied to NMD.

Rata - rata jangka waktu penyesuaian suku bunga (*repricing maturity*) yang diterapkan untuk NMD adalah 1 tahun dengan pendekatan *run-off rates*, yang mencerminkan persentase simpanan yang diperkirakan akan keluar (ditarik) atau mengubah suku bunga dalam periode tertentu. Semakin tinggi *decay rate*, semakin cepat simpanan tersebut dapat diubah dalam *repricing buckets* yang lebih pendek.

The average repricing maturity applied to NMD is 1 year using the run-off rates approach, which reflects the percentage of deposits that are expected to exit (be withdrawn) or change interest rates within a certain period. The higher the decay rate, the faster the deposits can be changed in shorter repricing buckets.

- b *Repricing maturity* terpanjang yang diterapkan untuk NMD.
The longest repricing maturity applied to NMD.

Jangka waktu penyesuaian suku bunga (*repricing maturity*) terlama yang diterapkan untuk core deposit NMD adalah di bucket 9M-1 tahun.
The longest repricing maturity applied to NMD core deposits is in the 9M-1 year bucket.

ANALISIS SECARA INDIVIDU | INDIVIDUAL ANALYSIS

Berdasarkan Hasil perhitungan, LCR rata-rata Bank pada posisi Triwulan IV-2025 adalah sebesar 171,52%, menurun sebesar 17,88% dibandingkan posisi pada Triwulan III-2025 yang sebesar 189,40%. Meskipun mengalami penurunan, kondisi kecukupan likuiditas Bank masih memadai dan mampu memenuhi kebutuhan likuiditas selama 30 (tiga puluh) hari ke depan dalam skenario stres.

Based on the calculation results, the Bank's average LCR in the fourth quarter of 2025 is 171.52%, a decrease of 17.88% compared to the position in the third quarter of 2025, which was 189.40%. Despite this decline, the Bank's liquidity adequacy remains sufficient and capable of meeting liquidity needs for the next 30 (thirty) days under a stress scenario.

Komponen Penilaian Rasio LCR Bank

Nilai LCR Bank posisi Triwulan IV-2025 menurun dikarenakan :

1. Total HQLA rata-rata yang dimiliki Bank mengalami penurunan dari Rp6,51 triliun pada Triwulan III-2025 menjadi Rp5,24 triliun pada Triwulan IV-2025. Meskipun mengalami penurunan, komposisi HQLA Bank masih didominasi oleh HQLA Level 1 dengan komposisi terbesar berasal dari kepemilikan surat berharga yang diterbitkan Pemerintah dan Bank Indonesia, yang setelah dikenakan *haircut* rata-ratanya sebesar Rp4,23 triliun (81% dari total HQLA Level 1). Penempatan pada Bank Indonesia, yang setelah *haircut* rata-ratanya sebesar Rp900 miliar (17% dari total HQLA Level 1), dan sisanya dalam bentuk kas. Bank tidak memiliki cadangan likuiditas dalam bentuk HQLA Level 2A dan 2B.
2. Total Arus Kas Keluar Bersih (*Net Cash Outflow*)
Rata-rata *Net Cash Outflow* Bank pada Triwulan IV-2025 mengalami penurunan sebesar 11,12% dari Rp3,44 triliun pada Triwulan III-2025 menjadi Rp3,05 triliun pada Triwulan IV-2025. Penurunan net *cash outflow* pada Triwulan IV-2025 disebabkan oleh:
 - Penurunan arus kas keluar (*cash outflow*): Rata-rata arus kas keluar Bank pada Triwulan IV-2025 turun sebesar 2,60% dibandingkan Triwulan III-2025. Kondisi ini sejalan dengan menurunnya rata-rata DPK bank pada Triwulan IV-2025 sebesar 9,28% dibandingkan dengan triwulan sebelumnya.
 - Peningkatan arus kas masuk (*cash inflow*): Rata-rata arus kas masuk (*cash inflow*) pada Triwulan IV-2025 mengalami peningkatan sebesar 87,24% dibandingkan Triwulan III-2025. Peningkatan berasal dari pembayaran tagihan yang berdasarkan pihak lawan (*counterparty*), yang didominasi oleh lembaga jasa keuangan mengalami peningkatan sebesar 118,42% dari posisi Triwulan III-2025.

Manajemen Likuiditas Bank

Pada posisi Triwulan IV-2025, Bank telah memenuhi tingkat LCR sesuai ketentuan yang berlaku yang menunjukkan bahwa manajemen likuiditas Bank dikelola dengan memadai.

1. Bank telah memiliki dan menerapkan proses manajemen risiko likuiditas, serta secara aktif melakukan identifikasi, pengukuran, pemantauan dan pengendalian risiko likuiditas melalui laporan harian dan laporan bulanan. Bank mengidentifikasi dan mengukur eksposur risiko likuiditas untuk setiap produk dan aktivitas dengan menggunakan berbagai parameter atau indikator, seperti *Loan to Deposit* (LDR), *stress testing*, Pinjaman Luar Negeri Jangka Pendek (PKLN), rasio 50 Deposan Inti, dan lainnya.
2. Strategi pengelolaan neraca dan likuiditas ditetapkan dalam rapat ALCO, Bank terus berupaya meningkatkan pertumbuhan Simpanan/Pendanaan yang stabil dan simpanan operasional dengan peningkatan pelayanan dan produk pendanaan.

Components of the Bank's LCR Ratio Assessment

The Bank's LCR value in the fourth quarter of 2025 decreased due to:

1. *The Bank's average total HQLA decreased from IDR 6.51 trillion in the third quarter of 2025 to IDR 5.24 trillion in the fourth quarter of 2025. Despite this decline, the composition of the Bank's HQLA is still dominated by Level 1 HQLA, with the largest portion coming from securities issued by the Government and Bank Indonesia, which after haircuts amounted to an average of IDR 4.23 trillion (81% of total Level 1 HQLA). Placements with Bank Indonesia, which after haircuts averaged Rp 900 billion (17% of total Level 1 HQLA), and the remainder in cash. The Bank does not have liquidity reserves in the form of Level 2A and 2B HQLA.*
2. *Total Net Cash Outflow*
The Bank's average Net Cash Outflow in the fourth quarter of 2025 decreased by 11.12% from IDR 3.44 trillion in the third quarter of 2025 to IDR 3.05 trillion in the fourth quarter of 2025. The decrease in net cash outflow in the fourth quarter of 2025 was due to:
 - *Decrease in cash outflow: The average cash outflow of banks in the fourth quarter of 2025 decreased by 2.60% compared to the third quarter of 2025. This condition is in line with the decline in the average bank deposit portfolio in the fourth quarter of 2025 by 9.28% compared to the previous quarter.*
 - *Increase in cash inflow: Average cash inflow in the fourth quarter of 2025 increased by 87.24% compared to the third quarter of 2025. The increase came from payments based on counterparties, which were dominated by financial service institutions, which increased by 118.42% from the position in the third quarter of 2025.*

Bank Liquidity Management

In the fourth quarter of 2025, the Bank has met the LCR level in accordance with applicable regulations, indicating that the Bank's liquidity management is being managed adequately.

1. *The Bank has established and implemented a liquidity risk management process, and actively identifies, measures, monitors, and controls liquidity risk through daily and monthly reports. The Bank identifies and measures liquidity risk exposure for each product and activity using various parameters or indicators, such as Loan to Deposit (LDR), stress testing, Short-Term Foreign Loans (PKLN), Core Depositor Ratio 50, and others.*
2. *The balance sheet and liquidity management strategy is determined in ALCO meetings. The Bank continues to strive to increase stable deposit/funding growth and operational deposits by improving services and funding products.*

ANALISIS PERKEMBANGAN NSFR | NSFR DEVELOPMENT ANALYSIS

- 1 *Net Stable Funding Ratio (NSFR)* Bank per Desember 2025 adalah sebesar 144.61% berada di atas ketentuan minimum NSFR yang ditetapkan oleh regulator sebesar 100%.
The Bank's Net Stable Funding Ratio (NSFR) as of December 2024 is 147.85%, which is above the minimum NSFR requirement set by the regulator of 100%.
- 2 NSFR per Desember 2025 sebesar 144.61% mengalami penurunan dibandingkan dengan NSFR per September 2025 sebesar 148.28%. Faktor penyebab penurunan NSFR tersebut terutama dikarenakan *Total Available Stable Fund (ASF)* per Desember 2025 mengalami peningkatan dari Rp15,76 triliun pada September 2025 menjadi Rp 16,01 triliun pada Desember 2025. Peningkatan ini dikarenakan meningkatnya pinjaman yang diterima dengan total tertimbang sebesar Rp1,33 triliun. Sedangkan DPK dan liabilitas bank lain mengalami penurunan dengan total tertimbang sebesar Rp1,06 triliun. Demikian pula pada sisi *Required Stable Fund (RSF)* per Desember 2025 mengalami peningkatan sebesar Rp545 miliar dibandingkan September 2025 karena meningkatnya penyaluran kredit dengan total tertimbang sebesar Rp608 miliar. Sedangkan aset lainnya mengalami penurunan Rp36 miliar sejalan dengan penurunan NPL. Demikian pula penurunan surat berharga dengan jangka waktu > 6 bulan mengalami penurunan dengan total tertimbang sebesar Rp52 miliar.
The NSFR as of December 2025 of 144.61% decreased compared to the NSFR as of September 2025 of 148.28%. The main factor causing the decline in NSFR was the increase in Total Available Stable Fund (ASF) as of December 2025 from Rp15.76 trillion in September 2025 to Rp16.01 trillion in December 2025. This increase was due to an increase in loans received with a total weighted value of Rp1.33 trillion. Meanwhile, third-party funds and other bank liabilities decreased by a weighted total of Rp1.06 trillion. Similarly, the Required Stable Fund (RSF) as of December 2025 increased by Rp545 billion compared to September 2025 due to an increase in credit distribution with a weighted total of Rp608 billion. Other assets decreased by Rp36 billion in line with the decline in NPL. Similarly, securities with a maturity of > 6 months decreased by a weighted total of Rp52 billion.

Penentuan Topik Material dan Batasan Dampak *Determination of Material Topics and Impact Boundaries [GRI 3-1]*

Topik material merupakan isu keberlanjutan yang dinilai memiliki dampak paling signifikan terhadap kinerja dan keberlangsungan Bank, mencakup aspek ekonomi, lingkungan, dan sosial. Penetapan topik material dalam laporan ini mengacu pada GRI *Topic Standards* 2021 serta mempertimbangkan konteks bisnis dan karakteristik operasional Bank.

Material topics represent sustainability issues that have the most significant impact on the Bank's performance and long-term sustainability across economic, environmental, and social aspects. The identification of material topics in this report refers to the GRI Topic Standards 2021 and considers the Bank's business context and operational characteristics.

Proses penentuan topik material dilakukan melalui empat tahapan utama sebagai berikut:

The material topic determination process was carried out through the following four key stages:

1. **Pemahaman Konteks Bisnis**
Bank melakukan kajian terhadap konteks bisnis, model usaha, dan lingkungan operasional untuk mengidentifikasi area utama yang relevan dengan isu keberlanjutan.
2. **Identifikasi Dampak**
Berdasarkan pemahaman tersebut, Bank mengidentifikasi dampak yang telah terjadi maupun yang berpotensi terjadi di masa depan, baik yang bersifat positif maupun negatif, terhadap pemangku kepentingan serta lingkungan.

1. **Understanding the Business Context**
The Bank assessed its business context, operating environment, and business model to identify key areas relevant to sustainability issues.
2. **Impact Identification**
Based on this assessment, the Bank identified actual and potential impacts that may arise, including both positive and negative impacts on stakeholders and the environment.

3. Penilaian dan Prioritisasi Dampak

Setiap dampak yang teridentifikasi selanjutnya dinilai tingkat signifikansinya dengan melibatkan pemangku kepentingan melalui survei materialitas guna memperoleh pandangan terkait prioritas isu keberlanjutan. Dampak yang dinilai paling signifikan kemudian diprioritaskan untuk dilaporkan. Dalam proses ini, meskipun belum melibatkan pakar eksternal, Manajemen memberikan arahan strategis serta melakukan pemantauan atas dampak ekonomi, lingkungan, dan sosial.

4. Penetapan Topik Material

Berdasarkan hasil penilaian dan pemantauan tersebut, Bank menetapkan topik material beserta tingkat prioritasnya sebagai dasar penyusunan Laporan Keberlanjutan. Diagram alur berikut menggambarkan tahapan penentuan topik material yang diterapkan oleh Bank.

3. Impact Assessment and Prioritization

Each identified impact was evaluated for its level of significance by engaging stakeholders through a materiality survey to capture their perspectives on priority sustainability issues. Impacts assessed as most significant were then prioritized for disclosure. Although external experts were not yet involved, Management provided strategic direction and oversight of economic, environmental, and social impacts.

4. Material Topic Determination

Based on the results of the assessment and monitoring process, the Bank finalized its material topics and their respective priority levels as the basis for the Sustainability Report. The flowchart below illustrates the stages of the material topic determination process applied by the Bank.

Berkomitmen pada Prinsip Keberlanjutan

Dedicated to Upholding Sustainability Principles

Bagi Bank Maspion, keberlanjutan adalah fondasi dalam setiap pengambilan keputusan yang menghubungkan kinerja ekonomi, tanggung jawab sosial, dan kepedulian lingkungan dalam satu arah pertumbuhan yang bertanggung jawab.

For Bank Maspion, sustainability is the foundation of every decision, bringing together economic performance, social responsibility, and environmental stewardship in a single, responsible growth journey.

STRATEGI KEBERLANJUTAN

SUSTAINABILITY STRATEGY [OJK A.1] [GRI 2-22]

Bank Maspion memandang keberlanjutan bukan sekadar kewajiban, melainkan sebagai arah strategis dalam membangun pertumbuhan yang sehat, relevan, dan berdaya tahan. Strategi keberlanjutan Bank dirancang untuk menyeimbangkan kinerja ekonomi, tanggung jawab sosial, dan kepedulian lingkungan, sekaligus mengintegrasikan prinsip Lingkungan, Sosial, dan Tata Kelola (LST) ke dalam seluruh proses bisnis, operasional, dan pengambilan keputusan strategis.

Melalui pendekatan yang terstruktur dan terukur, Bank Maspion menempatkan keberlanjutan sebagai pengungkit nilai jangka Panjang, bagi nasabah, pemegang saham, masyarakat, dan ekosistem keuangan nasional.

Pilar Strategi Keberlanjutan Bank Maspion

Pendekatan Ekonomi: Mendorong Pertumbuhan yang Inklusif dan Tangguh

Bank Maspion berfokus pada penguatan peran intermediasi yang bertanggung jawab melalui inovasi produk dan layanan keuangan yang inklusif, khususnya bagi UMKM sebagai tulang punggung perekonomian nasional. Fokus utama meliputi:

- Penyaluran pembiayaan berkelanjutan dan pembiayaan ke sektor-sektor produktif.
- Dukungan pembiayaan untuk kegiatan usaha dan proyek yang berwawasan lingkungan.

Bank Maspion views sustainability not merely as a compliance obligation, but as a strategic direction to build resilient, relevant, and responsible growth. The Bank's sustainability strategy is designed to balance economic performance, social responsibility, and environmental stewardship, while embedding Environmental, Social, and Governance (ESG) principles across all business processes, operations, and strategic decision-making.

Through a structured and measurable approach, Bank Maspion positions sustainability as a long-term value driver, for customers, shareholders, communities, and the national financial ecosystem.

Pillars of Bank Maspion's Sustainability Strategy

Economic Approach: Driving Inclusive and Resilient Growth

Bank Maspion focuses on strengthening its role as a responsible financial intermediary through innovative and inclusive financial products and services, particularly for MSMEs as the backbone of the national economy. Key focus areas include:

- Provision of sustainable financing and financing to productive sectors.
- Support for environmentally responsible business activities and projects.

- Perluasan akses keuangan bagi segmen yang belum terlayani (*underserved*).
- Penguatan efisiensi dan daya saing melalui transformasi digital operasional (*Operational Digital Transformation*).

Pendekatan Lingkungan: Mengelola Dampak dan Mendukung Transisi Hijau

Bank Maspion berkomitmen untuk meminimalkan dampak lingkungan dari kegiatan operasional sekaligus mengambil peran aktif dalam mendukung agenda ekonomi hijau. Upaya yang dilakukan antara lain:

- Penerapan praktik operasional ramah lingkungan, termasuk efisiensi energi dan pengelolaan limbah yang bertanggung jawab.
- Digitalisasi layanan perbankan untuk mengurangi penggunaan kertas dan jejak karbon.
- Dukungan pembiayaan terhadap proyek energi terbarukan dan usaha berbasis solusi lingkungan, seperti pengelolaan air bersih dan daur ulang.

Pendekatan Sosial: Memberdayakan Masyarakat dan Memperluas Dampak Positif

Pemberdayaan masyarakat menjadi bagian penting dari peran Bank Maspion dalam membangun ekonomi yang lebih inklusif. Strategi sosial Bank diwujudkan melalui:

- Penguatan *Community Business Model* dan program literasi serta inklusi keuangan.
- Penyediaan akses pembiayaan bagi UMKM dan pelaku usaha kecil.
- Pelaksanaan program tanggung jawab sosial yang berfokus pada pendidikan, kesehatan, dan penguatan kesejahteraan masyarakat.

Pendekatan Tata Kelola: Memastikan Pertumbuhan yang Berintegritas dan Bertanggung Jawab

Bank Maspion menempatkan tata kelola yang baik sebagai fondasi utama dalam menjalankan strategi keberlanjutan, melalui:

- Penerapan prinsip transparansi, akuntabilitas, dan kepatuhan terhadap regulasi.
- Pelaksanaan penilaian risiko LST secara berkala dalam aktivitas bisnis dan pembiayaan.
- Peran aktif manajemen dalam memberikan arah strategis, memantau kinerja keberlanjutan, dan membangun budaya perusahaan yang menjunjung tinggi integritas dan etika.

Melalui strategi keberlanjutan yang holistik dan terintegrasi, Bank Maspion terus memperkuat ketahanannya dalam menghadapi dinamika global dan nasional, termasuk tantangan perubahan iklim dan kesenjangan sosial. Dengan pendekatan ini, Bank optimistik dapat terus menciptakan nilai tambah yang berkelanjutan sekaligus berkontribusi nyata bagi masa depan Indonesia yang lebih inklusif dan berkelanjutan.

- *Expansion of financial access for underserved segments.*

- *Enhancement of efficiency and competitiveness through Operational Digital Transformation.*

Environmental Approach: Managing Impacts and Supporting the Green Transition

Bank Maspion is committed to minimising the environmental footprint of its operations while actively supporting the green economy agenda through:

- *Implementation of environmentally friendly operational practices, including energy efficiency and responsible waste management.*
- *Digitalisation of banking services to reduce paper usage and carbon footprint.*
- *Financing support for renewable energy projects and environmentally focused businesses, such as clean water management and recycling.*

Social Approach: Empowering Communities and Expanding Positive Impact

Community empowerment forms a core part of Bank Maspion's contribution to building a more inclusive economy, through:

- *Strengthening the Community Business Model and financial literacy and inclusion programmes.*
- *Expanding access to financing for MSMEs and small businesses.*
- *Implementation of social responsibility programmes focusing on education, health, and community welfare.*

Governance Approach: Ensuring Integrity and Responsible Growth

Bank Maspion places good governance as the foundation of its sustainability strategy by:

- *Upholding the principles of transparency, accountability, and regulatory compliance.*
- *Conducting regular ESG risk assessments across business and financing activities.*
- *Ensuring active management oversight in providing strategic direction, monitoring sustainability performance, and fostering a culture of integrity and ethical conduct.*

Through this holistic and integrated sustainability strategy, Bank Maspion continues to strengthen its resilience in navigating global and domestic challenges, including climate change and social inequality. With this approach, the Bank is confident in delivering sustainable value while contributing meaningfully to a more inclusive and sustainable future for Indonesia.

Kegiatan Membangun Budaya Keberlanjutan

Bagi Bank Maspion, keberlanjutan tidak diposisikan semata sebagai agenda jangka panjang, melainkan sebagai pola pikir dan cara kerja yang diterapkan secara konsisten dalam setiap aktivitas bisnis. Budaya keberlanjutan dibangun untuk memastikan bahwa pertumbuhan usaha berjalan selaras dengan tanggung jawab sosial dan kepedulian terhadap lingkungan.

Upaya membangun budaya keberlanjutan tersebut diwujudkan melalui berbagai kegiatan berikut:

1. **Integrasi Keberlanjutan dalam Nilai dan Perilaku Kerja**
Prinsip keberlanjutan diinternalisasikan ke dalam nilai-nilai perusahaan, seperti layanan prima, kedisiplinan, kolaborasi, dedikasi, dan loyalitas. Nilai-nilai ini menjadi rujukan dalam pengambilan keputusan dan pelaksanaan tugas sehari-hari, sehingga aspek keberlanjutan tercermin dalam perilaku kerja seluruh insan Bank.
2. **Peningkatan Kapasitas dan Kesadaran Karyawan**
Bank secara berkelanjutan menyelenggarakan program edukasi, mulai dari pelatihan, lokakarya, hingga sosialisasi internal. Kegiatan ini bertujuan untuk memperluas pemahaman karyawan mengenai keuangan berkelanjutan, pengelolaan risiko lingkungan, sosial, dan tata kelola (LST), serta praktik ramah lingkungan dalam operasional perbankan.
3. **Penerapan Praktik Kerja Ramah Lingkungan**
Budaya keberlanjutan juga diterjemahkan ke dalam aksi nyata di lingkungan kerja, antara lain melalui digitalisasi untuk mengurangi penggunaan kertas, pembatasan plastik sekali pakai, serta penerapan pemilahan sampah. Kampanye internal bertema *go green* mendorong partisipasi aktif karyawan dalam membentuk kebiasaan kerja yang lebih bertanggung jawab terhadap lingkungan.
4. **Pengembangan Produk dan Layanan Berkelanjutan**
Sejalan dengan budaya keberlanjutan, Bank terus mengembangkan produk dan layanan yang mendukung inklusi keuangan serta pembiayaan pada sektor-sektor yang memberikan dampak sosial dan lingkungan. Pendekatan ini memperkuat peran Bank sebagai mitra pembangunan yang berkontribusi pada pertumbuhan ekonomi yang inklusif.
5. **Pemantauan dan Penyempurnaan Berkelanjutan**
Seluruh inisiatif keberlanjutan dievaluasi secara berkala untuk mengukur efektivitas serta dampaknya terhadap pemangku kepentingan. Hasil pemantauan tersebut menjadi dasar bagi Bank dalam melakukan perbaikan berkelanjutan dan mengidentifikasi peluang inovasi ke depan.

Activities to Build a Culture of Sustainability [OJK F.1] [GRI 2-24]

For Bank Maspion, sustainability is not viewed merely as a long-term objective, but as a way of thinking and working that is consistently embedded across business and operational activities. Building a sustainability culture is a strategic effort to ensure balanced growth that aligns economic performance with social responsibility and environmental stewardship.

The Bank fosters a sustainability-driven culture through the following initiatives:

1. **Embedding Sustainability into Corporate Values and Conduct**
Sustainability principles are integrated into the Bank's core values, including service excellence, discipline, collaboration, dedication, and loyalty. These values guide daily decision-making and work practices, ensuring that sustainability becomes an integral part of the Bank's identity.
2. **Enhancing Employee Awareness and Capability**
The Bank regularly conducts training sessions, workshops, and internal communications to strengthen employees' understanding of sustainable finance, environmental, social, and governance (ESG) risk management, and environmentally responsible banking practices.
3. **Promoting Environmentally Responsible Workplace Practices**
Concrete actions are implemented to support a greener workplace, such as digitalization to reduce paper usage, minimizing single-use plastics, and implementing waste segregation across work units. Internal go green campaigns further encourage employees to actively adopt environmentally friendly behaviors.
4. **Advancing Sustainable Products and Services**
As part of its sustainability culture, the Bank continues to develop products and services that promote financial inclusion and support financing for sectors with positive social and environmental impact. This approach enhances value creation for customers while contributing to sustainable development goals.
5. **Continuous Monitoring and Improvement**
Sustainability initiatives are regularly monitored and evaluated to assess their effectiveness and impact on stakeholders. The outcomes of this process serve as a basis for continuous improvement and future innovation.

Melalui pendekatan ini, Bank Maspion menumbuhkan budaya keberlanjutan yang tidak hanya meningkatkan daya saing, tetapi juga memperkuat kontribusi Bank dalam menjaga keseimbangan antara kepentingan ekonomi, sosial, dan lingkungan secara berkelanjutan.

PENERAPAN KEUANGAN BERKELANJUTAN

Bagi Bank Maspion, keuangan berkelanjutan dipandang bukan semata sebagai kewajiban kepatuhan, melainkan sebagai pendekatan strategis dalam mengelola pertumbuhan jangka panjang secara bertanggung jawab. Penerapan keuangan berkelanjutan dilakukan dengan mempertimbangkan karakteristik bisnis, kapasitas internal, serta dinamika lingkungan usaha Bank, sejalan dengan ketentuan Otoritas Jasa Keuangan (OJK).

Sebagai wujud komitmen tersebut, Bank menyusun Rencana Aksi Keuangan Berkelanjutan (RAKB) yang berfungsi sebagai peta jalan integrasi prinsip keberlanjutan ke dalam strategi, kebijakan, dan aktivitas operasional Bank. RAKB disusun dengan mengacu pada POJK 51/POJK.03/2017 serta pedoman teknis terkait, guna memastikan bahwa aspek ekonomi, sosial, dan lingkungan dikelola secara seimbang dan terukur.

Dalam implementasinya, keuangan berkelanjutan menjadi kerangka pengambilan keputusan yang mendorong Bank untuk tidak hanya berorientasi pada kinerja finansial, tetapi juga pada penciptaan nilai jangka panjang bagi pemangku kepentingan. Melalui pendekatan ini, Bank berupaya memperkuat kontribusinya terhadap agenda pembangunan global tanpa mengabaikan prinsip kehati-hatian dan keberlanjutan usaha.

Kontribusi Keuangan Berkelanjutan terhadap SDGs

Sebagai bagian dari peran aktifnya dalam mendukung pembangunan berkelanjutan, Bank Maspion menyelaraskan inisiatif keuangan berkelanjutan dengan *Sustainable Development Goals* (SDGs). Bank memfokuskan kontribusinya pada enam pilar SDGs yang dinilai paling relevan dengan kegiatan usaha serta kebutuhan masyarakat di wilayah operasional Bank, yaitu:

1. Pendidikan Berkualitas (SDG 4)
Mendukung akses layanan keuangan bagi sektor pendidikan serta pembiayaan program-program yang berkontribusi pada peningkatan kualitas sumber daya manusia.
2. Kesenjangan Gender (SDG 5)
Mendorong penerapan prinsip kesetaraan dan inklusi di lingkungan kerja, sekaligus menyediakan layanan keuangan yang mendukung pemberdayaan perempuan.
3. Pekerjaan Layak dan Pertumbuhan Ekonomi (SDG 8)
Memperluas akses pembiayaan bagi UMKM dan sektor produktif lainnya untuk mendorong pertumbuhan ekonomi yang inklusif dan berkelanjutan.

Through these efforts, Bank Maspion strengthens its sustainability culture not only to enhance competitiveness, but also to play an active role in balancing economic growth with social and environmental responsibility.

IMPLEMENTATION OF SUSTAINABLE FINANCE [GRI 2-14]

For Bank Maspion, sustainable finance is not merely a regulatory requirement, but a strategic approach to managing long-term growth responsibly. The Bank implements sustainable finance by taking into account its business characteristics, internal capacity, and the dynamics of its operating environment, in line with regulations issued by the Financial Services Authority (OJK).

As part of this commitment, the Bank has developed a Sustainable Finance Action Plan (RAKB) as a strategic roadmap to integrate sustainability principles into its strategies, policies, and day-to-day operations. The RAKB refers to POJK 51/POJK.03/2017 and relevant technical guidelines, ensuring a balanced and measurable management of economic, social, and environmental aspects.

Through its implementation, sustainable finance serves as a guiding framework for decision-making, encouraging the Bank to focus not only on financial performance but also on long-term value creation for stakeholders. This approach enables the Bank to contribute meaningfully to global development objectives while maintaining prudent and sustainable business practices.

Role of Sustainable Finance in Supporting the SDGs

As part of its commitment to sustainable development, Bank Maspion aligns its sustainable finance initiatives with the Sustainable Development Goals (SDGs). The Bank focuses on six SDG pillars that are most relevant to its business activities and the communities it serves:

1. Quality Education (SDG 4)
Supporting access to financial services for educational institutions and financing programs that enhance human capital development.
2. Gender Equality (SDG 5)
Promoting diversity and inclusion within the organization while providing financial services that support women's empowerment.
3. Decent Work and Economic Growth (SDG 8)
Expanding financing access for MSMEs and productive sectors to foster inclusive and sustainable economic growth.

4. Industri, Inovasi, dan Infrastruktur (SDG 9)
Mendukung pembiayaan proyek infrastruktur dan inisiatif berbasis inovasi yang memiliki dampak positif bagi perekonomian dan konektivitas.
5. Konsumsi dan Produksi yang Bertanggung Jawab (SDG 12)
Menerapkan efisiensi operasional dan digitalisasi layanan sebagai upaya mengurangi jejak lingkungan dalam aktivitas perbankan.
6. Penanganan Perubahan Iklim (SDG 13)
Mendukung pembiayaan kegiatan dan proyek yang berorientasi pada perlindungan lingkungan serta penerapan praktik bisnis rendah karbon.

4. *Industry, Innovation, and Infrastructure (SDG 9)*
Supporting financing for infrastructure projects and innovation-driven initiatives that contribute to economic development.
5. *Responsible Consumption and Production (SDG 12)*
Reducing environmental impacts through operational efficiency and service digitalization within banking activities.
6. *Climate Action (SDG 13)*
Supporting environmentally friendly projects and encouraging low-carbon business practices.

Bank menyadari bahwa penerapan keuangan berkelanjutan merupakan proses berkelanjutan yang menuntut pembelajaran, penyesuaian, dan inovasi secara konsisten. Melalui RAKB, Bank menetapkan arah strategis dan target keberlanjutan yang realistis dan terukur, sehingga setiap inisiatif yang dijalankan dapat memberikan dampak nyata bagi masyarakat dan lingkungan.

The Bank recognizes that sustainable finance is an ongoing journey that requires continuous adaptation and innovation. Through the RAKB, the Bank sets strategic priorities and measurable sustainability targets to ensure that each initiative delivers tangible benefits to society and the environment.

Dengan komitmen tersebut, Bank Maspion terus memperkuat perannya sebagai institusi keuangan yang tidak hanya menciptakan nilai ekonomi, tetapi juga berkontribusi dalam membangun fondasi pembangunan yang berkelanjutan bagi generasi mendatang.

Guided by its sustainability vision, Bank Maspion remains committed not only to creating economic value, but also to serving as a trusted partner in building a more sustainable future for generations to come.

Rencana Aksi Keuangan Berkelanjutan di Bank Maspion

Rencana Aksi Keuangan Berkelanjutan (RAKB) bagi Bank Maspion diposisikan sebagai instrumen transformasi yang mengarahkan Bank dalam membangun fondasi bisnis yang tangguh dan bertanggung jawab. RAKB tidak hanya berfungsi sebagai dokumen perencanaan, tetapi sebagai panduan implementatif untuk memastikan bahwa prinsip keberlanjutan tertanam secara konsisten dalam pengelolaan usaha Bank.

RAKB disusun dengan mempertimbangkan dua horizon waktu yaitu jangka pendek dan jangka panjang, dengan penekanan awal pada penguatan kesiapan internal. Fokus utama diarahkan pada peningkatan kapasitas sumber daya manusia melalui program pembelajaran berkelanjutan yang memperluas pemahaman karyawan terhadap isu Lingkungan, Sosial, dan Tata Kelola (LST). Seiring dengan itu, Bank melakukan penelaahan dan pemetaan portofolio pembiayaan guna mengidentifikasi peluang pada sektor-sektor yang memberikan manfaat lingkungan dan sosial.

Keberlanjutan sebagai Bagian dari Arah Strategis Bank

Dalam kerangka RAKB, keberlanjutan diperlakukan sebagai bagian integral dari strategi korporasi, bukan sebagai inisiatif yang berdiri sendiri. Direksi memainkan peran kunci dalam mengarahkan agenda LST dengan menetapkan fokus prioritas, memastikan pengelolaan risiko yang seimbang, serta menangkap peluang pertumbuhan yang selaras dengan prinsip keberlanjutan.

Pendekatan ini tercermin dalam komitmen Bank untuk memperluas pembiayaan inklusif, khususnya bagi segmen Usaha Mikro, Kecil, dan Menengah (UMKM), termasuk pelaku usaha yang masuk dalam kategori Kegiatan Usaha Berwawasan Lingkungan (KUBL). Dengan demikian, strategi bisnis Bank tidak hanya mendorong pertumbuhan, tetapi juga memperkuat kontribusi sosial dan lingkungan.

Landasan Prinsip Keuangan Berkelanjutan

Untuk memastikan konsistensi implementasi, Bank Maspion menerapkan empat prinsip utama sebagai fondasi keuangan berkelanjutan, yaitu:

1. **Pengelolaan Risiko Berbasis Keberlanjutan**
Mengintegrasikan pertimbangan lingkungan dan sosial ke dalam kerangka manajemen risiko guna menjaga kualitas aset dan ketahanan usaha.
2. **Dukungan terhadap Sektor Ekonomi Prioritas**
Mengalokasikan pembiayaan kepada sektor-sektor yang berkontribusi pada pertumbuhan ekonomi yang inklusif dan berkelanjutan.

Sustainable Finance Action Plan at Bank Maspion

The Sustainable Finance Action Plan (RAKB) for Bank Maspion serves as a transformation framework that guides the Bank in building a resilient and responsible business foundation. Beyond a planning document, the RAKB functions as an implementation roadmap to ensure that sustainability principles are consistently embedded in the Bank's operations and business activities.

The RAKB is developed across two time horizons—short-term and long-term—with an initial focus on strengthening internal readiness. Priority is given to enhancing human capital through continuous learning programs designed to deepen employees' understanding of Environmental, Social, and Governance (ESG) issues. In parallel, the Bank reviews and maps its financing portfolio to identify opportunities in sectors that generate positive environmental and social impact.

Embedding Sustainability into the Bank's Strategic Direction

Within the RAKB framework, sustainability is treated as an integral component of corporate strategy rather than a standalone initiative. The Board of Directors plays a central role in steering the ESG agenda by setting priority areas, balancing risks and opportunities, and ensuring alignment across business units.

This strategic approach is reflected in the Bank's commitment to expanding inclusive financing, particularly for Micro, Small, and Medium Enterprises (MSMEs), including those classified as Environmentally Sound Business Activities (KUBL). Through this focus, business growth is pursued alongside meaningful social and environmental contributions.

Core Principles of Sustainable Finance

To ensure consistent implementation, Bank Maspion applies four core principles of sustainable finance:

1. **Sustainability-Based Risk Management**
Integrating environmental and social considerations into risk management frameworks to safeguard asset quality and business resilience.
2. **Development of Priority Economic Sectors**
Supporting sectors that contribute to inclusive and sustainable economic growth.

3. Penguatan Tata Kelola Perusahaan
Mendorong penerapan tata kelola yang baik, termasuk transparansi dan akuntabilitas dalam pengelolaan dampak lingkungan dan sosial.
4. Peningkatan Kapasitas dan Kolaborasi
Memperkuat sinergi melalui kemitraan strategis lintas pemangku kepentingan untuk mempercepat penerapan keuangan berkelanjutan.

3. *Strong Corporate Governance*
Upholding sound governance practices, including transparency and accountability in managing environmental and social impacts.
4. *Capacity Building and Collaborative Partnerships*
Strengthening synergies through cross-sector collaboration to enhance sustainable finance implementation.

Kontribusi terhadap Agenda Pembangunan Berkelanjutan

Sebagai bagian dari perannya dalam mendukung pembangunan nasional, Bank Maspion menyelaraskan inisiatif keberlanjutan dengan arah kebijakan pembangunan jangka menengah dan panjang, serta prinsip 3P (*People, Planet, Profit*) dan LST. Pendekatan ini menjadi dasar penciptaan nilai jangka panjang sekaligus memperkuat daya saing Bank.

Menjawab tantangan perubahan iklim, Bank juga mengarahkan pembiayaan dan inovasi layanannya untuk mendukung upaya mitigasi dan adaptasi risiko iklim. Komitmen ini diwujudkan melalui dukungan terhadap proyek ramah lingkungan serta pengembangan layanan keuangan yang mendorong transisi menuju ekonomi rendah karbon. **[GRI 2-16]**

Penguatan Produk dan Layanan Berkelanjutan

Sejalan dengan RAKB, Bank Maspion secara bertahap memperluas cakupan produk dan layanan keuangan berkelanjutan, baik dari sisi penghimpunan dana maupun penyaluran pembiayaan. Langkah ini ditujukan untuk merespons kebutuhan nasabah akan solusi keuangan yang tidak hanya kompetitif, tetapi juga bertanggung jawab.

Melalui penguatan portofolio berkelanjutan, Bank menegaskan perannya sebagai mitra keuangan yang mendukung terbentuknya ekosistem ekonomi rendah karbon dan pembangunan yang lebih inklusif. **[OJK F26]**

Commitment to Sustainable Development

As part of its responsibility to support national development agendas, Bank Maspion aligns its sustainability initiatives with medium- and long-term development plans as well as the 3P principle (People, Planet, Profit) and ESG. This approach underpins long-term value creation while reinforcing the Bank's resilience and competitiveness.

*In response to climate-related challenges, the Bank also prioritizes climate risk mitigation and adaptation by supporting environmentally friendly projects and advancing sustainable financial innovations. **[GRI 2-16]***

Advancing Sustainable Products and Services

In line with RAKB, Bank Maspion is gradually expanding the scope of its sustainable financial products and services, both in terms of fund collection and financing distribution. This step is aimed at responding to customer needs for financial solutions that are not only competitive but also responsible.

*Through the strengthening of its sustainable portfolio, the Bank affirms its role as a financial partner that supports the formation of a low-carbon economic ecosystem and more inclusive development. **[OJK F26]***

Pesan Direksi

Board of Directors' Message [OJK D.1] [GRI 2-22, 2-23]

Para Pemangku Kepentingan yang terhormat,

Direksi Bank Maspion memandang keberlanjutan sebagai fondasi penting dalam menjaga pertumbuhan usaha yang sehat, bertanggung jawab, dan berdaya tahan. Dalam dinamika ekonomi dan transformasi sektor keuangan yang terus berkembang, Bank berkomitmen untuk mengintegrasikan aspek ekonomi, sosial, dan lingkungan secara seimbang dalam setiap keputusan strategis dan operasional.

Bagi Bank Maspion, keberlanjutan bukan sekadar kewajiban kepatuhan terhadap regulasi, tetapi merupakan bagian dari arah strategis Perseroan untuk menciptakan nilai jangka panjang bagi pemegang saham, nasabah, karyawan, serta masyarakat luas. Pendekatan ini dilakukan melalui integrasi prinsip Lingkungan, Sosial, dan Tata Kelola (LST) dalam strategi bisnis, manajemen risiko, pengembangan produk, serta tata kelola perusahaan yang baik.

Melalui Laporan Keberlanjutan ini, Bank Maspion menyampaikan berbagai langkah strategis, capaian, serta komitmen berkelanjutan yang telah dilaksanakan sepanjang tahun 2025 dalam mendukung pembangunan ekonomi yang inklusif dan berkelanjutan.

Kebijakan untuk Merespon Tantangan dalam Pemenuhan Strategi Keberlanjutan [OJK E.5]

Dalam menghadapi berbagai tantangan global maupun domestik, termasuk perubahan iklim, kesenjangan sosial, serta dinamika regulasi di sektor keuangan, Bank Maspion terus memperkuat kebijakan keberlanjutan sebagai bagian dari strategi bisnis jangka panjang.

Direksi memastikan bahwa implementasi strategi keberlanjutan dilakukan secara terstruktur melalui penyusunan Rencana Aksi Keuangan Berkelanjutan (RAKB) yang berfungsi sebagai peta jalan dalam mengintegrasikan prinsip keberlanjutan ke dalam kebijakan, proses bisnis, serta aktivitas operasional Bank. RAKB disusun dengan mengacu pada ketentuan POJK No. 51/POJK.03/2017 mengenai penerapan keuangan berkelanjutan bagi lembaga jasa keuangan.

Dalam implementasinya, Bank menerapkan pendekatan yang menyeluruh melalui penguatan empat dimensi utama keberlanjutan, yaitu:

- Pendekatan ekonomi, melalui penguatan fungsi intermediasi yang bertanggung jawab serta peningkatan pembiayaan kepada sektor produktif dan UMKM.
- Pendekatan lingkungan, melalui pengelolaan dampak lingkungan operasional dan dukungan terhadap kegiatan usaha yang berwawasan lingkungan.
- Pendekatan sosial, melalui peningkatan inklusi keuangan serta program pemberdayaan masyarakat.
- Pendekatan tata kelola, melalui penerapan prinsip transparansi, akuntabilitas, dan manajemen risiko yang terintegrasi dengan aspek LST.

Dear Stakeholders,

The Board of Directors of Bank Maspion views sustainability as a fundamental foundation in maintaining responsible, resilient, and sustainable business growth. Amid the evolving dynamics of the financial sector and broader economic environment, the Bank remains committed to integrating economic, social, and environmental considerations into every strategic and operational decision.

For Bank Maspion, sustainability is not merely a regulatory compliance requirement, but a strategic direction to create long-term value for shareholders, customers, employees, and the wider community. This commitment is reflected through the integration of Environmental, Social, and Governance (ESG) principles into the Bank's business strategy, risk management framework, product development, and corporate governance practices.

Through this Sustainability Report, Bank Maspion presents its strategic initiatives, achievements, and ongoing commitments throughout 2025 in supporting inclusive and sustainable economic development.

Policies to Address Challenges in Implementing the Sustainability Strategy [OJK E.5]

In responding to various global and domestic challenges, including climate change, social inequality, and the evolving regulatory landscape in the financial sector, Bank Maspion continues to strengthen its sustainability policies as part of its long-term business strategy.

The Board of Directors ensures that sustainability initiatives are implemented in a structured and measurable manner through the Sustainable Finance Action Plan (RAKB), which serves as a roadmap for integrating sustainability principles into the Bank's policies, business processes, and operational activities. The RAKB is developed in accordance with OJK Regulation No. 51/POJK.03/2017 concerning the implementation of sustainable finance for financial institutions.

In its implementation, the Bank adopts a comprehensive approach by strengthening four key sustainability dimensions:

- *Economic approach, by reinforcing responsible financial intermediation and expanding financing to productive sectors and MSMEs.*
- *Environmental approach, by managing the environmental impact of operational activities and supporting environmentally responsible business initiatives.*
- *Social approach, by promoting financial inclusion and implementing community empowerment programs.*
- *Governance approach, by upholding transparency, accountability, and risk management frameworks that incorporate ESG considerations.*

Melalui kebijakan tersebut, Bank Maspion berupaya memastikan bahwa strategi pertumbuhan yang dijalankan tetap sejalan dengan prinsip kehati-hatian, keberlanjutan usaha, serta kepentingan para pemangku kepentingan.

Penerapan Keuangan Berkelanjutan dan Kinerja Keberlanjutan 2025

Sepanjang tahun 2025, Bank Maspion terus memperkuat implementasi keuangan berkelanjutan sebagai bagian dari upaya menciptakan nilai jangka panjang yang seimbang antara kinerja finansial dan dampak sosial serta lingkungan.

Dari sisi kinerja ekonomi, Bank mencatatkan total aset sebesar Rp22,4 triliun dengan laba tahun berjalan sebesar Rp31,8 miliar, yang mencerminkan upaya pemulihan kinerja serta penguatan fondasi bisnis Perseroan. Bank juga terus memperluas kontribusi terhadap pembiayaan kegiatan usaha berkelanjutan yang mencapai Rp949,6 miliar atau sekitar 5,48% dari total portofolio pembiayaan Bank.

Pada aspek lingkungan, Bank Maspion menunjukkan peningkatan efisiensi operasional yang tercermin dari penurunan konsumsi energi dan emisi gas rumah kaca. Total emisi GRK (cakupan 1 dan 2) tercatat sebesar 3.197,77 ton CO₂eq, menurun dibandingkan tahun sebelumnya. Upaya efisiensi ini didukung oleh digitalisasi operasional, pengurangan penggunaan kertas, serta pengelolaan energi yang lebih efektif.

Bank juga menjalankan berbagai inisiatif pelestarian lingkungan, salah satunya melalui program “Green Threads: Roots for the Future”, yang mencakup kegiatan penanaman pohon sebagai kontribusi terhadap pelestarian keanekaragaman hayati.

Dari sisi sosial, Bank Maspion terus memperkuat peran dalam mendorong inklusi keuangan dan pemberdayaan masyarakat, termasuk melalui dukungan pembiayaan kepada UMKM, peningkatan literasi keuangan, serta berbagai program tanggung jawab sosial yang berfokus pada pendidikan, kesehatan, dan kesejahteraan masyarakat.

Strategi Pencapaian Target

Ke depan, Bank Maspion akan terus memperkuat strategi keberlanjutan melalui pendekatan yang terintegrasi antara strategi bisnis, manajemen risiko, dan tata kelola perusahaan.

Beberapa fokus utama yang menjadi prioritas Bank dalam mencapai target keberlanjutan antara lain:

- Penguatan portofolio pembiayaan berkelanjutan, khususnya pada sektor produktif dan kegiatan usaha berwawasan lingkungan.
- Peningkatan kapasitas internal, melalui pengembangan kompetensi sumber daya manusia terkait pengelolaan risiko LST dan praktik keuangan berkelanjutan.

Through these policies, Bank Maspion strives to ensure that its growth strategy remains aligned with prudent banking principles, long-term sustainability, and the interests of all stakeholders.

Implementation of Sustainable Finance and Sustainability Performance in 2025

Throughout 2025, Bank Maspion continued to strengthen the implementation of sustainable finance as part of its commitment to creating long-term value while balancing financial performance with social and environmental impact.

From an economic perspective, the Bank recorded total assets of Rp22.4 trillion and achieved a current year profit of Rp31.8 billion, reflecting efforts to strengthen the Bank's financial foundation and operational resilience. The Bank also maintained its commitment to sustainable financing, with total financing for sustainable business activities reaching Rp949.6 billion, representing 5.48% of the Bank's total financing portfolio.

In terms of environmental performance, Bank Maspion demonstrated improved operational efficiency, as reflected in the reduction of energy consumption and greenhouse gas emissions. Total GHG emissions (Scope 1 and Scope 2) amounted to 3,197.77 tons of CO₂ equivalent, representing a decrease compared with the previous year. These improvements were supported by operational digitalization, reduced paper usage, and more efficient energy management practices.

The Bank also implemented environmental initiatives, including the “Green Threads: Roots for the Future” program, which involved tree-planting activities aimed at supporting biodiversity preservation and environmental sustainability.

From a social perspective, Bank Maspion continued to strengthen its role in promoting financial inclusion and community empowerment, particularly through financing support for MSMEs, financial literacy programs, and corporate social responsibility initiatives focusing on education, health, and community welfare.

Strategy for Achieving Sustainability Targets

Looking ahead, Bank Maspion will continue to strengthen its sustainability strategy through an integrated approach that aligns business strategy, risk management, and corporate governance.

The Bank's key priorities in achieving its sustainability targets include:

- *Expanding sustainable financing portfolios, particularly in productive sectors and environmentally responsible business activities.*
- *Strengthening internal capacity, including enhancing employee competencies related to ESG risk management and sustainable finance practices.*

- Pengembangan produk dan layanan keuangan berkelanjutan, yang mendukung inklusi keuangan serta kebutuhan pembiayaan sektor yang memberikan dampak sosial dan lingkungan positif.
- Peningkatan efisiensi operasional berbasis digital, untuk mengurangi jejak lingkungan sekaligus meningkatkan efektivitas layanan kepada nasabah.
- Penguatan tata kelola keberlanjutan, melalui pemantauan dan evaluasi berkala atas implementasi RAKB serta integrasi aspek LST dalam kerangka manajemen risiko Bank.
- *Developing sustainable financial products and services, aimed at promoting financial inclusion and supporting sectors that generate positive social and environmental impacts.*
- *Improving digital-based operational efficiency, to reduce environmental footprint while enhancing service effectiveness for customers.*
- *Strengthening sustainability governance, through continuous monitoring and evaluation of the Sustainable Finance Action Plan (RAKB) and integrating ESG considerations into the Bank's risk management framework.*

Dengan strategi tersebut, Bank Maspion berupaya memperkuat perannya sebagai institusi keuangan yang mampu mendorong pertumbuhan ekonomi yang inklusif sekaligus mendukung transisi menuju ekonomi yang lebih berkelanjutan.

Through these strategic priorities, Bank Maspion aims to reinforce its role as a financial institution that supports inclusive economic growth while contributing to the transition toward a more sustainable economy.

Apresiasi

Bank Maspion menyadari bahwa perjalanan menuju keberlanjutan merupakan proses jangka panjang yang memerlukan komitmen, konsistensi, serta kolaborasi dengan seluruh pemangku kepentingan. Oleh karena itu, Bank terus mendorong inovasi, meningkatkan kapasitas internal, serta memperkuat sinergi dengan regulator, nasabah, mitra usaha, dan masyarakat.

Appreciation

The Board of Directors recognizes that the journey toward sustainability is a long-term process that requires strong commitment, consistency, and collaboration with all stakeholders. Therefore, the Bank continues to encourage innovation, strengthen internal capabilities, and enhance partnerships with regulators, customers, business partners, and the community.

Dengan fondasi tata kelola yang kuat serta strategi keberlanjutan yang terintegrasi, Bank Maspion optimistis dapat terus menciptakan nilai tambah yang berkelanjutan bagi seluruh pemangku kepentingan sekaligus berkontribusi pada pembangunan ekonomi yang inklusif, tangguh, dan berkelanjutan di Indonesia.

With strong governance foundations and an integrated sustainability strategy, Bank Maspion remains confident in its ability to create sustainable value for stakeholders while contributing to inclusive, resilient, and sustainable economic development in Indonesia.

Direksi juga menyampaikan apresiasi kepada seluruh pemangku kepentingan atas dukungan dan kepercayaan yang diberikan kepada Bank Maspion dalam menjalankan komitmen keberlanjutan ini. Dukungan tersebut menjadi motivasi bagi Bank untuk terus melangkah maju dalam menciptakan masa depan yang lebih baik bagi generasi mendatang.

The Board of Directors would also like to express its sincere appreciation to all stakeholders for their continued trust and support for Bank Maspion's sustainability initiatives. This support serves as an important motivation for the Bank to continue advancing toward a more sustainable future for generations to come.

Tinjauan Perekonomian & Ketahanan Sistem Perbankan

Economic Review & Banking System Resilience

Pada 2025, perekonomian global tumbuh secara moderat di tengah tingkat ketidakpastian yang masih tinggi. Normalisasi kebijakan moneter di negara maju, volatilitas harga komoditas, serta meningkatnya tensi geopolitik dan fragmentasi perdagangan global terus membentuk dinamika ekonomi dunia. Di tengah kondisi tersebut, perekonomian Indonesia mampu mempertahankan kinerja yang solid dan relatif stabil.

Badan Pusat Statistik (BPS) mencatat pertumbuhan ekonomi Indonesia tahun 2025 sebesar 5,11%, meningkat dibandingkan tahun 2024 sebesar 5,03%. Pertumbuhan ini didorong oleh penguatan konsumsi domestik dan investasi, serta kontribusi positif ekspor barang dan jasa yang mencatatkan pertumbuhan tertinggi dari sisi pengeluaran. Capaian tersebut mencerminkan ketahanan permintaan domestik serta daya saing ekonomi nasional di tengah perlambatan global.

Stabilitas harga tetap terjaga dalam kisaran sasaran, meskipun terdapat tekanan musiman pada akhir tahun. Inflasi tahunan (yoy) pada Desember 2025 tercatat sebesar 2,92%, menunjukkan inflasi yang relatif terkendali dan tetap mendukung daya beli masyarakat. Sejalan dengan upaya menjaga stabilitas makroekonomi dan nilai tukar di tengah dinamika global, Bank Indonesia mempertahankan BI-Rate pada level 4,75% hingga akhir 2025, disertai penguatan bauran kebijakan moneter, makprudensial, dan sistem pembayaran guna menopang pertumbuhan ekonomi yang berkelanjutan.

Ketahanan sistem perbankan nasional juga terjaga dengan baik sepanjang 2025. Kinerja intermediasi tetap kuat, didukung oleh permodalan yang solid dan likuiditas yang memadai. Otoritas Jasa Keuangan (OJK) mencatat bahwa hingga Desember 2025, kredit perbankan tumbuh 9,63% (yoy) menjadi Rp8.586 triliun, sementara Dana Pihak Ketiga (DPK) meningkat 13,83% (yoy) menjadi Rp10.059 triliun. Perkembangan ini mencerminkan kemampuan perbankan dalam menghimpun dana dan menyalurkan pembiayaan secara berkelanjutan.

Dari sisi likuiditas, kondisi perbankan berada jauh di atas ambang batas regulasi, tercermin pada rasio AL/NCD sebesar 126,15%, AL/DPK sebesar 28,57%, serta *Liquidity Coverage Ratio* (LCR) sebesar 200,97%. Kualitas aset dan kemampuan perbankan dalam menyerap

In 2025, the global economy expanded at a moderate pace amid persistently high uncertainty. Monetary policy normalization in advanced economies, commodity price volatility, and rising geopolitical tensions and trade fragmentation continued to shape global economic conditions. Against this backdrop, Indonesia's economy demonstrated resilient and stable performance.

Statistics Indonesia (BPS) recorded Indonesia's economic growth at 5.11% in 2025, an improvement from 5.03% in 2024. This growth was supported by stronger domestic consumption and investment, alongside a positive contribution from exports of goods and services, which posted the highest growth on the expenditure side. These developments reflect the resilience of domestic demand and Indonesia's economic competitiveness amid global headwinds.

Price stability remained well within the targeted range, despite seasonal pressures toward year-end. Year-on-year inflation in December 2025 stood at 2.92%, indicating a relatively contained inflation environment that continued to support household purchasing power. In line with efforts to safeguard macroeconomic and exchange rate stability amid global volatility, Bank Indonesia maintained the BI-Rate at 4.75% through the end of 2025, complemented by a reinforced policy mix to support sustainable economic growth.

The resilience of Indonesia's banking system was also well maintained throughout 2025. Financial intermediation remained robust, underpinned by strong capital buffers and ample liquidity. The Financial Services Authority (OJK) reported that as of December 2025, bank credit grew by 9.63% year-on-year to IDR 8,586 trillion, while third-party funds (DPK) increased by 13.83% year-on-year to IDR 10,059 trillion. These trends highlight the banking sector's continued capacity to mobilize funds and extend financing to the economy.

Liquidity conditions remained comfortably above regulatory thresholds, as reflected in a Liquid Assets to Non-Core Deposits (AL/NCD) ratio of 126.15%, a Liquid Assets to Deposits (AL/DPK) ratio of 28.57%, and a strong Liquidity Coverage Ratio (LCR) of 200.97%. Asset quality

risiko juga tetap terjaga. OJK mencatat NPL gross sebesar 2,05% dan NPL net sebesar 0,79%, dengan *Loan at Risk* (LaR) sebesar 8,77% yang menunjukkan tren penurunan, mencerminkan penerapan manajemen risiko yang pruden.

Dari sisi permodalan dan profitabilitas, perbankan nasional menunjukkan tingkat ketahanan yang kuat, dengan *Capital Adequacy Ratio* (CAR) sebesar 25,89% dan *Return on Assets* (ROA) sebesar 2,53%. Dengan kombinasi pertumbuhan ekonomi yang stabil, inflasi yang terkendali, serta sistem perbankan yang likuid, berkapital kuat, dan memiliki risiko kredit yang terkelola dengan baik, sistem keuangan Indonesia pada 2025 berada pada posisi yang solid untuk mendukung pembiayaan perekonomian nasional sekaligus menjaga stabilitas di tengah ketidakpastian global.

and risk absorption capacity were also well preserved. OJK recorded a gross NPL ratio of 2.05% and a net NPL ratio of 0.79%, alongside a declining Loan at Risk (LaR) ratio of 8.77%, indicating prudent risk management practices.

In terms of capitalization and profitability, the banking sector remained highly resilient, with a Capital Adequacy Ratio (CAR) of 25.89% and a Return on Assets (ROA) of 2.53%. Overall, the combination of stable economic growth, contained inflation, and a well-capitalized and liquid banking system with manageable credit risk positioned Indonesia's financial system in 2025 to effectively support economic financing while maintaining stability amid global uncertainty.

Operasi Bisnis Berkelanjutan

Sustainable Business Operation [GRI 3-3]

Bank Maspion berkomitmen untuk menjadi institusi keuangan terdepan di tingkat regional dalam penerapan Keuangan Berkelanjutan, sebagaimana tercantum dalam Rencana Aksi Keuangan Berkelanjutan. Komitmen ini diwujudkan melalui pengembangan kapasitas internal, termasuk pendidikan dan pelatihan yang intensif bagi karyawan. Program-program ini dirancang untuk memperkuat pemahaman terhadap Keuangan Berkelanjutan, aspek teknis, dan strategi yang relevan dengan kebutuhan bank. Peningkatan kapasitas internal ini diharapkan mendorong ekspansi portofolio pembiayaan ramah lingkungan serta memperbaiki pengelolaan risiko dengan mempertimbangkan dimensi sosial dan lingkungan.

Bank Maspion is committed to becoming a regional leading financial institution in the implementation of Sustainable Finance, as stated in the Sustainable Finance Action Plan. This commitment is realized through internal capacity building, including intensive education and training for employees. These programs are designed to strengthen understanding of Sustainable Finance, technical aspects, and strategies relevant to the bank's needs. This internal capacity building is expected to drive the expansion of the bank's green financing portfolio and improve risk management by considering social and environmental dimensions.

Prinsip keberlanjutan diintegrasikan ke dalam seluruh lini operasional Bank melalui pelaksanaan program yang mendukung Keuangan Berkelanjutan. Program-program ini mencakup peningkatan kompetensi sumber daya manusia serta berbagai inisiatif yang dirancang oleh masing-masing Satuan Kerja dan Unit Kerja, bekerja sama dengan Direksi. Rencana kerja tersebut diawasi dan dievaluasi secara berkala untuk memastikan keberhasilan implementasinya. Pendekatan holistik ini mencerminkan komitmen kolektif Bank Maspion untuk menerapkan prinsip keberlanjutan di seluruh aspek operasional.

Sustainability principles are integrated into all lines of the Bank's operations through the implementation of programs that support Sustainable Finance. These programs include human resource competency enhancement as well as various initiatives designed by each Work Unit, in collaboration with the Board of Directors. The work plans are regularly monitored and evaluated to ensure successful implementation. This holistic approach reflects Bank Maspion's collective commitment to implementing sustainability principles in all aspects of its operations.

Pada tahun 2025, Bank Maspion melanjutkan langkah-langkah strategis untuk mencapai tujuan keberlanjutannya dengan program kerja Rencana Aksi Keuangan Berkelanjutan melalui prioritas kegiatan, yaitu:

1. Pengembangan Kapasitas Internal.
2. Penyesuaian organisasi, manajemen risiko, tata kelola, dan/atau standar prosedur operasional (*standard operating procedure*) yang sesuai dengan prinsip penerapan Keuangan Berkelanjutan.
3. Pengembangan Produk dan/atau Jasa Keuangan Berkelanjutan termasuk peningkatan portofolio pembiayaan, investasi atau penempatan pada instrumen keuangan atau proyek yang sejalan dengan penerapan Keuangan Berkelanjutan yang mana akan dilaksanakan sebagai bagian dari rencana jangka panjang 2026.

In 2025, Bank Maspion continues the strategic steps to achieve its sustainability goals with the Sustainable Finance Action Plan work program through priority activities, namely:

1. *Internal Capacity Building.*
2. *Modification of organisational structure, risk management, governance, and/or standard operating procedures to conform to the principles underlying the implementation of Sustainable Finance.*
3. *Development of Sustainable Financial Products and/or Services, which may include expanding the portfolio of funding, investments, or placements in financial instruments or projects that adhere to the principles of Sustainable Finance which will be implemented as part of the 2026 long-term plan.*

Produk dan Layanan

Products and Services

Pengembangan produk dan layanan Bank Maspion tidak hanya diarahkan untuk menjawab kebutuhan nasabah, tetapi juga untuk memperkuat keberlanjutan usaha Bank dalam jangka panjang. Prinsip keberlanjutan diintegrasikan ke dalam proses bisnis sebagai fondasi dalam meningkatkan kualitas layanan, menjaga efisiensi operasional, serta menciptakan nilai tambah yang berkelanjutan bagi seluruh pemangku kepentingan.

Pendekatan ini tercermin dalam komitmen Bank untuk:

- meningkatkan standar layanan secara konsisten,
- mendorong produktivitas melalui perbaikan proses dan pemanfaatan teknologi, serta
- mengelola biaya secara optimal tanpa mengurangi kualitas layanan.

Dengan menjunjung tinggi transparansi, integritas, dan inovasi, Bank terus membangun kepercayaan publik sekaligus menjaga reputasi sebagai institusi keuangan yang bertanggung jawab.

Kemitraan sebagai Katalisator Kinerja Keberlanjutan

Dalam memperluas dampak keberlanjutan, Bank Maspion memandang kolaborasi sebagai elemen kunci. Pengembangan produk dan layanan dilakukan melalui pemanfaatan teknologi, penguatan kompetensi sumber daya manusia, serta penerapan tata kelola yang baik. Pendekatan kolaboratif ini memperkuat posisi Bank tidak hanya sebagai penyedia layanan keuangan, tetapi juga sebagai mitra pembangunan yang berperan aktif dalam mendorong ekosistem perbankan berkelanjutan di Indonesia.

Ke depan, Bank akan memperluas kerja sama dengan berbagai pihak untuk mendukung pertumbuhan sektor Usaha Mikro, Kecil, dan Menengah (UMKM), termasuk melalui program penciptaan sejuta UMKM. Bank juga berkomitmen memenuhi Rasio Pembiayaan Inklusif Makroprudensial (RPIM) sesuai Rencana Bisnis Bank (RBB) sebagai bentuk kontribusi nyata dalam memperluas akses keuangan yang inklusif.

Pendekatan Manajemen dalam Pengembangan Layanan

Bank Maspion mengelola pengembangan produk dan layanan dengan fokus pada relevansi dan kemudahan bagi nasabah. Inovasi dilakukan secara berkelanjutan untuk memastikan bahwa solusi perbankan yang ditawarkan tetap adaptif terhadap perubahan kebutuhan masyarakat dan dunia usaha.

Beberapa fokus utama dalam pendekatan manajemen meliputi:

- Digitalisasi layanan, untuk menghadirkan proses transaksi yang lebih cepat, aman, dan efisien;
- Penguatan layanan berbasis teknologi, sejalan dengan transformasi perbankan modern; dan
- Penyediaan solusi yang inklusif, bagi nasabah individu, korporasi, maupun komunitas.

The development of products and services is designed not only to meet customer needs, but also to strengthen the Bank's long-term sustainability. Sustainability principles are embedded into business processes as a foundation for enhancing service quality, improving operational efficiency, and creating sustainable value for stakeholders.

This commitment is reflected in the Bank's focus on:

- consistently improving service standards,
- enhancing productivity through process improvements and technology adoption, and
- optimizing cost efficiency while maintaining service excellence.

By upholding transparency, integrity, and innovation, the Bank continues to build public trust and reinforce its reputation as a responsible financial institution.

Partnerships as a Catalyst for Sustainable Performance

Bank Maspion views collaboration as a key driver in expanding the impact of sustainability initiatives. The development of products and services is supported by technology adoption, strengthened human capital capabilities, and sound governance practices. Through this collaborative approach, the Bank reinforces its role not only as a financial service provider, but also as a development partner contributing to a sustainable banking ecosystem in Indonesia.

Looking ahead, the Bank will broaden partnerships to support the growth of Micro, Small, and Medium Enterprises (MSMEs), including through the one million MSMEs creation program. The Bank is also committed to meeting the Macroprudential Inclusive Financing Ratio (RPIM) in line with its Business Plan (RBB), as part of its tangible contribution to advancing financial inclusion.

Management Approach in Services Development

Bank Maspion manages its product and service development with a strong focus on relevance and customer convenience. Continuous innovation is pursued to ensure that financial solutions remain responsive to evolving customer needs and market dynamics.

Key areas of focus include:

- Service digitalization to enable faster, safer, and more efficient transactions;
- Technology-driven solutions aligned with modern banking trends; and
- Inclusive financial services for individuals, corporates, and communities.

Sebagai bagian dari dukungan terhadap agenda nasional digitalisasi dan inklusi keuangan, Bank mengembangkan Maspion Electronic Banking (MEB) yang dapat diakses 24/7 melalui *Internet Banking* dan *Mobile Banking*. Platform ini dirancang untuk memberikan kemudahan transaksi sesuai dengan pola perilaku nasabah yang semakin digital.

As part of its support for national initiatives on banking digitalization and MSME empowerment, the Bank has developed Maspion Electronic Banking (MEB), accessible 24/7 through Internet Banking and Mobile Banking. This platform is designed to enhance customer convenience in line with increasingly digital lifestyles.

Selain layanan digital, Bank juga menghadirkan layanan kas yang menjangkau berbagai lokasi strategis, seperti pusat perdagangan, sekolah, dan fasilitas kesehatan. Kehadiran Kas Mobil dengan layanan *customer service*, *teller*, dan ATM memungkinkan Bank memberikan layanan langsung yang fleksibel, mulai dari pembukaan rekening hingga transaksi keuangan harian.

In addition to digital channels, the Bank also provides cash services across strategic locations, including commercial centers, schools, and healthcare facilities. Mobile Cash Services equipped with customer service, teller counters, and ATMs enable a wide range of transactions, from account opening to daily banking needs.

Seluruh inisiatif tersebut dijalankan secara terintegrasi dengan prinsip keberlanjutan. Melalui otomatisasi dan pemanfaatan teknologi, Bank Maspion terus meningkatkan efisiensi dan produktivitas, sekaligus memperkuat kinerja ekonomi. Pendekatan ini menegaskan bahwa inovasi dan keberlanjutan menjadi landasan utama dalam mendukung pertumbuhan Bank yang sehat dan berkelanjutan.

All of these initiatives are implemented in an integrated and consistent manner with a strong sustainability focus. Through automation and technology utilization, Bank Maspion continues to improve productivity and efficiency while strengthening its economic performance. This approach demonstrates that innovation and sustainability form a solid foundation for the Bank's long-term growth.

Nilai Ekonomi yang Dihasilkan

Pada tahun 2025, Bank berhasil menghasilkan nilai ekonomi sebesar Rp754.800.039 ribu, mengalami penurunan sebesar 2,88% atau senilai Rp22.379.600 ribu dibandingkan capaian tahun sebelumnya, yaitu Rp777.179.639 ribu. Perubahan ini terutama dipengaruhi oleh penurunan biaya bunga bersih yang menjadi faktor utama dalam menghambat pertumbuhan kinerja ekonomi Bank selama tahun berjalan.

Economic Value Generated

In 2025, the Bank managed to generate economic value of Rp754,800,039 thousand, a decrease of 2.88% or Rp22.379.600 thousand compared to the previous year's achievement of Rp777,179,639 thousand. This change was mainly influenced by the decrease of net interest income, which was the main factor in inhibiting the growth of the Bank's economic performance during the year.

Nilai Ekonomi yang Didistribusikan

Nilai ekonomi yang didistribusikan Bank kepada para pemangku kepentingan pada tahun 2025 tercatat sebesar Rp887.439.208 ribu, mengalami penurunan sebesar 30,53% atau setara dengan Rp390.087.317 ribu dibandingkan tahun 2024 yang mencapai Rp1.277.526.525 ribu. Perubahan ini dipengaruhi oleh penurunan beban operasional lainnya seiring penurunan pada nilai ekonomi yang dihasilkan.

Distributed Economic Value

The economic value distributed by the Bank to stakeholders in 2025 was recorded at Rp887,439,208 thousand, decrease of 30.53% or equivalent to Rp390,087,317 thousand compared to 2024 which reached Rp1,277,526,525 thousand. This change was influenced by a decrease in other operating expenses in line with the decrease in generated economic value.

Kontribusi terhadap Negara

Contribution to the State [GRI 201-1, 207-2, 207-3]

Bank Maspion berkomitmen untuk mendukung pembangunan negara melalui kontribusi yang signifikan dalam pembayaran pajak. Pembayaran pajak merupakan salah satu bentuk tanggung jawab Bank sebagai institusi yang beroperasi secara berkelanjutan dan sesuai dengan peraturan perundang-undangan. Dengan mematuhi kewajiban perpajakan, Bank tidak hanya memastikan kepatuhan terhadap regulasi, tetapi juga berperan aktif dalam mendukung pembangunan ekonomi nasional.

Bank Maspion is committed to supporting the country's development through significant contributions in tax payments. Tax payment is one of the Bank's responsibilities as an institution that operates sustainably and in accordance with laws and regulations. By complying with tax obligations, the Bank not only ensures compliance with regulations, but also plays an active role in supporting national economic development.

Pada tahun 2025, total pembayaran pajak Bank Maspion mencapai Rp180.092.969 ribu, menurun Rp8.967.086 ribu dibandingkan tahun 2024 yang tercatat sebesar Rp189.060.055 ribu*. Selama periode pelaporan, Bank berhasil melaksanakan kewajiban perpajakannya dengan tepat waktu tanpa adanya ketidakpatuhan. Hal ini mencerminkan komitmen Bank untuk berkontribusi secara konsisten dalam mendukung program pembangunan nasional melalui penerimaan pajak.

Praktik Pengadaan Barang dan Jasa

Goods and Services Procurement Practices [GRI 3-3, 203-2, 205-1]

Pengadaan barang dan jasa Bank Maspion diperlakukan sebagai bagian penting dari sistem pengendalian dan keberlanjutan operasional Bank. Proses pengadaan dirancang tidak hanya untuk memastikan ketersediaan kebutuhan operasional, tetapi juga untuk menjaga efisiensi, kepatuhan, dan integritas dalam setiap keputusan bisnis.

Dalam pelaksanaannya, Bank menerapkan prinsip-prinsip utama sebagai berikut:

- Transparansi dan akuntabilitas, untuk memastikan setiap proses dapat ditelusuri dan dipertanggungjawabkan;
- Efisiensi dan kewajaran, guna memperoleh nilai terbaik tanpa mengorbankan kualitas; serta
- Persaingan usaha yang sehat, sebagai dasar pemilihan mitra kerja secara objektif.

Pendekatan ini menjadi bagian dari upaya Bank dalam memitigasi risiko penyimpangan, termasuk praktik korupsi dan gratifikasi, sekaligus memperkuat tata kelola perusahaan yang baik.

Untuk mendukung konsistensi implementasi, Bank menetapkan prosedur pengadaan yang terstruktur dan terdokumentasi dengan jelas. Proses seleksi vendor dilakukan melalui tahapan evaluasi yang komprehensif, mencakup aspek kualitas, harga, dan kesesuaian dengan kebutuhan operasional. Dalam penetapan harga, Bank melakukan perbandingan penawaran dari minimal tiga vendor sebagai dasar pengambilan keputusan, sehingga tercapai keseimbangan antara efisiensi biaya dan kualitas layanan.

Sejalan dengan komitmen keberlanjutan, aspek lingkungan juga menjadi pertimbangan dalam proses pengadaan. Bank secara bertahap mengadopsi praktik pengadaan yang lebih ramah lingkungan, termasuk pemanfaatan teknologi hijau seperti penggunaan kendaraan operasional berbasis hybrid maupun listrik. Inisiatif ini mencerminkan kontribusi Bank dalam mendukung transisi menuju ekonomi hijau serta memperkuat peran Bank sebagai institusi yang bertanggung jawab terhadap lingkungan dan masyarakat. [GRI 203-2]

Procurement in Bank Maspion is regarded as an integral component of operational control and business sustainability. Procurement activities are designed not only to support daily operations, but also to ensure efficiency, compliance, and integrity in every business decision.

In implementing procurement processes, the Bank adheres to the following key principles:

- *Transparency and accountability, ensuring that all processes are traceable and auditable;*
- *Efficiency and fairness, to achieve optimal value while maintaining service quality; and*
- *Healthy competition, providing equal opportunities for business partners.*

These principles form part of the Bank's efforts to mitigate risks related to irregularities, including corruption and gratuities, while reinforcing sound corporate governance practices.

To ensure consistent implementation, the Bank applies structured and well-documented procurement procedures. Vendor selection is conducted through a comprehensive evaluation process covering quality, pricing, and alignment with operational requirements. Price assessments are based on comparisons of proposals from at least three vendors, enabling cost efficiency while ensuring optimal value for the Bank.

In line with its sustainability commitment, environmental considerations are increasingly integrated into procurement decisions. The Bank has begun adopting environmentally friendly practices, including the use of green technologies such as hybrid and fully electric vehicles for operational purposes. This initiative demonstrates the Bank's contribution to the transition toward a green economy and reinforces its role as a responsible financial institution toward the environment and society. Perlindungan Data & Kepuasan Nasabah

Data Protection & Customer Satisfaction [GRI 3-3, 418-1]

Untuk menciptakan keseimbangan yang harmonis antara pertumbuhan bisnis Bank dan pemenuhan hak serta kewajiban Konsumen, upaya strategis dilakukan untuk memperkuat kepercayaan Konsumen terhadap Bank. Dalam hal ini, Direksi telah menetapkan kebijakan terkait Perlindungan Konsumen dengan berpedoman pada:

- Peraturan Otoritas Jasa Keuangan No. 6/POJK.07/2022 tentang Perlindungan Konsumen dan Masyarakat di Sektor Jasa Keuangan;
- Surat Edaran Otoritas Jasa Keuangan No. 12/SEOJK.07/2014 tentang Penyampaian Informasi Dalam Rangka Pemasaran Produk dan/atau Layanan Jasa Keuangan;
- Peraturan Bank Indonesia No. 3 Tahun 2023 tentang Pelindungan Konsumen Bank Indonesia; dan
- Peraturan Anggota Dewan Gubernur No. 23/17/PDAG/2021 tentang Tata Cara Pelaksanaan Perlindungan Konsumen Bank Indonesia.

Bagi Bank Maspion, perlindungan data pribadi dan konsumen merupakan fondasi utama dalam menjaga kepercayaan publik terhadap layanan perbankan. Setiap data pribadi nasabah dikelola secara terbatas, relevan, sah secara hukum, dan transparan, serta hanya digunakan untuk tujuan yang jelas dan disetujui. Pengelolaan tersebut dilakukan secara bertanggung jawab dan dapat dipertanggungjawabkan sesuai dengan prinsip kepatuhan yang berlaku.

Komitmen perlindungan nasabah diwujudkan melalui penerapan prinsip kerahasiaan, keamanan sistem informasi, serta penyediaan mekanisme pengaduan yang mudah diakses, responsif, dan efektif. Pendekatan ini memastikan bahwa hak-hak nasabah terlindungi secara menyeluruh, baik dalam interaksi langsung maupun melalui layanan digital.

Sebagai lembaga intermediasi keuangan, Bank beroperasi berdasarkan kepercayaan masyarakat yang menitipkan dana dan data pribadinya. Kepercayaan ini menjadi prasyarat keberlanjutan usaha Bank—semakin tinggi tingkat kepercayaan, semakin besar partisipasi masyarakat dalam memanfaatkan produk dan layanan perbankan. Oleh karena itu, perlindungan konsumen ditempatkan sebagai prioritas strategis untuk menjaga kredibilitas dan kesinambungan bisnis Bank di tengah persaingan industri yang semakin ketat.

Menjawab Tantangan Perlindungan Konsumen di Era Digital [OJK F.27]

Seiring berkembangnya industri jasa keuangan dan meningkatnya digitalisasi layanan, cakupan perlindungan konsumen turut meluas. Selain mencakup aspek transparansi dan keadilan layanan, perlindungan konsumen kini juga mencakup keamanan siber, pengelolaan data pribadi, serta kejelasan informasi dalam layanan digital.

Digitalisasi memberikan kemudahan dan efisiensi bagi nasabah, namun juga menghadirkan risiko baru, termasuk ancaman kebocoran data dan kejahatan siber. Menyikapi hal tersebut, Bank secara berkelanjutan memperkuat kebijakan internal, pengawasan, serta sistem pengamanan teknologi informasi agar selaras dengan regulasi yang berlaku dan ekspektasi nasabah.

To create a harmonious balance between the Bank's business growth and the fulfillment of consumer rights and obligations, strategic efforts are made to strengthen consumer confidence in the Bank. In this regard, the Board of Directors has established policies related to Consumer Protection based on:

- *Financial Services Authority Regulation no. 6/POJK.07/2022 concerning Consumer and Public Protection in the Financial Services Sector;*
- *Financial Services Authority Circular No. 12/SEOJK.07/2014 concerning Submission of Information in the Context of Marketing Financial Products and/or Services;*
- *Bank Indonesia Regulation no. 3 of 2023 concerning Bank Indonesia Consumer Protection; And*
- *Governor's Board Member Regulation No. 23/17/PDAG/2021 concerning Procedures for Implementing Bank Indonesia Consumer Protection.*

For Bank Maspion, the protection of personal data and consumers is a fundamental pillar in maintaining public trust in banking services. All customer personal data is managed in a limited, relevant, lawful, and transparent manner, and is used solely for clear and approved purposes. Such data management is carried out responsibly and in a manner that is accountable in accordance with applicable compliance principles.

The Bank's commitment to customer protection is demonstrated through the implementation of confidentiality principles, information system security, and the provision of complaint-handling mechanisms that are easily accessible, responsive, and effective. This approach ensures comprehensive protection of customer rights, both in direct interactions and through digital-based services.

As a financial intermediary institution, the Bank operates based on the trust of the public who entrust their funds and personal data. This trust is a prerequisite for the Bank's business sustainability—the higher the level of trust, the greater the public's willingness to utilize banking products and services. Therefore, consumer protection is positioned as a strategic priority to safeguard the Bank's credibility and business continuity amid increasingly intense industry competition.

Addressing Consumer Protection Challenges in the Digital Era [OJK F.27]

Along with the growth of the financial services industry and the increasing digitalization of services, the scope of consumer protection has continued to expand. In addition to transparency and fairness in services, consumer protection now also encompasses cybersecurity, personal data management, and clarity of information in digital services.

While digitalization provides greater convenience and efficiency for customers, it also introduces new risks, including data breach threats and cybercrime. In response to these challenges, the Bank continuously strengthens its internal policies, oversight mechanisms, and information technology security systems to ensure alignment with prevailing regulations and customer expectations.

Penguatan perlindungan konsumen tidak hanya dilihat sebagai pemenuhan kewajiban regulasi, tetapi sebagai bagian dari komitmen Bank dalam membangun ekosistem keuangan yang aman, inklusif, dan berkelanjutan. Dengan mengintegrasikan perlindungan konsumen ke dalam strategi operasional, Bank berupaya menjaga kepercayaan masyarakat sekaligus mendorong inovasi layanan yang bertanggung jawab.

Prinsip Perlindungan Konsumen

Dalam menjalankan perlindungan konsumen, Bank menerapkan prinsip-prinsip berikut:

- 1. Kesetaraan dan Perlakuan yang Adil**
Memberikan layanan secara adil dan tidak diskriminatif, termasuk bagi konsumen dengan kebutuhan khusus.

- mengikuti mekanisme penyelesaian sengketa yang ditetapkan.

- acting in good faith when using products and services; and
- following established consumer dispute resolution mechanisms.

Penguatan Perlindungan Data dan Pengaduan Konsumen

Strengthening Data Protection and Consumer Complaint Handling

Regulasi terbaru Otoritas Jasa Keuangan (OJK) semakin menegaskan pentingnya perlindungan data dan informasi konsumen, sejalan dengan meningkatnya risiko kebocoran data dan ancaman digital. Bank wajib menjaga kerahasiaan data pribadi, memastikan keamanan sistem informasi, serta mematuhi ketentuan pertukaran dan transfer data, termasuk lintas negara.

Recent regulations issued by the Financial Services Authority (OJK) further emphasize the importance of protecting consumer data and information, in line with increasing data breach risks and digital threats. The Bank is required to safeguard the confidentiality of personal data, ensure the security of information systems, and comply with provisions governing data exchange and transfer, including cross-border data transfers.

Sebagai bagian dari komitmen perlindungan konsumen, Bank menyediakan layanan pengaduan tanpa biaya bagi nasabah. Mekanisme ini mencakup penerimaan, penanganan, dan penyelesaian pengaduan secara transparan dan efektif, sebagai wujud perlindungan hak konsumen. [GRI 418-1; OJK F24]

As part of its consumer protection commitment, the Bank provides a complaint-handling service free of charge for customers. This mechanism covers the receipt, handling, and resolution of complaints in a transparent and effective manner, as a manifestation of the protection of consumer rights. [GRI 418-1; OJK F24]

Untuk mendukung kemudahan akses, Bank menyediakan layanan pengaduan melalui *customer service* di seluruh kantor cabang pada jam kerja, serta melalui *Contact Center* yang dapat diakses setiap hari pukul 07.00–22.00. Sepanjang tahun 2025, Bank berhasil menindaklanjuti 100% pengaduan konsumen yang diterima, mencerminkan komitmen berkelanjutan dalam meningkatkan kualitas layanan dan perlindungan konsumen.

Menjaga Kelestarian Lingkungan

*Preserving Environmental
Sustainability*

Dengan menempatkan kepedulian terhadap lingkungan sebagai bagian dari strategi bisnis, Bank berupaya memastikan bahwa setiap langkah pertumbuhan berjalan seiring dengan upaya menjaga bumi untuk generasi mendatang.”

“By embedding environmental stewardship into its business strategy, the Bank strives to ensure that every step of growth goes hand in hand with preserving the planet for future generations.”

Komitmen Pelestarian Lingkungan dalam Mendukung *Net Zero Emission*

Commitment to Environmental Preservation to Support Net Zero Emission

Perubahan iklim kini tidak lagi dipandang sebagai isu lingkungan semata, melainkan telah berkembang menjadi tantangan sistemik yang memengaruhi stabilitas sosial, ekonomi, dan keuangan global. Peningkatan frekuensi dan intensitas bencana alam, perubahan pola cuaca, serta tekanan terhadap ekosistem telah menciptakan risiko baru yang berdampak langsung maupun tidak langsung terhadap dunia usaha, termasuk industri perbankan. Bagi sektor keuangan, kondisi ini tidak hanya berpotensi menurunkan kualitas aset dan ketahanan portofolio pembiayaan, tetapi juga meningkatkan ketidakpastian dalam perencanaan bisnis jangka panjang.

Dalam menghadapi dinamika tersebut, industri perbankan memegang peran strategis sebagai penggerak transisi menuju perekonomian yang lebih berkelanjutan. Melalui kebijakan pembiayaan dan pengelolaan portofolio, bank dapat mengarahkan alokasi modal ke sektor-sektor yang mendukung perlindungan lingkungan. Pada saat yang sama, bank juga memiliki ruang untuk secara bertahap mengurangi eksposur terhadap kegiatan usaha yang berisiko tinggi terhadap lingkungan dan iklim. Pendekatan ini tidak hanya memperkuat kontribusi sektor keuangan terhadap agenda keberlanjutan, tetapi juga membantu mengelola risiko jangka panjang yang timbul dari perubahan iklim.

Sejalan dengan peran tersebut, Bank Maspion menegaskan komitmennya untuk mendukung target pemerintah dalam mencapai *net zero emission* pada tahun 2060. Komitmen ini diimplementasikan melalui integrasi prinsip keberlanjutan ke dalam strategi bisnis, pengembangan pembiayaan bagi proyek-proyek berwawasan lingkungan, serta penerapan inisiatif operasional yang lebih efisien dan rendah emisi.

Bagi Bank Maspion, komitmen terhadap pencegahan perubahan iklim dan dukungan terhadap pencapaian *net zero emissions* diwujudkan melalui pendekatan yang terintegrasi, mencakup kebijakan, operasional, serta penguatan kesadaran insan Bank. Pendekatan ini mencerminkan upaya Bank dalam mengelola dampak lingkungan secara bertanggung jawab dan berkelanjutan.

Climate change is no longer viewed merely as an environmental issue, but has evolved into a systemic challenge affecting global social, economic, and financial stability. The increasing frequency and severity of natural disasters, shifting weather patterns, and mounting pressure on ecosystems have introduced new risks that directly and indirectly impact businesses, including the banking industry. For the financial sector, these conditions may not only undermine asset quality and the resilience of financing portfolios, but also heighten uncertainty in long-term business planning.

In response to these dynamics, the banking industry plays a strategic role in driving the transition towards a more sustainable economy. Through its financing policies and portfolio management, banks can steer capital allocation towards sectors that support environmental protection. At the same time, banks also have the capacity to gradually reduce exposure to business activities that pose significant environmental and climate-related risks. This approach not only strengthens the financial sector's contribution to the sustainability agenda, but also enhances the management of long-term risks arising from climate change.

In line with this role, Bank Maspion reaffirms its commitment to supporting the Government's target of achieving net zero emissions by 2060. This commitment is reflected in the integration of sustainability principles into the Bank's business strategy, the expansion of financing for environmentally responsible projects, and the implementation of more efficient and low-emission operational initiatives.

For Bank Maspion, its commitment to climate change mitigation and support for the achievement of net zero emissions is implemented through an integrated approach encompassing policies, operations, and environmental awareness among the Bank's people. This approach reflects the Bank's efforts to manage environmental impacts in a responsible and sustainable manner.

1. Penguatan Kebijakan Keberlanjutan

Komitmen lingkungan Bank Maspion dibangun melalui pengembangan kebijakan keberlanjutan yang selaras dengan POJK No. 51/POJK.03/2017 tentang Penerapan Keuangan Berkelanjutan. Kebijakan tersebut diimplementasikan melalui Pernyataan Kesanggupan Pengelolaan Lingkungan Hidup (PKPLH), yang menjadi dasar komitmen Bank dalam menjalankan pengelolaan dan pemantauan lingkungan hidup secara konsisten.

Dalam kerangka tersebut, Bank menyatakan kesanggupan untuk, antara lain:

- melaksanakan pengelolaan dan pemantauan lingkungan sesuai matriks UKL-UPL;
- memenuhi persetujuan teknis terkait baku mutu air limbah dan emisi, pengelolaan limbah B3, serta analisis dampak lalu lintas;
- melakukan pengambilan data rona lingkungan sebelum pelaksanaan tahap konstruksi;
- menerapkan tata kelola penyimpanan sementara limbah B3 dan pengelolaan limbah non-B3 sesuai ketentuan;
- mematuhi seluruh peraturan perundang-undangan di bidang perlindungan dan pengelolaan lingkungan hidup;
- berkoordinasi dengan instansi pemerintah pusat dan daerah terkait;
- mengupayakan penerapan prinsip *Reduce, Reuse, dan Recycle* (3R);
- melaksanakan kegiatan sesuai dengan *Standard Operating Procedure* (SOP);
- melakukan perbaikan berkelanjutan atas keandalan teknologi guna meminimalkan dampak lingkungan;
- mendokumentasikan seluruh aktivitas pengelolaan lingkungan; serta
- menyediakan dana penjaminan pemulihan fungsi lingkungan hidup dan memenuhi kewajiban lain sesuai ketentuan otoritas berwenang.

2. Penerapan Operasional yang Lebih Bersih [OJK F5][GRI 306-2]

Sebagai bagian dari upaya menekan jejak lingkungan, Bank Maspion menerapkan konsep operasional bersih dengan fokus pada pengurangan limbah dan efisiensi sumber daya. Inisiatif yang dijalankan antara lain:

- optimalisasi layanan digital banking untuk mengurangi penggunaan kertas dalam proses perbankan;
- pemanfaatan *platform* kolaborasi digital, seperti Microsoft Teams, untuk mendukung proses kerja dan penelaahan dokumen secara elektronik;
- penerapan administrasi nir-kertas melalui pemanfaatan *e-mail* sebagai sarana komunikasi internal;
- penghematan kertas melalui pencetakan dua sisi dan pemanfaatan kertas bekas untuk keperluan internal; serta
- pemberian opsi kepada nasabah dalam transaksi ATM untuk memilih pencetakan atau non-pencetakan bukti transaksi.

1. Strengthening Sustainability Policies

The Bank's environmental commitment is reinforced through the development of sustainability policies aligned with POJK No. 51/POJK.03/2017 on the Implementation of Sustainable Finance. These policies are operationalized through the Environmental Management Commitment Statement (PKPLH), which serves as the foundation for the Bank's commitment to consistent environmental management and monitoring.

Under this framework, the Bank commits, among others, to:

- *implementing environmental management and monitoring in accordance with the UKL-UPL matrix;*
- *complying with technical approvals related to wastewater quality standards, emission standards, hazardous waste management, and traffic impact analysis;*
- *collecting baseline environmental data prior to construction activities;*
- *implementing proper temporary storage procedures for hazardous waste and managing non-hazardous waste in line with regulations;*
- *complying with all applicable environmental protection and management laws and regulations;*
- *coordinating with relevant central and regional government authorities;*
- *promoting the application of the Reduce, Reuse, and Recycle (3R) principle;*
- *conducting activities in accordance with established Standard Operating Procedures (SOPs);*
- *continuously improving the reliability of technology used to minimize environmental impacts;*
- *documenting all environmental management activities; and*
- *providing environmental restoration guarantee funds and fulfilling other obligations stipulated by authorized authorities.*

2. Implementing Cleaner Operations [OJK F5][GRI 306-2]

As part of its efforts to reduce its environmental footprint, Bank Maspion applies cleaner operational practices with a focus on waste reduction and resource efficiency. Key initiatives include:

- *expanding digital banking services to reduce paper usage in banking processes;*
- *utilizing digital collaboration platforms, such as Microsoft Teams, to support electronic document review and workflow efficiency;*
- *implementing paperless administration through the use of e-mail for internal communications;*
- *reducing paper consumption through double-sided printing and reuse of paper for internal purposes; and*
- *providing customers with the option to print or not print ATM transaction receipts.*

- Langkah-langkah ini dilakukan untuk menjaga keseimbangan antara efisiensi operasional dan kepedulian terhadap lingkungan.

- *These initiatives aim to balance operational efficiency with environmental responsibility.*

3. Penguatan Budaya dan Kesadaran Lingkungan

Komitmen lingkungan Bank juga diwujudkan melalui pengembangan sumber daya manusia yang memiliki kesadaran dan kepedulian terhadap lingkungan. Bank Maspion menumbuhkan budaya keberlanjutan melalui berbagai program pelatihan, kampanye internal, dan penyebaran informasi yang mendorong perilaku ramah lingkungan.

Upaya ini tidak hanya menasar karyawan, tetapi juga melibatkan nasabah dan mitra bisnis, sehingga nilai-nilai keberlanjutan dapat diterapkan secara lebih luas dan konsisten dalam seluruh ekosistem Bank.

Bank berkomitmen untuk menerapkan prinsip Keselamatan, Keamanan, Kesehatan, dan Pelestarian Lingkungan (K3L) dalam seluruh kegiatan operasionalnya. Komitmen tersebut diwujudkan melalui penerapan praktik kerja yang aman dan sehat, pengelolaan lingkungan kerja yang bertanggung jawab, serta upaya berkelanjutan untuk meminimalkan dampak operasional terhadap lingkungan.

Bank juga mengadopsi berbagai kebijakan yang berfokus pada keberlanjutan lingkungan dalam pengembangan produk keuangan, serta langkah-langkah yang mendukung pelestarian alam. Pada tahun 2025, Bank telah merencanakan beberapa program prioritas sesuai Rencana Aksi Keuangan Berkelanjutan (RAKB) yang bertujuan untuk memperkuat kontribusi Bank dalam mendukung inisiatif lingkungan yang lebih luas.

3. Building Environmentally Conscious People

The Bank's environmental commitment is further strengthened through the development of environmentally conscious human capital. Bank Maspion fosters a sustainability-oriented culture through training programs, internal campaigns, and information dissemination that encourage environmentally responsible behavior.

These efforts extend beyond employees to include customers and business partners, ensuring that sustainability values are embedded consistently across the Bank's broader ecosystem.

The Bank is committed to implementing the principles of Safety, Security, Health, and Environmental Preservation (K3L) in all of its operational activities. This commitment is realized through the implementation of safe and healthy work practices, responsible management of the work environment, and continuous efforts to minimize the operational impact on the environment.

The Bank has also adopted various policies that focus on environmental sustainability in the development of financial products, as well as measures that support nature conservation. By 2025, the Bank has planned several priority programs, as outlined in Sustainable Finance Action Plan (RAKB) which aims to strengthen the Bank's contribution in supporting broader environmental initiatives.

Pengelolaan dan Pemantauan Lingkungan

Environmental Management and Monitoring [OJK F.9, F.10, F.16][GRI 3-3]

Pengelolaan dan pemantauan lingkungan Bank Maspion tidak hanya dipandang sebagai kewajiban kepatuhan, tetapi sebagai instrumen pengendalian risiko dan tata kelola yang mendukung keberlanjutan usaha. Pendekatan ini menjadi bagian integral dari Sistem Manajemen Lingkungan Bank serta memperkuat implementasi Keuangan Berkelanjutan sebagaimana dirumuskan dalam Rencana Aksi Keuangan Berkelanjutan (RAKB).

Dalam menjalankan aktivitas operasional, Bank menerapkan pendekatan preventif dengan mengidentifikasi, memantau, dan mengendalikan potensi dampak lingkungan sejak tahap perencanaan. Setiap kegiatan dievaluasi dengan mempertimbangkan prinsip kehati-hatian, sehingga aspek lingkungan menjadi bagian dari pengambilan keputusan operasional, bukan sekadar tahapan administratif.

Environmental management and monitoring in Bank Maspion are not viewed merely as compliance requirements, but as essential risk management and governance tools that support business sustainability. This approach forms an integral part of the Bank's Environmental Management System and strengthens the implementation of Sustainable Finance as outlined in the Sustainable Finance Action Plan (RAKB).

In carrying out its operations, the Bank applies a preventive approach by identifying, monitoring, and controlling potential environmental impacts from the planning stage onward. Environmental considerations are embedded in operational decision-making, ensuring that prudence toward environmental aspects is applied beyond administrative compliance.

Sebagai landasan pelaksanaan, Bank mengacu pada ketentuan Analisis Mengenai Dampak Lingkungan (AMDAL), Upaya Pengelolaan Lingkungan dan Upaya Pemantauan Lingkungan (UKL-UPL), serta regulasi lain yang relevan. Kepatuhan terhadap kerangka regulasi tersebut memastikan bahwa kegiatan Bank dijalankan secara bertanggung jawab, terukur, dan dapat dipertanggungjawabkan kepada pemangku kepentingan.

Sepanjang periode pelaporan, Bank Maspion tidak mencatatkan adanya pelanggaran terhadap ketentuan perlindungan dan pengelolaan lingkungan hidup. Ke depan, Bank akan terus memperkuat sistem pemantauan lingkungan, meningkatkan kualitas pengelolaan, serta mengintegrasikan pertimbangan lingkungan ke dalam praktik bisnis sehari-hari. Upaya ini dilakukan sebagai bentuk kontribusi Bank dalam menjaga kualitas lingkungan sekaligus mendukung agenda pembangunan berkelanjutan secara berkelanjutan.

As a guiding framework, the Bank refers to Environmental Impact Assessment (AMDAL) requirements, Environmental Management and Monitoring Efforts (UKL-UPL), and other relevant regulations. Adherence to these regulatory frameworks ensures that the Bank's activities are conducted responsibly, transparently, and in an accountable manner.

Throughout the reporting period, Bank Maspion recorded no violations of environmental protection regulations. Looking ahead, the Bank remains committed to strengthening its environmental management and monitoring practices, enhancing system effectiveness, and further integrating environmental considerations into daily business operations. These efforts reflect the Bank's ongoing contribution to preserving environmental quality while supporting sustainable development objectives.

Upaya Pengelolaan Energi dan Penurunan Emisi GRK

Energy Management and GHG Emission Reduction Efforts [OJK F7, F.12] [GRI 302-4, 305-5]

Bank Maspion secara konsisten menerapkan berbagai inisiatif efisiensi energi sebagai bagian dari komitmen terhadap pengelolaan lingkungan yang bertanggung jawab. Upaya tersebut mencakup penerapan konsep ruang kerja yang memaksimalkan pencahayaan alami, penggunaan lampu LED, serta pengaturan operasional gedung seperti mematikan lampu, AC, dan peralatan elektronik saat tidak digunakan, termasuk penghentian operasional *chiller* pada akhir pekan dan hari libur.

Bank Maspion consistently implements various energy efficiency initiatives as part of its commitment to responsible environmental management. These efforts include adopting workspace concepts that maximise natural lighting, using LED lighting, and optimising building operations by switching off lights, air conditioning, and electronic equipment when not in use, including suspending chiller operations during weekends and public holidays.

Untuk mendorong perubahan perilaku, Bank juga mengajak karyawan menerapkan kebiasaan hemat energi, antara lain dengan memanfaatkan tangga untuk jarak pendek. Di sisi lain, pengendalian emisi dilakukan melalui penggunaan refrigeran AC yang ramah lingkungan, pelaksanaan uji emisi secara berkala untuk genset dan kendaraan operasional, serta pengurangan perjalanan dinas dengan mengoptimalkan pertemuan daring melalui video dan *teleconference*.

To encourage behavioural change, the Bank also promotes energy-saving practices among employees, such as using stairs for short distances. Emission control is further supported through the use of environmentally friendly refrigerants, regular emission testing for generators and operational vehicles, and the reduction of business travel by optimising virtual meetings via video and teleconferencing.

Selain itu, pengembangan layanan Maspion *Electronic Banking* (MEB) turut berkontribusi dalam menekan konsumsi energi dan emisi karbon dengan mengurangi kebutuhan nasabah untuk datang ke kantor cabang. Melalui pengelolaan yang lebih efisien atas penggunaan listrik, bahan bakar, dan sumber daya lainnya, Bank terus berupaya menurunkan jejak lingkungannya sekaligus mendukung operasional perbankan yang lebih berkelanjutan. [OJK F.7] [GRI 302-4, 305-5]

In addition, the development of Maspion Electronic Banking (MEB) helps reduce energy consumption and carbon emissions by minimising the need for customers to visit branches. Through more efficient management of electricity, fuel, and other resources, the Bank continues to reduce its environmental footprint while supporting more sustainable banking operations. [OJK F.7] [GRI 302-4, 305-5]

Penggunaan Energi
Energy Usage [OJK F.6] [GRI 302-1, GRI 302-4]

Pengelolaan energi menjadi salah satu fokus Bank dalam mendukung efisiensi operasional dan komitmen keberlanjutan. Sepanjang tahun 2025, total konsumsi listrik Bank tercatat sebesar 3.320.574 kWh, yang mencerminkan kebutuhan energi untuk mendukung aktivitas operasional di seluruh unit kerja.

Seiring dengan meningkatnya perhatian terhadap dampak lingkungan, Bank secara berkelanjutan melakukan pemantauan atas penggunaan energi listrik sebagai dasar untuk mengidentifikasi peluang efisiensi. Upaya ini dilengkapi dengan penerapan kebijakan dan praktik operasional yang diarahkan pada pengendalian konsumsi energi serta pengurangan jejak karbon, tanpa mengurangi kualitas layanan kepada nasabah.

Data berikut menyajikan rincian penggunaan listrik Bank selama periode pelaporan:

Energy management is one of the Bank's key focus areas in supporting operational efficiency and sustainability commitments. Throughout 2025, the Bank recorded total electricity consumption of 3,320,574 kWh, reflecting the energy required to support operational activities across all business units.

In response to growing environmental considerations, the Bank continuously monitors electricity usage to identify opportunities for efficiency improvements. These efforts are complemented by the implementation of policies and operational practices aimed at controlling energy consumption and reducing carbon emissions, while maintaining service quality for customers.

The following table presents a breakdown of the Bank's electricity consumption during the reporting period:

E-03 Tabel Penggunaan Listrik (kWh)

Sepanjang tahun 2025, konsumsi bahan bakar minyak (BBM) untuk mendukung operasional kendaraan Bank tercatat sebesar 17.737 liter. Penggunaan BBM tersebut dikelola secara terukur sebagai bagian dari pengendalian biaya operasional sekaligus upaya menekan dampak lingkungan dari aktivitas transportasi.

Untuk meningkatkan efisiensi, Bank menerapkan berbagai langkah penghematan, antara lain melalui perawatan kendaraan secara berkala guna menjaga kinerja mesin tetap optimal, serta pengurangan frekuensi perjalanan dinas dengan memaksimalkan pemanfaatan teknologi komunikasi seperti *video conference* dan *teleconference*. Inisiatif ini membantu menekan kebutuhan BBM sekaligus mendukung pola kerja yang lebih efisien dan berkelanjutan.

Berikut ini adalah rincian penggunaan BBM untuk kendaraan operasional Bank:

Throughout 2025, the Bank recorded total fuel consumption of 17,737 liters for its operational vehicles. Fuel usage is managed in a measured manner as part of efforts to control operational costs while also reducing the environmental impact of transportation activities.

To improve fuel efficiency, the Bank implemented several initiatives, including regular vehicle maintenance to ensure optimal engine performance and reducing business travel by prioritizing the use of communication technologies such as video conferencing and teleconferencing. These measures contribute to lower fuel consumption while supporting more efficient and sustainable working practices.

The following is a breakdown of fuel usage for the Bank's operational vehicles:

Emisi GRK yang Dihasilkan

Generated GHG Emissions [OJK F.11] [GRI 305-1, 305-2, 305-4, 305-5]

Bank mengukur dan mengelola dampak lingkungan dengan menghitung emisi GRK Cakupan 1 dan 2 menggunakan metode berbasis aktivitas.

Banks measure and manage environmental impacts by calculating Scope 1 and 2 GHG emissions using an activity-based method.

Penghitungan Emisi Cakupan 1 menggunakan rumus:

Scope 1 Emissions are calculated using the formula:

$$\text{Emisi CO}_2 \text{ (kg)} = \text{Volume Bahan Bakar (liter)} \times \text{Nilai Kalor Netto (GJ/liter)} \times \text{Faktor Emisi (kg CO}_2\text{/GJ)}$$

Konversi ke TCO₂e

Conversion to TCO₂e:

$$\text{Ton CO}_2\text{-eq} = \text{Emisi CO}_2 \text{ (kg)} \div 1000$$

Faktor emisi dan nilai kalor *netto* yang digunakan merujuk pada data dari Kementerian ESDM, sehingga rincian penghitungan emisi cakupan 1 Bank adalah sebagai berikut:

The emission factors and net calorific values used refer to data from the Ministry of Energy and Mineral Resources, so the details of the Bank's Scope 1 emission calculations are as follows:

Penggunaan & Penghematan Air

Water Usage and Efficiency [OJK F.8] [GRI 302-2, 303-5]

Dalam mendukung upaya pelestarian lingkungan, Bank menerapkan pendekatan pengelolaan air yang berorientasi pada efisiensi dan tanggung jawab. Penggunaan air diarahkan untuk memenuhi kebutuhan operasional secara proporsional, dengan pengendalian konsumsi dan pengaturan distribusi yang disesuaikan dengan kebutuhan masing-masing unit kerja.

As part of its commitment to environmental stewardship, the Bank adopts a responsible and efficiency-oriented approach to water management. Water usage is managed to adequately support operational needs while maintaining control over consumption and prioritizing areas with higher water requirements.

Bank secara konsisten mendorong pemanfaatan air secara bijaksana melalui penerapan praktik operasional yang hemat air serta peningkatan kesadaran di seluruh kantor cabang mengenai pentingnya konservasi air. Perbedaan karakteristik operasional dan skala aktivitas menyebabkan tingkat penggunaan air yang bervariasi antar kantor cabang.

The Bank continuously promotes prudent water use through efficient operational practices and by raising awareness across all branch offices regarding the importance of water conservation. Differences in operational characteristics and activity levels result in varying water consumption among branches.

Seluruh kebutuhan air Bank bersumber dari pasokan PDAM, digunakan untuk menunjang kegiatan operasional sehari-hari, dan selanjutnya dialirkan ke sistem pembuangan limbah umum sesuai dengan ketentuan yang berlaku. Rincian penggunaan air pada masing-masing kantor cabang disajikan dalam tabel berikut:

All of the Bank's water consumption is sourced from municipal water supply (PDAM), utilized for daily operational activities, and discharged into the public wastewater system in accordance with applicable regulations. Pengelolaan Limbah

Waste Management [OJK F.13, F.14, F.15] [GRI 306-1, 306-2, 306-3]

Sebagai bagian dari tanggung jawab lingkungan, Bank Maspion menerapkan pengelolaan limbah yang terstruktur dan patuh terhadap ketentuan peraturan perundang-undangan. Aktivitas operasional Bank terutama menghasilkan limbah non-B3, yang didominasi oleh limbah kertas dari kegiatan administrasi, dokumentasi, serta pengarsipan.

Untuk menekan dampak lingkungan, Bank mengarahkan pengelolaan limbah pada upaya pengurangan dan pemanfaatan kembali, khususnya melalui optimalisasi daur ulang kertas. Kebijakan ini sejalan dengan upaya Bank dalam mendorong efisiensi sumber daya dan mengurangi volume limbah yang berakhir di tempat pembuangan.

Dalam implementasinya, Bank menjalin kerja sama dengan pihak ketiga yang memiliki izin resmi serta kompetensi dalam pengelolaan limbah. Seluruh limbah kertas diserahkan kepada *vendor* yang bertanggung jawab untuk melakukan proses daur ulang atau pembuangan akhir sesuai dengan standar lingkungan yang berlaku. Sepanjang tahun 2025, Bank Maspion tidak mencatatkan adanya insiden tumpahan limbah.

Secara keseluruhan terdapat penurunan limbah kertas Bank dengan rincian sebagai berikut:

As part of its environmental responsibility, Bank Maspion implements a structured waste management approach in compliance with applicable regulations. The Bank's operational activities primarily generate non-hazardous waste, which mainly consists of paper waste from administrative processes, document printing, and record management.

To minimize environmental impact, the Bank focuses its waste management efforts on waste reduction and resource recovery, particularly by maximizing paper recycling. This approach supports the Bank's commitment to resource efficiency and reducing the amount of waste disposed of in landfills.

In practice, the Bank collaborates with licensed third-party vendors that possess the necessary expertise and capacity in waste management. All paper waste is handled by authorized vendors responsible for recycling or final disposal in accordance with environmental standards. Throughout 2025, Bank Maspion recorded no incidents of waste spills.

Overall there was a decrease in the Bank's paper waste with the following details:

Kepatuhan Lingkungan & Sosial

Environmental & Social Compliance [OJK F.16] [GRI 307-1]

Sepanjang tahun 2025, Bank Maspion menjalankan seluruh kegiatan operasionalnya dengan mengedepankan kepatuhan terhadap ketentuan peraturan perundang-undangan di bidang lingkungan hidup dan sosial. Selama periode pelaporan, Bank tidak menerima sanksi maupun mencatatkan pelanggaran terkait aspek lingkungan dan sosial.

Pencapaian ini mencerminkan komitmen Bank dalam menempatkan kepatuhan sebagai bagian integral dari tata kelola perusahaan yang baik. Bank secara konsisten memastikan bahwa aktivitas bisnis, kebijakan internal, serta pengambilan keputusan operasional dijalankan dengan mempertimbangkan dampak lingkungan dan sosial, sejalan dengan prinsip keberlanjutan dan tanggung jawab sosial.

Throughout 2025, Bank Maspion conducted its operations in full compliance with applicable environmental and social laws and regulations. During the reporting period, the Bank recorded no sanctions or violations related to environmental or social matters.

This achievement reflects the Bank's commitment to embedding compliance as a core element of sound corporate governance. The Bank consistently ensures that business activities, internal policies, and operational decisions take into account environmental and social considerations, in line with sustainability principles and social responsibility.

Pendekatan Manajemen [GRI 3-3]

Bank Maspion mengelola isu kepatuhan lingkungan dan sosial melalui pendekatan manajemen yang terstruktur dan terintegrasi ke dalam sistem pengendalian internal. Pendekatan ini mencakup:

Management Approach [GRI 3-3]

Bank Maspion manages environmental and social compliance through a structured management approach that is integrated into its internal control system. This approach includes:

1. Kebijakan dan Komitmen

Bank menetapkan kebijakan internal yang mengacu pada peraturan perundang-undangan terkait perlindungan lingkungan hidup dan tanggung jawab sosial, serta memastikan kebijakan tersebut dikomunikasikan dan dipahami oleh seluruh unit kerja.

2. Implementasi dan Pengendalian

Kepatuhan lingkungan dan sosial diintegrasikan dalam prosedur operasional, termasuk dalam perencanaan kegiatan, pelaksanaan operasional, serta pengelolaan risiko. Unit kerja terkait secara berkala melakukan pemantauan untuk memastikan kesesuaian pelaksanaan dengan ketentuan yang berlaku.

3. Pemantauan dan Evaluasi

Bank melakukan evaluasi berkala atas kepatuhan terhadap aspek lingkungan dan sosial sebagai bagian dari mekanisme pengawasan internal. Hasil pemantauan digunakan untuk mengidentifikasi potensi risiko, memastikan tindakan korektif bila diperlukan, serta memperkuat praktik keberlanjutan.

4. Peningkatan Berkelanjutan

Bank berkomitmen untuk terus meningkatkan kualitas pengelolaan lingkungan dan sosial melalui penyempurnaan kebijakan, prosedur, serta peningkatan kesadaran insan Bank terhadap pentingnya kepatuhan dan keberlanjutan.

Melalui pendekatan ini, Bank Maspion memastikan bahwa kepatuhan terhadap aspek lingkungan dan sosial tidak hanya bersifat administratif, tetapi menjadi bagian dari budaya operasional dan strategi keberlanjutan Bank.

1. Policies and Commitments

The Bank establishes internal policies aligned with applicable environmental protection and social responsibility regulations, and ensures that these policies are communicated and understood across all business units.

2. Implementation and Controls

Environmental and social compliance is embedded in operational procedures, including activity planning, operational execution, and risk management. Relevant units conduct regular monitoring to ensure adherence to applicable requirements.

3. Monitoring and Evaluation

The Bank performs periodic evaluations of environmental and social compliance as part of its internal oversight mechanisms. Monitoring results are used to identify potential risks, implement corrective actions when necessary, and strengthen sustainability practices.

4. Continuous Improvement

The Bank remains committed to continuously enhancing its environmental and social management through policy refinement, procedural improvements, and increased awareness among employees regarding compliance and sustainability.

Through this management approach, Bank Maspion ensures that environmental and social compliance extends beyond administrative requirements and becomes an integral part of its operational culture and sustainability strategy.

Implementasi ESG dalam Investasi Berkelanjutan

ESG Implementation in Sustainable Investment

Bagi Bank Maspion, penerapan prinsip Lingkungan, Sosial, dan Tata Kelola (LST) dalam aktivitas investasi diposisikan sebagai kerangka pengambilan keputusan untuk memastikan keberlanjutan nilai jangka panjang. Integrasi LST dilakukan secara menyeluruh guna memastikan bahwa setiap investasi yang dijalankan tidak hanya layak secara finansial, tetapi juga memberikan dampak positif bagi masyarakat dan lingkungan.

Dalam mendukung agenda tersebut, Bank Maspion memperluas kerja sama strategis dengan perusahaan *fintech* dan *multifinance* sebagai mitra penyaluran pembiayaan, khususnya kepada Usaha Mikro, Kecil, dan Menengah (UMKM) serta sektor-sektor produktif lainnya. Pendekatan ini memungkinkan Bank menjangkau segmen usaha yang lebih luas, sekaligus mendorong pertumbuhan ekonomi yang inklusif dan berkelanjutan. Sejalan dengan perkembangan teknologi, Bank juga secara aktif mengevaluasi peluang digital dan inovasi model bisnis untuk memperkuat portofolio investasi berkelanjutan.

For Bank Maspion, the integration of Environmental, Social, and Governance (ESG) principles into investment activities serves as a decision-making framework to ensure long-term value creation. ESG considerations are embedded to ensure that investments are not only financially sound, but also deliver positive social and environmental impact.

To advance this commitment, Bank Maspion has expanded strategic collaborations with fintech and multifinance companies to channel financing to Micro, Small, and Medium Enterprises (MSMEs) and other productive sectors. This approach enables the Bank to reach a broader segment of businesses while supporting inclusive and sustainable economic growth. In parallel, the Bank continuously explores digital opportunities and innovative business models to strengthen its sustainable investment portfolio.

Komitmen terhadap ESG turut diperkuat oleh dukungan pemegang saham yang mendorong agar prinsip pembangunan berkelanjutan menjadi bagian integral dari arah kebijakan dan operasional Bank. Dalam konteks ini, Bank Maspion berupaya memastikan bahwa setiap pembiayaan yang disalurkan selaras dengan prinsip kehati-hatian, memberikan manfaat optimal bagi pemangku kepentingan, serta berkontribusi pada penciptaan nilai jangka panjang. Melalui konsistensi penerapan ESG, Bank menegaskan perannya sebagai institusi keuangan yang berorientasi pada keberlanjutan dan berkontribusi nyata bagi pembangunan ekonomi dan sosial.

Support from shareholders further reinforces the Bank's ESG commitment, encouraging sustainability principles across economic, social, and environmental dimensions to be embedded within the Bank's strategic direction and operations. Accordingly, Bank Maspion is committed to ensuring that each credit facility extended delivers optimal benefits to stakeholders, supports long-term value creation, and strengthens the Bank's aspiration to serve as a sustainability-oriented financial institution that contributes positively to society and national development.

Memberdayakan Insan Bank Maspion dan Masyarakat

*Empowering People of
Bank Maspion and
The Community*

Pengembangan talenta, lingkungan kerja yang inklusif, dan kontribusi sosial yang berkelanjutan merupakan fondasi bagi Bank Maspion dalam membangun nilai jangka panjang bagi karyawan, masyarakat, dan seluruh pemangku kepentingan.

Talent development, an inclusive working environment, and sustainable social contributions form the foundation for Bank Maspion in creating long-term value for its people, communities, and all stakeholders.

Bank Maspion menempatkan pengembangan manusia sebagai salah satu pilar utama dalam membangun pertumbuhan yang berkelanjutan. Komitmen ini diwujudkan melalui berbagai inisiatif yang mendorong peningkatan kapabilitas karyawan sekaligus memperluas manfaat bagi masyarakat. Melalui program pelatihan, edukasi, dan pengembangan kompetensi, Bank berupaya menciptakan sumber daya manusia yang adaptif, produktif, dan siap menghadapi dinamika perubahan.

Bank Maspion places people development as one of the key pillars in building sustainable growth. This commitment is realised through various initiatives aimed at enhancing employees' capabilities while extending broader benefits to the community. Through training, education, and competency development programmes, the Bank seeks to nurture a workforce that is adaptive, productive, and well-prepared to respond to a dynamic environment.

Sejalan dengan itu, Bank juga secara aktif berkontribusi dalam peningkatan kesejahteraan sosial melalui berbagai program di bidang pendidikan, kesehatan, dan penguatan ekonomi lokal. Bentuk dukungan tersebut mencakup pemberian beasiswa, pelatihan kewirausahaan, serta kegiatan sosial yang ditujukan untuk memperkuat kapasitas dan kemandirian masyarakat.

In parallel, the Bank actively contributes to improving social welfare through programmes in education, healthcare, and local economic empowerment. These initiatives include scholarship programmes, entrepreneurship training, and social activities designed to strengthen community capacity and self-reliance.

Dengan pendekatan tersebut, Bank Maspion tidak hanya berfokus pada penciptaan nilai ekonomi, tetapi juga berupaya menghadirkan dampak sosial yang berkelanjutan. Peran ini menegaskan posisi Bank sebagai bagian dari ekosistem pembangunan yang inklusif, di mana pemberdayaan insan dan masyarakat menjadi fondasi bagi kemajuan jangka panjang.

Through this approach, Bank Maspion is not only focused on creating economic value, but also on delivering sustainable social impact. This reflects the Bank's role as part of an inclusive development ecosystem, where empowering people and communities serves as the foundation for long-term progress.

Komposisi & Peningkatan Kualitas SDM

HR Composition & Quality Improvement [GRI 3-3]

Pada tahun 2025, Bank Maspion memperkuat transformasi internal melalui peluncuran *platform Insight Notes* sebagai sarana komunikasi internal yang menyajikan informasi terkini bagi seluruh pegawai. *Platform* ini dirancang sebagai pusat informasi yang terus dikembangkan untuk memastikan setiap insan Bank memperoleh akses yang cepat dan relevan terhadap berbagai perkembangan Perseroan.

In 2025, Bank Maspion strengthened its internal transformation through the launch of the Insight Notes platform as an internal communication channel providing up-to-date information to all employees. The platform is designed as a central information hub and will continue to be enhanced to ensure timely and relevant access to corporate developments.

Hingga 31 Desember 2025, jumlah pegawai Bank tercatat sebanyak 844 orang, menurun dibandingkan dengan 936 pegawai pada tahun 2024. Perubahan jumlah tersebut mencerminkan dinamika pengelolaan SDM yang mencakup rekrutmen, penyesuaian kebutuhan organisasi, serta pergerakan pegawai akibat pensiun maupun pengunduran diri. [GRI 401-1]

As of December 31, 2025, the Bank's total workforce stood at 844 employees, an decrease from 936 employees in 2024. This change reflects the dynamics of human capital management, including new recruitment, organisational adjustments, as well as employee movements due to retirement and resignations. [GRI 401-1]

Seiring dengan pertumbuhan organisasi, Bank secara berkelanjutan memperkuat kapabilitas SDM melalui pemetaan kebutuhan kompetensi jangka panjang, pengembangan program pelatihan, serta inisiatif untuk mendorong kolaborasi lintas unit kerja. Pengembangan pegawai dipandang sebagai investasi strategis untuk membangun tim yang adaptif, solid, dan siap menjawab tantangan industri serta percepatan perubahan teknologi.

In line with organisational growth, the Bank continues to strengthen its human capital capabilities through long-term competency mapping, the enhancement of training programmes, and initiatives to foster cross-functional collaboration. Employee development is regarded as a strategic investment to build an adaptive and cohesive team that is well prepared to respond to industry challenges and rapid technological change.

Beberapa program pengembangan pegawai yang telah dijalankan Bank Maspion sepanjang tahun 2025, telah dijabarkan pada bagian Penembangan Kompetensi Karyawan dalam bab Tinjauan Pendukung Bisnis pada halaman 140-163 dalam laporan ini. [GRI 404-1][OJK F22]

Sistem Penilaian Kinerja & Pengembangan Karir

Performance Assessment System & Career Development [GRI 404-2] [OJK F18] [OJK F22]

Bank Maspion mengelola kinerja pegawai melalui sistem penilaian yang berbasis meritokrasi, yang dirancang untuk menjamin proses yang objektif, transparan, dan akuntabel. Sistem ini tidak hanya menjadi dasar dalam pemberian penghargaan dan konsekuensi atas kinerja, tetapi juga berfungsi sebagai pijakan utama dalam penyusunan rencana pengembangan dan pengelolaan karier pegawai. Melalui mekanisme ini, Bank memperoleh gambaran yang komprehensif mengenai kinerja dan potensi setiap individu.

Penilaian kinerja dilakukan secara berkala oleh atasan langsung dengan mengacu pada target dan indikator kinerja yang telah ditetapkan. Pendekatan berbasis hasil ini memastikan bahwa setiap capaian dinilai secara terukur dan selaras dengan sasaran strategis Perseroan, sekaligus mendorong terbentuknya budaya kerja yang berorientasi pada kinerja dan peningkatan berkelanjutan.

Sepanjang tahun 2025, proses penilaian kinerja telah diterapkan di seluruh jenjang jabatan bagi seluruh pegawai, baik pria maupun wanita. Hasil penilaian tersebut digunakan sebagai dasar dalam penetapan pengembangan karir, remunerasi, serta kebijakan rotasi dan promosi.

Bank Maspion manages employee performance through a merit-based evaluation system designed to ensure an objective, transparent, and accountable process. This system serves not only as the basis for rewards and consequences related to performance, but also as a key foundation for career planning and development. Through this mechanism, the Bank obtains a comprehensive view of each employee's performance and potential.

Performance assessments are conducted periodically by direct supervisors based on predetermined targets and key performance indicators. This results-oriented approach ensures that achievements are measured objectively and aligned with the Company's strategic objectives, while also fostering a performance-driven culture and continuous improvement.

Throughout 2025, the performance evaluation process was implemented across all job levels for both male and female employees. The results were used as the basis for career development, remuneration decisions, as well as rotation and promotion policies.

Tingkat Perputaran Turnover Rate

Bank Maspion secara konsisten membangun lingkungan kerja yang mendukung kinerja, kesejahteraan, dan pengembangan karir pegawai, sejalan dengan penerapan kebijakan remunerasi dan manfaat yang kompetitif. Pendekatan ini bertujuan untuk menjaga tingkat retensi pegawai sekaligus memastikan terciptanya suasana kerja yang sehat, saling menghargai, dan mendorong setiap individu untuk berkontribusi secara optimal.

Bank Maspion consistently strives to build a supportive working environment that promotes performance, employee well-being, and career development, supported by competitive remuneration and benefits policies. This approach aims to strengthen employee retention while fostering a healthy and respectful workplace that encourages everyone to contribute at their best.

Sebagai bagian dari evaluasi kebijakan sumber daya manusia, Bank secara berkala menyelenggarakan survei pegawai untuk memahami tingkat kepuasan, kebutuhan, serta aspirasi pegawai, khususnya terkait aspek remunerasi, *benefit*, dan lingkungan kerja. Hasil survei tersebut digunakan sebagai masukan dalam penyempurnaan kebijakan dan praktik pengelolaan SDM.

As part of its human capital management evaluation, the Bank regularly conducts employee surveys to understand satisfaction levels, needs, and aspirations, particularly with regard to remuneration, benefits, and the working environment. The results of these surveys serve as key inputs for refining policies and HR practices.

Pada tahun 2025, tingkat perputaran pegawai terus dipantau sebagai salah satu indikator utama dalam menilai efektivitas pengelolaan SDM dan kesejahteraan pegawai. Informasi mengenai dinamika keluar-masuk pegawai menjadi dasar bagi Bank untuk melakukan evaluasi dan menyusun langkah perbaikan yang diperlukan guna memperkuat daya saing sebagai tempat kerja pilihan.

In 2025, the employee turnover rate continued to be monitored as one of the key indicators in assessing the effectiveness of human capital management and employee well-being. Insights from workforce movement data provide the basis for further evaluation and improvement initiatives, reinforcing the Bank's commitment to remain an employer of choice.

Pada akhir tahun 2025, tingkat perputaran karyawan tercatat sebesar 23,8%. Hal ini menunjukkan tingkat perputaran karyawan Bank masih dalam batas yang wajar dan tidak berdampak signifikan terhadap kinerja Bank [GRI 401-1].

At the end of 2025, the employee turnover rate was 23.8%. This figure indicates that the Bank's employee turnover rate is within reasonable limits and has no significant impact on the Bank's performance [401-1].

Kesejahteraan Pegawai

Employee Welfare [GRI 3-3]

Kesejahteraan pegawai merupakan hal yang sangat diperhatikan oleh Bank dengan memenuhi kewajiban pemberian Upah Minimum Regional/Upah Minimum Provinsi berdasarkan peraturan yang berlaku dan menyediakan program kesejahteraan lainnya disamping gaji pokok seperti tunjangan tetap seperti tunjangan jabatan, tunjangan makan, tunjangan transport, tunjangan kehadiran dan tunjangan pulsa [GRI 401-2].

The Bank pays close attention to employee welfare by fulfilling the obligation to provide Regional Minimum Wage/Provincial Minimum Wage based on the applicable regulations and providing other welfare programs in addition to the basic salary, such as fixed allowances such as position allowances, meal allowances, transport allowances, attendance allowances and communication allowance [GRI 401-2].

Berikut tabel kesejahteraan pegawai berdasarkan level jabatan:

Bank Maspion menerapkan kebijakan pengupahan yang berlandaskan pada ketentuan peraturan perundang-undangan yang berlaku, termasuk Undang-Undang Ketenagakerjaan, Undang-Undang Nomor 11 Tahun 2020 tentang Cipta Kerja, serta Peraturan Pemerintah Nomor 36 Tahun 2021 tentang Pengupahan. Dalam pelaksanaannya, Bank memastikan bahwa sistem remunerasi diterapkan secara adil dan konsisten, tanpa membedakan latar belakang maupun posisi, sebagai wujud komitmen terhadap prinsip kesetaraan, transparansi, dan tata kelola yang baik.

Bank Maspion implements its remuneration policy in accordance with prevailing laws and regulations, including the Manpower Law, Law No. 11 of 2020 on Job Creation, and Government Regulation No. 36 of 2021 on Wages. In practice, the Bank ensures that its remuneration system is applied fairly and consistently, without discrimination based on background or position, reflecting its commitment to the principles of equality, transparency, and sound governance.

Untuk menjaga kelayakan tingkat kesejahteraan pegawai, Bank menetapkan struktur upah dengan memperhatikan standar kebutuhan hidup, perkembangan inflasi, serta kondisi ekonomi di masing-masing wilayah operasional. Bank juga memastikan bahwa tingkat upah terendah yang diterima pegawai sekurang-kurangnya setara dengan Upah Minimum Regional yang berlaku. Melalui pendekatan ini, Bank tidak hanya memenuhi kewajiban regulasi, tetapi juga berupaya menciptakan sistem pengupahan yang mendukung motivasi kerja, produktivitas, dan keberlanjutan hubungan kerja.

To safeguard a decent standard of living for employees, the Bank structures its wage levels by taking into account basic living needs, inflation trends, and economic conditions in each of its operating regions. The Bank also ensures that the lowest wage level is at least in line with the applicable regional minimum wage. Through this approach, the Bank not only complies with regulatory requirements, but also strives to establish a remuneration system that supports motivation, productivity, and sustainable employment relationships.

Bank menerapkan prinsip kesetaraan dalam pengelolaan sumber daya manusia dengan memastikan bahwa sistem remunerasi ditetapkan secara objektif berdasarkan jabatan dan capaian kinerja. Penetapan kompensasi dilakukan tanpa membedakan jenis kelamin, sehingga pegawai perempuan dan laki-laki yang berada pada jabatan dan tingkat (*grade*) yang sama memperoleh perlakuan dan hak remunerasi yang setara.

The Bank upholds the principle of equality in human capital management by ensuring that its remuneration system is determined objectively based on position and performance achievements. Compensation is provided without regard to gender, ensuring that female and male employees holding the same positions and grade levels receive equal treatment and remuneration.

Kesehatan dan Keselamatan Kerja

Occupational Health and Safety [OJK F21] [GRI 3-3, 403-1, 403-2, 403-3, 403-4, 403-5, 403-6, 403-7 403-8, 403-9, 403-10]

Bank Maspion menempatkan aspek Kesehatan dan Keselamatan Kerja (K3) sebagai bagian penting dari perlindungan hak pegawai, yang secara tegas diatur dalam Peraturan Perusahaan. Bank memastikan bahwa seluruh pegawai bekerja dalam lingkungan yang aman dan sehat, dengan dukungan kebijakan, fasilitas, serta prosedur kerja yang dirancang untuk meminimalkan risiko dan mencegah terjadinya kecelakaan kerja. Upaya ini diperkuat melalui pelaksanaan program pelatihan K3 secara berkala guna meningkatkan kesadaran dan kepatuhan terhadap standar keselamatan.

Bank Maspion places Occupational Health and Safety (OHS) as a fundamental part of protecting employees' rights, as clearly stipulated in the Company Regulations. The Bank ensures that all employees work in a safe and healthy environment, supported by policies, facilities, and work procedures designed to minimise risks and prevent workplace accidents. These efforts are further strengthened through regular OHS training programmes to enhance awareness and compliance with safety standards.

Dalam pelaksanaannya, Bank mengusung prinsip *zero accident* sebagai arah utama pengelolaan K3 di seluruh aktivitas operasional. Pendekatan ini didukung oleh evaluasi berkelanjutan atas prosedur keselamatan serta keterlibatan aktif pegawai dalam membangun budaya kerja yang aman dan bertanggung jawab. Sepanjang tahun 2025, Bank Maspion tidak mencatat adanya kejadian kecelakaan kerja, yang mencerminkan efektivitas penerapan sistem K3 di lingkungan kerja.

In its implementation, the Bank upholds the zero accident principle as the guiding direction for OHS management across all operational activities. This approach is supported by continuous evaluation of safety procedures and active employee involvement in fostering a safe and responsible working culture. Throughout 2025, Bank Maspion recorded no workplace accidents, reflecting the effectiveness of its OHS management system.

Bank telah memiliki kebijakan Kesehatan dan Keselamatan Kerja yang dapat diunduh oleh seluruh karyawan BMAS yang terdapat di dalam kanal komunikasi internal, *Insight Notes*. [S-11]

The Bank already has an Occupational Health and Safety policy that can be downloaded by all BMAS employees in the internal communication channel, Insight Notes. [S-11]

Cuti Melahirkan

Bank Maspion menyediakan hak cuti melahirkan bagi pegawai perempuan serta cuti pendampingan bagi pegawai pria yang istrinya melahirkan, sesuai dengan ketentuan yang diatur dalam Peraturan Perusahaan dan kebijakan kepegawaian. Kebijakan ini merupakan bagian dari komitmen Bank dalam mendukung kesejahteraan keluarga pegawai sekaligus mendorong keseimbangan antara kehidupan kerja dan kehidupan pribadi.

Pada tahun 2025, jumlah pegawai perempuan yang memanfaatkan cuti melahirkan tercatat sebanyak 12 orang, sementara pegawai pria yang mengambil cuti pendampingan berjumlah 26 orang. Seluruh pegawai yang mengambil cuti tersebut kembali bekerja setelah masa cuti berakhir, sehingga tingkat kembali bekerja tercatat sebesar 100%, mencerminkan keberlanjutan karir dan dukungan lingkungan kerja yang kondusif. [GRI 401-3]

Maternity Leave [GRI 401-3]

Bank Maspion provides maternity leave for female employees and paternity leave for male employees whose spouses give birth, in accordance with the provisions set out in the Company Regulations and human capital policies. This policy reflects the Bank's commitment to supporting employees' family well-being while promoting a healthy work-life balance.

In 2025, a total of 12 female employees utilised maternity leave, while 26 male employees took paternity leave. All employees who took such leave returned to work after the leave period ended, resulting in a 100% return-to-work rate, which demonstrates career continuity and a supportive working environment. [GRI 401-3]

Keamanan & Dampak Produk

Product Safety & Impact [OJK F.28] [OJK F.29] [GRI 3-3, 416-1, 416-2]

Bank Maspion menerapkan proses penelaahan yang komprehensif sebelum meluncurkan setiap produk dan layanan, yang mencakup aspek operasional, teknologi, kepatuhan, dan manajemen risiko. Setiap inisiatif baru wajib melalui tahapan uji kelayakan dan penilaian risiko secara menyeluruh, serta memperoleh persetujuan internal dan regulator yang berwenang. Pendekatan ini memastikan bahwa seluruh produk yang ditawarkan tidak hanya memenuhi standar tata kelola dan kepatuhan, tetapi juga aman dan andal bagi nasabah.

Penilaian terhadap produk perbankan, seperti tabungan, giro, dan deposito, dilakukan secara berkala dengan mencakup evaluasi atas fitur produk, kualitas layanan, kepatuhan terhadap ketentuan yang berlaku, serta aspek perlindungan nasabah. Sejalan dengan POJK No. 13/POJK.03/2021 tentang Penyelenggaraan Produk Bank Umum, Bank juga melakukan penelaahan risiko atas setiap rencana produk dan aktivitas baru untuk mengidentifikasi potensi risiko sebelum implementasi.

Bank Maspion applies a comprehensive review process prior to launching any product or service, covering operational, technological, compliance, and risk management aspects. Every new initiative is required to undergo feasibility assessments and thorough risk evaluations, as well as obtain the necessary internal and regulatory approvals. This approach ensures that all products offered not only comply with governance and regulatory standards, but are also safe and reliable for customers.

Reviews of banking products, such as savings, current accounts, and time deposits, are conducted on a regular basis, encompassing evaluations of product features, service quality, regulatory compliance, and customer protection aspects. In line with POJK No. 13/POJK.03/2021 on the Implementation of Commercial Bank Products, the Bank also performs risk assessments for any planned new products and activities to identify potential risks prior to implementation.

Hingga tahun 2025, Bank Maspion belum meluncurkan produk atau layanan khusus yang secara langsung dikaitkan dengan keuangan berkelanjutan, sehingga belum terdapat dampak yang dapat diungkapkan beserta strategi mitigasinya. Namun demikian, Bank memahami pentingnya pengembangan inisiatif keuangan berkelanjutan dan peluang untuk memperluas portofolio pembiayaan berbasis Lingkungan, Sosial, dan Tata Kelola (LST). Dalam pengembangannya ke depan, Bank tetap berkomitmen untuk menerapkan prinsip kehati-hatian dan manajemen risiko yang menyeluruh guna memastikan bahwa setiap produk memberikan manfaat yang seimbang bagi nasabah, masyarakat, dan kinerja Bank.

As of 2025, Bank Maspion has not yet launched any products or services specifically related to sustainable finance, and therefore no specific impacts or mitigation strategies can be disclosed. Nevertheless, the Bank recognises the importance of developing sustainable finance initiatives and the potential to expand its Environmental, Social, and Governance (ESG) financing portfolio. Going forward, the Bank remains committed to applying prudential principles and comprehensive risk management to ensure that every product delivers balanced benefits for customers, society, and the Bank's overall performance.

Komitmen Untuk Memberikan Layanan atas Produk dan/atau Jasa yang Setara kepada Konsumen

Commitment to Providing Equivalent Products and/or Services to Consumers [OJK F.17] [OJK F.27] [OJK F.29]

Bank Maspion berkomitmen untuk menyediakan produk dan layanan yang relevan dan dapat diakses oleh berbagai segmen nasabah, dengan tetap mengedepankan kualitas, transparansi, dan perlindungan konsumen. Untuk menjaga mutu layanan, Bank secara aktif membuka berbagai kanal komunikasi bagi nasabah guna menyampaikan saran, masukan, maupun keluhan, yang ditindaklanjuti secara responsif sesuai dengan standar layanan yang berlaku. Setiap produk juga dilengkapi dengan informasi yang jelas, akurat, dan mudah dipahami agar nasabah dapat mengambil keputusan secara tepat dan bertanggung jawab.

Bank Maspion is committed to providing products and services that are relevant and accessible to various customer segments, while upholding quality, transparency, and consumer protection. To maintain service standards, the Bank actively provides multiple channels for customers to submit feedback and complaints, which are addressed in a timely manner in accordance with established service guidelines. Each product is also accompanied by clear, accurate, and easy-to-understand information to enable customers to make informed and responsible decisions.

Di samping itu, Bank secara konsisten menyelenggarakan program literasi dan inklusi keuangan untuk meningkatkan pemahaman masyarakat terhadap produk dan jasa perbankan. Melalui inisiatif ini, nasabah diharapkan dapat memilih produk yang sesuai dengan kebutuhan dan memahami karakteristik serta risiko yang melekat pada setiap layanan. Dengan demikian, Bank Maspion berupaya membangun hubungan jangka panjang yang didasari kepercayaan, edukasi, dan nilai tambah yang berkelanjutan.

In addition, the Bank consistently conducts financial literacy and financial inclusion programmes to enhance public understanding of banking products and services. Through these initiatives, customers are expected to select products that best suit their needs and to understand the characteristics and risks associated with each service. In this way, Bank Maspion seeks to build long-term relationships based on trust, education, and sustainable value creation.

Penegakan Hak Asasi Manusia (HAM)

Human Rights Enforcement (HAM) [S-07, 08, 09, 10] [GRI 3-3, 410-1, 411-1]

Bank Maspion menegaskan komitmennya terhadap penghormatan dan perlindungan Hak Asasi Manusia (HAM) melalui kebijakan yang diterapkan secara konsisten di seluruh kegiatan operasional. Prinsip-prinsip tersebut menjadi landasan dalam memperlakukan seluruh pemangku kepentingan, termasuk pegawai dan nasabah, secara adil, bermartabat, dan tanpa diskriminasi.

Bank Maspion reaffirms its commitment to respecting and protecting human rights through policies that are consistently applied across all operational activities. These principles serve as the foundation for treating all stakeholders, including employees and customers, fairly, with dignity, and without discrimination.

Sepanjang tahun 2025, Bank Maspion tidak mencatat adanya kasus pelanggaran HAM. Capaian ini mencerminkan penerapan tata kelola yang berintegritas serta komitmen berkelanjutan Bank dalam menjalankan kegiatan usaha yang bertanggung jawab secara sosial.

Throughout 2025, Bank Maspion recorded no cases of human rights violations. This achievement reflects the Bank's strong governance practices and its ongoing commitment to conducting business in a socially responsible manner.

Tidak Adanya Pelecehan Seksual dan Diskriminasi [GRI 3-3, 406-1]

Sebagai wujud komitmen terhadap penghormatan Hak Asasi Manusia (HAM), Bank Maspion menerapkan kebijakan dan mekanisme yang tegas untuk mencegah terjadinya pelecehan seksual serta segala bentuk diskriminasi di lingkungan kerja. Kebijakan ini dirancang untuk memastikan terciptanya tempat kerja yang aman, saling menghormati, dan inklusif bagi seluruh pegawai, tanpa membedakan jenis kelamin, suku, agama, maupun latar belakang lainnya.

Pendekatan pencegahan tersebut diperkuat melalui pengaturan perilaku kerja, sosialisasi nilai-nilai etika, serta pengawasan internal yang berkelanjutan. Sepanjang tahun 2025, Bank Maspion tidak mencatatkan adanya laporan atau insiden terkait pelecehan seksual maupun diskriminasi. Kondisi ini mencerminkan budaya kerja yang menjunjung tinggi rasa saling menghargai serta bebas dari tindakan kekerasan dan ketidakadilan.

Tidak Adanya Tenaga Kerja Anak dan Karyawan Paksa

Bank Maspion memastikan bahwa seluruh proses ketenagakerjaan dijalankan secara bertanggung jawab dan sesuai dengan ketentuan peraturan perundang-undangan. Setiap karyawan yang direkrut telah memenuhi persyaratan usia minimum sebagaimana diatur dalam regulasi yang berlaku, sebagai bagian dari upaya perlindungan terhadap anak dari praktik eksploitasi tenaga kerja.

Selain itu, Bank secara konsisten melarang segala bentuk kerja paksa. Setiap hubungan kerja didasarkan pada kesepakatan yang sah, tanpa adanya unsur paksaan, ancaman, atau tekanan dalam bentuk apa pun yang dapat membatasi kebebasan individu. Kebijakan ini menjadi bagian dari komitmen Bank dalam menjunjung tinggi etika kerja dan hak-hak dasar pekerja.

Dalam pelaksanaannya, Bank Maspion mematuhi ketentuan Undang-Undang Republik Indonesia Nomor 13 Tahun 2003 tentang Ketenagakerjaan, serta merujuk pada standar internasional yang relevan, termasuk Konvensi ILO No. 138/1973 dan No. 182/1999 terkait perlindungan anak, serta Konvensi ILO No. 29/1930 dan No. 105/1957 mengenai penghapusan kerja paksa. Sepanjang tahun pelaporan, tidak terdapat kasus pekerja anak maupun kerja paksa di lingkungan Bank, yang menunjukkan konsistensi penerapan prinsip keadilan, kepatuhan, dan etika kerja.

Absence of Sexual Harrasment and Discrimination

As part of its commitment to upholding Human Rights, Bank Maspion enforces strict policies and control mechanisms to prevent sexual harassment and any form of discrimination in the workplace. These measures are intended to foster a safe, respectful, and inclusive working environment for all employees, regardless of gender, ethnicity, religion, or other backgrounds.

Preventive efforts are reinforced through clear standards of conduct, ethics awareness initiatives, and ongoing internal oversight. Throughout 2025, Bank Maspion recorded no reported cases of sexual harassment or discrimination, reflecting a workplace culture that promotes mutual respect and remains free from violence and unfair treatment.

Absence of Child Labour and Forced Employees [OJK F.19] [GRI 3-3, 408-1, 409-1]

Bank Maspion ensures that all employment practices are conducted responsibly and in full compliance with applicable labor regulations. All employees meet the minimum age requirements stipulated by law, demonstrating the Bank's commitment to protecting children from labor exploitation.

The Bank also strictly prohibits any form of forced labor. Employment relationships are established on the basis of lawful agreements, free from coercion, threats, or any form of pressure that could restrict individual freedom. This policy underscores the Bank's commitment to ethical labor practices and respect for fundamental workers' rights.

In implementing these commitments, Bank Maspion complies with Indonesian Labor Law No. 13 of 2003 and adheres to relevant international standards, including ILO Conventions No. 138/1973 and No. 182/1999 on child labor, as well as ILO Conventions No. 29/1930 and No. 105/1957 on the elimination of forced labor. Throughout the reporting period, no incidents of child labor or forced labor were recorded within the Bank, demonstrating the consistent application of fairness, compliance, and ethical labor principles.

Dampak Operasi Terhadap Masyarakat Sekitar

Operational Impact on Surrounding Communities [OJK F.23] [GRI 3-3, 413-1, 413-2]

Bagi Bank Maspion, keberadaan Bank di tengah masyarakat tidak hanya diukur dari aktivitas bisnis, tetapi juga dari kontribusi nyata yang dihasilkan bagi penguatan sosial dan ekonomi komunitas di sekitarnya. Oleh karena itu, Bank mengarahkan aktivitas operasional dan sosialnya agar mampu memberikan dampak positif yang berkelanjutan, sejalan dengan kebutuhan dan karakteristik masyarakat lokal.

For Bank Maspion, the Bank's presence within communities is measured not only by business performance, but also by the positive and sustainable impact it delivers to surrounding societies. Accordingly, the Bank aligns its operational and social initiatives to generate long-term social and economic value in line with local community needs.

Salah satu fokus utama Bank adalah mendorong inklusi keuangan, khususnya melalui kegiatan sosialisasi dan edukasi produk perbankan, termasuk pemanfaatan layanan digital. Program ini menasar berbagai lapisan masyarakat, terutama di kota-kota kecil dan wilayah yang akses perbankannya masih terbatas. Melalui peningkatan pemahaman terhadap teknologi perbankan digital, masyarakat diharapkan dapat mengakses layanan keuangan secara lebih mudah, aman, dan efisien, sekaligus membuka peluang ekonomi baru yang mendukung peningkatan kesejahteraan.

Selain inklusi keuangan, Bank Maspion juga berkontribusi dalam pengembangan pendidikan dan kesehatan masyarakat. Melalui penyaluran bantuan dan dukungan kepada yayasan serta institusi sosial yang membutuhkan, Bank berupaya meningkatkan kualitas sumber daya manusia (SDM) dan akses terhadap layanan dasar. Program-program ini dirancang untuk memberikan manfaat jangka panjang, yang tercermin dalam peningkatan kualitas hidup, produktivitas, dan daya saing ekonomi masyarakat di wilayah operasional Bank.

Pendekatan Manajemen terhadap Pengembangan Masyarakat [POJK F.23; F.25] [GRI 3-3]

Pengembangan masyarakat merupakan bagian dari pendekatan strategis Bank Maspion dalam menjalankan bisnis yang bertanggung jawab. Bank berkomitmen untuk mendukung kegiatan yang menjangkau berbagai segmen masyarakat, termasuk Perorangan Berpenghasilan Rendah (PBR) serta kelompok masyarakat yang masih kurang terlayani di wilayah-wilayah strategis pada pasar utama Bank.

Melalui pendekatan inklusi keuangan, Bank berupaya memenuhi kebutuhan nasabah ritel dan komersial pada berbagai tahapan pertumbuhan. Bank secara berkelanjutan mengembangkan produk dan layanan keuangan yang relevan, sekaligus menyesuaikan model bisnis untuk menjawab kebutuhan masyarakat lintas generasi.

Sepanjang tahun 2025, berbagai inisiatif telah dijalankan Bank untuk memperluas dampak sosialnya, antara lain:

- menyediakan produk dan layanan yang mudah diakses, termasuk layanan transaksi berbasis QRIS, serta memperluas penyaluran pembiayaan melalui kerja sama dengan Bank Perkreditan Rakyat (BPR);
- melaksanakan program literasi keuangan bagi UMKM, mendorong penguatan kapasitas usaha kecil dan menengah;
- mendukung pemberdayaan perempuan, khususnya melalui program pengembangan usaha yang dimiliki dan dikelola oleh perempuan; serta
- menjalankan program Tanggung Jawab Sosial Perusahaan (CSR) yang berfokus pada peningkatan kualitas hidup masyarakat, sejalan dengan visi dan nilai Bank.

Melalui pendekatan ini, Bank Maspion berupaya memastikan bahwa pertumbuhan usaha berjalan selaras dengan penguatan kesejahteraan masyarakat dan pembangunan ekonomi yang inklusif.

One of the Bank's key priorities is advancing financial inclusion, particularly through outreach and education programs on banking products and digital services. These initiatives target various community segments, especially in smaller cities and underserved areas. By enhancing digital banking literacy, communities are better equipped to access financial services in a secure and efficient manner, enabling broader economic participation and improved quality of life.

Beyond financial inclusion, Bank Maspion also contributes to education and healthcare development. Through donations and support to foundations and social institutions, the Bank seeks to strengthen human capital and improve access to essential services. These programs are designed to deliver long-term benefits, reflected in improved living standards, productivity, and regional economic competitiveness.

Management Approach to Community Development [POJK F.23; F.25][GRI 3-3]

Community development forms an integral part of Bank Maspion's responsible business approach. The Bank is committed to supporting initiatives that reach diverse community segments, including Low-Income Individuals, as well as underserved groups in strategic areas across its core markets.

Through financial inclusion initiatives, the Bank aims to address the needs of retail and commercial customers at various stages of growth. The Bank continuously develops and offers relevant financial products and services, while adapting its business model to meet the evolving needs of communities across different age groups.

Throughout 2025, the Bank implemented several initiatives to expand its social impact, including:

- *providing accessible and innovative products and services, such as QRIS-based transactions, and expanding financing distribution through partnerships with Rural Banks (BPR);*
- *delivering financial literacy programs for MSMEs, empowering small and medium enterprises;*
- *promoting women's economic empowerment, particularly through business development programs for women-owned enterprises; and*
- *implementing Corporate Social Responsibility (CSR) programs aimed at improving community well-being in alignment with the Bank's vision and values.*

Through these efforts, Bank Maspion strives to ensure that business growth goes hand in hand with community empowerment and inclusive economic development.

Tanggung Jawab Sosial Lingkungan Perusahaan

Corporate Social and Environmental Responsibility [OJK F.25] [GRI 3-3]

Bank terus memperkuat komitmennya terhadap tanggung jawab sosial melalui berbagai inisiatif CSR yang didasarkan pada prinsip Tujuan Pembangunan Berkelanjutan (SDGs). Program CSR ini mencakup perhatian pada kesejahteraan karyawan, dengan memastikan kondisi kerja yang aman dan produktif, serta mengutamakan kesehatan dan keselamatan kerja sesuai dengan standar tertinggi. Hal ini sejalan dengan upaya Perseroan untuk menciptakan lingkungan kerja yang mendukung pengembangan profesional dan kesejahteraan karyawan.

The Bank continues to strengthen its commitment to social responsibility through various CSR initiatives based on the principles of the Sustainable Development Goals (SDGs). These CSR programs include attention to employee welfare, by ensuring safe and productive working conditions, and prioritizing occupational health and safety in accordance with the highest standards. This is in line with the Company's efforts to create a work environment that supports professional development and employee welfare.

Di sektor sosial dan kemasyarakatan, Bank melaksanakan berbagai kegiatan yang dirancang untuk meningkatkan kesejahteraan masyarakat sekitar. Program ini mencakup inisiatif pendidikan, kesehatan, dan pengembangan komunitas yang bertujuan menciptakan dampak sosial yang berkelanjutan. Selain itu, Bank juga menunjukkan kepeduliannya terhadap kelestarian lingkungan melalui partisipasi dalam program-program perlindungan lingkungan dan pengelolaan sumber daya alam yang bertanggung jawab.

In the social and community sector, the Bank carries out various activities designed to improve the welfare of the surrounding community. These programs include education, health, and community development initiatives aimed at creating sustainable social impact. In addition, the Bank also demonstrates its concern for environmental sustainability through participation in environmental protection programs and responsible management of natural resources.

Melalui penerapan program CSR yang terintegrasi dengan nilai-nilai tata kelola yang baik, Bank tidak hanya memenuhi tanggung jawab sosialnya, tetapi juga berperan aktif sebagai mitra dalam pembangunan sosial dan ekonomi. Komitmen ini mencerminkan dedikasi Bank untuk memberikan dampak positif yang signifikan bagi pemangku kepentingan sekaligus mendukung terwujudnya visi pembangunan berkelanjutan.

Through the implementation of CSR programs that are integrated with good governance values, the Bank not only fulfills its social responsibilities, but also plays an active role as a partner in social and economic development. This commitment reflects the Bank's dedication to make a significant positive impact on stakeholders while supporting the realization of the vision of sustainable development.

Tanggung jawab sosial dan lingkungan yang dilakukan oleh Bank pada tahun 2025 mencakup bidang praktik ketenagakerjaan, kesehatan dan keselamatan kerja, sosial dan kemasyarakatan, lingkungan hidup, serta tanggung jawab kepada nasabah.

The social and environmental responsibilities carried out by us 2025 include employment practices, occupational health and safety, social and community, environment, and responsibility to customer.

Inisiatif kami [POJK F.25][GRI 203-1]

Bagi Bank Maspion, literasi dan inklusi keuangan merupakan fondasi penting dalam memperluas akses masyarakat terhadap layanan perbankan yang aman, relevan, dan berkelanjutan. Melalui berbagai inisiatif edukatif dan kolaboratif, Bank berupaya menjangkau beragam segmen masyarakat serta pelaku industri keuangan untuk meningkatkan pemahaman, pemanfaatan, dan kualitas layanan keuangan.

Our Initiatives [POJK F.25][GRI 203-1]

For Bank Maspion, financial literacy and inclusion are key pillars in expanding public access to safe, relevant, and sustainable banking services. Through a series of educational and collaborative initiatives, the Bank aims to reach diverse communities and financial industry players to enhance financial awareness, utilization, and service quality.

Literasi Keuangan Masyarakat

“Makin Cuan dengan Kelola Keuangan di Tahun Ular Kayu”

Community Financial Literacy

“Maximizing Financial Gains through Smart Money Management in the Year of the Wood Snake”

Pada 8 Januari 2025, bertepatan dengan perayaan *Chinese New Year 2025*, Bank Maspion menyelenggarakan kegiatan literasi keuangan yang dikemas secara tematik dan kontekstual. Kegiatan ini dilaksanakan melalui kolaborasi dengan *Developer Griyo Mapan*, pengembang properti terkemuka di Surabaya yang dikenal memiliki kawasan hunian dengan profil penghuni mapan.

On January 8, 2025, in conjunction with Chinese New Year 2025, Bank Maspion organized a thematic financial literacy program designed to align with current economic dynamics. The program was conducted in collaboration with Griyo Mapan, a well-established property developer in Surabaya known for residential areas occupied by high-net-worth individuals.

Held at the Grand Peninsula D'Club House, the event was attended by 65 participants comprising residents of the Grand Peninsula housing complex, existing and prospective customers of Bank Maspion, as well

dari Developer Griyo Mapan. Melalui kegiatan ini, Bank memberikan edukasi mengenai pengelolaan keuangan yang bijak, perencanaan finansial, serta pemanfaatan produk perbankan secara optimal dalam menghadapi dinamika ekonomi.

Inovasi Perbankan untuk Inklusi Keuangan

Sebagai bagian dari perannya dalam memperkuat ekosistem keuangan yang inklusif, pada 21 Juni 2025 Bank Maspion mengadakan sesi berbagi pengetahuan bersama BPR Insani di Solo. Kegiatan ini difokuskan pada pemanfaatan teknologi digital untuk mendukung transformasi BPR agar tetap adaptif dan kompetitif.

Dalam sesi tersebut, Bank Maspion memaparkan solusi digitalisasi perbankan, termasuk implementasi API SNAP (Standar Nasional Open API Pembayaran) yang memungkinkan BPR menyediakan layanan transfer, *balance inquiry*, pembayaran, *virtual account*, serta integrasi dengan BI-FAST, QRIS, dan RTGS secara *real-time*. Bank juga memperkenalkan konsep *co-branding* QRIS, yang memungkinkan BPR berperan sebagai kanal distribusi QRIS meskipun bukan PJSP utama, termasuk penjelasan alur pendaftaran merchant dan skema pembagian biaya.

Sebagai pelengkap, Bank Maspion menawarkan berbagai layanan pendukung, seperti *Payroll Solution* yang mencakup pembukaan rekening, aktivasi kartu ATM, dan perlindungan asuransi kecelakaan kerja, serta penyediaan layanan EDC melalui kerja sama dengan ESPAY untuk mendukung penerimaan pembayaran digital secara aman dan efisien.

Literasi dan Edukasi Keuangan Digital

Pada 20 Agustus 2025, Bank Maspion kembali melaksanakan kegiatan inklusi dan literasi keuangan digital melalui kerja sama dengan BPR Binsani. Kegiatan ini dihadiri oleh Direksi, jajaran manajemen, serta *Branch Manager* dari seluruh jaringan BPR Binsani Group.

Dalam kegiatan tersebut, Bank Maspion menyampaikan materi terkait transformasi digital perbankan, pengenalan layanan digital Bank Maspion, serta peluang kolaborasi melalui pemanfaatan SNAP API dan QRIS untuk meningkatkan efisiensi operasional dan kualitas layanan kepada nasabah. Program ini dirancang untuk memperkuat kapasitas pelaku BPR dalam menghadapi perkembangan teknologi dan memperluas jangkauan layanan keuangan hingga ke masyarakat yang belum sepenuhnya terlayani.

Melalui rangkaian inisiatif ini, Bank Maspion menegaskan komitmennya dalam mendukung program Otoritas Jasa Keuangan (OJK) untuk mewujudkan inklusi keuangan yang berkelanjutan, inklusif, dan berkeadilan di Indonesia.

Bidang Praktik Ketenagakerjaan, Kesehatan dan Keselamatan Kerja [GRI 2-30]

Serangkaian program dan kegiatan di bidang praktik ketenagakerjaan, kesehatan dan keselamatan kerja yang dilaksanakan di sepanjang tahun 2025 adalah sebagai berikut:

as potential clients from Griyo Mapan. The session focused on practical financial management, financial planning, and optimal utilization of banking products to support long-term financial well-being.

Banking Innovation for Financial Inclusion

As part of its efforts to strengthen an inclusive financial ecosystem, on June 21, 2025 Bank Maspion conducted a knowledge-sharing session with BPR Insani in Solo. The session focused on leveraging digital technology to support BPRs in remaining adaptive and competitive in a rapidly evolving financial landscape.

Bank Maspion presented digital banking solutions, including the implementation of the SNAP API (National Standard Open API for Payments), enabling BPRs to offer services such as fund transfers, balance inquiries, payments, virtual accounts, and real-time integration with BI-FAST, QRIS, and RTGS. The Bank also introduced the QRIS co-branding concept, allowing BPRs to act as QRIS distribution channels despite not being primary payment service providers, along with explanations on merchant onboarding and fee-sharing mechanisms.

In addition, Bank Maspion offered supporting services such as Payroll Solutions, covering account opening, ATM card activation, and work accident insurance protection, as well as EDC services through collaboration with ESPAY to facilitate secure and efficient digital payments.

Digital Financial Literacy and Education

On August 20, 2025, Bank Maspion conducted a digital financial inclusion and literacy program in collaboration with BPR Binsani. The event was attended by the Board of Directors, management team, and Branch Managers across the BPR Binsani Group network.

During the session, Bank Maspion delivered insights on banking digital transformation, introduced its digital banking services, and explored collaboration opportunities through SNAP API and QRIS to enhance operational efficiency and service quality. The program was designed to strengthen BPR capabilities in adapting to technological advancements and extending digital financial services to underserved communities.

Through these initiatives, Bank Maspion reinforces its commitment to supporting the Financial Services Authority's (OJK) programs in achieving sustainable, inclusive, and equitable financial inclusion in Indonesia.

Employment Practices, Occupational Health and Safety

A series of programs and activities in the field of employment practices, occupational health and safety implemented throughout 2025 are as follows:

1. Program Pendidikan dan Pelatihan [GRI 3-3]

Pengembangan kompetensi karyawan merupakan fondasi penting dalam memperkuat kualitas sumber daya manusia di industri perbankan. Oleh karena itu, Bank secara konsisten menyelenggarakan program pendidikan dan pelatihan yang dirancang untuk meningkatkan kapasitas dan kapabilitas karyawan seiring dengan dinamika industri, perubahan regulasi, serta pesatnya perkembangan teknologi. Melalui investasi yang berkelanjutan dalam pembelajaran, Bank berupaya membekali karyawan dengan keahlian yang relevan agar mampu memberikan layanan yang unggul kepada nasabah, mengambil keputusan secara profesional, serta beradaptasi secara efektif terhadap perubahan lingkungan usaha. Penerapan budaya pembelajaran yang berkelanjutan juga menjadi bagian dari strategi Bank dalam menjaga daya saing dan mempertahankan talenta terbaik.

Setiap karyawan memperoleh kesempatan yang setara untuk mengikuti program pendidikan dan pelatihan yang tersedia. Pelaksanaan program tersebut disesuaikan dengan kebutuhan organisasi, rencana pengembangan Bank, serta jalur pengembangan kompetensi masing-masing karyawan. Sepanjang tahun 2025, Bank telah melakukan 514 topik seminar dan pelatihan yang dilakukan baik secara luring maupun secara daring (*online learning*).

1. Education and Training Program

Employee competency development is a key foundation for strengthening human capital quality within the banking industry. Accordingly, the Bank consistently implements education and training programmes designed to enhance employees' capabilities in line with industry dynamics, regulatory developments, and rapid technological advancements. Through sustained investment in learning initiatives, the Bank aims to equip its employees with relevant skills to deliver excellent customer service, make sound professional decisions, and adapt effectively to changes in the banking landscape. Fostering a culture of continuous learning also forms part of the Bank's strategy to remain competitive and retain top talent.

All employees are provided with equal access to education and training programmes. Participation in these programmes is aligned with organisational needs, the Bank's development plans, and individual competency development pathways. Throughout 2025, the Bank has conducted 514 seminar and training topics, which were carried out both offline and online.

2. Ksetaraan *Gender* dan Kesempatan Kerja

Bank Maspion menempatkan prinsip kesetaraan *gender* dan perlakuan yang setara sebagai bagian penting dalam pengelolaan sumber daya manusia. Dalam setiap proses rekrutmen, pengembangan karier, dan promosi jabatan, Bank menerapkan kebijakan non-diskriminasi yang menjunjung tinggi keberagaman dan inklusi. Setiap individu diberikan peluang yang sama untuk berkontribusi dan berkembang tanpa memandang perbedaan jenis kelamin, latar belakang suku, agama, ras, pandangan politik, maupun status sosial. Selain itu, Bank secara berkelanjutan mendorong peningkatan keberagaman tenaga kerja dan kepemimpinan guna mewujudkan keseimbangan representasi perempuan dan laki-laki di seluruh jenjang organisasi.

Per Desember 2025, Bank memiliki 444 karyawan laki-laki dan 400 karyawan perempuan yang tersebar di seluruh wilayah operasional Bank di Indonesia. Prinsip kesetaraan *gender* juga dijunjung oleh Bank sebagaimana terlihat dari susunan Direksi Bank yang terdiri tiga (3) orang wanita dan 1 orang dalam susunan Dewan Komisaris.

2. Gender Equality and Employment Opportunities

Bank Maspion upholds gender equality and equal treatment as integral principles in its human capital management. Throughout recruitment, career development, and promotion processes, the Bank implements non-discriminatory policies that promote diversity and inclusion. All individuals are provided with equal opportunities to contribute and advance, regardless of gender, ethnicity, religion, race, political views, or social background. Furthermore, the Bank continuously encourages workforce and leadership diversification to achieve balanced representation of women and men across all organisational levels.

As of December 2025, the Bank has 444 male employees and 400 female employees spread throughout the Bank's operational areas in Indonesia. The principle of gender equality is also upheld by the Bank, as can be seen from the composition of the Bank's Board of Directors, which consists of three (3) women and one (1) man in the Board of Commissioners' composition.

Bidang Lingkungan Hidup

Bank Maspion memandang aspek lingkungan sebagai elemen strategis yang turut menentukan ketahanan dan kesinambungan usaha dalam jangka panjang. Walaupun aktivitas perbankan tidak menimbulkan dampak lingkungan secara langsung sebagaimana sektor industri berbasis sumber daya alam, berbagai isu lingkungan global, seperti perubahan iklim, penurunan kualitas lingkungan, serta meningkatnya frekuensi bencana alam, dapat memengaruhi stabilitas ekonomi dan sosial yang menjadi fondasi kegiatan usaha Bank. Kondisi tersebut mendorong Bank untuk berkontribusi secara aktif dalam upaya pelestarian lingkungan sebagai bagian dari tanggung jawab sosial sekaligus penerapan strategi bisnis yang berkelanjutan.

Sejalan dengan hal tersebut, Bank Maspion juga menyadari bahwa aktivitas operasional internal, termasuk konsumsi energi listrik dan penggunaan air, memiliki implikasi terhadap lingkungan apabila tidak dikelola secara bijak. Untuk meminimalkan potensi dampak tersebut, Bank secara berkelanjutan mendorong penerapan praktik operasional yang lebih efisien dan bertanggung jawab. Melalui penguatan kebijakan serta inisiatif pengelolaan sumber daya yang berkelanjutan, Bank berupaya menekan jejak lingkungan, meningkatkan efisiensi operasional, serta menciptakan nilai tambah yang berkelanjutan bagi masyarakat dan pemangku kepentingan.

Melalui kebijakan dan komunikasi internal dalam Bank, Bank berusaha untuk menerapkan pola hidup ramah lingkungan dalam kegiatan operasional Bank setiap harinya, antara lain dengan:

- Melaksanakan program penghematan energi dengan mematikan listrik dan mencabut perangkat elektronik, seperti laptop dan ponsel, dari stop kontak selama jam istirahat.
- Mendorong budaya efisiensi penggunaan air di lingkungan kerja bagi seluruh karyawan.
- Mengedepankan penyimpanan dan pengiriman dokumen dalam bentuk digital (*softcopy*) melalui *email*, *internet*, *cloud*, dan *platform* seperti *Microsoft Teams* untuk mengurangi penggunaan kertas dan menerapkan budaya *paperless*.
- Melakukan migrasi laporan mutasi kas dari bentuk cetak (*hardcopy*) menjadi digital (*softcopy*) secara bertahap.
- Secara bertahap mengadopsi kendaraan listrik (EV) dan *hybrid* untuk kendaraan operasional.
- Menginisiasi program daur ulang seragam bagi karyawan *front liner* melalui kerja sama dengan pihak ketiga.
- Mengurangi konsumsi bahan bakar fosil (BBM) dalam perjalanan dinas dengan memanfaatkan sarana *video conference* dan *teleconference* jika memungkinkan.
- Menyediakan berbagai fitur dalam Maspion *Electronic Banking* (MEB) sebagai *delivery channel* bagi nasabah, sehingga meminimalkan kebutuhan kunjungan fisik ke jaringan kantor Bank dan mengurangi konsumsi BBM.

Environment

Bank Maspion considers environmental aspects as a strategic factor that supports long-term business resilience and sustainability. Although banking operations do not directly generate environmental impacts comparable to those of resource-intensive industries, global environmental challenges, such as climate change, environmental degradation, and the increasing occurrence of natural disasters, can affect economic and social stability, which in turn influences the Bank's operations. In this context, the Bank recognises the importance of actively contributing to environmental preservation as part of its social responsibility and sustainable business strategy.

Furthermore, Bank Maspion acknowledges that its daily operational activities, including electricity and water consumption, may pose environmental implications if not managed prudently. To address this, the Bank continuously promotes more efficient and responsible operational practices. By strengthening policies and implementing sustainable resource management initiatives, the Bank aims to reduce its environmental footprint, enhance operational efficiency, and deliver long-term value for the community and all stakeholders.

The Bank, through its internal policies and communications, strives to implement an environmentally sustainable approach in the Bank's daily operations by, among others:

- *Implement an energy saving program by turning off the electricity and unplugging electronic devices, such as laptops and cell phones, from the outlet during break times.*
- *Encourage a culture of water efficiency in the work environment for all employees.*
- *Promote the storage and sending of documents in digital form (softcopy) via email, internet, cloud, and platforms such as Microsoft Teams to reduce paper usage and implement a paperless culture.*
- *Gradually migrate cash transaction reports from hardcopy to digital (softcopy).*
- *Gradually adopt electric vehicles (EVs) and hybrids for operational vehicles.*
- *Initiate a uniform recycling program for front-line employees through collaboration with third parties.*
- *Reduce fossil fuel (BBM) consumption on business trips by utilizing video conferencing and teleconferencing facilities where possible.*
- *Provide various features in Maspion Electronic Banking (MEB) as a delivery channel for customers, thus minimizing the need for physical visits to the Bank's office network and reducing fuel consumption.*

Tanggung Jawab Bank kepada Nasabah

Bank berusaha untuk menjaga tingkat kepuasan dan loyalitas nasabah dengan senantiasa memberikan layanan perbankan yang berkualitas. Bank memberikan fasilitas layanan pengaduan bagi nasabah melalui *customer service* yang berada di seluruh kantor Bank pada hari dan jam operasional, atau melalui *Contact Center* di nomor 1500889 yang dapat diakses setiap hari pk. 07.00 - 22.00. Nasabah juga dapat menyampaikan pengaduan melalui *Whatsapp* ataupun SMS di nomor 08990515662. Bank memastikan bahwa keluhan nasabah akan ditangani sesuai dengan *Service Level Agreement* (SLA). [\[OJK F30\]](#)

Bank juga selalu memberikan informasi terkait produk dan layanan perbankan, beserta biaya serta risiko yang ada untuk setiap produk dan layanan perbankan yang diberikan. Informasi tersebut telah disampaikan pada saat pemasaran, ketika calon nasabah atau nasabah akan mengikat perjanjian dengan Bank, maupun ketika terdapat perubahan pada produk dan jasa perbankan yang telah digunakan oleh nasabah [\[OJK F26\]](#).

Bank berusaha untuk memberikan informasi yang jelas, termasuk manfaat dan risiko yang timbul kepada nasabah dan calon nasabah sehingga mereka dapat mengambil keputusan yang tepat.

Bank juga berkomitmen untuk menjaga kerahasiaan data nasabah dengan menerapkan prinsip kerahasiaan dan keamanan informasi nasabah sesuai dengan SLA dan regulasi yang ada. Bank memastikan bahwa data nasabah tidak disalahgunakan oleh pihak yang tidak bertanggung jawab sehingga nasabah dapat merasa aman dalam bertransaksi dan dapat meningkatkan kepercayaan mereka kepada Bank.

2. INFORMASI KEBIJAKAN AKUNTANSI YANG MATERIAL
(Lanjutan)

a. Dasar penyusunan laporan keuangan
(Lanjutan)

Pernyataan kepatuhan (Lanjutan)

Laporan arus kas menyajikan arus kas dari perubahan kegiatan operasi, investasi dan pendanaan dan disusun dengan metode langsung. Untuk tujuan penyajian laporan arus kas, kas dan setara kas terdiri dari kas, giro pada Bank Indonesia, giro pada bank lain, penempatan pada Bank Indonesia dan bank lain dan efek-efek yang jatuh tempo kurang dari atau sampai dengan 3 bulan sejak tanggal perolehan, sepanjang tidak digunakan sebagai jaminan atas pinjaman yang diterima serta tidak dibatasi penggunaannya.

Pos-pos dalam Penghasilan Komprehensif Lain disajikan terpisah antara pos-pos yang akan direklasifikasi ke laba rugi dan pos-pos yang tidak akan direklasifikasi ke laba rugi.

Laporan keuangan disajikan dalam mata uang Rupiah, yang merupakan mata uang fungsional Bank. Angka-angka yang disajikan dalam laporan keuangan, kecuali bila dinyatakan secara khusus, adalah dibulatkan dalam ribuan Rupiah.

b. Perubahan pada pernyataan standar akuntansi keuangan dan interpretasi pernyataan standar akuntansi keuangan

Penerapan dari revisi standar berikut yang berlaku efektif mulai 1 Januari 2025 tidak menimbulkan perubahan substansial terhadap kebijakan akuntansi Bank dan pengaruh yang material atas jumlah yang dilaporkan atas tahun berjalan atau tahun sebelumnya.

- PSAK 221 (amendemen) Pengaruh Perubahan Kurs Valuta Asing tentang kekurangan ketertukaran

Amendemen PSAK 221, 'Pengaruh Perubahan Kurs Valuta Asing', memperjelas pengaturan terkait kondisi ketika suatu mata uang tidak tertukarkan serta pengungkapannya.

2. MATERIAL ACCOUNTING POLICY INFORMATION
(Continued)

a. Basis for preparation of the financial statements (Continued)

Statement of compliance (Continued)

The statement of cash flows present the changes in cash from operating, investing and financing activities and are prepared using the direct method. For the purpose of presentation of the statement of cash flows, cash and cash equivalents consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other banks and marketable securities maturing less than or until 3 months of acquisition date, along they are not pledged as collateral for borrowings nor restricted.

The items under Other Comprehensive Income are presented separately between items that will be reclassified to profit or loss and items that will not be reclassified to profit or loss.

The financial statements are presented in Rupiah, which is the functional currency of the Bank. Unless otherwise stated, all figures presented in the financial statements are rounded off to thousands of Rupiah.

b. Changes to the statements of financial accounting standards and interpretations of statement of financial accounting standards

The adoption of these amended standards, which are effective beginning 1 January 2025 did not result in substantial changes to the Bank's accounting policies and had no material impact on the amounts reported for the current or prior financial years.

- PSAK 221 (amendment) Effect of Changes in Foreign Exchange Rates on lack of convertibility

Amendment of PSAK 221 'The Effects of Changes in Foreign Exchange Rates', clarifies the requirements concerning the conditions under which a currency is non-exchangeable and its disclosure.

**b. Perubahan pada pernyataan standar akuntansi keuangan dan interpretasi pernyataan standar akuntansi keuangan
(Lanjutan)**

Penerapan dari revisi standar berikut yang berlaku efektif mulai 1 Januari 2026 tidak menimbulkan perubahan substansial terhadap kebijakan akuntansi Bank dan pengaruh yang material atas jumlah yang dilaporkan atas tahun berjalan atau tahun sebelumnya.

**- Amendemen PSAK 109 dan PSAK 107
“Pengungkapan tentang Klasifikasi dan Pengukuran Instrumen Keuangan”**

Amendemen PSAK 109 ini menambahkan dan mengklarifikasi ketentuan dalam PSAK 109 terkait penghentian pengakuan liabilitas keuangan, serta mengklarifikasi penilaian karakteristik arus kas untuk aset keuangan dengan fitur *ESG-linked*, aset keuangan dengan fitur *non-recourse*, dan instrumen yang terikat secara kontraktual, seperti *tranche*. Amendemen ini juga mengubah ketentuan dalam PSAK 107 terkait persyaratan pengungkapan investasi pada instrumen ekuitas yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan menambah ketentuan terkait instrumen keuangan dengan persyaratan kontraktual yang mengubah waktu atau jumlah arus kas kontraktual.

Penerapan dari standar baru berikut berlaku efektif mulai 1 Januari 2027. Penerapan retrospektif diwajibkan, sehingga informasi komparatif untuk tahun keuangan yang berakhir pada 31 Desember 2026 akan disajikan ulang sesuai dengan standar ini.

- PSAK 118 “Penyajian dan Pengungkapan dalam Laporan Keuangan”

PSAK 118 menggantikan PSAK 201, mempertahankan banyak prinsip yang ada tetapi secara signifikan mengubah cara entitas melaporkan “laba atau rugi operasional.” PSAK ini menetapkan struktur yang jelas untuk laporan laba rugi dengan mengelompokkan pos-pos ke dalam kategori operasi, investasi, pembiayaan, pajak penghasilan, dan operasi yang dihentikan. Standar ini mewajibkan pengungkapan tertentu, termasuk ukuran kinerja tetapan manajemen (UKTM), yang memungkinkan investor memahami bagaimana pandangan manajemen atas kinerja keuangan perusahaan dan bagaimana ukuran tersebut dibandingkan dengan ukuran yang didefinisikan dalam PSAK 118.

**b. Changes to the statements of financial accounting standards and interpretations of statement of financial accounting standards
(Continued)**

The adoption of these amended standards, which are effective beginning 1 January 2026 did not result in substantial changes to the Group’s accounting policies and had no material impact on the amounts reported for the current or prior financial years.

**- Amendment of PSAK 109 and PSAK 107
“Classification and Measurement of Financial Instruments”**

The amendment adds and clarifies provisions in PSAK 109 regarding the derecognition of financial liabilities and clarifies the assessment of cash flow characteristics for financial assets with environmental, social and governance (ESG)-linked features, financial assets with non-recourse features and contractually linked instruments, such as tranches. The amendment also modifies provisions in PSAK 107 related to disclosure requirements for investments in equity instruments measured at fair value through other comprehensive income and adds provisions related to financial instruments with contractual terms that alter the timing or amount of contractual cash flow.

The adoption of the new standard is effective beginning 1 January 2027. Retrospective application is required, and so the comparative information for the financial year ending 31 December 2026 will be restated in accordance with this standard.

- PSAK 118 “Presentation and Disclosure in Financial Statements”

PSAK 118 supersedes PSAK 201, retaining many existing principles but significantly changing how entities report “operating profit or loss.” It establishes a defined structure for the statement of profit or loss, categorizing items into operating, investing, financing, income taxes and discontinued operations. The standard mandates specific disclosures, including management-defined performance measures (MPMs), allowing investors to understand management’s view of the company’s financial performance and how these measures compare to those defined in PSAK 118.

- PSAK 118 “Penyajian dan Pengungkapan dalam Laporan Keuangan” (Lanjutan)

Meskipun PSAK 118 tidak memengaruhi pengakuan atau pengukuran pos-pos dalam laporan keuangan, dampaknya terhadap penyajian dan pengungkapan diperkirakan akan sangat luas, terutama yang berkaitan dengan laporan kinerja keuangan dan penyediaan UKTM dalam laporan keuangan.

Manajemen saat ini sedang menilai secara rinci implikasi penerapan standar baru ini pada laporan keuangan Bank. Dari penilaian awal, secara garis besar, dampak potensial berikut telah diidentifikasi:

1) Meskipun adopsi PSAK 118 tidak akan berpengaruh pada laba bersih Bank, Bank mengharapkan pengelompokan pos pendapatan dan beban dalam laporan laba rugi ke dalam kategori baru akan memengaruhi cara perhitungan dan pelaporan laba operasi. Dari penilaian dampak garis besar yang dilakukan Bank, pos-pos berikut mungkin berpotensi memengaruhi laba operasi:

a) Perbedaan nilai tukar yang saat ini digabungkan dalam pos ‘pendapatan lain dan keuntungan/(kerugian) lain - neto’ dalam laba operasi mungkin perlu dipisahkan, dengan beberapa keuntungan atau kerugian dari nilai tukar disajikan di bawah laba operasi.

- PSAK 118 “Presentation and Disclosure in Financial Statements” (Continued)

Even though PSAK 118 will not impact the recognition or measurement of items in the financial statements, its impacts on presentation and disclosure are expected to be pervasive, in particular those related to the statement of financial performance and providing MPM within the financial statements.

Management is currently assessing the detailed implications of applying the new standard on the Bank’s financial statements. From the high-level preliminary assessment performed, the following potential impacts have been identified:

1) Although the adoption of PSAK 118 will have no impact on the Bank’s net profit, the Bank expects that grouping items of income and expenses in the statement of profit or loss into the new categories will impact how operating profit is calculated and reported. From the high-level impact assessment that the Bank has performed, the following items might potentially impact operating profit:

a) Foreign exchange differences currently aggregated in the line item ‘other income and other gains/(losses) - net’ in operating profit might need to be disaggregated, with some foreign exchange gains or losses presented below operating profit.

Dari penilaian dampak garis besar yang dilakukan Bank, pos-pos berikut mungkin berpotensi memengaruhi laba operasi: (Lanjutan)

b) PSAK 118 memiliki persyaratan khusus mengenai kategori di mana keuntungan atau kerugian derivatif diakui - yaitu kategori yang sama dengan pendapatan dan beban yang dipengaruhi oleh risiko yang dikelola oleh derivatif tersebut. Meskipun Bank saat ini mengakui beberapa keuntungan atau kerugian dalam laba operasi dan lainnya dalam biaya keuangan, mungkin akan terjadi perubahan mengenai tempat di mana keuntungan atau kerugian tersebut diakui, dan Bank saat ini sedang mengevaluasi kebutuhan untuk melakukan perubahan.

2) Pos-pos yang disajikan dalam laporan keuangan utama mungkin akan berubah akibat penerapan konsep ‘ringkasan terstruktur yang berguna’ dan prinsip yang ditingkatkan mengenai agregasi dan disaggregasi. Selain itu, karena goodwill akan disajikan secara terpisah dalam laporan posisi keuangan, Bank akan memisahkan goodwill dan aset tidak berwujud lainnya serta menyajikannya secara terpisah dalam laporan posisi keuangan.

b) PSAK 118 has specific requirements on the category in which derivative gains or losses are recognized - which is the same category as the income and expenses affected by the risk that the derivative is used to manage. Although the Bank currently recognizes some gains or losses in operating profit and others in finance costs, there might be a change to where these gains or losses are recognized, and the Bank is currently evaluating the need for change.

2) The line items presented on the primary financial statements might change as a result of the application of the concept of ‘useful structured summary’ and the enhanced principles on aggregation and disaggregation. In addition, since goodwill will be required to be separately presented in the statement of financial position, the Bank will disaggregate goodwill and other intangible assets and present them separately in the statement of financial position.

3) Bank tidak mengharapkan adanya perubahan signifikan dalam informasi yang saat ini diungkapkan dalam catatan, karena persyaratan untuk mengungkapkan informasi material tetap tidak berubah; namun, cara pengelompokan informasi tersebut mungkin berubah sebagai akibat dari prinsip agregasi/disagregasi. Selain itu, akan ada pengungkapan baru yang signifikan yang diwajibkan untuk:

- (i) UKTM;
- (ii) rincian jenis beban untuk pos-pos yang disajikan berdasarkan fungsi dalam kategori operasi laporan laba rugi - rincian ini hanya diperlukan untuk beberapa jenis beban tertentu; dan
- (iii) untuk periode tahunan pertama penerapan PSAK 118, rekonsiliasi untuk setiap pos dalam laporan laba rugi antara angka yang telah disajikan ulang berdasarkan penerapan PSAK 118 dan angka yang sebelumnya disajikan berdasarkan PSAK 201.

4) Dari perspektif laporan arus kas, akan ada perubahan cara penyajian bunga diterima dan bunga dibayar. 3) The Bank does not expect there to be a significant change in the information that is currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which the information is grouped might change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:

- (i) MPM;
- (ii) a break-down of the nature of expenses for line items presented by function in the operating category of the statement of profit or loss - this break-down is only required for certain nature expenses; and
- (iii) for the first annual period of application of PSAK 118, a reconciliation for each line item in the statement of profit or loss between the restated amounts presented by applying PSAK 118 and the amounts previously presented applying PSAK 201.

4) From a cash flow statement perspective, there will be changes to how interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from current presentation as part of operating cash flows.

c. Financial assets and financial liabilities

The Bank's financial assets consist of cash, current accounts with Bank Indonesia, current accounts with other banks, placements with Bank Indonesia and other banks, marketable securities, securities sold under agreements to repurchase, securities purchased under agreements to resell, spot and derivative receivables, acceptance receivables, loans, interest receivables and other assets (fees and commissions receivables).

The Bank's financial liabilities consist of liabilities due immediately, deposits from customers, deposits from other banks, liabilities of securities sold under agreements to repurchase, spot and derivative liabilities, acceptance liabilities, borrowings and other liabilities (accrued interest, guarantee deposits, allowance for employee welfare, liabilities to Jalin ATM, lease liabilities and other liabilities).

i. Classification

In accordance with PSAK 109, Bank classifies its financial assets based on the following categories:

- Financial assets measured at amortized cost;
- Financial assets measured at fair value through other comprehensive income;
- Financial assets measured at fair value through profit or loss.

Financial assets are measured at amortized cost if its meet the following conditions:

- financial assets are managed in a business model that aims to have financial assets in order to obtain contractual cash flow; and
- the contractual terms of the financial asset provide rights on certain date for cash flow obtained solely from payment of principal and interest (SPPI) on the principal amount owed.

Financial assets are measured at fair value through other comprehensive income if its meet the following conditions:

- financial assets are managed in a business model that aims to obtain contractual cash flow and sell financial assets; and
- the contractual requirements of the financial assets meet the SPPI criteria.

i. Klasifikasi (Lanjutan)

Pada saat pengakuan awal, Bank dapat membuat pilihan yang tidak dapat dibatalkan untuk menyajikan instrumen ekuitas yang bukan dimiliki untuk diperdagangkan pada nilai wajar melalui penghasilan komprehensif lain.

Aset keuangan lainnya yang tidak memenuhi persyaratan untuk diklasifikasikan sebagai aset keuangan diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain, diklasifikasikan sebagai diukur pada nilai wajar melalui laba rugi.

Saat pengakuan awal Bank dapat membuat penetapan yang tidak dapat dibatalkan untuk mengukur aset yang memenuhi persyaratan untuk diukur pada biaya perolehan diamortisasi, nilai wajar melalui penghasilan komprehensif lain atau pada nilai wajar melalui laba rugi, apabila penetapan tersebut mengeliminasi atau secara signifikan mengurangi inkonsistensi pengukuran atau pengakuan (kadang disebut sebagai “*accounting mismatch*”).

Penilaian apakah arus kas kontraktual hanya merupakan pembayaran pokok dan bunga semata (SPPI)

Untuk tujuan penilaian ini, “pokok” didefinisikan sebagai nilai wajar dari aset keuangan pada pengakuan awal. “Bunga” didefinisikan sebagai imbalan untuk nilai waktu atas uang dan untuk risiko kredit yang terkait dengan jumlah pokok yang terutang selama periode waktu tertentu dan untuk risiko dan biaya pinjaman dasar lainnya (misalnya risiko likuiditas dan biaya administrasi), serta margin keuntungan.

Dalam menilai apakah arus kas kontraktual adalah SPPI, Bank mempertimbangkan ketentuan kontraktual instrumen tersebut. Hal ini termasuk menilai apakah aset keuangan mengandung ketentuan kontraktual yang dapat mengubah waktu atau jumlah arus kas kontraktual sehingga tidak memenuhi kondisi.

i. Classification (Continued)

At initial recognition, the Bank may make an irrevocable choice to present equity instrument that are not held for trading at fair value through other comprehensive income.

Other financial assets that do not meet the requirements to be classified as financial assets measured at amortized cost or fair value through other comprehensive income, are classified as measured at fair value through profit or loss.

*At initial recognition, the Bank can make an irrevocable determination to measure assets that meet the requirements to be measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss, if the determination eliminates or significantly reduces the measurement or recognition inconsistencies (sometimes referred to as “*accounting mismatch*”).*

Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI)

For the purposes of this assessment, “principal” is defined as the fair value of the financial asset on initial recognition. “Interest” is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as profit margin.

In assessing whether the contractual cash flows are SPPI, the Bank considers the contractual terms of the instruments. This includes assessing whether the financial assets contain a contractual term that could change the time or amount of contractual cash flows such that it would not meet this condition.

i. Klasifikasi (Lanjutan)

Dalam melakukan penilaian, Bank mempertimbangkan:

- kejadian kontinjensi yang akan mengubah jumlah dan waktu arus kas;
- fitur *leverage*;
- persyaratan pelunasan dipercepat dan perpanjangan fasilitas;
- ketentuan yang membatasi klaim Bank atas arus kas dari aset tertentu (seperti pinjaman *non-recourse*); dan
- fitur yang memodifikasi imbalan dari nilai waktu atas uang (seperti penetapan ulang suku bunga berkala).

Penilaian model bisnis

Model bisnis ditentukan pada level yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama-sama untuk mencapai tujuan bisnis tertentu.

Penilaian model bisnis dilakukan dengan mempertimbangkan, tetapi tidak terbatas pada, hal-hal berikut:

- Bagaimana kinerja dari model bisnis dan aset keuangan yang dimiliki dalam model bisnis dievaluasi dan dilaporkan kepada personil manajemen kunci Bank;
- Apakah risiko yang memengaruhi kinerja dari model bisnis (termasuk aset keuangan yang dimiliki dalam model bisnis) dan khususnya bagaimana cara aset keuangan tersebut dikelola; dan
- Bagaimana penilaian kinerja pengelola aset keuangan (sebagai contoh, apakah penilaian kinerja berdasarkan nilai wajar dari aset yang dikelola atau arus kas kontraktual yang diperoleh).

i. Classification (Continued)

In making the assessment, the Bank considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Bank's claims to cash flows from specified assets (e.g., non-recourse loans); and
- features that modify consideration of the time value of money (e.g., periodical reset of interest rates).

Valuation of business models

The business model is determined at a level that reflects how groups of financial assets are managed together to achieve certain business objectives.

The evaluation of the business model is carried out by considering, but not limited to, the following:

- How the performance of the business model and financial assets held in the business model are evaluated and reported to the Bank's key management personnel;
- What risks affect the performance of the business model (including financial assets held in the business model) and specifically how the financial assets are managed; and
- How to evaluate the performance of managers of financial assets (for example, whether performance appraisals are based on the fair value of the assets being managed or the contractual cash flows obtained).

i. Klasifikasi (Lanjutan)

Penilaian model bisnis (Lanjutan)

Liabilitas keuangan diklasifikasikan ke dalam kategori sebagai berikut pada saat pengakuan awal:

- Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu liabilitas keuangan yang ditetapkan demikian pada saat pengakuan awal dan liabilitas keuangan yang telah diklasifikasikan dalam kelompok diperdagangkan;

- Liabilitas keuangan lain

Liabilitas keuangan lainnya merupakan liabilitas keuangan yang tidak dimiliki untuk dijual atau ditentukan sebagai nilai wajar melalui laba rugi saat pengakuan liabilitas.

ii. Pengakuan awal

- a. Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam kurun waktu yang telah ditetapkan oleh peraturan dan kebiasaan yang berlaku di pasar (pembelian secara reguler) diakui pada tanggal perdagangan, yaitu tanggal Bank berkomitmen untuk membeli atau menjual aset.

- b. Aset keuangan dan liabilitas keuangan pada awalnya diukur pada nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diklasifikasikan pada nilai wajar melalui laba atau rugi, nilai wajar tersebut ditambah/dikurangi biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan atau penerbitan aset keuangan atau liabilitas keuangan.

Bank, pada pengakuan awal, dapat menetapkan aset keuangan dan liabilitas keuangan tertentu sebagai nilai wajar melalui laba rugi ("opsi nilai wajar").

Valuation of business models
(Continued)

Financial liabilities are classified into the following categories at initial recognition:

- Financial liabilities at fair value through profit or loss, which has 2 (two) sub-classifications, i.e., those designated as such upon initial recognition and those classified as held for trading;

- Other financial liabilities

Other financial liabilities pertain to financial liabilities that are not held for trading nor designated as at fair value through profit or loss upon recognition of the liability.

ii. Initial recognition

- a. Purchase or sale of financial assets that requires delivery of assets within a time frame established by regulation or convention in the market (regular purchases) is recognized on the trade date, i.e., the date that the Bank commits to purchase or sell the assets.

- b. Financial assets and financial liabilities are initially recognized at fair value. For those financial assets or financial liabilities that are not being classified at fair value through profit or loss, the fair value is added/deducted with directly attributable transaction costs to the issuance of financial assets or liabilities.

The Bank, upon initial recognition, may designate certain financial assets and liabilities, at fair value through profit or loss ("fair value option").

Selanjutnya, penetapan ini tidak dapat diubah. Opsi nilai wajar dapat digunakan hanya bila memenuhi ketentuan sebagai berikut:

- penetapan sebagai opsi nilai wajar mengurangi atau mengeliminasi ketidak-konsistenan pengukuran dan pengakuan (*accounting mismatch*) yang dapat timbul; atau
- aset keuangan dan liabilitas keuangan merupakan bagian dari portofolio instrumen keuangan yang risikonya dikelola dan dilaporkan kepada manajemen kunci berdasarkan nilai wajar; atau
- aset keuangan dan liabilitas keuangan terdiri dari kontrak utama dan derivatif melekat yang harus dipisahkan, tetapi tidak dapat mengukur derivatif melekat secara terpisah.

iii. Pengukuran setelah pengakuan awal

Aset keuangan dalam kelompok aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi diukur pada nilai wajarnya.

Aset keuangan kelompok biaya perolehan diamortisasi dan liabilitas keuangan lainnya diukur pada biaya perolehan diamortisasi dengan menggunakan suku bunga efektif.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability which are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of profit or loss and other comprehensive income.

v. Income and expense recognition

- a. Interest income and expense on financial assets measured at fair value through other comprehensive income as well as financial assets and financial liabilities recorded at amortized cost are recognized in the statement of profit or loss using the effective interest method.

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for allowance for impairment.

In calculating interest income and expenses, the effective interest rate is applied to the gross carrying amount of an asset (when the asset is not a deteriorated financial asset) or to the amortized cost of a liability.

vii. Saling hapus

Aset keuangan dan liabilitas keuangan dilakukan saling hapus dan nilai bersihnya disajikan dalam laporan posisi keuangan jika, dan hanya jika Bank memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut dan adanya maksud untuk menyelesaikan secara bersih atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara bersamaan.

Hal yang berkekuatan hukum harus tidak kontingen atas peristiwa di masa depan dan harus dapat dipaksakan di dalam situasi bisnis normal, peristiwa kegagalan atau kebangkrutan dari Bank atas seluruh pihak lawan.

Pendapatan dan beban disajikan dalam jumlah bersih hanya jika diperkenankan oleh standar akuntansi.

viii. Pengukuran biaya perolehan diamortisasi

Biaya perolehan diamortisasi dari aset keuangan atau liabilitas keuangan adalah jumlah aset keuangan atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok kredit, ditambah atau dikurangi amortisasi kumulatif menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai pengakuan awal dan nilai jatuh temponya, dan dikurangi penurunan nilai.

ix. Pengukuran nilai wajar

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam suatu transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Pengukuran nilai wajar mengasumsikan bahwa transaksi untuk menjual aset atau mengalihkan liabilitas terjadi:

- Di pasar utama untuk aset dan liabilitas tersebut; atau
- Jika tidak terdapat pasar utama, di pasar yang paling menguntungkan untuk aset atau liabilitas tersebut.

vii. Offsetting

Financial assets and liabilities are set off and the net amount is presented in the statement of financial position when, and only when, the Bank has a legal right to set off the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

The legally enforceable right must not be contingent on the future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Bank or the counterparty.

Income and expenses are presented on a net basis only when permitted by the accounting standards.

viii. Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

ix. Fair value measurement

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the assumption that the transaction to sell an asset or transfer a liability takes place occurs:

- In the principal market for the assets and liabilities; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

ix. Pengukuran nilai wajar (Lanjutan)

Nilai wajar suatu aset atau liabilitas diukur menggunakan asumsi yang akan digunakan pelaku pasar ketika menentukan harga aset dan liabilitas tersebut dengan asumsi bahwa pelaku pasar bertindak dalam kepentingan ekonomi terbaiknya.

Pengukuran nilai wajar aset non keuangan memperhitungkan kemampuan pelaku pasar untuk menghasilkan manfaat ekonomik dengan menggunakan aset dalam penggunaan tertinggi dan terbaiknya atau dengan menjualnya kepada pelaku pasar lain yang akan menggunakan aset tersebut dalam penggunaan tertinggi dan terbaiknya.

Bank menggunakan teknik penilaian yang sesuai dalam keadaan dan dimana data yang memadai tersedia untuk mengukur nilai wajar, mengoptimalkan penggunaan input yang dapat diobservasi yang relevan dan meminimalkan penggunaan input yang tidak dapat diobservasi.

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan dapat dikategorikan pada tingkat hierarki nilai wajar, berdasarkan tingkatan input terendah yang signifikan atas pengukuran nilai wajar secara keseluruhan:

- Tingkat 1: harga kuotasian (tanpa penyesuaian) di pasar aktif untuk aset atau liabilitas yang identik yang dapat diakses pada tanggal pengukuran.
- Tingkat 2: input selain harga kuotasian yang termasuk dalam tingkat 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung atau tidak langsung.
- Tingkat 3: input yang tidak dapat diobservasi untuk aset dan liabilitas.

Untuk aset dan liabilitas yang diakui pada laporan keuangan secara berulang, Bank menentukan apakah terjadi transfer antara tingkat di dalam hierarki dengan cara mengevaluasi kategori (berdasarkan input tingkat terendah yang signifikan dalam pengukuran nilai wajar) setiap akhir periode pelaporan.

ix. Fair value measurement (Continued)

The fair value of an asset or liability is measured using the assumptions that would be use by market participants in determining the price of the asset and the liability assuming that market participants act in their best economic interests.

The measurement of the fair value of non-financial assets takes into account the ability of market participants to generate economic benefits by using the asset in the highest and best use or by selling them to other market participants that would use the asset in the highest and best use.

Bank uses suitable valuation techniques in the circumstances and where sufficient data are available to measure fair value, optimizing the use of relevant observable inputs and minimize the use of inputs that are not observable.

All assets and liabilities for which fair value is measured or disclosed in the financial statements can be classified in fair value hierarchy levels, based on the lowest level of input that is significant to the overall fair value measurement:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities which are accessible at the measurement date.
- Level 2: inputs other than quoted prices included in level 1 that are observable for the assets and liabilities, either directly or indirectly.
- Level 3: inputs that are not observable for the assets and liabilities.

For assets and liabilities that are recognized in the financial statements on recurring basis, the Bank determines whether there is a transfer between levels in the hierarchy by evaluating categories (based on the lowest level input that is significant to the fair value measurement) at the end of each reporting period.

f. Penempatan pada Bank Indonesia dan bank lain

Penempatan pada Bank Indonesia dan bank lain terdiri dari Fasilitas Simpanan Bank Indonesia ("FASBI") dan deposito berjangka.

Penempatan pada Bank Indonesia dan bank lain diklasifikasikan sebagai biaya perolehan diamortisasi. Penempatan pada bank lain dinyatakan sebesar biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi cadangan kerugian penurunan nilai.

g. Efek-efek

Efek-efek yang dimiliki merupakan Surat Utang Negara (SUN) dan Sekuritas Rupiah Bank Indonesia (SRBI).

Efek-efek pada awalnya disajikan sebesar nilai wajarnya. Setelah pengakuan awal, surat-surat berharga dicatat sesuai dengan kategorinya yaitu investasi pada biaya perolehan diamortisasi, yang diukur pada nilai wajar melalui penghasilan komprehensif lain atau diukur pada nilai wajar melalui laba atau rugi.

Penilaian surat-surat berharga didasarkan atas klasifikasinya sebagai berikut:

1. Surat-surat berharga yang diklasifikasikan pada biaya perolehan diamortisasi dicatat menggunakan metode suku bunga efektif.
2. Surat-surat berharga yang diklasifikasikan pada nilai wajar melalui penghasilan komprehensif lain dinyatakan pada nilai wajar. Setelah pengakuan awal, aset keuangan tersebut diukur pada nilai wajar dimana keuntungan dan kerugian yang belum direalisasi atas perubahan nilai wajar akan diakui sebagai penghasilan komprehensif lain. Pendapatan bunga diakui dalam laporan laba rugi dan penghasilan komprehensif lain menggunakan metode suku bunga efektif. Perubahan nilai wajar lainnya diakui secara langsung dalam ekuitas sampai dengan surat-surat berharga tersebut dijual atau mengalami penurunan nilai, dimana keuntungan dan kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus diakui pada laporan laba rugi dan penghasilan komprehensif lain.
3. Surat berharga yang diklasifikasikan pada nilai wajar melalui laba rugi, yang dinyatakan sebesar nilai wajar. Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajarnya disajikan dalam laporan laba rugi periode yang bersangkutan.

f. Placements with Bank Indonesia and other banks

Placements with Bank Indonesia and other banks consist of Bank Indonesia Deposit Facility ("FASBI") and time deposit.

Placements with Bank Indonesia and other banks are classified as amortized cost. Placements with other banks are stated at amortized cost using the effective interest rate method less allowance for impairment losses.

g. Marketable securities

Marketable securities consist of Government Bonds (SUN) and Bank Indonesia Rupiah Securities (SRBI).

Marketable securities are initially measured at fair value. Subsequent to initial recognition, the marketable securities are recorded according to its category, i.e., amortized cost of investments, which is measured at fair value through other comprehensive income or at fair value through profit or loss.

The value of marketable securities is stated based on the classification as follows:

1. Amortized cost of marketable securities are carried at amortized cost using the effective interest rate method.
2. Marketable securities classified as fair value through other comprehensive income are stated at fair value. Subsequent to initial recognition, these financial assets are measured at fair value which where unrealized gains and losses on changes in fair value are recognized as other comprehensive income. Interest income is recognized in the statement of profit or loss and other comprehensive income using the effective interest method. Other fair value changes are recognized directly in equity until the marketable securities are sold or impaired, whereby the cumulative gains and losses previously recognized in equity are recognized in the statement of profit or loss and other comprehensive income.
3. Marketable securities classified as fair value through profit or loss are stated at fair value. Unrealized gains or losses from the increase or decrease in fair values are presented in current period profit or loss.

h. Efek-efek yang dibeli dengan janji dijual kembali (reverse repo) dan efek-efek yang dijual dengan janji dibeli kembali (repo)

Efek-efek yang dibeli dengan janji untuk dijual kembali (reverse repo) dan efek-efek yang dijual dengan janji dibeli kembali (repo) diklasifikasikan sebagai biaya perolehan yang diamortisasi.

Efek-efek yang dibeli dengan janji untuk dijual kembali (reverse repo) disajikan sebagai aset dalam laporan posisi keuangan sebesar jumlah penjualan kembali dikurangi dengan pendapatan bunga yang belum diamortisasi dan cadangan kerugian penurunan nilai.

Selisih antara harga beli dengan harga jual kembali diperlakukan sebagai pendapatan bunga yang ditangguhkan, dan diakui sebagai pendapatan selama periode sejak efek-efek dibeli hingga dijual menggunakan metode suku bunga efektif.

Efek-efek yang dijual dengan janji dibeli kembali (repo) disajikan sebagai liabilitas dalam laporan posisi keuangan sebesar harga pembelian kembali yang disepakati dikurangi selisih antara harga jual dan harga pembelian kembali yang disepakati. Selisih antara harga jual dan harga pembelian kembali yang disepakati tersebut diamortisasi dengan menggunakan metode suku bunga efektif sebagai beban bunga selama jangka waktu sejak surat berharga tersebut dijual hingga saat dibeli kembali.

i. Tagihan dan liabilitas derivatif

Dalam melakukan usaha bisnisnya, Bank melakukan transaksi instrumen keuangan derivatif seperti kontrak berjangka mata uang asing dan transaksi spot untuk mengelola eksposur pada risiko pasar seperti, risiko mata uang.

Instrumen keuangan derivatif diakui di laporan posisi keuangan pada nilai wajar. Setiap kenaikan nilai wajar kontrak derivatif dicatat sebagai aset apabila memiliki nilai wajar positif dan sebagai liabilitas apabila memiliki nilai wajar negatif.

Tagihan dan liabilitas derivatif diklasifikasikan sebagai aset dan liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi.

Keuntungan atau kerugian yang terjadi dari perubahan nilai wajar diakui dalam laporan laba rugi.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(Continued)**

h. Securities purchased under agreements to resell (reverse repo) and securities sold under agreements to repurchase (repo)

Securities purchased under agreements to resell (reverse repo) and securities sold under agreements to repurchase (repo) are classified as amortized cost.

Securities purchased under agreements to resell (reverse repo) are presented as asset in the statement of financial position, at the resale price net of unamortized interest and allowance for impairment losses.

The difference between the purchase price and the resale price is treated as unearned interest income, and recognized as income over the period starting from the securities are purchased until they are sold using effective interest rate method.

Securities sold under agreements to repurchase (repo) are presented as liabilities in the statement of financial position at the agreed repurchase price less the difference between the selling price and agreed repurchase price. The difference between the selling price and agreed repurchase price is amortized using effective interest method as interest expense over the period commencing from the selling date to the repurchase date.

i. Derivative receivables and payables

In the normal course of its business, Bank enters into transactions involving derivative financial instruments such as foreign currency forward contracts, and spot transactions to manage exposures on market risks, such as currency risk.

Derivative financial instruments are recognized in the statement of financial position at fair value. Each increase in fair value derivative contract is carried as asset when the fair value is positive and as liability when the fair value is negative.

Derivative receivable and payable are classified as financial assets and liabilities at fair value through profit or loss.

Gains or losses resulting from fair value changes are recognized in the statement of profit or loss.

i. Tagihan dan liabilitas derivatif (Lanjutan)

Nilai wajar instrumen derivatif ditentukan berdasarkan diskonto arus kas dan model penentu harga atau harga yang diberikan oleh broker (*quoted price*) atas instrumen lainnya yang memiliki karakteristik serupa.

Kontrak berjangka mata uang asing dilakukan untuk tujuan pendanaan dan perdagangan.

j. Tagihan dan liabilitas akseptasi

Tagihan akseptasi diklasifikasikan sebagai aset keuangan dalam kelompok biaya perolehan diamortisasi. Liabilitas akseptasi diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

k. Kredit yang diberikan

Kredit yang diberikan adalah penyediaan uang atau tagihan yang dapat disetarakan dengan itu, berdasarkan persetujuan atau kesepakatan pinjam-meminjam dengan debitur yang mewajibkan debitur untuk melunasi utang dan bunganya setelah jangka waktu tertentu.

Kredit yang diberikan diklasifikasikan sebagai biaya perolehan yang diamortisasi.

Kredit yang diberikan pada awalnya diukur pada nilai wajar ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung dan biaya tambahan untuk memperoleh aset keuangan tersebut, dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi dengan cadangan kerugian penurunan nilai (Catatan 2l).

Restrukturisasi kredit

Kredit yang direstrukturisasi disajikan sebesar nilai yang lebih rendah antara nilai tercatat kredit pada tanggal restrukturisasi atau nilai kini bersih penerimaan kas masa depan setelah restrukturisasi.

Kerugian akibat selisih antara nilai tercatat kredit pada tanggal restrukturisasi dengan nilai kini bersih penerimaan kas masa depan setelah restrukturisasi diakui dalam laporan laba rugi dan penghasilan komprehensif lain. Setelah restrukturisasi, semua penerimaan kas masa depan yang ditetapkan dalam persyaratan baru dicatat sebagai pengembalian pokok kredit yang diberikan dan pendapatan bunga sesuai dengan syarat-syarat restrukturisasi.

i. Derivative receivables and payables
(Continued)

The fair value of derivative instruments is determined based on discounted cash flows and pricing models or quoted prices from brokers of other instruments with similar characteristics.

Foreign currency forward contracts are for funding and trading purposes.

j. Acceptance receivables and liabilities

Acceptance receivables are classified as financial assets measured at amortized cost. Acceptance liabilities are classified as financial liabilities measured at amortized cost.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

k. Loans

Loans represent funds provided or receivables that can be considered as equivalents thereof, based on agreements or financing contracts with borrowers, where borrowers are required to repay their debts with interest after a specified period.

Loans are classified as amortized cost.

Loans are initially measured at fair value plus transaction costs that are directly attributable and additional costs to obtain financial assets, and after initial recognition are measured at amortized cost based on the effective interest rate method less allowance for impairment losses (Note 2l).

Loan restructuring

Restructured loans are stated at the lower of carrying value of the loan at the time of restructuring or net present value of the total future cash receipts after restructuring.

Losses arising from any excess of the carrying value of the loan at the time of restructuring over the net present value of the total future cash receipts after restructuring are recognized in the statement of profit or loss and other comprehensive income. Thereafter, all cash receipts under the new terms shall be accounted for as the recovery of principal and interest income, in accordance with the restructuring scheme.

k. Kredit yang diberikan (Lanjutan)

Dalam hal restrukturisasi kredit bermasalah dilakukan hanya dengan modifikasi persyaratan kredit, Bank mencatat dampak restrukturisasi tersebut secara prospektif dan tidak mengubah nilai tercatat kredit yang diberikan pada tanggal restrukturisasi, kecuali jika jumlahnya melebihi nilai kini penerimaan kas masa depan yang ditentukan dalam persyaratan baru. Jika nilai kini penerimaan kas masa depan sebagaimana yang ditentukan dalam persyaratan baru dari kredit yang direstrukturisasi tersebut lebih rendah daripada nilai tercatat kredit yang diberikan sebelum direstrukturisasi, Bank harus mengurangi saldo kredit yang diberikan ke suatu jumlah yang sama dengan jumlah nilai kini penerimaan kas masa depan. Jumlah pengurangan tersebut diakui sebagai kerugian modifikasi.

Kredit yang diberikan dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian di masa datang dan semua jaminan telah diupayakan untuk direalisasi atau sudah diambil alih. Kredit yang tidak dapat dilunasi dihapusbukukan dengan mendebit cadangan kerugian penurunan nilai. Pelunasan kemudian atas kredit yang telah dihapusbukukan sebelumnya dikreditkan ke cadangan kerugian penurunan nilai di laporan posisi keuangan, jika pada periode berjalan.

l. Identifikasi dan pengukuran kerugian penurunan nilai

Aset produktif terdiri dari giro pada bank lain, penempatan pada bank lain, efek-efek, efek-efek yang dibeli dengan janji dijual kembali, tagihan akseptasi, kredit yang diberikan, tagihan lainnya dan komitmen dan kontinjensi. Komitmen dan kontinjensi pada transaksi rekening administratif, antara lain terdiri dari tetapi tidak terbatas pada penerbitan jaminan dan fasilitas kredit yang belum digunakan.

PSAK 109 mengharuskan cadangan kerugian diakui sebesar kerugian kredit ekspektasian 12 bulan atau kerugian kredit ekspektasian sepanjang umur aset keuangan. Sepanjang umur kerugian kredit ekspektasian adalah kerugian kredit ekspektasian yang berasal dari semua kemungkinan kejadian gagal bayar sepanjang umur ekspektasian suatu instrumen keuangan, sedangkan kerugian kredit ekspektasian 12 bulan adalah porsi dari kerugian kredit ekspektasian yang berasal dari kemungkinan kejadian gagal bayar dalam 12 bulan setelah tanggal pelaporan.

**2. MATERIAL ACCOUNTING POLICY INFORMATION

k. Loans (Continued)

In troubled debt restructuring which only involves modification of the credit terms, the Bank accounts for the restructuring's effect prospectively and does not change the carrying amount of the loans at the time of restructuring, unless the amount exceeds the present value of the total future cash receipts specified in the new terms. If the present value of the total future cash receipts specified in the new terms is lower than the carrying amount of the loans prior to restructuring, the Bank reduces the loans balance to the amount equal to the present value of the total future cash receipts. The amount of the reduction is recognized as modified loss.

Loans are written-off when there are no realistic prospects of future recovery and all collateral have been realized or have been foreclosed. When loans are deemed uncollectible, they are written-off against the related allowance for impairment losses. Subsequent recoveries of loans written-off are credited to the allowance for impairment losses in the statement of financial position, if recovered in the current year.

l. Identification and measurement of impairment losses

Earning assets consist of current accounts with other banks, placements with other banks, marketable securities, securities purchased under agreements to resell, acceptance receivables, loans, other receivable and commitments and contingencies. Commitments and contingencies are off-balance sheet transactions which include but are not limited to issued guarantees and unused loan facilities.

PSAK 109 requires a loss allowance to be recognized at an amount equal to either 12 months expected credit loss or lifetime expected credit loss. Lifetime expected credit loss are the expected credit loss that result from all possible of default events over the expected life of a financial instrument, whereas 12-month expected credit loss are the portion of expected credit loss that result from default events that are possible with the 12 months after reporting date.

I. Identifikasi dan pengukuran kerugian
penurunan nilai (Lanjutan)

Kerugian kredit ekspektasian diakui untuk seluruh instrumen utang keuangan, komitmen pinjaman dan jaminan keuangan yang diklasifikasikan sebagai *hold to collect/hold to collect and sell* dan memiliki arus kas SPPI. Kerugian kredit ekspektasian tidak diakui untuk instrumen ekuitas yang ditetapkan sebagai nilai wajar melalui penghasilan komprehensif lain.

Bank mengakui cadangan kerugian untuk kerugian kredit ekspektasian pada instrumen keuangan berikut yang tidak diukur pada nilai wajar melalui laba rugi:

- Aset keuangan yang merupakan instrumen utang;
- Kontrak jaminan keuangan yang diterbitkan; dan
- Kredit yang diberikan.

Bank menggunakan model yang kompleks dengan menggunakan matriks *probability of default* ("PD"), *loss given default* ("LGD") dan *exposure at default* ("EAD"), yang didiskontokan menggunakan suku bunga efektif.

a. *Probability of Default* ("PD")

Probabilitas yang timbul di suatu waktu dimana debitur mengalami gagal bayar, dikalibrasikan sampai dengan 12 bulan dari tanggal laporan (Tahap 1) atau sepanjang umur (Tahap 2 dan 3) dan digabungkan pada dampak asumsi ekonomi masa depan yang memiliki risiko kredit. PD diestimasi pada *point in time* dimana hal ini berfluktuasi sejalan dengan siklus ekonomi.

b. *Loss Given Default* ("LGD")

Kerugian yang diperkirakan akan timbul dari debitur yang mengalami gagal bayar dengan menggabungkan dampak dari asumsi ekonomi masa depan yang relevan (jika ada) dimana hal ini mewakili perbedaan antara arus kas kontraktual yang akan jatuh tempo dengan arus kas yang diharapkan untuk diterima. Bank mengestimasi LGD berdasarkan data historis dari tingkat pemulihan dan memperhitungkan pemulihan yang berasal dari jaminan terhadap aset keuangan dengan mempertimbangkan asumsi ekonomi di masa depan jika relevan.

2. MATERIAL ACCOUNTING POLICY INFORMATION
(Continued)

I. *Identification and measurement of impairment losses* (Continued)

Expected credit losses are recognized for all financial debt instruments, loan commitments and financial guarantees that are classified as hold to collect/hold to collect and sell and have cash flows that SPPI. Expected credit losses are not recognized for equity instruments designated at fair value through other comprehensive income.

Bank recognizes loss allowance for expected credit losses on the following financial instruments that are not measured at fair value through profit or loss:

- *Financial assets that are debt instruments;*
- *Financial guarantee contracts issued; and*
- *Loans.*

The Bank primarily uses sophisticated model that utilize the probability of default ("PD"), loss given default ("LGD") and exposure at default ("EAD") metrics, discounted using the effective interest rate.

a. *Probability of Default* ("PD")

The probability at a point in time that a counterparty will default, calibrated over up to 12 months from the reporting date (Stage 1) or over the lifetime of the product (Stage 2 and 3) and incorporating the impact of forward-looking economic assumptions that have an effect on credit risk. PD is estimated at a point in time that means it will fluctuate in line with the economic cycle.

b. *Loss Given Default* ("LGD")

The loss that is expected to arise on default, incorporating the impact of relevant forward looking economic assumptions (if any), which represents the difference between the contractual cash flows due and those that expects to receive. The Bank estimates LGD based on the historical recovery rates and considers the recovery of any collateral that is integral to the financial assets, taking into account forward looking economic assumptions if relevant.

penurunan nilai (Lanjutan)

Bank menggunakan model yang kompleks dengan menggunakan matriks *probability of default* ("PD"), *loss given default* ("LGD") dan *exposure at default* ("EAD"), yang didiskontokan menggunakan suku bunga efektif. (Lanjutan)

c. *Exposure at Default* ("EAD")

Perkiraan nilai eksposur neraca pada saat gagal bayar dengan mempertimbangkan bahwa perubahan ekspektasi yang diharapkan selama masa eksposur. Hal ini menggabungkan dampak penarikan fasilitas yang *committed* pembayaran pokok dan bunga, amortisasi dan pembayaran dipercepat, bersama dengan dampak asumsi ekonomi masa depan jika relevan.

d. *Expected Credit Loss* ("ECL")

Perhitungan penurunan nilai aset keuangan menerapkan pendekatan tiga tahap untuk mengukur kerugian kredit ekspektasian ("ECL"). Aset keuangan bermigrasi melalui tiga tahap berikut berdasarkan perubahan kualitas kredit sejak awal:

- Tahap 1: ECL 12 bulan

Untuk eksposur yang tidak mengalami peningkatan risiko kredit secara signifikan sejak pengakuan awal dan bukan merupakan kredit yang pada awalnya mengalami penurunan nilai, bagian dari ECL sepanjang umurnya terkait dengan probabilitas kejadian *default* yang terjadi dalam 12 bulan ke depan diakui.

- Tahap 2: ECL sepanjang umurnya (tidak mengalami penurunan nilai)

Untuk eksposur yang telah terjadi peningkatan risiko kredit secara signifikan sejak pengakuan awal tetapi tidak mengalami penurunan nilai, maka ECL sepanjang umur diakui.

- Tahap 3: ECL sepanjang umurnya (mengalami penurunan nilai)

Aset keuangan dinilai mengalami penurunan nilai ketika satu atau lebih peristiwa yang memiliki dampak yang merugikan terhadap perkiraan arus kas masa depan dari aset tersebut telah terjadi.

Khusus untuk debitur yang terkena dampak COVID-19 dan dalam program restrukturisasi COVID-19, maka untuk perhitungan ECL tidak secara otomatis memicu peningkatan risiko kredit yang signifikan.

The Bank primarily uses sophisticated model that utilize the *probability of default* ("PD"), *loss given default* ("LGD") and *exposure at default* ("EAD") metrics, discounted using the effective interest rate. (Continued)

c. *Exposure at Default* ("EAD")

The expected balance sheet exposure at the time of default, taking into account that expected change in exposure over the lifetime of the exposure. This incorporates the impact of drawdowns of committed facilities, repayments of principal and interest, amortization and prepayments, together with the impact of forward looking economic assumptions where relevant.

d. *Expected Credit Loss* ("ECL")

Calculation for allowance for impairment losses on financial assets applies three stages approach to measuring expected credit loss ("ECL"). Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

- Stage 1: 12 months ECL

For exposure where there has not been a significant increase in credit risk since initial recognition and that are not credit impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12 months is recognized.

- Stage 2: Life time ECL (non-impaired)

For exposure where there has been a significant increase in credit risk since initial recognition but that are not impaired, a life time ECL is recognized.

- Stage 3: Life time ECL (impaired)

Financial assets are assessed as impaired when one or more event that have a detrimental impact on the estimated future cash flow of that asset have occurred.

Specifically for debtors affected by COVID-19 and under COVID-19 restructuring program, in term of the ECL calculation, it may not automatically trigger a significant increase in credit risk.

Bank mempertimbangkan pengalaman kerugian historisnya dan menyesuaikan dengan data yang dapat diobservasi saat ini. Selain hal tersebut, penggunaan perkiraan yang wajar dan mendukung kondisi ekonomi masa depan termasuk pertimbangan untuk mengestimasi jumlah kerugian penurunan nilai ekspektasian.

PSAK 109 memperkenalkan penggunaan faktor-faktor ekonomi makro yang mencakup, tetapi tidak terbatas pada tingkat pengangguran, suku bunga, produk domestik bruto, inflasi, harga properti, dan harga BBM dan mensyaratkan evaluasi baik saat ini dan perkiraan arah siklus ekonomi. Memasukkan informasi *forward looking* untuk menambah justifikasi mengenai dampak perubahan pada faktor-faktor makro ekonomi akan mempengaruhi perhitungan ECL.

Metodologi dan asumsi termasuk setiap perkiraan kondisi ekonomi masa depan ditelaah secara berkala.

Cadangan kerugian untuk ECL disajikan dalam laporan posisi keuangan sebagai berikut:

- Aset keuangan diukur pada biaya perolehan diamortisasi: sebagai pengurang dari nilai tercatat bruto aset;
- Komitmen pinjaman dan kontrak jaminan keuangan: umumnya, sebagai provisi yang dicatat pada liabilitas lainnya.

Hapus buku aset keuangan

Aset keuangan dan penyisihan yang terkait dihapusbukukan jika tidak ada peluang yang realistis untuk pengembalian di masa datang dan semua jaminan telah direalisasi atau sudah diambil alih oleh Bank. Aset keuangan tersebut dihapus buku dengan mendebit cadangan kerugian penurunan nilai. Aset keuangan tersebut dapat dihapus buku setelah semua prosedur yang diperlukan telah dilakukan dan jumlah kerugian telah ditentukan.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada periode berjalan di kreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Sementara, penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada periode sebelumnya dicatat sebagai pendapatan operasional lainnya pada laporan laba rugi.

d. *Expected Credit Loss* ("ECL") (Continued)

The Bank considers its historical loss experience and adjust this for current observable data. In addition, uses of reasonable and supportable forecasts of future economic conditions including experienced judgment to estimate the amount of an expected impairment loss.

PSAK 109 introduces the use of macroeconomic factors which include, but its not limited to, unemployment, interest rates, gross domestic product, inflation, commercial property price and fuel prices, and requires an evaluation of both the current and forecast direction of the economic cycle. Incorporating forward looking information increase the level of judgment as to how to change in these macroeconomic factors will affect ECL.

The methodology and assumptions including any forecasts of future economic conditions are reviewed regularly.

Loss allowances for ECL are presented in the statement of financial position as follows:

- Financial assets measured at amortized cost: as a deduction from the gross carrying amount of the assets;
- Loan commitments and financial guarantee contracts: generally, as a provision which is presented in other liabilities.

Write off of financial assets

Financial assets and the associated allowance are written off in the absence of realistic opportunities for future returns and any warranties have been realized or taken over by the Bank. The financial assets were written off against the related allowance for impairment losses. The financial assets may be removed after all necessary procedures have been performed and the amount of loss has been determined.

Subsequent recoveries from financial assets which were written off in the current period is credited to the allowance for impairment losses account. While, subsequent recoveries from financial assets which were written off in the previous period are recorded as other operating income in the statement of profit or loss.

m. Beban dibayar di muka

Beban dibayar di muka diamortisasi selama masa manfaat masing-masing biaya dengan menggunakan metode garis lurus.

n. Aset tetap dan penyusutan

Bank menerapkan kebijakan akuntansi model revaluasi untuk aset tetap tanah dan bangunan. Untuk aset tetap selain tanah dan bangunan menggunakan model biaya.

Tanah dan bangunan disajikan sebesar nilai wajar, dikurangi akumulasi penyusutan untuk bangunan. Penilaian terhadap tanah dan bangunan dilakukan oleh penilai independen eksternal yang telah memiliki sertifikasi. Penilaian atas aset tersebut dilakukan secara berkala untuk memastikan bahwa nilai wajar aset yang direvaluasi tidak berbeda secara material dengan nilai tercatatnya. Akumulasi penyusutan pada tanggal revaluasi dieliminasi terhadap nilai tercatat bruto aset, dan nilai bersihnya disajikan kembali sebesar nilai revaluasi aset tetap.

Jika nilai wajar dari aset yang direvaluasi mengalami perubahan yang signifikan dan fluktuatif, maka perlu direvaluasi secara tahunan, sedangkan jika nilai wajar dari aset yang direvaluasi tidak mengalami perubahan yang signifikan dan fluktuatif, maka perlu dilakukan revaluasi paling kurang 5 tahun sekali.

Kenaikan nilai tercatat yang timbul dari revaluasi tanah dan bangunan dicatat sebagai "Selisih Lebih Revaluasi Aset Tetap" dan disajikan sebagai "Penghasilan Komprehensif Lain". Penurunan nilai tercatat yang timbul dari penurunan nilai, jika ada, dicatat sebagai beban pada tahun berjalan. Apabila aset tersebut memiliki saldo "Selisih Lebih Revaluasi Aset Tetap", maka penurunan nilai dibebankan pada "Selisih Lebih Revaluasi Aset Tetap" yang disajikan pada "Penghasilan Komprehensif Lain", dan saldonya diakui sebagai beban tahun berjalan.

Aset tetap selain tanah dan bangunan awalnya diakui sebesar biaya perolehan, yang terdiri atas harga perolehan dan biaya-biaya tambahan yang dapat diatribusikan langsung untuk membawa aset ke lokasi dan kondisi yang diinginkan supaya aset tersebut siap digunakan sesuai dengan maksud manajemen.

Setelah pengakuan awal, aset tetap, kecuali tanah dan bangunan, dinyatakan pada biaya perolehan dikurangi akumulasi penyusutan dan rugi penurunan nilai.

m. Prepaid expenses

Prepaid expenses are amortized over the beneficial periods using the straight-line method.

n. Fixed assets and depreciation

Bank applies revaluation model as accounting policy for land and buildings. For fixed assets other than land and buildings, it applies cost model.

Land and buildings are shown at fair value, less accumulated depreciation for buildings. Valuation of land and buildings are performed by external independent valuers with certain qualification. Valuation is performed with sufficient regularity to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net amount is restated to the revalued amount of the asset.

If the fair value of the revalued asset changes significantly, it is necessary to revalue on an annual basis, whereas if the fair value of the revalued asset does not change significantly, it is necessary to revalue at a minimum every 5 years.

Increases in the carrying amount arising on revaluation of land and buildings is recorded in "Revaluation Surplus of Fixed Assets" and presented as "Other Comprehensive Income". Decrease in carrying amount as a result of impairment, if any, is recorded as expenses in the current year. If the asset has a balance on its "Revaluation Surplus of Fixed Assets", the impairment loss is charged to "Revaluation Surplus of Fixed Assets" which presented as "Other Comprehensive Income" and the balance is charged to current year's expenses.

Fixed assets other than land and buildings are initially recognized at cost, which comprises its purchase price and any costs directly attributable in bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequent to initial recognition, fixed assets, except for land and buildings, are carried at cost less any subsequent accumulated depreciation and impairment losses.

(Lanjutan)

n. Aset tetap dan penyusutan (Lanjutan)

Penyusutan dihitung berdasarkan metode garis lurus berdasarkan tarif sebagai berikut:

	Taksiran masa manfaat/ Estimated useful life
Bangunan dan prasarana	30 tahun/year
Mesin pembangkit tenaga listrik	10 tahun/year
Perabot dan peralatan kantor	3 - 5 tahun/year
Kendaraan bermotor	8 tahun/year

Perabot dan peralatan kantor terdiri dari instalasi, ATM, CRM, perangkat keras komputer, peralatan komunikasi dan peralatan kantor lainnya.

Penilaian aset tetap dilakukan atas penurunan dan kemungkinan penurunan nilai wajar aset jika terjadi peristiwa atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat mungkin tidak dapat seluruhnya terealisasi.

Jumlah tercatat aset tetap dihentikan pengakuannya pada saat dilepaskan atau saat tidak ada manfaat ekonomis masa depan yang diharapkan dari penggunaan atau pelepasannya. Laba atau rugi yang timbul dari penghentian pengakuan aset (dihitung sebagai perbedaan antara jumlah bersih hasil pelepasan dan jumlah tercatat dari aset) dimasukkan dalam laporan laba rugi dan penghasilan komprehensif lain pada tahun aset tersebut dihentikan pengakuannya.

Pada setiap akhir tahun buku, nilai residu, masa manfaat dan metode penyusutan ditelaah, dan jika sesuai dengan keadaan, disesuaikan secara prospektif.

Akumulasi biaya konstruksi aset tetap dikapitalisasi dan dicatat sebagai "Aset dalam Pembangunan". Biaya tersebut direklasifikasi ke akun aset tetap pada saat proses konstruksi atau pemasangan selesai.

Beban pemeliharaan dan perbaikan dibebankan pada laporan laba rugi dan penghasilan komprehensif lain pada saat terjadinya. Beban pemugaran dan penambahan dalam jumlah besar dikapitalisasi kepada jumlah tercatat aset tetap terkait bila besar kemungkinan manfaat ekonomi masa depan menjadi lebih besar dari standar kinerja awal yang ditetapkan sebelumnya dan disusutkan sepanjang sisa masa manfaat aset tetap terkait.

2. MATERIAL ACCOUNTING POLICY INFORMATION
(Continued)

n. Fixed assets and depreciation (Continued)

Depreciation is computed using the straight-line method based on rate as follows:

	Tarif penyusutan/ Depreciation rate	
Bangunan dan improvements	3,3%	Buildings and improvements
Power generator	10%	Power generator
Furniture and office equipment	20% - 33,3%	Furniture and office equipment
Motor vehicles	12,5%	Motor vehicles

Furniture and office equipment consists of installation, ATM, CRM, computer hardware, communication and other office equipment.

The carrying amounts of fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be fully recoverable.

An item of fixed assets is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit or loss and other comprehensive income in the year the asset is derecognized.

At each financial year end, the assets' residual values, useful lives and methods of depreciation are reviewed, and adjusted prospectively as appropriate.

The accumulated costs of construction of fixed assets are capitalized and recognized as "Assets Under Construction". These costs are reclassified to the related fixed asset account when the construction or installation is completed.

Repairs and maintenance are taken to the statement of profit or loss and other comprehensive income when these are incurred. The cost of major renovation and restoration is included in the carrying amount of the related fixed asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset is depreciated over the remaining useful life of the related asset.

n. Aset tetap dan penyusutan (Lanjutan)

Biaya pengurusan legal hak atas tanah dalam bentuk Hak Guna Usaha ("HGU"), Hak Guna Bangunan ("HGB") dan Hak Pakai ("HP") ketika tanah diperoleh pertama kali diakui sebagai bagian dari biaya perolehan tanah pada akun "Aset Tetap". Biaya pengurusan perpanjangan atau pembaruan legal hak atas tanah diakui sebagai aset tak berwujud dan diamortisasi sepanjang umur hak hukum atau umur ekonomi tanah, mana yang lebih pendek.

o. Aset tak berwujud

Aset tak berwujud yang dimiliki Bank terdiri dari perangkat lunak.

Perangkat lunak pada awalnya diukur sebesar biaya perolehan yang mencakup semua biaya yang dapat diatribusikan secara langsung dalam mempersiapkan aset tersebut sehingga siap untuk digunakan. Setelah pengakuan awal, perangkat lunak diukur sebesar biaya perolehan dikurangi akumulasi amortisasi dan akumulasi rugi penurunan nilai aset.

Pengeluaran selanjutnya yang jumlahnya signifikan akan dikapitalisasi hanya jika pengeluaran tersebut menambah manfaat ekonomis aset yang bersangkutan di masa mendatang. Pengeluaran lainnya dibebankan pada saat terjadinya.

Perangkat lunak diamortisasi berdasarkan taksiran masa manfaat ekonomis aset selama 5 tahun dengan menggunakan metode garis lurus atau dengan tarif amortisasi sebesar 20% sejak tanggal dimana aset siap untuk digunakan.

p. Agunan yang diambil alih

Agunan yang diambil alih (AYDA) adalah aset yang diperoleh Bank, baik melalui pelelangan maupun di luar pelelangan berdasarkan penyerahan secara sukarela oleh pemilik agunan atau berdasarkan kuasa untuk menjual di luar lelang dari pemilik agunan dalam hal debitur tidak memenuhi liabilitasnya kepada Bank. AYDA merupakan jaminan kredit yang diberikan yang telah diambil alih sebagai bagian dari penyelesaian kredit yang diberikan dan disajikan pada akun "Aset lain-lain".

n. Fixed assets and depreciation (Continued)

The legal cost of land rights in the form of Business Usage Rights ("HGU"), Building Usage Right ("HGB") and Usage Rights ("HP") when the land was initially acquired are recognized as part of the cost of the land under the "Fixed Assets". The extension or the legal renewal costs of land rights were recognized as intangible assets and were amortized over the shorter of the rights' legal life and land's economic life.

o. Intangible assets

Intangible assets owned by the Bank comprised software.

Software is initially measured at acquisition costs, which includes any directly attributable costs of preparing the asset for its intended use. Subsequent to initial recognition, software is measured at cost less accumulated amortization and accumulated impairment losses.

Significant subsequent expenditure on software assets is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditures are expensed as incurred.

Software is amortized over the estimated useful life of 5 years using the straight-line method or with amortization rate of 20% from the date that it is available for use.

p. Foreclosed collaterals

Foreclosed asset (AYDA) is an asset obtained by the Bank, either through auctions or outside of auctions on the basis of voluntary submission by the owner of the collateral or by the approval to sell outside the auction of the collateral owner in the event that the debtor could not fulfill its obligations to the Bank. AYDA represent loan collateral that were taken over as part of loans settlement and presented in the account "Other assets".

p. Agunan yang diambil alih (Lanjutan)

AYDA dinyatakan sebesar nilai realisasi bersih atau sebesar nilai tercatat dari kredit, yang mana yang lebih rendah. Nilai realisasi bersih adalah nilai wajar agunan yang diambil alih dikurangi dengan estimasi biaya untuk menjual agunan tersebut. Bank tidak mengakui keuntungan pada saat pengambilalihan agunan. Selisih lebih saldo kredit di atas nilai realisasi bersih dari agunan yang diambil alih dibebankan ke dalam akun cadangan kerugian penurunan nilai aset. Selisih antara nilai agunan yang diambil alih dengan hasil penjualannya diakui sebagai keuntungan atau kerugian pada saat penjualan.

Manajemen mengevaluasi nilai agunan yang diambil alih secara berkala. Penyisihan kerugian agunan yang diambil alih dibentuk berdasarkan penurunan nilai agunan yang diambil alih.

Beban perbaikan (*reconditioning cost*) yang timbul setelah pengambilalihan agunan dikapitalisasi dalam akun agunan yang diambil alih tersebut.

Bila terjadi penurunan nilai yang bersifat permanen, maka nilai tercatatnya dikurangi untuk mengakui penurunan tersebut dan kerugiannya dibebankan dalam laporan laba rugi.

q. Liabilitas segera

Liabilitas segera dicatat pada saat timbulnya kewajiban atau diterimanya perintah pemindah-bukuan dari nasabah maupun dari bank lain.

Liabilitas segera dicatat berdasarkan biaya perolehan diamortisasi dan diklasifikasikan sebagai liabilitas keuangan lainnya.

r. Simpanan dari nasabah

Giro merupakan simpanan nasabah yang dapat digunakan sebagai alat pembayaran, yang penarikannya dapat dilakukan setiap saat melalui cek atau dengan cara pemindahbukuan dengan bilyet giro dan sarana perintah pembayaran lainnya.

Tabungan merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan nasabah sesuai dengan persyaratan tertentu yang disepakati. Tabungan dinyatakan sebesar nilai kewajiban pada pemilik tabungan.

2. MATERIAL ACCOUNTING POLICY INFORMATION

p. Foreclosed collaterals (Continued)

AYDA are stated at net realizable value or at loan carrying amount, whichever is lower. Net realizable value is the fair value of foreclosed assets less estimated costs to sell the collateral. The Bank does not recognize any gain arising from the foreclosure of assets. The excess of the outstanding loan balance over the net realizable value of the foreclosed assets is charged to the allowance for impairment losses. The difference between the value of the foreclosed assets and the proceeds of sale is recognized as a gain or loss at the time of sale.

Management evaluates the value of foreclosed collaterals periodically. An allowance for possible losses foreclosed assets is provided based on the impairment of foreclosed collaterals.

Reconditioning costs arising after foreclosure capitalized in the accounts of the foreclosed collaterals.

If there is permanent decline in value, the carrying amount of foreclosed collaterals is written down to recognize such permanent decline in value. Any such write-down is recognized in the statement of profit or loss.

q. Liabilities due immediately

This account is recorded at the time the obligations occur or upon receipt of transfer orders from customers or other banks.

Liabilities due immediately are stated at amortized cost and classified as other financial liabilities.

r. Deposits from customers

Current accounts represent customer funds which can be use as payment instruments and can be withdrawn at any time through cheque or transferred through current account drafts and other transfer instruction media.

Savings accounts represent customer funds which can be withdrawn by the depositors only under certain conditions. Savings accounts are stated at the agreed amounts due to the depositors.

r. Simpanan dari nasabah (Lanjutan)

Deposito berjangka merupakan simpanan nasabah yang penarikannya hanya dapat dilakukan pada waktu tertentu dan dinyatakan sebesar nilai nominal yang tercantum dalam sertifikat yang diterbitkan oleh Bank, sesuai dengan perjanjian antara nasabah dengan Bank.

Simpanan nasabah diklasifikasikan sebagai liabilitas keuangan yang diukur pada biaya perolehan diamortisasi menggunakan suku bunga efektif. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan nasabah dikurangkan dari jumlah simpanan yang diterima.

s. Simpanan dari bank lain

Simpanan dari bank lain terdiri dari liabilitas terhadap bank lain, baik lokal maupun luar negeri, dalam bentuk giro, tabungan, deposito berjangka dan *call money*.

Simpanan dari bank lain diklasifikasikan sebagai liabilitas keuangan lain yang diukur dengan biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan dari bank lain dikurangkan dari jumlah simpanan yang diterima.

t. Pinjaman yang diterima

Pinjaman diterima merupakan dana yang diterima dari bank lain, Bank Indonesia atau pihak lain dengan liabilitas pembayaran kembali sesuai dengan persyaratan perjanjian pinjaman.

Pinjaman diterima diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal pinjaman diterima dan biaya transaksi merupakan bagian tidak terpisahkan dari metode suku bunga efektif.

r. Deposits from customers (Continued)

Time deposits represent customer funds which can be withdrawn by the depositors only on specific maturity dates and stated at the nominal amounts stated in the certificates issued by the Bank, based on the agreements between the depositors and the Bank.

Deposits from customers are classified as other financial liabilities and measured at amortized cost using the effective interest rate. Incremental costs directly attributable to the acquisition of deposits from customers are deducted from the amount of deposits.

s. Deposits from other banks

Deposits from other banks represent liabilities to local and overseas banks, in the form of current accounts, savings accounts, time deposits and call money.

Deposits from other banks are classified as other financial liabilities which are measured at amortized cost using effective interest rate method. Incremental costs directly attributable to the acquisition of deposits from other banks are deducted from the amount of deposits.

t. Borrowings

Borrowings are funds received from other bank, Bank Indonesia or other parties with payment obligation based on borrowings agreement.

Borrowings are initially recognised at fair value and subsequently measured at amortised cost using the effective interest rate method. Amortised cost is calculated by taking into account any discount or premium related to the initial recognition of borrowings and transaction costs are an integral part of the effective interest rate method.

u. Pendapatan dan beban bunga

Pendapatan dan beban bunga untuk semua instrumen keuangan yang dikenakan suku bunga diakui pada laporan laba rugi dan penghasilan komprehensif lain dengan menggunakan metode suku bunga efektif. Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari aset keuangan atau liabilitas keuangan (atau, jika lebih tepat, digunakan periode yang lebih singkat) untuk memperoleh nilai tercatat bersih dari instrumen keuangan atau liabilitas keuangan. Pada saat menghitung suku bunga efektif, Bank mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian kredit di masa mendatang. Perhitungan ini mencakup seluruh komisi, provisi dan bentuk lain diterima oleh para pihak dalam kontrak yang merupakan bagian tidak terpisahkan dari suku bunga efektif, biaya transaksi dan seluruh premi atau diskon lainnya.

Jika aset keuangan atau kelompok aset keuangan serupa telah diturunkan nilainya sebagai akibat kerugian penurunan nilai, maka pendapatan bunga yang diperoleh setelahnya diakui berdasarkan suku bunga efektif yang digunakan untuk mendiskonto arus kas masa datang dalam menghitung kerugian penurunan nilai.

Kredit yang pembayaran angsuran pokok atau bunganya telah lewat 90 (sembilan puluh) hari atau lebih setelah jatuh tempo, atau kredit yang pembayarannya secara tepat waktu diragukan, secara umum diklasifikasikan sebagai kredit yang mengalami penurunan nilai (*impairment*).

v. Pendapatan provisi dan komisi

Pendapatan provisi dan komisi yang berkaitan langsung dengan kegiatan pinjaman, atau pendapatan provisi dan komisi yang berhubungan dengan jangka waktu tertentu, diamortisasi sesuai dengan jangka waktu kontrak menggunakan metode suku bunga efektif dan diklasifikasikan sebagai bagian dari pendapatan bunga pada laporan laba rugi dan penghasilan komprehensif lain.

Pendapatan provisi dan komisi yang tidak berkaitan dengan kegiatan pemberian kredit atau suatu jangka waktu dan/atau terkait dengan pemberian suatu jasa, diakui sebagai pendapatan pada saat terjadinya transaksi dan dicatat pada akun pendapatan operasional lainnya.

**2. MATERIAL ACCOUNTING POLICY INFORMATION
(Continued)**

u. Interest income and expense

Interest income and expense for all interest-bearing financial instruments are recognized in the statement of profit or loss and other comprehensive income using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial assets and financial liabilities (or, where appropriate, a shorter period) to obtain net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank estimates future cash flows considering all contractual terms of the financial instrument but not future credit losses. This calculation includes all commissions, fees, and other forms received by the parties in the contract which are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

If a financial asset or group of similar financial assets' value has diminished as a result of impairment losses, interest income subsequently obtained is recognized based on the effective interest rate used to discount future cash flows in calculating impairment losses.

Loans for which the principal or interest has been past due for 90 (ninety) days or more, or where reasonable doubt exists as to its timely collection, are generally classified as impaired loans.

v. Fees and commission income

Fees and commissions directly related to lending activities, or fee and commission income which relates to a specific period, is amortized over the term of the contract using the effective interest rate method and classified as part of interest income in the statement of profit or loss and other comprehensive income.

Fees and commissions that are not related to the credit activity or a period of time and/or associated with the service provided, are recognized as revenue at the time of the transaction and recorded under other operating income.

w. Transaksi sewa

Bank telah merapkan PSAK 116 “Sewa” sejak tanggal 1 Januari 2020.

Pada tanggal permulaan kontrak, Bank menilai apakah kontrak merupakan atau mengandung sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan. Perseroan dapat memilih untuk tidak mengakui aset hak-guna dan liabilitas sewa untuk:

- Sewa jangka pendek; dan
- Sewa yang aset pendasarnya bernilai rendah.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Bank harus menilai apakah:

- Bank memiliki hak untuk mendapatkan secara substansial seluruh manfaat ekonomi dari penggunaan aset identifikasian; dan
- Bank memiliki hak untuk mengarahkan penggunaan aset identifikasian. Bank memiliki hak ini ketika Bank memiliki hak untuk pengambilan keputusan yang relevan tentang bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya:
 1. Bank memiliki hak untuk mengoperasikan aset;
 2. Bank telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

Pada tanggal permulaan sewa, Bank mengakui aset hak-guna dan liabilitas sewa. Aset hak-guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah dengan biaya langsung awal yang dikeluarkan. Aset hak-guna diamortisasi dengan menggunakan metode garis lurus sepanjang jangka waktu sewa.

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental.

w. Lease transaction

Bank has applied PSAK 116 “Lease” since on 1 January 2020.

At the inception of a contract, the Bank assesses whether the contract is or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration. The Bank can choose not to recognize the right-of-use asset and lease liabilities for:

- Short-term lease; and
- Leases of low value assets.

To assess whether a contract conveys the right to control the use of an identified asset, the Bank shall assess whether:

- The Bank has the right to obtain substantially all the economic benefit from use of the asset throughout the period of use; and
- The Bank has the right to direct the use of the asset. The Bank has described when it has decision-making rights that are the most relevant to changing how and for what purpose the asset is used are predetermined:
 1. The Bank has the right to operate the asset;
 2. The Bank has designed the asset in a way that predetermine how and for what purpose it will be used.

The Bank recognizes a right-of-use asset and a leases liability at the leases commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the leases liability adjusted for any leases payment made at or before the commencement date, plus any initial direct cost incurred. The right-of-use asset is amortized over the straight-line method throughout the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that right cannot be readily determined, using incremental borrowing rate.

w. Transaksi sewa (Lanjutan)

Pembayaran sewa dialokasikan menjadi bagian pokok dan biaya bunga. Biaya bunga dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas untuk setiap periode.

Bank menyajikan aset hak-guna sebagai bagian dari "Aset lain-lain" di dalam laporan posisi keuangan.

x. Perpajakan

Beban pajak terdiri dari beban pajak kini dan beban pajak tangguhan. Beban pajak diakui pada laba rugi, kecuali untuk komponen yang diakui secara langsung di ekuitas atau di penghasilan komprehensif lain.

Beban pajak kini merupakan estimasi utang atau pengembalian pajak yang dihitung atas laba atau rugi kena pajak untuk tahun yang bersangkutan, dengan menggunakan tarif pajak dan peraturan perpajakan yang berlaku atau secara substansial telah berlaku pada tanggal pelaporan dan termasuk penyesuaian yang dibuat untuk penyisihan pajak tahun sebelumnya, baik untuk merekonsiliasi pajak penghasilan dengan pajak yang dilaporkan di surat pemberitahuan tahunan, atau untuk memperhitungkan perbedaan yang muncul dari pemeriksaan pajak. Utang atau restitusi pajak kini diukur menggunakan estimasi terbaik atas jumlah yang diperkirakan akan dibayar atau diterima, dengan mempertimbangkan ketidakpastian terkait dengan kompleksitas peraturan pajak.

Pajak tangguhan dihitung dengan menggunakan metode liabilitas, terhadap semua perbedaan temporer pada tanggal laporan posisi keuangan antara aset dan liabilitas menurut pajak dan nilai tercatatnya untuk tujuan pelaporan keuangan. Pajak tangguhan dihitung dengan menggunakan tarif pajak (dan peraturan pajak) yang berlaku atau yang secara substansif diberlakukan pada tahun dimana aset tersebut direalisasikan atau liabilitas tersebut diselesaikan.

Aset pajak tangguhan diakui apabila besar kemungkinan jumlah penghasilan kena pajak di masa depan akan memadai untuk dikompensasi dengan perbedaan temporer yang masih dapat dimanfaatkan.

Aset dan liabilitas pajak tangguhan dapat saling hapus apabila terdapat hak yang berkekuatan hukum untuk melakukan saling hapus antara aset pajak kini dengan liabilitas pajak kini dan apabila aset dan liabilitas pajak tangguhan dikenakan oleh otoritas perpajakan yang sama, baik atas Bank kena pajak yang sama ataupun berbeda dan adanya niat untuk melakukan penyelesaian saldo-saldo tersebut secara bersih.

(Continued)

w. Lease transaction (Continued)

Each lease payment is allocated into the lease liabilities and interest cost. The interest cost is charged to profit or loss over the leases period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

The Bank presents right-of-use assets as part of "Other assets" in the statement of financial position.

x. Taxation

Current tax expense comprises of current and deferred tax. Income tax expense is recognized in profit or loss except to the extent that it relates to items recognized directly in equity or in other comprehensive income.

Current tax expense is an estimate of tax payable or tax refund which was calculated on taxable profit or loss for the year, using the tax rates and tax regulations that have been enacted or substantively enacted at the reporting date and include adjustments made for the previous year's tax allowance, either to reconcile income tax with tax reported in annual returns, or to account for differences arising from tax audits. Current tax payable or refundable is measured using the best estimate of the amount expected to be paid or received, taking into consideration the uncertainties associated with the complexity of tax regulations.

Deferred tax is provided using the liability method, on all temporary differences at the statement of financial position date between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax assets and liabilities are measured at the tax rates (and tax laws) that have been enacted or substantively enacted to the year when the asset is realized or the liability is settled.

Deferred tax assets are recognized when it is probable that the amount of taxable income in the future will be adequate to compensate for the temporary differences that can be utilized.

Assets and liabilities of deferred tax can be offset when there is a legally enforceable right to offset between current tax assets against current tax liabilities and when the assets and liabilities of deferred tax relate to income taxes levied by the same taxation authority on either the same taxable Bank or different taxable entities where there is an intention to settle the balances on a net basis.

y. Provisi

Provisi diakui jika Bank memiliki liabilitas kini (baik bersifat hukum maupun bersifat konstruktif) sebagai akibat peristiwa masa lalu, besar kemungkinannya penyelesaian liabilitas tersebut akan mengakibatkan arus keluar sumber daya yang mengandung manfaat ekonomi dan estimasi yang andal mengenai jumlah kewajiban tersebut dapat dibuat.

Provisi ditelaah pada setiap tanggal pelaporan dan disesuaikan untuk mencerminkan estimasi terbaik yang paling kini. Jika arus keluar sumber daya untuk menyelesaikan kewajiban kemungkinan besar tidak terjadi, maka provisi dibatalkan.

z. Laba per saham dasar

Laba per saham dasar dihitung dengan membagi laba tahun berjalan dengan jumlah rata-rata tertimbang saham yang ditempatkan dan disetor penuh pada periode yang bersangkutan.

aa. Dividen

Pembagian dividen kepada para pemegang saham diakui sebagai liabilitas dalam laporan keuangan pada periode ketika dividen tersebut disetujui oleh para pemegang saham.

ab. Imbalan kerja dan dana pensiun

Imbalan kerja jangka pendek

Imbalan kerja jangka pendek seperti upah, iuran jaminan sosial, cuti jangka pendek, bonus dan imbalan non-moneter lainnya diakui selama periode jasa diberikan. Imbalan kerja jangka pendek diukur sebesar jumlah yang tidak didiskontokan.

Liabilitas imbalan kerja

Imbalan pasca-kerja dicadangkan dan diakui sebagai biaya ketika jasa telah diberikan oleh pegawai yang menjadi peserta program pensiun Bank. Imbalan kerja diatur sebagaimana oleh Undang-undang No. 6/2023, Peraturan Pemerintah No. 35/2021 dan Perjanjian Kerja Bersama.

Imbalan pasca-kerja dan imbalan kerja jangka panjang lainnya secara aktuaris ditentukan berdasarkan metode *Projected Unit Credit*.

y. Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision is reversed.

z. Basic earnings per share

Basic earnings per share is computed by dividing income for the year by the weighted average number of issued and fully paid shares during the related period.

aa. Dividends

Dividend distribution to the shareholders is recognized as a liability in the financial statements in the period in which the dividends are approved by the shareholders.

ab. Employee benefits and pension plan

Short-term employee benefits

Short-term employee benefits such as wages, social security contributions, short-term compensated leaves, bonuses and other non-monetary benefits are recognized during the period when services have been rendered. Short-term employee benefits are measured using undiscounted amounts.

Employee benefits liabilities

The post-employment benefits are accrued and recognized as expense when services have been rendered by qualified employees. The benefits are regulated as per Law No. 6/2023, Government Regulation No. 35/2021 and Collective Labor Agreement.

The post-employment benefits and other long-term employee benefits are actuarially determined using the *Projected Unit Credit Method*.

ac. Transaksi dengan pihak-pihak berelasi

Bank mempunyai transaksi dengan pihak-pihak berelasi sebagaimana didefinisikan dalam PSAK 224, "Pengungkapan Pihak-pihak Berelasi".

Transaksi ini dilakukan berdasarkan persyaratan yang disetujui oleh kedua belah pihak, dimana persyaratan tersebut mungkin tidak sama dengan transaksi lain yang dilakukan dengan pihak-pihak yang tidak berelasi.

ad. Biaya emisi saham

Biaya-biaya yang terjadi sehubungan dengan penawaran saham kepada masyarakat (termasuk penerbitan hak memesan efek terlebih dahulu) dikurangkan langsung dari hasil emisi dan disajikan sebagai pengurang pada akun "Tambahan Modal Disetor, Bersih" sebagai bagian dari ekuitas pada laporan posisi keuangan.

ae. Segmen operasi

Informasi segmen disusun sesuai dengan kebijakan akuntansi yang dianut dalam penyusunan laporan keuangan. Bank melaporkan informasi segmen berdasarkan segmen geografis sesuai kebijakan pelaporan internal bank.

Sebuah segmen geografis menyediakan jasa di dalam lingkungan ekonomi tertentu yang memiliki risiko serta tingkat pengembalian yang berbeda dengan segmen operasi lainnya yang berada dalam lingkungan ekonomi lain.

af. Penurunan nilai aset non-keuangan

Pada tanggal pelaporan, Bank menilai apakah terdapat indikasi suatu aset mengalami penurunan nilai. Jika terdapat indikasi tersebut atau pada saat pengujian penurunan nilai aset diperlukan, maka Bank membuat estimasi jumlah terpulihkan aset tersebut.

Jumlah terpulihkan yang ditentukan untuk aset individual adalah jumlah yang lebih tinggi antara nilai wajar aset atau Unit Penghasil Kas dikurangi biaya untuk menjual dengan nilai pakainya, kecuali aset tersebut tidak menghasilkan arus kas masuk yang sebagian besar independen dari aset atau kelompok aset lain. Jika nilai tercatat aset lebih besar daripada nilai terpulihkan-nya, maka aset tersebut dianggap mengalami penurunan nilai dan nilai tercatat aset diturunkan menjadi sebesar nilai terpulihkannya. Rugi penurunan nilai dari operasi yang berkelanjutan diakui pada laporan laba rugi dan penghasilan komprehensif lain sebagai "rugi penurunan nilai". Dalam menghitung nilai pakai, estimasi arus kas masa depan bersih didiskontokan ke nilai kini dengan menggunakan tingkat diskonto sebelum pajak yang menggambarkan penilaian pasar kini atas nilai waktu uang dan risiko spesifik aset.

ac. Transactions with related parties

The Bank has transactions with related parties as defined in PSAK 224, "Related Party Disclosures".

The transactions are made based on terms agreed by both parties, whereas such terms may not be the same as those transactions with unrelated parties.

ad. Shares issuance costs

The cost related to the public offering of shares (including pre-emptive rights issues) are deducted from the proceeds and presented as a deduction from the "Additional Paid-In Capital, Net" account, under equity section in the statement of financial position.

ae. Operating segment

Segment information is prepared using the accounting policies adopted for preparing and presenting the financial statement. The Bank reports segment information based on geographical segment in accordance with the Bank's internal reporting policy.

A geographical segment is engaged in providing services within a particular economic environment that are subject to risk and return that are different from those operating segment in other economic environments.

af. Impairment of non-financial assets

The Bank assesses at reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when impairment testing for an asset is required, the Bank makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's fair value less costs to sell and its value in use, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. Impairment losses of continuing operations are recognized in the statement of profit or loss and other comprehensive income as "impairment losses". In assessing the value in use, the estimated net future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

af. Penurunan nilai aset non-keuangan (Lanjutan)

Dalam menentukan nilai wajar dikurangi biaya pelepasan, mengacu pada PSAK 113, "Pengukuran Nilai Wajar".

Kerugian penurunan nilai dari operasi yang berkelanjutan, jika ada, diakui pada laporan laba rugi dan penghasilan komprehensif lain dalam kategori biaya yang konsisten dengan fungsi aset yang diturunkan nilainya.

ag. Peristiwa setelah periode pelaporan

Peristiwa setelah akhir tahun yang memberikan tambahan informasi mengenai posisi keuangan Bank pada tanggal pelaporan (peristiwa penyesuaian), jika ada, dicerminkan dalam laporan keuangan. Peristiwa setelah akhir tahun yang bukan peristiwa penyesuaian diungkapkan dalam catatan atas laporan keuangan jika material.

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN AKUNTANSI YANG PENTING

Penyusunan laporan keuangan Bank mengharuskan manajemen untuk membuat pertimbangan, estimasi dan asumsi yang mempengaruhi jumlah yang dilaporkan dari pendapatan, beban, aset dan liabilitas, dan pengungkapan atas liabilitas kontinjensi, pada akhir periode pelaporan. Ketidakpastian mengenai asumsi dan estimasi tersebut dapat mengakibatkan penyesuaian material terhadap nilai tercatat aset dan liabilitas dalam periode pelaporan berikutnya.

a. Pertimbangan

Pertimbangan berikut ini dibuat oleh manajemen dalam rangka penerapan kebijakan akuntansi Bank yang memiliki pengaruh paling signifikan atas jumlah yang diakui dalam laporan keuangan Bank:

Usaha yang berkelanjutan

Manajemen Bank telah melakukan penilaian atas kemampuan Bank untuk melanjutkan kelangsungan usahanya dan berkeyakinan bahwa Bank memiliki sumber daya untuk melanjutkan usahanya di masa mendatang. Selain itu, manajemen Bank tidak mengetahui adanya ketidakpastian material yang dapat menimbulkan keraguan yang signifikan terhadap kemampuan Bank untuk melanjutkan usahanya. Oleh karena itu, laporan keuangan telah disusun atas dasar usaha yang berkelanjutan.

In determining fair value less costs of disposal, refers to PSAK 113, "Fair Value Measurements".

Impairment losses of continuing operations, if any, are recognized in the statement of profit or loss and other comprehensive income under expense categories that are consistent with the functions of the impaired assets.

ag. Events after the reporting period

Post year-end events that provide additional information about the Bank's financial position at the reporting date (adjusting events), if any, are reflected in the financial statements. Post year-end events that are not adjusting events are disclosed in the notes to financial statements when material.

3. USE OF CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the Bank's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amounts of the asset and liability affected in future periods.

a. Judgments

The following judgments are made by management in the process of applying the Bank's accounting policies that have the most significant effects on the amounts recognized in the Bank's financial statements:

Going concern

The Bank's management has made an assessment of the Bank's ability to continue as a going concern and is satisfied that the Bank has the resources to continue its business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt to the Bank's ability to continue as a going concern. Therefore, the financial statement continues to be prepared on the going concern basis.

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (Lanjutan)

a. Pertimbangan (Lanjutan)

Nilai wajar atas instrumen keuangan

Dalam menentukan nilai wajar aset keuangan dan liabilitas yang tidak mempunyai harga pasar, Bank menggunakan teknik penilaian seperti yang dijelaskan dalam Catatan 2.c(ix). Untuk instrumen keuangan yang tidak aktif diperdagangkan dan memiliki informasi harga yang terbatas, nilai wajar yang kurang obyektif dan membutuhkan berbagai pertimbangan tergantung pada likuiditas, konsentrasi, faktor ketidakpastian pasar, asumsi harga dan risiko lainnya.

Kontinjensi

Estimasi perkiraan biaya yang timbul bagi penyelesaian klaim dalam proses hukum telah dikembangkan melalui konsultasi dengan bantuan konsultan hukum Bank didasarkan pada analisis hasil yang potensial. Manajemen berkeyakinan bahwa hasil dari hal ini tidak akan mempengaruhi hasil usaha. Besar kemungkinan, bagaimanapun, bahwa hasil operasi di masa depan dapat secara material terpengaruh oleh perubahan dalam estimasi atau efektivitas dari strategi yang terkait dengan hal tersebut.

b. Estimasi dan asumsi

Asumsi utama masa depan dan sumber utama estimasi ketidakpastian lain pada tanggal pelaporan yang memiliki risiko untuk dapat menyebabkan penyesuaian yang material terhadap nilai tercatat aset dan liabilitas untuk tahun berikutnya diungkapkan di bawah ini. Bank mendasarkan asumsi dan estimasinya pada parameter yang tersedia pada saat laporan keuangan disusun.

Asumsi dan situasi mengenai perkembangan masa depan dapat berubah akibat perubahan pasar atau situasi yang timbul di luar kendali Bank. Perubahan tersebut dicerminkan dalam asumsi yang digunakan pada saat terjadinya.

Cadangan kerugian penurunan nilai kredit yang diberikan dan piutang

Kondisi spesifik *counterparty* yang mengalami penurunan nilai dalam pembentukan cadangan kerugian atas aset keuangan dievaluasi secara individu berdasarkan estimasi terbaik manajemen atas nilai kini arus kas yang diharapkan akan diterima. Dalam mengestimasi arus kas tersebut, manajemen membuat pertimbangan tentang situasi keuangan *counterparty* dan nilai realisasi bersih dari setiap agunan. Setiap aset yang mengalami penurunan nilai dinilai sesuai dengan manfaat yang ada, dan strategi penyelesaian serta estimasi arus kas yang diperkirakan dapat diterima.

3. USE OF CRITICAL ACCOUNTING ESTIMATES AND
JUDGMENTS (Continued)

a. Judgments (Continued)

Fair value of financial instruments

In determining the fair value for financial assets and financial liabilities for which there is no quoted market price, the Bank uses the valuation techniques as described in Note 2.c(ix). For financial instruments that are non-actively traded and a lack of price transparency, fair value is less objective and requires varying degrees of judgment depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

Contingencies

The estimation of the probable cost for the resolution of claims in legal proceedings has been developed in consultation with the aid of the external legal counsel handling the Bank's defense in this matter and is based upon an analysis of potential results. Management believes that the outcome of this matter will not affect the results of operations. It is probable, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of the strategies relating to these proceedings.

b. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are disclosed below. The Bank based its assumptions and estimates on parameters available when the financial statements were prepared.

Existing assumptions and circumstances about future developments may change due to market changes or circumstances arising beyond the control of the Bank. Such changes are reflected in the assumptions when they occur.

Allowance for impairment losses on loans and receivables

The specific *counterparty* component of the total allowances for impairment applies to financial assets evaluated individually for impairment and is based upon management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgments about the *counterparty's* financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimated cash flows that are expected to be received.

AKUNTANSI YANG PENTING (Lanjutan)

b. Estimasi dan asumsi (Lanjutan)

Cadangan kerugian penurunan nilai kredit yang
diberikan dan piutang (Lanjutan)

Perhitungan cadangan penurunan nilai kolektif meliputi kerugian kredit yang melekat dalam portofolio aset keuangan dengan karakteristik ekonomi yang sama ketika terdapat bukti objektif penurunan nilai terganggu, tetapi penurunan nilai secara individu belum dapat diidentifikasi. Dalam menilai kebutuhan untuk cadangan kolektif, manajemen mempertimbangkan faktor-faktor seperti kualitas kredit dan sektor ekonomi.

Perhitungan ECL Bank adalah hasil dari model yang kompleks dengan sejumlah asumsi yang mendasarinya.

Pertimbangan signifikan dalam menentukan kerugian kredit ekspektasian meliputi: menentukan apa yang dianggap sebagai peningkatan risiko kredit yang signifikan, mengembangkan model kerugian kredit ekspektasian, termasuk pilihan input yang berkaitan dengan variabel makroekonomi, dan membuat asumsi dan estimasi untuk menggunakan informasi yang relevan tentang kejadian masa lalu, kondisi saat ini dan prakiraan kondisi ekonomi. Penentuan penyesuaian pasca model/overlay manajemen karena faktor ketidakpastian signifikan yang tidak tercakup dalam model.

Dalam membuat estimasi terdapat tingkat ketidakpastian yang tinggi dalam menggunakan asumsi yang sangat subjektif dan sangat sensitif terhadap faktor risiko.

Penurunan nilai aset non keuangan

Bank mengevaluasi penurunan nilai aset apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset tidak dapat dipulihkan kembali. Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:

- kinerja yang rendah secara signifikan jika dibandingkan dengan ekspektasi dari hasil operasi historis maupun proyeksi hasil operasi di masa yang akan datang;
- perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- tren negatif industri dan ekonomi yang signifikan.

3. USE OF CRITICAL ACCOUNTING ESTIMATES AND
JUDGMENTS (Continued)

b. Estimates and assumptions (Continued)

Allowance for impairment losses on loans and
receivables (Continued)

Collectively assessed impairment allowances cover credit losses inherent in portfolios of financial assets with similar economic characteristics when there is objective evidence to suggest that they contain impaired financial assets, but the individual impaired items cannot yet be identified. In assessing the need for collective allowances, management considers factors such as credit quality and economic sector.

The Bank's ECL calculations are outputs of complex models with a number of underlying assumptions.

The significant judgments in determining expected credit loss include: defining what is considered to be a significant increase in credit risk, developing the expected credit loss models, including the choice of inputs relating to macroeconomic variables, and making assumptions and estimates to incorporate relevant information about past events, current conditions and forecasts of economic conditions. Determination of post model adjustments/management overlay due to significant uncertain factors not covered in the models.

A high degree of uncertainty is involved in making estimations using assumptions that are highly subjective and very sensitive to the risk factors.

Impairment of non-financial assets

The Bank assesses impairment on assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Bank considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

b. Estimasi dan asumsi (Lanjutan)

Penurunan nilai aset non keuangan (Lanjutan)

Bank mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurangi biaya untuk menjual dengan nilai pakai aset (atau Unit Penghasil Kas). Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk Unit Penghasil Kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

Aset pajak tangguhan

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan. Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan.

Pensiun dan imbalan kerja

Penentuan liabilitas dan biaya pensiun dan liabilitas imbalan kerja Bank bergantung pada pemilihan asumsi yang digunakan oleh aktuaris independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain, tingkat diskonto, tingkat kenaikan gaji tahunan, tingkat pengunduran diri, tingkat cacat, usia pensiun dan tingkat kematian. Perbedaan signifikan pada hasil aktual atau perubahan signifikan dalam asumsi yang ditetapkan Bank dapat mempengaruhi secara material liabilitas diestimasi atas pensiun dan imbalan kerja dan beban imbalan kerja bersih. Penjelasan lebih rinci atas nilai tercatat atas estimasi liabilitas imbalan kerja Bank pada tanggal 31 Desember 2025 dan 2024 diungkapkan dalam Catatan 41.

Revaluasi aset tetap

Revaluasi aset tetap Bank bergantung pada pemilihan asumsi yang digunakan oleh penilai independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain: tingkat diskonto, nilai tukar, tingkat inflasi dan tingkat kenaikan pendapatan dan biaya. Bank berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan dalam asumsi yang ditetapkan Bank dapat mempengaruhi secara material nilai aset tetap yang direvaluasi.

3. USE OF CRITICAL ACCOUNTING ESTIMATES AND
JUDGMENTS (Continued)

b. Estimates and assumptions (Continued)

Impairment of non-financial assets (Continued)

The Bank recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or Cash Generating Unit's) fair value less costs to sell and its value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the Cash Generating Unit to which the asset belongs.

Deferred tax asset

Deferred tax assets are recognized for the future recoverable taxable income arising from temporary difference. Management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing on level of future taxable profits together with future strategic planning.

Pension and employee benefits

The determination of the Bank's obligations and cost for pension and employee benefits liabilities is dependent on its selection of certain assumptions used by the independent actuaries in calculating such amounts. Those assumptions include among others, discount rates, annual rate of salary increase, turnover rate, disability rate, retirement age and mortality rate. Significant differences in the actual results or significant changes in the Bank's assumptions may materially affect its estimated liabilities for pension and employee benefits and net employee benefits expense. Further details of the carrying amounts of the Bank's estimated liabilities for employee benefits as of 31 December 2025 and 2024 are disclosed in Note 41.

Fixed asset revaluation

The Bank's fixed assets revaluation depends on its selection of certain assumptions used by the independent appraisal in calculating such amounts. Those assumptions include among others, discount rate, exchange rate, inflation rate and revenue and cost increase rate. The Bank believes that its assumptions are reasonable and appropriate and significant differences in the Bank's assumptions may materially affect the valuation of its fixed assets.

Nilai wajar tingkat 3 dari tanah dan bangunan dihitung dengan menggunakan pendekatan perbandingan harga pasar, estimasi biaya reproduksi baru atau biaya pengganti baru, dan estimasi pendapatan dan biaya yang dihasilkan oleh aset. Harga pasar dari tanah dan bangunan yang paling mendekati disesuaikan dengan perbedaan atribut utama seperti ukuran aset, lokasi dan penggunaan aset. Input yang paling signifikan dalam pendekatan penilaian ini adalah asumsi harga per meter.

Level 3 fair values of land and buildings are calculated using the comparable market data approach, cost reproduction or cost replacement approach and asset generated income approach. The approximate market prices of comparable land and buildings are adjusted for differences in key attributes such as property size, location and use of an asset. The most significant input in this valuation approach is price per square meter assumptions.

Jika tanah dan bangunan dicatat sebesar harga perolehan, maka pada tanggal 31 Desember 2025 dan 2024 dicatat dalam jumlah sebagai berikut:

If land and buildings are presented on historical cost basis, as of 31 December 2025 and 2024 the amount would be as follows:

16. ASET TETAP (Lanjutan)

Selain tanah dan bangunan, tidak terdapat perbedaan yang signifikan antara nilai wajar aset tetap dengan nilai tercatatnya.

Pada tanggal 31 Desember 2025 dan 2024, manajemen Bank berkeyakinan bahwa nilai aset tetap yang dapat diperoleh kembali masih melebihi nilai tercatat aset tetap.

16. FIXED ASSETS (Continued)

There is no significant difference between the fair value and carrying value of fixed assets other than land and buildings.

As of 31 December 2025 and 2024, the management of the Bank is of the opinion that the carrying values of fixed assets do not exceed their recoverable amounts.

38. MANAJEMEN RISIKO

Dalam melaksanakan kegiatan usahanya, Bank selalu berhadapan dengan risiko yang melekat (*inherent risk*) sehingga Bank menetapkan kerangka manajemen risiko yang meliputi: (1) *risk governance* yang memadai, (2) kecukupan kebijakan manajemen risiko, prosedur dan penetapan batas risiko, (3) kecukupan proses identifikasi, pengukuran, pemantauan, pengendalian manajemen risiko yang didukung oleh Sistem Informasi Manajemen risiko yang memadai, dan (4) sistem pengendalian intern yang komprehensif.

Dalam rangka penerapan manajemen risiko yang efektif, Bank telah membentuk komite di tingkat Dewan Komisaris dan Direksi maupun unit kerja yang bersifat independen. Hal ini diwujudkan dengan pembentukan Satuan Kerja Manajemen Risiko serta beberapa komite seperti Komite Pemantau Risiko, Komite Manajemen Risiko, *Assets and Liabilities Committee*, Komite Sumber Daya Manusia, *IT Steering Committee*, Komite Produk dan Kebijakan, Komite Audit serta Komite Remunerasi dan Nominasi.

Bank secara berkesinambungan menyempurnakan seluruh ketentuan internal terkait pengelolaan risiko, baik dari sisi kebijakan, pedoman, prosedur, batas risiko maupun pemanfaatan teknologi informasi sesuai dengan perkembangan internal maupun eksternal.

Profil risiko

Berdasarkan ketentuan Bank Indonesia No. 5/8/PBI/2003 tanggal 19 Mei 2003 tentang Penerapan Manajemen Risiko Bagi Bank Umum, yang selanjutnya telah diubah dengan PBI No. 11/25/PBI/2009 tanggal 1 Juli 2009, maka Bank wajib untuk menyampaikan laporan profil risiko triwulanan sejak tahun 2005. Kedua peraturan tersebut telah dicabut dan digantikan oleh Peraturan OJK No. 18/POJK.03/2016 tanggal 16 Maret 2016 yang menetapkan ketentuan yang sama.

Pada tahun 2011, Bank Indonesia mengeluarkan Peraturan No. 13/1/PBI/2011 tanggal 5 Januari 2011 perihal Penilaian Tingkat Kesehatan Bank Umum, yang dilakukan sesuai dengan lampiran SE BI No. 13/24/DPNP tanggal 25 Oktober 2011, dimana profil risiko merupakan bagian tak terpisahkan dari penilaian tingkat kesehatan yang dimaksud. Peraturan No. 13/1/PBI/2011 tersebut dicabut dan digantikan oleh Peraturan OJK No. 4/POJK.03/2016 tanggal 26 Januari 2016, sedangkan SE BI No. 13/24/DPNP tanggal 25 Oktober 2011 tersebut dicabut dan digantikan oleh SE OJK No. 14/SEOJK.03/2017 tanggal 17 Maret 2017.

38. RISK MANAGEMENT

In Bank's operational activity, Bank encounter the inherent risk so Bank required to set a solid risk management practices requires a robust risk management framework includes: (1) robust risk governance, (2) adequacy of risk management policies, procedures and establishment of risk limits, (3) adequacy of risk management identification, measurement, monitoring, control and supported by adequate risk Management Information System, and (4) comprehensive internal control system.

To implement the risk management effectively, Bank has established committee in level of the Board of Commissioners and the Directors, including working units which is independent. This is implemented by establishing a Risk Management Unit and other several committees such as Risk Monitoring Committee, Risk Management Committee, Assets and Liabilities Committee, Personnel Committee, IT Steering Committee, Product and Policy Committee, Audit Committee, and Remuneration and Nomination Committee.

The Bank continuously improves internal policies related to risk management, including policies, standardized operations, procedures, risk limit and information technology utilization in line with internal and external development.

Risk profile

In accordance with Bank Indonesia regulation No. 5/8/PBI/2003 dated 19 May 2003 regarding Risk Management Implementation for Commercial Banks, which has been amended by PBI No. 11/25/PBI/2009 dated 1 July 2009, banks are required to submit the quarterly risk profile reports starting in 2005. Those regulations have been revoked and replaced by Financial Service Authority Regulation No. 18/POJK.03/2016 dated 16 March 2016 which stated similar requirement.

In 2011, Bank Indonesia issued regulation No. 13/1/PBI/2011 dated 5 January 2011 about the Assessment of Commercial Bank Health Rating and has been carried out in accordance with appendix SE BI No. 13/24/DPNP dated 25 October 2011, where the risk profile is an integral part of the assessment. Regulation No. 13/1/PBI/2011 has been revoked and replaced by Financial Service Authority Regulation No. 4/POJK.03/2016 dated 26 January 2016, meanwhile SE BI No. 13/24/DPNP dated 25 October 2011 has been revoked and replaced by SE OJK No. 14/SEOJK.03/2017 dated 17 March 2017.

38. MANAJEMEN RISIKO (Lanjutan)

Profil risiko (Lanjutan)

Terkait penerapan manajemen risiko, Bank menyusun laporan profil risiko triwulanan secara *self-assessment* yang disampaikan kepada OJK.

Risiko kredit

Sesuai Peraturan OJK No. 18/POJK.03/2016 tanggal 16 Maret 2016 tentang Penerapan Manajemen Risiko bagi Bank Umum, risiko kredit didefinisikan sebagai risiko akibat kegagalan pihak lain dalam memenuhi kewajiban kepada Bank, termasuk risiko kredit akibat kegagalan debitur, risiko konsentrasi kredit, *counterparty credit risk* dan *settlement risk*. Dalam mengelola risiko kredit, Bank telah memiliki kebijakan dan pedoman perkreditan yang meliputi pengajuan dan persetujuan kredit, pemantauan eksposur, pengelolaan kredit bermasalah dan manajemen portofolio. Kebijakan tersebut disempurnakan secara berkala sesuai dengan perkembangan usaha serta perubahan peraturan otoritas.

Dalam rangka pengendalian risiko kredit secara komprehensif, Bank melaksanakan prinsip “empat mata” (*four eyes principle*) dimana keputusan kredit diambil tidak hanya berdasarkan usulan dari unit bisnis, melainkan juga analisis dari divisi *Credit Reviewer* yang independen dari fungsi bisnis.

Pengelolaan risiko kredit yang lebih khusus dilakukan atas portofolio kredit yang bermasalah. Upaya yang dilakukan diantaranya adalah pemantauan terhadap kualitas kredit debitur secara rutin, restrukturisasi fasilitas kredit yang bermasalah, pembentukan pencadangan untuk menutup potensi kerugian, hingga pelaksanaan hapus buku. Proses pengelolaan kredit bermasalah telah diatur secara tersendiri, termasuk pembentukan unit kerja khusus untuk mengelola kredit bermasalah.

Bank telah menjalankan proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko yang mencakup profil risiko kredit secara terintegrasi dalam suatu proses manajemen risiko yang komprehensif serta melakukan *stress testing* secara berkala terhadap portofolio kredit sehingga Bank dapat memperkirakan dampak pada *stressful condition* dan menetapkan strategi untuk memitigasi risiko tersebut.

38. RISK MANAGEMENT (Continued)

Risk profile (Continued)

In relation to the implementation of risk management, the Bank prepares the quarterly risk profile reports on a self-assessment basis which is submitted to OJK.

Credit risk

In accordance to Financial Service Authority Regulation No. 18/POJK.03/2016 dated 16 March 2016 on the Application of Risk Management for Commercial Banks, credit risk is the risk of counterparties failure to fulfill their obligations to the Bank, including credit risk of debtors failure, concentration credit risk, counterparty credit risk and settlement risk. In managing credit risk, the Bank has credit policies and standard operating procedures encompassing credit proposal and approval criteria, exposure monitoring, remedial management and portfolio management. Those policies and procedures are enhanced periodically in line with business developments and changes of authority bodies' principles.

In order to control credit risk in a comprehensive manner, the Bank implements the four eyes principle where credit decisions are taken not only based on the proposals from the business units, but also the analysis from Credit Reviewers division, which is independent of business functions.

Specific credit risk management is performed on the non-performing loans portfolio. Such efforts, amongst others, are monitoring of credit quality periodically, restructuring of non-performing loans, providing allowances to cover potential losses, and write-offs. Specific policy on non-performing loans management process has been implemented, including establishing special working units to handle such loans.

The Bank identifies, measures, monitors, and controls risk which include credit risk profiles integrated in a comprehensive risk management process and do the stress testing periodically on credit portfolio for Bank to estimate the stressful condition impacts and set the strategies to mitigate those risks.

38. MANAJEMEN RISIKO (Lanjutan)

Risiko kredit (Lanjutan)

a. Risiko kredit maksimum

Analisa eksposur maksimum terhadap risiko kredit setelah memperhitungkan dampak agunan dan mitigasi risiko kredit lainnya.

Nilai tercatat dari aset keuangan Bank selain kredit yang diberikan menggambarkan eksposur maksimum atas risiko kredit.

Pemberian kredit yang dilaksanakan oleh Bank diatur dalam kebijakan dan prosedur perkreditan dimana untuk setiap pengajuan kredit telah ditentukan agunan minimal yang harus dipenuhi. Jenis dari agunan yang diterima oleh Bank terdiri dari:

- a) *Physical collateral*, berupa tanah, bangunan, kendaraan bermotor, persediaan, mesin dan lain-lain.
- b) *Financial collateral*, berupa deposito dan *cash margin*.
- c) Lainnya berupa garansi.

Untuk seluruh agunan khususnya *physical collateral* akan dilakukan penilaian dan nilai Bank atas agunan tersebut yang akan dipergunakan dalam menentukan kecukupan nilai agunan (*coverage ratio*).

Selain aspek agunan untuk meminimalkan risiko kredit, pemberian kredit oleh Bank selalu dilakukan berdasarkan evaluasi dan analisa kelayakan untuk mengetahui kemampuan pengembalian kredit (*first way out*).

Adanya keharusan bagi debitur untuk memenuhi agunan yang dipersyaratkan, evaluasi atas kelayakan kredit, pengikatan kredit dan agunan serta prosedur *prescreening* akan menurunkan eksposur risiko kredit Bank ke tingkat yang layak dan dapat diterima.

38. RISK MANAGEMENT (Continued)

Credit risk (Continued)

a. Maximum credit risk

Analysis on maximum exposures against credit risks considering the impact of collateral and other credit risks mitigation.

The carrying value of the Bank's financial assets other than loans represents its maximum exposure to credit risk.

The loan granting conducted by the Bank is stipulated in the loan policy and procedure in which every loan type or scheme has minimum determinable collaterals that should be fulfilled. The types of collateral that allowed by the Bank are as follows:

- a) *Physical collateral*, such as land, buildings, vehicle, inventory, machine and others.
- b) *Financial collateral*, such as time deposits and cash margin.
- c) *Others*, such as guarantees.

All collaterals particularly for physical collateral will be assessed in which the Bank's collateral measurement value will be use in determining the coverage ratio.

In addition, collateral aspect to minimize credit risk, loan granting is conducted based on evaluation and feasibility analysis so that the loan repayment ability (*first way out*).

The necessity for debtors to comply with collaterals requirement, loan feasibility evaluation, notarial agreement and collaterals and also prescreening procedures will decrease the Bank's credit risk exposure to the acceptable level.

Risiko pasar

Risiko pasar adalah risiko yang terjadi pada posisi laporan posisi keuangan dan rekening administratif, karena adanya perubahan variabel pasar yaitu tingkat suku bunga dan nilai tukar. Risiko pasar melekat pada hampir seluruh kegiatan operasional Bank baik pada *banking book* maupun *trading book*.

Pengelolaan risiko pasar dilakukan sesuai dengan kebijakan dan prosedur Bank yang berkaitan dengan produk dan jasa serta aktivitas *treasury* dan risiko yang melekat pada bisnis.

Market risk

Market risk is the risks on the statement of financial position and administrative accounts due to changes in market variables which consist of interest rates and exchange rates. Market risk is an inherent risk in most of the Bank operational activity involving the banking books and the trading books.

Management of market risk is performed in accordance with the Bank policies and procedures related with the products and services and also treasury activities and the inherent risk of the business.

38. RISK MANAGEMENT (Continued)

Market risk (Continued)

a. Interest rate risk

Interest rate risk is risk as the effect of changes in the financial instrument prices from the trading book position or the effect of changes of the economic value position of the banking book because of the change in the interest rate.

Management of interest rate risk is performed on the banking book exposure by considering the gap position of the Bank's assets and liabilities, which are sensitive to interest rate movements, which influence the stability of the Bank's profitability level.

The tables below summarize the range of contractual interest rates per annum for significant assets and liabilities as of 31 December 2025 and 2024:

38. MANAJEMEN RISIKO (Lanjutan)

Risiko pasar (Lanjutan)

a. Risiko tingkat suku bunga (Lanjutan)

Bank menggunakan *earning approach* dan *economic value approach* untuk mengukur risiko suku bunga pada *banking book*. Berdasarkan laporan *repricing gap*, Bank melakukan analisis sensitivitas terhadap perubahan suku bunga secara paralel sebesar 0,5% (nol koma lima persen) dengan asumsi: (1) perubahan suku bunga aset sama dengan liabilitas; dan (2) perubahan sama besarnya untuk setiap jangka waktu pada *yield curve*.

Tabel berikut menunjukkan sensitivitas terhadap kemungkinan perubahan suku bunga yang wajar, dengan semua variabel lainnya tetap konstan, dalam laporan laba rugi dan penghasilan komprehensif lain Bank pada tanggal 31 Desember 2025:

	2025
	Pengaruh terhadap Laporan Laba Rugi dan Penghasilan Komprehensif Lain/ Impact to Statement of Profit or Loss and Other Comprehensive Income
Rupiah	Perubahan Persentase/ Percentage Change
	0,50%

Bank memiliki eksposur terhadap risiko tingkat suku bunga dalam mata uang Dolar Amerika Serikat. Bank telah melakukan penilaian atas dampak dari risiko tingkat suku bunga tersebut dan hasilnya tidak signifikan.

b. Risiko nilai tukar

Risiko nilai tukar adalah risiko akibat perubahan nilai posisi *trading book* dan *banking book* yang disebabkan oleh perubahan nilai tukar valuta asing. Risiko nilai tukar valuta asing timbul dari adanya posisi laporan keuangan (*on-balance sheet* dan *off-balance sheet*) baik di sisi aset maupun liabilitas. Posisi mata uang asing Bank dapat dikelompokkan dalam dua aktivitas yaitu: *trading book*, yang dilakukan dalam rangka perolehan keuntungan transaksi mata uang asing dalam jangka pendek dan *banking book*, yang dilakukan dalam rangka mengendalikan posisi manajemen Aset dan Liabilitas secara keseluruhan termasuk likuiditas didalamnya.

38. RISK MANAGEMENT (Continued)

Market risk (Continued)

a. Interest rate risk (Continued)

Bank using *earning approach* and *economic value approach* to measure interest rate risk in banking book. Based on repricing gap report, Bank performs sensitivity of interest rate risk parallel 0.5% (zero point five percent) with assumption: (1) changes in asset's interest rate of asset and liability is the same; and (2) changes in yield curve period is the same.

The following table demonstrates the sensitivity to a reasonable possible change in interest rates, with all other variables held constant of the Bank's statement of profit or loss and other comprehensive income as of 31 December 2025:

	2025	
	Pengaruh terhadap Laporan Laba Rugi dan Penghasilan Komprehensif Lain/ Impact to Statement of Profit or Loss and Other Comprehensive Income	Rupiah
	0,50%	20.890.332

The Bank has other exposure to interest rate risks in United States Dollar. The Bank assessed that the impact of that interest rate risk is not significant.

b. Foreign exchange risk

Foreign exchange risk is the risk resulting from changes in the value of trading book and banking book positions caused by changes in foreign exchange rates. Foreign exchange risk arises from financial statement positions (*on-balance sheet* and *off-balance sheet*) on both the asset and liability sides. The Bank's foreign currency positions can be grouped into two activities: the trading book, which is conducted to obtain short-term foreign currency transaction profits, and the banking book, which is conducted to control the overall Asset and Liability management positions, including liquidity.

38. MANAJEMEN RISIKO (Lanjutan)

Risiko pasar (Lanjutan)

b. Risiko nilai tukar (Lanjutan)

Kegiatan transaksi yang mengandung paparan risiko nilai tukar saat ini masih relatif memiliki kompleksitas yang rendah, yaitu berupa transaksi *spot* dan *FX forward*. Dalam rangka pemantauan dan pengendalian paparan risiko nilai tukar, Bank memperhatikan Posisi Devisa Neto yang harus dijaga sesuai ketentuan internal dan regulator. Bank juga melakukan perhitungan CVA (*Credit Valuation Adjustment*) penyesuaian nilai wajar transaksi derivatif untuk memperhitungkan risiko gagal bayar pihak lawan. Nilai CVA dapat berfluktuasi akibat perubahan kondisi pasar valuta asing. Guna melaksanakan pengendalian atas aktifitas ini, Bank telah membentuk *limit* untuk dapat mengendalikan paparan risiko nilai tukar seperti *open position limit* (OPL), *limit kerugian* (*cut loss*) dan *limit transaksi harian*.

Pengelolaan risiko nilai tukar dilakukan dengan memantau perkembangan Posisi Devisa Neto ("PDN") bank (Catatan 44g).

Risiko likuiditas

Risiko likuiditas adalah risiko akibat ketidakmampuan Bank untuk memenuhi kewajiban yang jatuh tempo dari sumber pendanaan arus kas dan/atau dari aset likuid berkualitas tinggi yang dapat diagunkan, tanpa mengganggu aktivitas dan kondisi keuangan Bank.

Posisi dana pihak ketiga, likuiditas aset, liabilitas kepada *counterparties* dan komitmen kredit kepada debitur merupakan sumber potensi risiko likuiditas bagi Bank. Ketidakmampuan untuk menghimpun dana dengan biaya wajar akan berdampak kepada profitabilitas Bank. Bank mengelola risiko likuiditas agar dapat memenuhi setiap kewajiban finansial yang sudah diperjanjikan secara tepat waktu, dan agar senantiasa dapat memelihara tingkat likuiditas yang memadai dan optimal.

38. RISK MANAGEMENT (Continued)

Market risk (Continued)

b. Foreign exchange risk (continued)

Transaction activities containing exposure to exchange rate risk currently still have relatively low complexity, namely spot and FX forward transactions. To monitor and control exposure to exchange rate risk, the Bank pays attention to the Net Open Position, which must be maintained in accordance with internal and regulatory regulations. The Bank also calculates the CVA (*Credit Valuation Adjustment*), an adjustment to the fair value of derivative transactions to account for the risk of counterparty default. The CVA value can fluctuate due to changes in foreign exchange market conditions. To implement control over these activities, the Bank has established limits to control exposure to exchange rate risk, such as open position limits (OPL), loss limits (*cut loss*), and daily transaction limits.

Exchange rate risk is managed by monitoring the Bank's Net Open Position ("PDN") (Note 44g).

Liquidity risk

Liquidity risk is the risk which is caused by the Bank's inability to fulfil its obligations when they become due from cash flow financing sources and/or high quality liquid assets that can be pledged without affecting the Bank's activities and financial condition.

The amounts of third party funds, asset liquidity, liabilities to counterparties and loan commitments to debtors are potential liquidity risk sources for the Bank. The inability to raise funds with tolerable cost will impact the Bank's profitability. The Bank manages its liquidity risk to fulfill each agreed financial liability on a timely basis and to maintain an adequate and optimum liquidity position at any time.

38. MANAJEMEN RISIKO (Lanjutan)

Risiko likuiditas (Lanjutan)

Bank melakukan pengukuran risiko likuiditas menggunakan *Liquidity Risk Model* dengan metodologi *maturity profile gap*. Pengelolaan kondisi likuiditas harian dilakukan oleh *Treasury Unit* dan perubahan eksternal serta makro ekonomi yang terjadi dengan segera diinformasikan dan diambil strategi serta kebijakan internal antara lain melalui mekanisme *Asset and Liabilities Committee* (ALCO).

Pelaporan jatuh tempo aset dan liabilitas keuangan Bank menurut kelompok jatuh temponya berdasarkan periode yang tersisa adalah sebagai berikut:

38. RISK MANAGEMENT (Continued)

Liquidity risk (Continued)

The Bank measures liquidity risk using the *Liquidity Risk Model* based on *maturity profile gap methodology*. Daily liquidity condition management is performed by the *Treasury Unit* and external and macro economic changes are immediately informed, and strategy and internal policies are undertaken, among others, through the *Asset and Liabilities Committee* (ALCO) mechanism.

The maturity of the Bank's financial assets and liabilities based on the remaining period are as follows:

Risiko operasional

Risiko operasional adalah risiko akibat ketidakcukupan dan/atau tidak berfungsinya proses internal, kesalahan manusia, kegagalan sistem, dan/atau adanya kejadian-kejadian eksternal yang mempengaruhi operasional Bank.

Di dalam mengelola risiko operasional, *risk owner* bertanggung jawab atas risiko yang terjadi pada unitnya masing-masing. Tata cara pengendalian risiko tersebut diatur dalam kebijakan Bank secara menyeluruh dan prosedur operasional pada setiap unit.

Metode dan kebijakan dalam pengendalian risiko operasional dilaksanakan diantaranya melalui:

- Pengkajian terhadap kebijakan, pedoman, dan prosedur pengendalian internal sesuai dengan kondisi perkembangan dunia perbankan, kebijakan otoritas, dan limitasi operasional yang telah ditetapkan;
- Pengkajian dan penerapan *Disaster Recovery Plan* sebagai langkah antisipasi atas kejadian internal maupun eksternal yang berpotensi menimbulkan kerugian;
- Tindakan koreksi terhadap hasil temuan audit;
- Pengkajian dari penerapan *business contingency plan* dalam pengelolaan dan pengendalian aktivitas Bank.

38. RISK MANAGEMENT (Continued)

Liquidity risk (Continued)

The table below shows the remaining contractual maturities of the Bank's financial liabilities based on undiscounted cash flows.

Operational risk

Operational risk is the risk resulting from inadequate and/or failure of internal processes, people, systems, and/or from external events which affect the Bank's operations.

In managing operational risk, the risk owner is responsible for the risk that occurs in the respective units. Risk management is regulated in the Bank's overall policies and operational procedures in each unit.

The methods and policies involving operational risk management are performed, among others, through the following:

- Evaluation of internal control policies, guidance, and procedures in accordance with the banking industry development, authority policies, and pre-determined operational limits;
- Evaluation and implementation of a *Disaster Recovery Plan* as the anticipated procedures to be applied during internal and external potential loss events;
- Implementing corrective actions based on audit results;
- Reviewing the implementation of the business contingency plan in the management and control of the Bank's activities.

(i) Kredit yang diberikan

Portofolio kredit Bank secara umum terdiri dari kredit yang diberikan dengan suku bunga mengambang dan kredit yang diberikan jangka pendek dengan suku bunga tetap. Kredit yang diberikan dinyatakan berdasarkan harga perolehan diamortisasi. Nilai wajar dari kredit yang diberikan menunjukkan nilai diskonto dari perkiraan arus kas masa depan yang diharapkan akan diterima oleh Bank dengan menggunakan suku bunga pasar saat ini.

Nilai tercatat dari kredit yang diberikan dengan suku bunga mengambang dan nilai tercatat atas kredit jangka pendek dengan suku bunga tetap adalah perkiraan yang layak atas nilai wajar.

(ii) Liabilitas segera, simpanan dari nasabah dan simpanan dari bank lain dan liabilitas lain-lain

Estimasi nilai wajar liabilitas segera dan simpanan tanpa jatuh tempo adalah sebesar jumlah terutang ketika liabilitas tersebut dibayarkan.

40. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES
(Continued)

The tables below show the financial instruments recognized at fair value based on the hierarchy used by the Bank in determining and disclosing the fair value of financial instruments (Continued):

(i) Loans

Generally, the Bank's portfolio consists of loans with floating interest rate and short-term loans with fixed interest rate. Loans are stated at amortized cost. The estimated fair value of loans represents the discounted amount of estimated future cash flows expected to be received by the Bank using the current market rates.

The carrying amount of floating rate loans and short-term fixed rate loans are the reasonable approximation of their fair values.

(ii) Liabilities due immediately, deposits from customers and deposits from other banks and other liabilities

The estimated fair value of liabilities due immediately and deposits with no specified maturity represent payable amounts when the debt is paid.

40. NILAI WAJAR ASET DAN LIABILITAS KEUANGAN
(Lanjutan)

- (ii) Liabilitas segera, simpanan dari nasabah dan simpanan dari bank lain dan liabilitas lain-lain (Lanjutan)

Estimasi nilai wajar terhadap simpanan dengan tingkat suku bunga tetap dan liabilitas lain-lain yang tidak memiliki kuotasi di pasar aktif ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga liabilitas baru dengan sisa jatuh tempo yang serupa. Karena sisa jatuh tempo di bawah satu tahun sehingga nilai tercatat dari simpanan dengan tingkat suku bunga tetap dan liabilitas lain-lain adalah perkiraan yang layak atas nilai wajar. Adalah tidak praktis untuk memperkirakan nilai wajar dari setoran jaminan dikarenakan tidak memiliki jangka waktu pembayaran yang tetap meskipun tidak diharapkan dapat diselesaikan dalam waktu 12 bulan setelah tanggal pelaporan, sehingga nilai tercatat dari liabilitas lain-lain adalah perkiraan yang layak atas nilai wajar.

41. LIABILITAS IMBALAN KERJA

Liabilitas atas imbalan kerja jangka panjang lainnya meliputi uang jasa, uang pisah dan pesangon untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024 sesuai dengan Peraturan Pemerintah No. 35/2021.

Penilaian aktuarial atas imbalan kerja jangka panjang lainnya untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024 dilakukan oleh konsultan aktuaria terdaftar, Steven & Mourits dengan menggunakan metode "Projected Unit Credit" sebagaimana yang tercantum dalam laporan masing-masing pada tanggal 4 Februari 2026 dan 3 Januari 2025.

Karyawan tetap yang memenuhi syarat untuk diikutsertakan dalam program pensiun iuran pasti, memiliki hak atas program pensiun iuran pasti atau manfaat yang disediakan sesuai dengan Peraturan Pemerintah Republik Indonesia No. 35 Tahun 2021, mana yang lebih tinggi.

Pada bulan Oktober 2024, Bank menyelenggarakan Program Pengelolaan Dana Kompensasi Pascakerja yang dikelola dan diadministrasikan oleh Dana Pensiun Lembaga Keuangan Bank Rakyat Indonesia.

Pada bulan Desember 2024, Bank menyelenggarakan Asuransi Dana Pesangon yang dikelola dan diadministrasikan oleh PT Equity Life Indonesia.

40. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES
(Continued)

- (ii) Liabilities due immediately, deposits from customers and deposits from other banks and other liabilities (Continued)

The estimated fair value of deposits with fixed interest rates and other liabilities that do not have a quotation price in an active market is determined based on discounted cash flows using the interest rates of new debt with similar maturities. Since the maturity is below one year, the carrying amount of fixed rate deposits and other liabilities are the reasonable approximation of their fair values. There is no practice to estimate the fair value of security deposits due to they have no certain settlement schedule, although is not expected to be settled within 12 months after the reporting date, the carrying amount of other liabilities are reasonable estimates of fair value.

41. EMPLOYEE BENEFIT LIABILITIES

The liability for other long-term employee benefits consisted of service payments, severance and termination benefits for the years ended 31 December 2025 and 2024 based on Government Regulation No. 35/2021.

The actuarial valuation of other long-term employee benefits for the years ended 31 December 2025 and 2024, was performed by registered actuarial consulting firm, Steven & Mourits using the "Projected Unit Credit" method as stated in its report dated 4 February 2026 and 3 January 2025, respectively.

Qualified permanent employees, who are entitled for defined contribution retirement program benefit, are entitled to benefits under defined contribution plan or the benefits provided for under the Government Regulation No. 35/2021, whichever is higher.

In October 2024, the Bank has a Post-Employment Compensation Fund Management Program, which is managed and administrated by Dana Pensiun Lembaga Keuangan Bank Rakyat Indonesia.

In December 2024, the Bank organized Severance Fund which is managed and administered by PT Equity Life Indonesia.

Risiko kepatuhan

Risiko kepatuhan adalah risiko yang terjadi karena Bank tidak mematuhi dan/atau tidak melaksanakan ketentuan internal dan peraturan perundang-undangan. Pada prakteknya risiko kepatuhan melekat pada risiko Bank yang terkait pada peraturan perundang-undangan, ketentuan kehati-hatian, dan ketentuan lain yang berlaku, seperti:

- Risiko kredit terkait dengan ketentuan Kewajiban Penyediaan Modal Minimum ("KPMM"), Kualitas Aset, Pembentukan Cadangan Kerugian Penurunan Nilai (CKPN), dan Batas Maksimum Pemberian Kredit (BMPK);
- Risiko pasar terkait dengan ketentuan Posisi Devisa Neto ("PDN");
- Risiko lain yang terkait dengan ketentuan eksternal dan internal.

Pengelolaan risiko kepatuhan Bank dilakukan dengan melakukan penilaian tingkat kepatuhan Bank terhadap peraturan otoritas dan perundang-undangan yang berlaku, mengefektifkan peran Satuan Kerja Kepatuhan dan menetapkan kebijakan dan pedoman kerja kepatuhan sebagai acuan dalam melaksanakan manajemen risiko kepatuhan serta menyampaikan informasi peraturan eksternal maupun internal melalui web kepatuhan yang dapat diakses oleh setiap karyawan.

h. Manajemen risiko (Lanjutan)

Risiko strategik

Risiko strategik adalah risiko akibat ketidaktepatan dalam pengambilan dan/atau pelaksanaan suatu keputusan strategik serta kegagalan dalam mengantisipasi perubahan lingkungan bisnis. Identifikasi risiko strategik dilakukan secara berkala sesuai dengan pengalaman kerugian di masa lalu yang disebabkan oleh risiko strategik. Pengendalian risiko strategik dilakukan melalui pemantauan secara berkala terhadap realisasi atas rencana kerja yang sudah ditetapkan dan dilanjutkan dengan evaluasi dari faktor-faktor penyebab kegagalan dan penetapan strategi untuk mencapai rencana kerja yang ditetapkan.

i. Jaminan Pemerintah terhadap Liabilitas Pembayaran Bank Umum

Berdasarkan Undang-undang No. 24 tanggal 22 September 2004 yang berlaku efektif sejak tanggal 22 September 2005, sebagaimana diubah dengan Peraturan Pemerintah Pengganti Undang-undang Republik Indonesia No. 3 (Perpu No. 3/2008) tanggal 13 Oktober 2008, Lembaga Penjaminan Simpanan (LPS) dibentuk untuk menjamin liabilitas tertentu bank umum berdasarkan program penjaminan yang berlaku, yang besaran nilai jaminannya dapat berubah jika memenuhi kriteria tertentu yang berlaku.

Berdasarkan Peraturan Pemerintah Republik Indonesia No. 66 tahun 2008 tanggal 13 Oktober 2008 mengenai Besarnya Nilai Simpanan yang Dijamin Lembaga Penjaminan Simpanan, nilai simpanan yang dijamin untuk setiap nasabah pada satu bank yang semula berdasarkan Undang-undang No. 24 Tahun 2004 ditetapkan maksimum Rp100.000 diubah menjadi maksimum Rp2.000.000.

Pada tanggal 31 Desember 2025 dan 2024, simpanan nasabah dijamin hanya jika suku bunganya sama dengan atau di bawah masing-masing sebesar 3,50% dan 4,25%.

Pada tanggal 13 Januari 2009, Pemerintah Republik Indonesia telah mengesahkan Perpu No. 3/2008 menjadi Undang-undang.

Beban premi penjaminan Pemerintah yang dibayar oleh Bank untuk tahun yang berakhir pada tanggal 31 Desember 2025 dan 2024, masing-masing sebesar Rp36.652.350 dan Rp29.683.616 (Catatan 30).

h. Risk management (Continued)

Strategic risk

Strategic risk is the risk due to inaccurate decision making and/or implementation of strategic decisions and failure in anticipating business environment changes. Strategic risk identification is performed periodically based on knowledge of historical losses due to strategic risk. Strategic risk control is performed through periodical monitoring on the realization of the budget, followed by the investigation of the factors that cause failures.

i. Government Guarantee of Obligations of Private Banks

Based on Law No. 24 dated 22 September 2004, which was effective on 22 September 2005 and subsequently amended by the Government Regulation-in-Lieu-of Law No. 3 (Perpu No. 3/2008) dated 13 October 2008, the Indonesian Deposit Insurance Corporation (LPS) was formed to guarantee certain liabilities of commercial banks under the applicable guarantee program, where the amount of such guarantee can be changed if certain valid criteria are fulfilled.

Based on Government Regulation No. 66 year 2008 dated 13 October 2008 regarding the Amount of Deposits Guaranteed by the Deposit Insurance Corporation, the guaranteed deposit amount in a bank which previously according to Law No. 24 Year 2004 amounted to a maximum of Rp100,000 was amended to a maximum amount of Rp2,000,000.

As of 31 December 2025 and 2024, customer deposits are covered only if the rate of interest is equal to or below 3.50% and 4.25%, respectively.

On 13 January 2009, the Government of the Republic of Indonesia has stipulated Perpu No. 3/2008 to become a law.

The Government guarantee premiums paid by the Bank for the years ended 31 December 2025 and 2024 amounted to Rp36,652,350 and Rp29,683,616, respectively (Note 30).

Opini

Kami telah mengaudit laporan keuangan PT Bank Maspion Indonesia Tbk ("Bank"), yang terdiri dari laporan posisi keuangan tanggal 31 Desember 2025, serta laporan laba rugi dan penghasilan komprehensif lain, laporan perubahan ekuitas, dan laporan arus kas untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan Bank tanggal 31 Desember 2025, serta kinerja keuangan dan arus kasnya untuk tahun yang berakhir pada tanggal tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan pada laporan kami. Kami independen terhadap Bank berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Opinion

We have audited the accompanying financial statements of PT Bank Maspion Indonesia Tbk (the "Bank"), which is comprised of the statements of financial position as of 31 December 2025, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Bank as of 31 December 2025, and their financial performance and cash flows for year then ended in accordance with Indonesian Financial Accounting Standards.

Basis of opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under these standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements paragraph in our report. We are independent to the Bank based on the relevant ethical requirements in our audit of the financial statements in Indonesia, and we have fulfilled other ethical responsibilities under these provisions. We believe that the audit evidence we have obtained are sufficient and appropriate to provide a basis for our audit opinion.

Hal audit utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling aspek signifikan dalam audit kami atas laporan keuangan periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Hal audit utama yang teridentifikasi dalam audit kami diuraikan sebagai berikut:

Kerugian kredit ekspektasian (“KKE”) - cadangan kerugian penurunan nilai atas kredit yang diberikan

Kami berfokus pada akun ini dikarenakan tingkat kerumitan yang terjadi dalam proses estimasi, dan pertimbangan signifikan yang dibuat oleh manajemen dalam memastikan penyisihan cadangan kerugian penurunan nilai atas kredit yang diberikan. Perhitungan atas penurunan nilai merupakan justifikasi yang diterapkan oleh setiap Bank.

Cadangan penyisihan kerugian penurunan nilai atas kredit yang diberikan yang dinilai secara individual mengalami penurunan nilai ditentukan dengan mengacu pada estimasi penerimaan kas masa depan.

Untuk rekening kredit yang diberikan lainnya yang tidak mengalami penurunan nilai kredit secara individual, termasuk dalam kelompok kredit yang diberikan dengan karakteristik risiko yang sama dan dinilai secara kolektif berdasarkan portofolio menggunakan model internal yang dikembangkan oleh Bank.

Seperti yang dijelaskan dalam Catatan 13, Kredit yang diberikan, atas laporan keuangan pada tanggal 31 Desember 2025, cadangan kerugian penurunan nilai atas kredit yang diberikan Bank adalah sebesar Rp322.830.303 ribu.

Cadangan kerugian penurunan nilai atas pinjaman yang diberikan ditentukan oleh Bank berdasarkan kerangka KKE sesuai dengan PSAK 109: “Instrumen Keuangan”, seperti yang dijelaskan dalam Catatan 21, Identifikasi dan pengukuran kerugian penurunan nilai.

Elemen kunci dalam cadangan kerugian penurunan nilai atas pinjaman yang diberikan meliputi:

- Identifikasi kredit yang diberikan yang mengalami penurunan nilai kredit, dan estimasi arus kas masa depan (termasuk nilai realisasi yang diharapkan dari agunan yang dimiliki) yang mendukung perhitungan provisi yang dinilai secara individual; dan

Key audit matters

Key audit matters are those which, in our professional judgment, are the most significant aspects in our audit of the financial statements for the current period. These matters are presented in the context of our audit of the financial statements as a whole, and in formulating our opinion on the related financial statements, we do not express a separate opinion on key audit matters.

The key audit matters identified in our audit are outlined as follows:

Expected credit lossess (“ECL”) - allowance for impairment lossess of loans

We focused on this account because of the complexity involved in the estimation process, and the significant judgment made by management in ensuring the allowance for impairment of loans was granted. The calculation for impairment is the justification applied by each Bank.

Allowance for impairment losses on loans that are individually assessed for impairment is determined by referring to the estimated future cash flows.

For other credit accounts that are not impaired individually, they are included in the group of loans with the same risk characteristics and are assessed collectively based on a portfolio using an internal model developed by the Bank.

As described in Note 13, Loans, based on financial statements as of date 31 December 2025, the allowance for impairment losses on loans provided of the Bank was Rp322,830,303 thousand.

The allowance for impairment losses of loans was determined by Bank based on ECL framework under SFAS 109: “Financial Instruments”, as described in Note 21, Identification and measurement of impairment losses.

Key elements in allowances of loans impairment losses includes:

- *Identification of loans that are impaired, and the estimated future cash flows (including the expected realizable value of the collateral held) that support the calculation of individually assessed provisions; and*

Hal audit utama (Lanjutan)Kerugian kredit ekspektasian (“KKE”) - cadangan kerugian penurunan nilai atas kredit yang diberikan (Lanjutan)

- Penerapan model penurunan nilai yang sesuai untuk akun yang dinilai secara kolektif. Ini termasuk penggunaan asumsi kunci dalam model penurunan nilai (yaitu, staging of accounts, peningkatan risiko kredit yang signifikan, informasi forward-looking), *exposure at default* (EAD), *probability of default* (PD) dan *loss given default* (LGD).

Dalam menentukan KKE, Bank mengadopsi model yang kompleks, menggunakan sejumlah parameter, mengandalkan input data internal dan eksternal, dan menerapkan pertimbangan manajemen yang signifikan dalam menentukan asumsi dan estimasi. Selain itu, kredit yang diberikan dan cadangan kerugian penurunan nilai jumlahnya signifikan terhadap laporan keuangan. Oleh karena itu, kami mengidentifikasi ini sebagai hal audit utama.

Bagaimana audit menangani hal audit utama

Kerugian penurunan nilai mencakup komponen kuantitatif dan kualitatif. Dalam menghitung pencadangan kerugian kredit yang diberikan, Bank menerapkan model kerugian kredit ekspektasian (KKE) yang ditentukan oleh Pernyataan Standar Akuntansi Keuangan 109 (PSAK 109), yang merupakan proses kompleks yang memperhitungkan informasi ke depan yang mencerminkan pandangan Bank tentang potensi masa depan peristiwa ekonomi.

Kami menilai desain dan menguji efektivitas operasi dari kontrol utama atas pencadangan kerugian kredit yang diberikan. Kontrol utama ini termasuk:

- Penilaian kualitas kredit yang diberikan terkait dengan sistem penilaian risiko kredit internal yang telah ditetapkan;
- Persetujuan hasil KKE, termasuk penyesuaian pasca model/overlay manajemen yang diterapkan; dan
- Proses peninjauan dan persetujuan untuk hasil model penurunan nilai; dan
- Proses reviu dan persetujuan atas penetapan tingkat risiko kredit, reviu kinerja kredit dan perhitungan cadangan wajib untuk pinjaman yang dinilai sebagai kredit yang mengalami penurunan nilai.

Key audit matters (Continued)Expected credit lossess (“ECL”) - allowance for impairment lossess of loans (Continued)

- *Application of an appropriate impairment model for collectively valued accounts. This includes the use of key assumptions in the impairment model (ie, staging of accounts, significant increase in credit risk, forward-looking information), exposure at default (EAD), probability of default (PD) and loss given default (LGD).*

In determining the ECL, the Bank adopted complex models, employed numerous parameters, relied on internal and external data inputs, and applied significant management judgement in determining assumptions and estimates. In addition, the loans and the allowance for impairment losses are significant to the financial statements. In view of these factors, we identified this as a key audit matter.

How audit handles key audit matters

Impairment losses include both quantitative and qualitative components. In calculating the provision for credit losses, the Bank applies the expected credit loss model (ECL) as defined by Statement of Financial Accounting Standards 109 (PSAK 109), which is a complex process that takes into account forward-looking information that reflects the Bank's view of potential future economic events.

We assess the design and test the operating effectiveness of the primary controls over the provision of credit losses. These main controls include:

- *Loans quality assessment provided in relation to the established internal credit risk assessment system;*
- *Approval of the ECL results, including post model adjustments/management overlay applied; and*
- *Review and approval process for the results of the impairment model; and*
- *Review and approval process for determining credit risk levels, reviewing credit performance and calculating mandatory reserves for loans assessed as impaired credit.*

Hal audit utama (Lanjutan)

Pekerjaan kami atas penurunan nilai pinjaman termasuk:

- Penilaian metodologi yang diterapkan oleh Bank dalam pengembangan model KKE dibandingkan dengan persyaratan PSAK 109;
- Pengujian asumsi kunci dalam model KKE seperti PD, LGD, dan EAD yang dibuat berdasarkan data historis;
- Penilaian kelayakan definisi Bank tentang peningkatan signifikan dalam risiko kredit dan staging dari account melalui analisis tren historis dan perilaku kredit masa lalu dari portofolio pinjaman;
- Perbandingan independen dari informasi ekonomi yang digunakan di dalam dan bobot yang diterapkan pada, skenario forward-looking dalam model KKE terhadap data ekonomi makro yang tersedia;
- Menguji akurasi dan kewajaran hasil model KKE melalui penghitungan ulang yang independen;
- Menilai asumsi utama yang digunakan dalam penyesuaian pasca model/overlay manajemen yang diterapkan untuk mengantisipasi risiko yang tidak dapat diakomodasi sepenuhnya oleh model dengan menguji data pendukung dan perhitungan.
- Untuk sampel kredit yang diberikan yang dinilai secara individual yang diidentifikasi sebagai kredit yang mengalami penurunan nilai, memeriksa dokumen pendukung yang relevan seperti informasi keuangan terbaru dari peminjam atau penilaian agunan yang digunakan sebagai dasar dalam memperkirakan jumlah yang dapat diperoleh kembali dan mengukur penyisihan kerugian kredit yang diberikan; dan
- Perhitungan kembali penyisihan kerugian kredit yang diberikan secara kolektif untuk rekening dan portofolio terpilih pada tanggal pelaporan menggunakan model KKE yang diadopsi oleh Bank.

Key audit matters (Continued)

Our works on allowance of loans impairment losses includes:

- *Assessment of the methodology applied by the Bank in developing the ECL model compared to the requirements of PSAK 109;*
- *Testing key assumptions in ECL models such as PD, LGD, and EAD based on historical data;*
- *Assessment of the feasibility of the Bank's definition of a significant increase in credit risk and staging of the account through analysis of historical trends and past credit behavior of the loan's portfolio;*
- *Independent comparison of the economic information used in and the weights applied to the forward-looking scenarios in the ECL model against available macroeconomic data;*
- *Test the accuracy and reasonableness of the results of the ECL model through independent recalculation;*
- *Assessing the key assumptions used in the post model adjustment/management overlay which were applied to respond to risks not fully accommodated by the models by testing the supporting data and calculation.*
- *For a sample of individually assessed loans that are identified as impaired credit, examine relevant supporting documents such as recent financial information from borrowers or collateral valuations used as the basis for estimating recoverable amounts and measuring allowance for credit losses granted; and*
- *Recalculation of the collective allowance for credit losses for selected accounts and portfolios at the reporting date using the ECL model adopted by the Bank.*

Management is responsible for the other information. The other information comprises the information included in annual report, does not include the financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Responsibilities of management and those charged with governance's of financial statements

The Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for internal controls deemed necessary by the Management to enable the preparation of financial statements that are free from material misstatement, whether caused by fraud or error.

In preparing of the financial statements, the Management are responsible for assessing the Bank's ability to maintain its business continuity, disclosing, in accordance with the conditions, matters relating to business continuity, and using the going concern accounting basis, unless the Management has the intention to liquidate the Bank or terminate the business. operation, or have no realistic alternative but to carry it out.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Tanggung jawab auditor terhadap Audit atas laporan keuangan

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan mempengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Bank.

Auditors' responsibility for the audit of financial statements

Our objective is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Adequate assurance is a high level of assurance, but is not a guarantee that an audit performed in accordance with the Standards of Auditing will always detect material misstatements when they exist. Misstatements may be due to fraud or error and are considered material if, individually or in the aggregate, it can be reasonably expected to influence the economic decisions taken by users based on the financial statements.

As part of an audit based on the Auditing Standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures that are responsive to these risks, and obtain sufficient appropriate audit evidence to provide a basis for our opinion. The risk of not detecting a material misstatement due to fraud is higher than that caused by error, as fraud may involve collusion, forgery, omission, misstatement, or neglect of internal control.*

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.

Tanggung jawab auditor terhadap Audit atas laporan keuangan (Lanjutan)

- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh Manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Bank untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Bank tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh Manajemen.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.

Kami mengkomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengkomunikasikan seluruh hubungan, serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengamanan terkait.

Auditors' responsibility for the audit of financial statements (Continued)

- *Conclude the appropriate use of the going concern accounting basis by the Management and, based on the audit evidence obtained, whether there is a material uncertainty related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. When we conclude that there is a material uncertainty, we are required to draw attention in our auditors' report to the relevant disclosures in the financial statements or, if such disclosures are inadequate, to determine whether it is necessary to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank to be unable to continue as a going concern.*
- *Evaluate the appropriateness of the accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.*
- *Evaluate the overall presentation, structure and content of the financial statements, including their disclosures, and whether the financial statements reflect the underlying transactions and events in a manner that achieves fair presentation.*

We communicate to those charged with governance regarding, such as, the planned scope and timing of the audit, as well as significant audit findings, including any significant deficiencies in internal control identified by us during the audit.

We also provide a statement to those charged with governance that we have complied with the relevant ethical requirements regarding independence, and communicate all relationships, and other matters that we reasonably deem to affect our independence, and where relevant, related safeguards.

Tanggung jawab auditor terhadap Audit atas laporan keuangan (Lanjutan)

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami, kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengkomunikasikan hal tersebut akan diekspektasikan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

Auditors' responsibility for the audit of financial statements (Continued)

In terms of matters communication to those charged with governance, we determine those matters which are most significant in the audit of the current period's financial statements and therefore constitute the principal audit matters. We describe key audit matters in our auditors' report, unless law or regulation prohibits public disclosure of the matter or when, in very rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of communicating it would be reasonably expected to outweigh the public interest benefit of the communication.
